NEW ADVERTISEMENTS

SECOND PAGE.

Notice.....Central Fire Ins. Co.
Public Notice—Auction of the Government Stallions

LOCAL NEWS.

THE SALVATION ARMY.—On Tuesday next the soldiers, accompanied by their band will hold a revival meeting at the mouth of the Tay in the Lodge hall. Lieuts. Heisler, and Jost will be the principal speakers.

THE AULD KIRK.—Prof. Duff was well received in St. John on the occasion of his recent lecture in that city. Dr. McRae will pay a return visit here on Monday, and will lecture in the auld kirk on "Scottish humor."

A SUGGESTION.—It has been suggested that trap be hauled from Currey's mountain in order that the stone may be used for road purposes, and that a recommendation to that effect will be urged on the city council.

AN ICE BOAT.—Visitors crossing the river by the bridge on Tuesday were surprised to see an ice boat slowly sailing along in the direction of Nashwaaksis. The boat was built and manned by four men of the Infantry school.

UNIVERSITY CONCERT.—A concert will be given by the students of the University, assisted by local talent, at an early date next month. A capital program is being organized, and the proceeds will be in aid of the piano fund.

THE LOST RECOVERED.—A young lady, of this city recently lost an elegant watch and chain. The trinkets were found by Andrew McConaghy and delivered into the hands of serjeant Vandine, who promptly returned them to the fair owner.

FROZEN UP.—The severe frost of Thursday evening caused the pipes to burst in Jewett's mill at the gulley, and the mill was obliged to shut down for two days. This is to be regretted as the proprietor has many orders ahead, and business is rushing.

AROUND THE ISLANDS.—A visitor from Keswick reported on Tuesday that the ice was all broken up in the vicinity of the islands, and that everything betokened an early season for a rich grass crop. It has since become dangerous for teams crossing the river.

VANDALISM.—Several of the city schools have recently been broken into by persons unknown and damage to a considerable extent done to property. The trustees have placed the matter in the hands of the police, and a sharp look out will be kept on the schools in future.

THE BATTLE FOR HOME.—This popular lecture delivered on Sunday last at the city hall by John A. Nicholls, was well attended. The Rev. Fred. C. Hartley presided, and judge Steadman was present on the platform. The lecture was held under the auspices of the W. C. T. U.

LOST AND FOUND.—A lady residing on Brunswick street lost a handsome diamond ring through a crevice in the chimney flue, a few days ago. It was recovered after a considerable amount of manoeuvering among the ashes and soot, and now the lady is once more happy.

SKATING EVENTS.—On Tuesday night Arthur M. Gibson and Fred. Stafford of Marysville competed in a skating match at the rink for the championship of Marysville. Gibson won easily and took the gold medal. There was a large attendance of spectators from this city and vicinity.

FOR SCHOLARS AND TEACHERS.—School teachers and scholars can for a single fare travel over the Atlantic division of the C. P. R. up to the 27th inst., good to return on the 20th of April. On the 26th and and 27th inst., the same terms are offered to the public, good to return on the 31st. inst.

THE CENSUS.—The county commissioners have received their final instructions regarding the taking of the census in this city and vicinity. The work of taking the census will begin on the 6th April next, and will probably take six weeks to complete. Geo. Hatt, jr. is the census commissioner for this county.

HAULING STONE.—John W. Little, of Harvey Station is hauling stone from his farm, and has already forwarded six car loads to St. John to be used on the dock improvements contemplated in that city. Mr. Little has quite a number of men at work, and his contract will take him some time to finish.

ST. MARY'S PARISH CHURCH.—The order of the services at the St. Mary's episcopal churches to-morrow (Sunday) will be: Morning service at 11, a. m., Trinity church; 3, p. m., at Marysville; and 7 p. m., at St. Mary's parish church. At the evening service special lenten music will be rendered by the choir.

THE FIRST OF THE SEASON.—W. G. Dykeman of Queensbury brought the first maple sugar of the season into this city on Monday. Several have doubted its being the genuine article, but it was made at the operators own farm this season. Mr. Dykeman has 2000 trees to tap, and trades regularly with this city, St. John, and St. Stephen.

A PETITE COMEDIENNE.—Little Gertrude Yerxa of this city in her minerature impersonations given at the children's concert in the city hall, has proved herself to be uneveritable petite comedienne. Vera Miller followed closely in her footsteps but the palm must be accorded to Gertrude. The entertainment was an unqualified success.

