The brigadier has done good work in the upper provinces, and is said to be a powerful speaker. The staff captain who is his wife, will also speak at the meetings.

Mill Intelligence.—The busy season has begun at the saw mills in this city and vicinity, and the demand for lumber and lumber is said to be good. Some of the mills will suspend work for a few weeks during the drive, but most of them will keep sufficient orders in hand to keep the employees going.

Manlyville Risk.—There was a large party present from this city and vicinity at the rink on Tuesday evening. The sport was fairly good and the knights of the steel had a most enjoyable time. It was the last skate of the season, the ice is now in a soft condition, and winter sports may now be said to be over.

Work at the Wharf.—The finishing touches have been put on the new high water wharf this week. The roadway has been levelled, a bedding of ashes filled in, and all made smooth and compact. The wharf will be a handsome addition to the river accommodations, and will supply a long felt want for loading and unloading purposes.

Has Disappeared.—Some comment has been excited in certain quarters regarding the conduct of a young man who was formerly a shingle sawer in one of the mills here. He disappeared on Monday morning leaving behind him an unpaid board bill of nearly three dollars, and several minor accounts. His friends would be glad to hear from him.

Two Fine Geese.—Hugh White from Jacquet river was in the city on Tuesday. He has two wild geese which he has succeeded in taming. They were taken when young, seem very intelligent birds, and apparently fond of their lord and master. They are smaller in physique than the domestic article, remarkably active, and as tame as the renowned tallow.

In the Arms of Motherhood.—It is reported that a resident of Mariposa's mill had recently slept for four consecutive nights and days without taking any nourishment. Such a condition often follows an attack of the gripe and a similar case occurred last week when a sufferer from that disease slept for two consecutive days. Another case occurred a month or two ago in this city.

Seriously Unwell.—Frank Berton of the N. B. University who attempted a few days ago to skate from this city to St. John is seriously unwell at his home at the latter place. The long walk of ten miles across the ice, the blinding snow and sun which has affected his eyesight, and a bad chill has completely incapacitated him. He is now in a complete state of prostration at the residence of his parents.

Low Driving Sale.—On Wednesday the contract for the low driving sale was awarded to Frederick Moore whose tender was the lowest. The contract is for four years as follows: From head of Grand Falls, 20 cts; from Salmon, 18 cts; from Arrowhead boundary, 20 cts; from mouth Tobique, 16 cts; from Presque Isle mouth, 15 cts; from mouth Becaguinais, 15 cts; from Meduxinkong and below, 11 cts.

An Easter Sale.—The sale of fancy and domestic articles held in the lecture room of the Methodist church on Wednesday afternoon and evening was well attended, and brisk business was done by the children of the X. L. Mission band, with the help of a few ladies of the congregation. The sale was very successful realizing nearly \$150. The room was very tastefully decorated. Refreshments were on sale.

All Fools Day.—On Wednesday the old time custom of practical jokes was carried out upon unsuspecting citizens. All sorts of messages and notices were received and given, and the juveniles towled with delight as the unwary traveller was held to look for the article he had dropped on the sidewalk. It was a merry time, and the custom was kept up until noon when according to rule the practice of fooling ceased.

The Government Horses.—The government horse sale at the city hall on Tuesday last yielded not a large number of buyers, and several valuable horses had to be withdrawn. In the purchaser list, Zephyr was leased to the Hon. D. McLellan for \$300; Prefere to the Sunbury society for \$100; and Deacon to T. Hetherington, M. P., for \$200. Knight of Chester Clydeale was leased to the Prince William society for \$155, and the Hackney horse, Grande went to Mr. Theriault for \$170. It is the intention of the government to dispose of the remaining animals by sale outright. The advertisement will be found elsewhere.

The Easter Services.

The special services in the churches last Sunday were largely attended. The rendering of appropriate Easter music by the choir, the pleasing floral decorations, and the instructive Easter sermons, all combined to make Easter Sunday truly a day of spiritual enjoyment. At the Baptist church the Rev. F. D. Crawley officiated, and the rite of baptism was administered to 37 persons. At the Methodist church, pale lilies, chrysanthemums, asters and chrysanthemums ornamented the church. The Rev. J. Harvey presided and the singing of the Easter quartets, and anthems by the Misses Shenton, Winter and Crawford, with a solo by Miss Emma Shenton, was much admired. At St. Paul's the Rev. J. McLean presided and two very acceptable sermons to large congregations. At the Cathedral of the Holy Trinity, chrysanthemums, roses and potted plants were tastefully arranged round the pulpit, the reading desk, and the choir. The singing of the Gloria in excelsis, and the special anthem by Barnaby was marked by much power and feeling. At the F. C. Baptist church, the choir rendered special music at both services, the singing being unusually good. The Rev. Fred. C. Hartley preached an impressive sermon on the spiritual happiness attending Easter.

