

**THE EXHIBITION.**  
The exhibition held in this city during the week just closed has proved a general success. As an exhibit of agricultural produce and farm stock, which its promoters mainly intended it to be, it is safe to say that it excelled, while several drawbacks, which could not be foreseen or overcome, prevented the display in all the departments from being as large and complete as many would wish, yet as a whole the exhibit of the products of the soil was a true, fair and representative one. The ability of the farmers to cultivate, and the soil to produce as good a class of farm products as can be raised anywhere in Canada, was amply demonstrated.

The display of stock of all kinds far excelled anything of the kind ever seen here before, and proves the wisdom of the government importation of improved stock. A few years ago it would have been impossible to have got together in this country such a fine exhibit of horses as visitors to the fair had the pleasure of seeing during the week, and the general nature of the horse exhibit goes to show that the breeders are not slow to recognize the importance of improving their opportunities.

Doubtless the most interesting and attractive feature of the exhibition was the display and sale of the cattle and sheep recently imported by the provincial government. The importation was examined by hundreds of visitors, many of whom came for the sole purpose of inspecting, and if satisfactory, purchasing some of the animals for stock purposes, and it was the unanimous verdict of everyone, irrespective of political bearings, that the commissioner had made a most excellent and judicious selection, and the province was to be congratulated on the success of the importation. If any doubt ever existed as to the wisdom of the government's policy of importing improved breeds of cattle and sheep it was dispelled as the sales came off. The bidding throughout was sharp and lively, and prices brought were highly satisfactory.

The exhibition was the means of attracting a very large number of visitors to the city, it is to be believed to the mutual advantage of each. The fact has been fully demonstrated that an exhibition, to be popular must have an agricultural exhibit. It is to be regretted that the rain of Thursday interfered with the races and to the full enjoyment of the show to a large degree. But this could not be avoided, and taken as a whole, the exhibition has been a success, and the management promoters and exhibitors are to be congratulated on the result of their labor, the success of which we hope will induce them to begin at once the erection of more suitable buildings with a view to making the exhibition at Fredericton an annual event.

**THE UNIVERSITY.**  
The last issue of the Royal Gazette contains the lieutenant governor's proclamation, bringing into operation the act of assembly passed at the recent session of the legislature respecting the university of New Brunswick. It will be remembered that this act makes the chief superintendent of education president of the senate, and therefore the head of the governing body of the university. We believe all who are interested in educational progress in the province will approve of this change. The university is the most important part of our educational structure and should be in harmony with the other institutions of public instruction which lead up to it. The system is thus rendered complete in all its parts, and we may now have a harmonious whole, commencing with the common schools, advancing to the superior and grammar schools, and culminating in the university. No doubt if the closeness of the relations which ought to exist between these schools which are the feeders of the provincial college and the college itself has not been hitherto fully realized. The centralization of direct authority over the various educational institutions receiving aid from the exchequer or by public assistance, in a responsible head will not only ensure a greater degree of harmonious co-operation, but will deepen and increase the public interest in higher education. We anticipate from it the growth of a warmer interest in the university, as our own and our only provincial college. Something no doubt remains to be done in the way of an increased grant from the provincial treasury, and something more through the medium of private munificence, but steps have been taken by the government in promoting recent legislation from which we earnestly hope for important results.

**THE WASHINGTON MISSION.**  
It appears as if the last lingering hope of a reciprocity treaty with the neighboring republic is destined to be extinguished. Neither party to the proposed negotiation seems to be earnestly desiring a treaty, as each is convinced that the other will not concede such a treaty as it will accept. The meeting of representatives of the two governments fixed for the 12th inst., has been, it is understood, indefinitely postponed. Nothing by any possibility could have come of the conference and it is as well that it should not be held. The attitude of the two governments on the trade question is very well known to each other. The U. S. cabinet being republican and extremely protectionist, will insist upon admission to Canadian markets for large classes of its manufactured products. Our own government, as at present constituted, has not given evidence of any disposition to concede more than reciprocity in natural products and there are the strongest grounds for doubting its willingness to go even to this extent. The influence through which the conservative party won its triumph in February last was ultra protectionist, and many of the government supporters in parliament look with disfavor upon a renewal of reciprocal trade even upon the old lines of 1854. The truth is the country has nothing to hope for in this direction from the party in power. The proposal to go to Washington was only made in view of the general election, and having served its purpose, may very well be allowed to slumber until the approach of the general appeal to the people of Canada calls for its revival.