CHOIR MEETING.—At a meeting of the St. Marys episcopal choir at the residence of Winslow Tilley on Thursday evening it was unanimously carried that a concert be given in the Gibson hall during Easter week. A program has been arranged and a number of local amatures have volunteered their services. The proceeds are to be devoted to the women's aid association.

FOR SOCIAL INTERCOURSE.—The ladies of the Baptist church at Gibson have a very pleasant way of managing a social. On Tuesday evening a happy gathering of the young of both sexes took place, when a very pleasant time was spent in mutual intercourse. A musical program was provided, and refreshments were passed around, and the result was a pleasantly managed affair.

WINTER APPLES.—Charles McGibbon of Douglas was in the city on Wednesday with some unusually fine samples of winter apples, grown on his farm last season. They were pronounced to be equal to any of the products of the upper provinces by a well known professor from the experimental farm, who thinks there is a good future for New Brunswick in this important industry.

A BARRACK YARD SCENE.—On Tuesday afternoon the bear at the Infantry school got loose and created some little excitement with the soldiers. One man was knocked down, another grappled, and a third narrowly escaped a severe hugging. After a series of manoeuvres the bear was lassoed, his collar placed in position, and his bearship led back to his den. It took quite a crowd to overcome him.

ACCIDENT AT CROCK'S POINT.—Early on Friday morning as William Sloat of Crocks point was driving across the river with a load of hay, the team diverged a little from the track, and as a consequence the team and vehicle fell into the water. With great difficulty the animals were rescued, and were quite exhausted when taken from the river. Half of the hay was spoilt, and the remainder was saved by pitching the top part of the hay into another sloven which was hitched alongside by some friends. It is dangerous crossing the river at this point.

FARMERS IN SESSION.

The Provincial Association Hold Their Annual Meeting—Business Done.

The fifteenth annual session of the provincial farmers' association was held in the council chamber on Tuesday, Julius L. Inches, president, in the chair.

Business began with the reading of papers by W. W. Hubbard, Burton, on methods as applied to farm work; Thomas A. Peters, Hampton, on Silos and Ensilage; Dr. Steeves, St. John, on the Silo. These were interesting, practical papers and called forth a lively discussion.

A motion read by Howard Truman, Sackville, was to the effect that the meeting accept the proposal of the government to import sheep into the province, the association specially recommending the Cotswold, Leicester, and Shropshire breeds. After an interesting discussion by Messrs Trueman, J. H. Reed, W. J. Owens, Hubbard, Lugrin, and Peters, the debate was adjourned until the next day. On Wednesday the resolution was unanimously passed. A letter from G. E. Baxter referring to the government grant in aid of farming associations was read and placed on file.

On motion the meeting resolved themselves into an nominating committee as a whole, and Dr. Steeves took the chair pro tem. The following officers were proposed and duly elected:

President, Howard B. Truman.
Corr. Sec., W. W. Hubbard.
Treas., J. F. Fletcher.
Sec., W. J. Owens.

VICE PRESIDENTS.

York, J. H. Reid.
Carleton, C. L. Smith.
Kings, H. M. Campbell.
Westmorland, J. R. Taylor.
Victoria, D. Currie.
Sunbury, J. D. Wilmot.
Charlotte, J. S. Magee.
St. John, J. B. Hamm.
Albert, E. Steeves.
Kent, T. Vantorn.
Restigouche, J. Barbarie.
Queens, Peleg Smith.

At the afternoon session the lieut. governor, Sir Leonard Tilley took the chair, and in the absence of Prof. Robertson, called upon Mr. Peters to read his report upon the Quebec convention. Mr. Peters in the course of his remarks gave some interesting statistics on cheese and butter importations. He advocated the formation of creameries, and butter factories in the province. The fruit grown in New Brunswick, although not of mammoth size, compared favorably with western Ontario products. Its fineness of texture was the subject of comment at the Quebec conference.

Sir Leonard Tilley spoke of the experiments connected with beet root refineries, and the importance of the sugar industry. The saccharine matter contained in the beets grown here had been proved to be equal to the French article.

A telegram was received from Col. Blair of Napan, stating that he was unable to be present.

The conclusion of the session was taken up with a series of highly interesting papers on "Corn as a food on the farm" by Prof. Robertson of the Ottawa experimental farm.