The Assessment for the Year.

An informal meeting of the city council took place on Tuesday evening when the assessment for the current year was ordered, and fixed at \$42,000, an increase of \$1,000 over last year. It is understood that a further \$2,000 will be asked for by the city trustees, as soon as their bill has passed the house. The following is a comparative statement of the sums estimated for the various services for the past and present years.

Table with 2 columns: Item, Amount. Items include Schools, Interest and Debentures, Sewerage and Water, Victoria Hospital, Public Health, Support of Poor, Fire Department, Administration Justice, Street Lamps, City Government, Roads and Streets, Public Works, Totals.

Easter Monday Amusements.

At St. Dunstan's hall a popular concert at popular prices, consisting of comic and sentimental songs, choruses, duets etc was given to a fair audience. The farce played by the boys was very amusing and, the juvenile choir boy made a great hit. The telegrapher's ball at Woodstock was one of the events of the day, and about fifty went by train from this city on Easter Monday. The music was rendered by the F. O. M. W. orchestra of this city and the capital program furnished by our boys received some flattering comments from the local press. The hall was a huge success.

Police Intelligence.

Willard Standforth for disorderly conduct on the public streets was fined \$5. John Emmerston of this city was on Wednesday charged before police magistrate Marsh with disorderly conduct in front of the barracks and with creating a disturbance so that a crowd collected. He was fined \$5, which was immediately paid. On Monday William Hazdon of this city was charged before police magistrate Marsh with an assault upon the person of John Aikman by striking him in the face. His honor after hearing the evidence of the complainant fined the prisoner \$7.50 or fifteen days goal. Hanson chose the latter.

The Fredericton Market.

A decided change has come over the market, and considerable activity has been shown in all departments. Potatoes have risen as high as \$2 per barrel, hay is fetching from \$7 to \$12, and oats have taken a phenomenal rise. Prices on the whole are improving and the farmers have brought a goodly array of country produce into the market this week. The ruling prices are: Beef 4 to 5 cts; mutton, 4 to 5 cts; lamb 5 to 6 cts; pork 5 to 6 cts; chickens, 10 to 12 cts; ducks, 12 to 15 cts; eggs, per doz, 20 cts; land, 13 to 15 cts; cheese, 12 cts; poultry, none; potatoes, \$1.00 to \$1.75; carrots, 80 to \$1; turnips, 60 cts; oats, per bush, 55 to 60 cts; buckwheat, \$1.75 to \$2; straw, \$5; hay, 7 to \$12; socks and mitts, 20 cts; cordwood, \$3.50; green \$2 to \$2.50.

Matrimonial.

A quiet wedding took place on Wednesday last at Springfield church, when George Quarterman was united in marriage to Miss Nellie Banks both of Kingspool. The Rev. W. H. Montgomery officiated, at the conclusion of which all present repaired to the house of the bride's father where a sumptuous repast was served, and the health of the bride and groom tasted. A similar ceremony took place on Wednesday evening at the residence of the Rev. Mr. Payson, when John Christie of this city was married to Miss Elizabeth Ashford. All the friends of the popular young bridegroom and bride unite in wishing them health and happiness, and they have the best wishes of all.

Honoring a Student.

W. C. Murray was recently died and honored at Edinburgh university on his appointment to the chair of philosophy and political economy in the N. B. university. The maritime provinces were well represented, and the toast of "Canada on home" was received with enthusiasm by all the students present. Mr. Murray in responding to the toast of "Our guest" hoped the dinner would be an annual event in future so as to unite all Canadians in a close bond of patriotic feeling. A pleasant evening was spent, and all present agreed to adopt Mr. Murray's suggestion and make the meeting an annual event.

Amusing Expedients.