**EBEN HALL AGAIN.**  
The public were entertained not long ago in the Gleaner with sensational accounts of the iniquity the local government were perpetrating upon Eben Hall. His property was being ruthlessly taken from him by somebody, with the commission of members of the government, and through the means of the now mining act, which the Gleaner said had been designed and introduced into the legislature and passed for the express purpose of robbing the said Eben Hall. The Gleaner's nightmare was passed on and appeared as special telegraph matter in the St. John Globe. It was explained by this journal at the time that Mr. Todd had not got any mining license upon Mr. Hall's land, and could not say until after notice of his application had been published in the Royal Gazette for thirty days, and at the time these calumnious charges were circulated, notice had not even been given. A certain ambitious, but not over successful, down town Q. C. was awarded the credit of having unearthed this outrage, and spoke largely of what he was going to do, but like the other products of the scandal factory in Wilnot's Alley, when the facts are ascertained, the outrage does not materialize. The Hall matter came on in regular course before the surveyor general, and evidence was taken at St. Stephen a short time ago. It was then reported to the government with the suit that our friend Eben Hall gets the mining license and Mr. Todd does not. It will now be in order for the Q. C. referred to, to put in his claim to Mr. Hall for half the mining privileges which it was stipulated he should receive for expending this atrocious wrongdoing of the government, and rendering his valuable aid to Mr. Hall. Mr. McMonagh, of St. Stephen, was the solicitor acting for Mr. Hall before the surveyor general on the inquiry; the Q. C. alluded to above, having been dismissed from service. We owe an apology to our readers for recurring to this subject again, and we should not have done so if this attack upon the government had only appeared in the columns of the Gleaner. That paper has long been as much discredited morally as it now is financially, and we have passed by its attacks upon the government as a rule without notice. The St. John Globe, which reported through its Fredericton correspondent, a good deal of the same trash which appeared in the Gleaner, we presume the Globe will now look up another and a more reliable correspondent in Fredericton and make the amende honorable to the parties reflected upon.

**Supreme Court.**  
On the opening of Michaelmas term Tuesday the following common motions were made:  
Lantaulm vs. Olsen—J. A. Belyea moved for entry of judgment on bill prices; rule nisi returnable second Saturday.  
The Queen vs. Perkins—A. J. Truman moved for rule nisi to quash conviction; rule nisi granted.  
Ex parte Barnett W. Rolstein—Geo. F. Gregory moved for rule nisi for costs and to bring up the order of Chas. E. Knapp, clerk of the peace, under cap. 38 C. S.; cost considered.  
Ex parte William Wilson—The attorney general moved for a mandamus against the municipality of York to compel said municipality to pay Wilson the sum of \$80 for service which the county refused to pay without assigning any reason; rule nisi.  
Hale & Murchie vs. Hilyard Bros.—J. C. Vanwart moved for review of taxation of costs; rule nisi returnable second Saturday.

On Wednesday morning in the Queen vs. Perkins, ex parte Warden, A. L. Truman moves for rule nisi to quash conviction. He read writ and return. Leave to take off file.  
Thomas Gill and Thomas Dalton vs. George K. McLeod—Order of circuit court of New Brunswick, dated Sept. 9, is made a rule of court on motion of J. A. Vanwart, Q. C.  
Hanlan vs. Eddy—Geo. F. Gregory, Q. C. moves for judgment quasi; non-suit granted.  
Mills vs. Morrean—The like, on motion of A. Vanwart, Q. C.  
Andrew Johnston vs. Jas. Reid—C. J. Ceter moves to reverse verdict or for a new trial.