The various ways of growing green fodder for steers was first introduced, the value of corn specially illustrated, and its life giving properties. The manure was very valuable and estimated at $28 per ton, corn ensilage cost but $1.34 per ton and steers and cows improved wonderfully upon such a diet. The constitution of silos was next touched upon and a plan of a $70 building outlined. The professor then gave results from experiments conducted at Ottawa on the various kinds of feed for steers, cows, sheep, pigs, horses etc., comparing hay with ensilage, and showing that the latter was the best and the most profitable.

An interesting discussion followed, and a vote of thanks to the lecturer brought the proceedings to a close.

St. Patrick's Day.

The anniversary of the genial saint who whisked all the snakes out of ould Oireland, was celebrated at an early hour on Tuesday morning by the I. S. C. band, who turned out in a body and serenaded col. Maunsell with some musical gems from the sod. Some of the citizens wore green favors as buttonholes during the day, and in the evening the A. O. H. gave a capital concert in St. Dunstan's hall. The tableaux representing "Kathleen Mavourneen," "After the Battle," "Ireland in Chains," "Reconciliation," and the "Last Rose of Summer," were appropriately costumed and staged, The Misses McNanly, Donahoe, A. McGinn, Sharkey, O'Brien, with Messrs. O'Brien, McGrath, J. T. Sharkey, R. Landers and others took part in the musical program.

Royal Templars.

The district council, R. T. of T., held their annual session in the temperance hall this week, when sessional reports on the work were read and discussed. There are fifteen councils in this district, and nineteen in all in the county; one new council has been organized, and one raised to the second degree. The following district officials were elected by ballot, and duly installed by grand councillor, W. T. L. Reed:

W. McFarlane, C.
W. T. L. Reed, P. C.
J. Chapman, V. C.
J. A. Thompson, Chap.
F. White, Sec. Trea.
O. Goodspeed, H.
B. Wade, Gd.

Police Intelligence.

On Thursday morning a young girl named Williams, who has been acting as if demented for some time past, caused some little excitement by entering the Catholic chapel, and damaging the property. The girl had previously been complained of, for trespassing on properties of people living on Brunswick street, but some deference had been shewn her as it was known that she had formerly been a patient in the lunatic asylum. The police were communicated with, and the magistrate decided on Friday morning to remove her to the asylum at St. John, from which she had been liberated some three months ago.

Sewerage Matters.

The thaw of last week has given rise to many complaints on the subject of the imperfect sewerage of this city. There was quite a loss of valuable property last week, the back streets were seriously flooded and the cellars full of water. A gentleman living on George street had to keep a small force of boys at work constantly bailing out water. There are several sewers which are in a complete state of rottenness, and the roadmaster has not as yet been instructed to remedy these defects. It is time something was done in the matter of this imperfect sewerage, in view of a probable freshet.

The Fredericton Market.

Trade has revived somewhat and many teams with country produce have arrived in town this week. Prices continue about the same, and rule as follows: Beef, 4 to 5 cts; mutton, 4 to 5 cts; pork, 6 to 7 cts; lamb and veal, none; sausages, 10 cts; hams, 9 to 10 cts; butter, 15 to 17 cts; eggs, per doz, 20 cts; cheese, 9 to 12 cts; lard, 13 to 15 cts; poultry, none; potatoes, $1.60 to $1.75; carrots, 80 cts to $1; turnips, 60 cts; oats, per bush, 50 cts; buckwheat, $1.75; hay, $7 to $10; straw $5; socks and mitts, 20 cts per pair. The prices of cordwood have fallen, dry fetches $3,50 per cord; and green, $2 to $2.50.

ADVANCE IN FEED.—The scarcity of oats and the fact that Ontario importations have gone up from 10 to 15 cents this week is beginning to be felt in this city. It is said that all kinds of feed are advancing proportionally and as there are but few consignments of oats in this county, the deficit will have to be met by importations of Ontario oats at a larger figure. On Friday morning oats were firm at 52 cents per bushel, last week they could be had from 45 to 50 cents.

Recent Deaths

On Sunday Elijah Estabrooks an old and respected resident of Nashwaak died at the advanced age of 75 years. Deceased was well known at Marysville and vicinity, and had many friends in this city.

John Butler, whose death at Brocton; Me., a few days ago is recorded by an exchange was a brother of Martin Butler of this city. He had for some time been a patient sufferer from heart trouble, and leaves a wife and child to mourn their loss.