It was an amusing experience to a young man of this city, who for the first time attended an apron and necktie sale, to watch the various expedients adopted by the young ladies in order to rid themselves of obnoxious beaus, who could claim their company on presentation of neckties similar in color to the aprons worn. The girls exchanged aprons both of the boys who noticed the maneuvers exchanged neckties with one another. This was repeated several times. It was a clear case of the old story. "I do not like you Dr. Fell the reason why I cannot tell."

Trotting Notes.

D. J. Stockford will reopen his training stables on the park association grounds on the 20th inst. A meeting of the N. B. trotting association will meet at an early date to consider the advisability of amalgamating as a trotting circuit with St. John, Fredericton and St. Stephen.

A CURIOSITY SHOP.

A Sketch of a Nashwagunk Abode and its Proprietor.

On Monday last THE HERALD man was attracted by a veritable curiosity shop situated on the Nashwagunk road. It was a peculiarly shaped cottage, built out of shingled and sheathed, and covered with a french roof. A motley collection of rustic seats and a summer house stood in the front garden. The house was built in strength and the proprietor who is a well known painter. The building is evidently intended for a fanciful advertisement by the owner, for every three feet of the exterior is covered with white exhibiting the variegated colors of the rainbow. On each small oblong is painted the owner's name, and the words "cheap store," "boys clothing," "paint and varnish," "old junk taken," "cash store," "goods exchanged," with fanciful repetitions of the owner's name. The painting is not very artistic but all the colors of the horizon at dawn are represented.

The interior is as fanciful as the exterior. The rooms are painted and varnished in various imitations of fancy woods. The store is replete with every variety of article known in the junk business from a scrap of old iron down to a gold watch. The proprietor is a character in his way, and may be the anecdotes related of his eccentricities. He is a tall spare man with a ruddy countenance, and possesses great strength and endurance. Once while working in the lumber woods on the Nashwagunk, he was seen without a hat, and the shirt he was working in was cotton. The subject of the school trustees, as soon as their bill has passed the house, the owner had to go bare on washing day in the camp. Nothing daunted, he procured a sack and making some improvised arms, invented a protector against the cold. For economy, he procured a sack and made some improvised arms, invented a protector against the cold. For economy, he procured a sack and made some improvised arms, invented a protector against the cold.

Street Improvements.

The question of street improvements will be thoroughly discussed at the monthly meeting of the city council on Tuesday next. It is proposed to asphalt certain portions of the city thoroughfares, and to lay down the planks and crossings recommended at a previous meeting. The plan of operations is as follows: To lay a plank sidewalk on Sunbury street from the Canada Eastern station to Charlotte, and to asphalt the sidewalk from Wilson's corner to Dr. Harrison's residence on Waterloo Row. To Queen's street, to asphalt the sidewalk from Queen's back to George on St. John street; also one side of Regent from Brunswick to George; and to lay plank sidewalks along Cork alley and Chancery lane. In Chancery lane, the sidewalk from King to Queen on the lower side of Carleton, and upper side of King to Brunswick, and to complete the sidewalks from Carleton to York street. In St. Anne, from York to Westmorland, the King street will be asphalted; also three blocks on York street, and one block on Westmorland, both sides, from King to Queen to be asphalted. The sidewalks on the wards asphalt crossings will be laid down. All the material necessary for the work is now stored in the city store, and it is contemplated to engage the services of an expert in order to teach a gang of men the art of asphaltting.

Social Events.

On Wednesday evening a pleasant social party took place at W. K. Allen's. On Friday evening Mrs. David Hatt entertained a large number of young men and women at her residence on King street. The party was held in honor of her son and daughter and the latter acted as hostess on the occasion. An entertainment was given Thursday evening in the Temperance hall by the ladies of the Baptist church assisted by members of the congregation. A popular program was presented, and refreshments were served during the evening. There was a large audience present, and all spent a good time. The orchestra in attendance played at intervals during the evening.

Heraldisms.

Travel by ice is about done for the season. Five hundred cases of packages, and the city canning factory were dispatched to St. John on Monday last. Work is to be resumed on the Tobique valley railroad at once, and the contractors are already hiring a large force of men. It is stated that the C. P. R. have given invitations for a free trip to British Columbia to members of the local legislature. A sumptuous repast was served, and the health of the bride and groom tasted. A similar ceremony took place on Wednesday evening at the residence of the Rev. Mr. Payson, when John Christie of this city was married to Miss Elizabeth Ashford. All the friends of the popular young bridegroom and bride unite in wishing them health and happiness, and they have the best wishes of all.