Information was received in this city on Wednesday of the death at Prince William of Mrs. Mott, wife of Dr. J. E. Mott, and eldest daughter of S. C. White, of Whites' Cove, Queens county. The deceased lady who was well known in this city and at St. John was highly respected, and will be greatly missed in the circles in which she moved.

The funeral of Mary, the second daughter of James and Sarah McConaghy of this city took place on Monday last, and was attended by a large number of mourners. The Rev. Mr. Payson officiated, and much feeling was shewn at the early death of one who was loved and respected by a wide circle of relatives and friends. The deceased was interred at Acton, the Rev. J. McLean officiating at the burial.

A sad event occurred in this city on Thursday morning. Thomas Sinclair, who had for some time been employed in the gas-works here died very suddenly from congestion of the brain. W. Cathels had been paying his usual morning visit to the works, and was in the act of handing the deceased a package containing his breakfast, when Mr. Sinclair rose up, suddenly fell backwards and expired. The mournful event has cast quite a gloom over his comrades, and his sudden death is keenly felt by his friends.

On Sunday last James Adams of the firm of Adams Bros. of this city, passed to his rest, after a lingering illness from consumption. Deceased who was in his forty-first year was highly respected by all who knew him, both in a business and private capacity. The funeral on Tuesday afternoon last was one of the largest ever seen in this city, and was conducted under the auspices of the Odd fellows. The procession was headed by the I. S. C. band, then followed the Odd fellows, the hearse, the chief mourners, and a long assemblage of the principal citizens of the town. The funeral services were conducted by the Rev. Mr. Payson.

James Blaine of this city passed to his rest on Wednesday night at his residence on Charlotte street. Deceased had for some time been a patient sufferer from that lingering disease consumption, and his last moments were peaceful. He was very popular in the communities in which he lived, and was connected with the 71st battalion in which he formerly held the position of bugle major. The funeral which is to take place to-morrow (Sunday) will be attended by the 71st band, and by a firing detachment from the same regiment under the command of Capt. Pinder. The loyal Orange temperance lodges, Rossmore and Prohibition, have made arrangements to attend the funeral in regalia. Among the beautiful floral offerings is a tastefully arranged anchor, the gift of Rossmore lodge, St. Mary's.

Heraldisms.

An invitation ball took place at Springhill on Thursday evening to which some thirty couples were invited.

Albion lodge I. O. G. T. celebrate their anniversary on Thursday next by holding an apron and necktie social.

A maritime club was formed on Monday last in Montreal at the residence of the Rev. A. J. Mowatt, The three provinces are well represented.

Traffic has been resumed on the highway bridge. A team attempting to cross by the ice a few days ago broke through, and were with difficulty rescued.

York county court opened at 11 a. m. Tuesday, Judge Steadman presiding. There was no civior criminal docket, and the court adjourned sine die.

A dramatic recital under the auspices of the ladies of the Baptist church will be given in this city on April 1st when Miss Patton of St. John will deliver selections from her well known repertoire.

It is said that la grippe has made it re-appearance in this city, but the doctors say that although there is unusual sickness prevailing, a genuine case of the disorder has not as yet come under their notice.

The city council at their next meeting will consider the advisabilty of purchasing a rock crusher, for the purpose of preparing stones for road and street purposes. The crusher would be economical in the long run, as labor by hand is expensive.

VERY UNGRATEFUL.—A young woman in great distress applied some time ago to a resident on King street for help in her reduced circumstances, and told a pitiful tale of desertion by her husband. Moved by her story the husband, with the acquiescence of his wife, took the sufferer in. She was nursed during her confinement, and her child was provided for, and taken into an orphanage. A few days ago her benefactress became sick, and was confined to her room, but instead of helping the hand that had fed her, the young woman disappeared from the house at a late hour on Tuesday night, just as her services were most sorely needed.

AN INTERESTING LECTURE.—John A. Nicholls lectured on Monday evening in the City hall under the auspices of the W. C. T. U. The views of the great metropolis, illustrated in a genial manner by the lecturer's taking word pictures, were frequently applauded, and the audience went home well satisfied with the intellectual treat provided for them. On Tuesday an explosion of the gas-bag used in supplying the lime-light caused a disappointment to the large audience assembled to hear the lecture on Ireland and Scotland. As Mr. Nicholls was unprovided with a second bag the lecture had to be abandoned.

A LIVELY TIME.—A well known constable of this city had a lively time of it a few days ago. Being informed that a certain fistic encounter was in full swing in one of the allies on Queen street, the constable hurried to the scene only to find that the birds had flown. A little later he was told that the fight had been resumed at a certain place, and again he was disappointed. The third time the constable made a hurried walk, but the culprits by escaping by a back entrance affected their exit. The constable makes no secret of the misadventure but regards it in the light of a good joke.

WHILE THE SUN SHINES.—A young farmer drove into town early on Friday morning with a fine load of hay. He had driven a distance of thirty miles, and a few minutes after his arrival had disposed of his load for $9. After receiving his money, the young man said there was "nothing like clinching a bargain while the sun shone." That young man was in great luck that morning and had made on his hay while the sun shone.

A COLD BATH.—Frank Goodine, of Kingsclear, had an unpleasant ducking in the chilly waters of the river a few days ago, in trying to reach an article which had fallen into the broken gap around one of the islands. A sudden fall and a cold bath are very unpleasant reminiscences, and Goodine would rather not undertake the experiment again.

SOLD HIS GUM.—A. Perrigo, of Stanley, has returned from Boston where he has been disposing of a large consignment of gum, gathered in York county. The article found a ready sale, about 2000 lbs. were disposed of, and the price fetched was 90 cents per lb. There is no duty to pay on the article.

STILL ANOTHER.—Geo. Beach, of Harvey Station, has been obliged to quit the small lumber business in which he has been for many years engaged in. The growing competition and the excessive freight rates are the principal reasons for his discontinuance of business.

A BARREL CHASE.

An Adventure on the Ice—an Up River Incident.

An amusing adventure befell an up river farmer a few days ago, while crossing the ice from the Keswick side with a team. The farmer had loaded his sled with a miscellaneous collection of articles, the most conspicuous being a barrel containing clothes, and in an idle moment the farmer deposited his pocket book containing a snug sum of money in the barrel, before preparing to cross the river. The ice was treacherous, and two feet of water on the track made progress slow. All of a sudden the sled gave a lurch, away went the barrel and began to roll forward to a large opening in the ice. The farmer thought of his money, dashed in pursuit, but unfortunately stepped his right foot in a crevice in the ice where he remained fast.

Meanwhile the barrel rolled slowly over into the gap, went splash into the water, and floated serenely round and round. The shouts of the farmer soon brought his friends to the rescue. Judge of their surprise when they were implored in tones of anguish to save the barrel and not to mind him. They hesitated, but a second appeal decided the case. Two of them rescued the farmer, and another of the party managed to secure the barrel. The money was found intact, much to the joy of the agriculturist, who soon explained matters. But his friends think it is too good a joke to pass unrecorded, so we give it here, omitting names and places of course.

PERSONAL.

Concerning People Known to Most Readers.

J. D. Hazen, M. P., has been on a flying visit to the city.

Philip Cox, A. M., will be the Alumni orator at the Encoenia this season.

W. A. Quinn has been appointed an engrossing clerk in the house of assembly.

G. F. Gregory Q. C. and D. Jordan Q. C. haavi been called within the bar of the supreme court.

J. Frank Owens of the Chatham school has been appointed to the principalship of St. Dunstan's.

Fred S. Williams of Marysville has gone on a business trip to Winnipeg and the north west provinces.

Horace Day, son of Rev. Dr. Day, of Sheffield, will leave there on Tuesday next to resume his medical studies in New York.

Curling Match.

On Wednesday a friendly contest took place at St. John between four rinks from the curling club in this city, and the St. Andrews men. The score was as follows:

St. Andrews.		Fredericton.	
G. A. Kimball, skip,	12	A. F. Street, skip,	12
H. V. Cooper,	14	H. C. Rutter,	7
A. Watson,	23	W. K. Allen,	5
A. O. Skinner,	19	E. H. Allen,	9
Total,	68	Total,	33

The home team were defeated by 35 points.

THE FELLOWS CASE.—The application of William McKay to have the seat of the hon. James Fellows, M. L. C., declared vacant on account of want of qualification, was thrown out of the legislative council on the ground that the matter could not be brought up except by a member of the council, and was not a proper subject of petition from a person not a member. Of course this does not dispose of the matter if the petitioner chooses to carry it further. He has a right to apply to the supreme court and have a decision from that body as to Mr. Fellows' right to set in the council. It has been intimated that he filed his petition only as indicatory to further proceedings, and this may be the nature of them.

THE BRIDGE.—The utility of the highway bridge over the river was never more closely demonstrated than this spring. It has been in constant use ever since the recent heavy rain, and has saved persons, whom business compels them to cross the river, a very great deal of trouble.

A MARCH OUT.—The Infantry school have resumed their usual practice of route marching. On Wednesday morning the battalion turned out in heavy winter order, headed by the band. The men presented a fine appearance, and kept well in touch and dress.

CHILDREN'S CONCERT.—There will be an interesting children's concert in the Carleton street opera house, this (Saturday) evening in aid of the Spring Hill sufferers. A very attractive program, including a number of very attractive tableaux has been arranged.

THE SLEIGHING.—In the early part of the mornings the sleighing on some of the streets is very good and most all the fast horses in town are out for a brush daily. Fredericton can boast of a good many very nice steppers.

CAN TALK ONLY TO HIS BROTHERS.

Strange Case of a Man Whose Tongue is Tied Even in the Presence of His Wife.

A man who has conversed with only two persons in his life lives in Danbury. He is John Pratt, an industrious and well to-do farmer, who, in spite of his remarkable affliction, has kept himself in obscurity for many years, and in the sixty odd years of his life has spoken to no one except his two brothers. He has gone to jail in preference to speaking a single word, and he would not, could not utter a word in the presence of a stranger or even his own wife to save his life. Yet he has a voice as strong and vocal faculties as perfect as any man's. Some strange power binds his tongue in another's presence, an influence which is said to be due to his mother's antipathy to her father-in-law at the time Pratt was born.

A few days before Pratt's birth his mother quarrelled with the elder Pratt, and then she vowed never to speak to him again. The child was thought to be dumb, for all through his childhood he never spoke a word, and until he grew to be a youth his tongue was tied. Then one day he spoke to his brothers, but try as he would he could make no sound in the presence of others. To one brother, William, he took a particular fancy, and he would converse with him freely, and at the approach of any one but the other brother, he would stop instantly, and nothing could induce him to continue. Even his wife had never heard his voice nor did his first wife, who died 20 years ago. The courtship was carried on through his brother.

Pratt was working in the field one day when a half dozen sturdy young farmers approached him with the determination to force him to talk. Pratt threw down his hoe and in five minutes they retired, as badly whipped a lot of young men as ever were seen. Pratt has always retained his remarkable strength. Once he was arrested for some trivial offence, and the justice before whom he was brought threatened him with a term in jail if he did not reply to his questions. Pratt remained silent and received a term of thirty days imprisonment. He was subsequently released before his time expired.

Years ago Pratt caught a man named Taylor hiding behind a fence trying to hear him talk. He promptly dragged him out into the road and gave him a sound thrashing.

Pratt was arrested in Danbury for emptying a charge of buckshot into a farmer named Morrow, and though the shooting is believed to be accidental, he can give no account of it to the court and refuses to answer questions even through his brother in the presence of a court official.

ROYAL BAKING POWDER

Absolutely Pure.

A cream of tartar baking powder. Highest of all, in leavening strength.—*U. S. Government Report, Aug. 17, 1889.*

NOTICE.

NOTICE is hereby given that application will be made to the Legislature of New Brunswick, at the next ensuing session thereof, by the "St Croix Cotton Mill," a Company incorporated by chapter 58, 43rd Victoria and chapter 65, 44th Victoria, for an Act in amendment of and in addition to the said Acts; authorizing the issue of $800,000 preferred stock in addition to and over and above the stock already issued, said stock to be non-assessible, five per cent cumulative, preference stock, and to be accepted by creditors in discharge of their claims and carry with it no personal liability to the holders thereof; and ratifying and confirming the issue of $200,000 bonds or debentures of the Company and a certain Indenture of Mortgage dated the 1st day of December 1888, made to secure the said bonds or debentures and interest; and authorizing the Directors of the Company to issue such further bonds or debentures as may be deemed advisable in the interests of the Company; and granting unto the said Company power and authority to sell and dispose of the whole or any part of the property, franchises and assets of the Company; and granting unto the said Company all the powers, rights and privileges conferred on Companies incorporated under the provisions of "The New Brunswick Joint Stock Companies Letters Patent Act" and amending Acts.