**York Municipal Elections.**  
The York municipal elections were held Tuesday, and resulted in some changes from last year. The following are the returns:  
Bright—McKeen 182, Inch 180, defeating Bird 155, and Graham 102.  
Canterbury—Jamieson 188, London 166, defeating Lawson 121, and Grant 88.  
Douglas—Kinghorn and Lawrence, no opposition.  
Dumfries—Scott and Simmons, no opposition.  
Kingsclear—Cliff 131, Murray 113, defeating Everett 95.  
Manners-Sutton—Robert Thompson 62, Mowatt 61, defeating Little 47.  
New Maryland—Fisher and Nason, no opposition.  
North Lake—Geo. S. Inch and J. L. Gould, defeating Sanderson.  
Prince William—Graham 00 and McMullin, defeating Henry.  
St. Marys—Rowley and Goodspeed, no opposition.  
Southampton—Finder and Lockard, no opposition.  
Stanley—Fullerton 145, Boies 171, defeating McMinamin 124, and Avery 66.  
Queensbury—McNally 161, Hallett 154, defeating Sleep 60.

**Home from the Old Country.**—Joseph Walker of Fredericton, who has been in Ireland on a visit, reached home Friday afternoon on the C. P. R. He came out in the steamship Numidian to Montreal and the passage lasted 14 days—about double the length of time it usually requires. The voyage was very stormy and he says that several times it seemed as if the ship would go to the bottom. "I never expected to reach home alive," he remarked, and the trip seems to have badly shaken him up. One day the ship sailed but 70 miles and another only 84 miles was covered, so heavy was the weather. Mr. Walker visited many of the leading cities in Ireland that are famed in history and that part of his trip was very pleasant.

**Provincial Appointments.**  
The following provincial appointments have been made: James R. Inch, L. L. D., to be chief superintendent of education and president of the senate of the university. Thomas Harrison, M. A., L. L. D., to be chancellor of the university. Harris G. Fenety to be a notary public. Kent—Charles J. Sayre to be clerk of the county court, in place of Henry A. Foster, removed from the province. John Oulton to be a justice of the peace in the county of York—Andrew Dunlap and J. Fred Richards to be justices of the peace.

In the races at the Pembroke fair the bay stallion Edgardo of St. Stephen, N. B., won the free-for-all. Best time 20 1/2. The chestnut stallion Maine, of Belmont, of Eastport, won in the 240 class, trotting one half in 1.12, the fastest half ever made on this track in any race.

**RT. HON. WM. HENRY SMITH DEAD.**  
LONDON, Oct. 7.—Rt. Hon. Wm. Henry Smith, first lord of the treasury, died yesterday afternoon. He had been ill for some time past.  
The Rt. Hon. William Henry Smith, M. P., was born in London, June 24th, 1815. He was appointed first lord of the treasury August 7, 1877. He went out of the office in April 1880. Was appointed secretary of State for War in 1885, and in 1886 was appointed chief secretary for Ireland, but on the fall of the Salisbury's second administration he was appointed secretary of State for War, and when the ministry was reconstructed in the office in April 1890. Was appointed secretary of State for War in 1885, and in 1886 was appointed chief secretary for Ireland, but on the fall of the Salisbury's second administration he was appointed secretary of State for War, and when the ministry was reconstructed in the office in April 1890. **PARNELL IS DEAD.**  
The Great Irish Leader Passes Away Suddenly.  
LONDON, Oct. 7.—Great Britain and Ireland were startled this morning by the utterly unlooked-for announcement that Charles Stewart Parnell, the famous Irish leader, died suddenly last night at his home in Brighton. It had been well known that Mr. Parnell had not enjoyed the best of health for years past, but nobody expected to hear of his death and no inkling of his illness reached the newspapers.  
His death is said to have been indirectly due to a chill which he caught last Friday, and which at first was not regarded as of a serious nature. Mr. Parnell, however, grew worse, and despite the efforts of attending physicians gradually sank and expired at 11.30 last night in the arms of Mrs. Parnell, who is utterly prostrated by the shock.  
The last time Mr. Parnell appeared in public was at Croyce, in Ireland, Sept. 27, when he delivered a long speech upon the attitude and inconsistencies of Messrs. Dillon and O'Brien. Upon that occasion Mr. Parnell said he was speaking in violation of his physician's orders.  
LONDON, Oct. 7.—Sir John Pope Hennessy died at Quenesdown, near and near London, Oct. 7. He was 82 years of age. His death is said to have been due to the mental and physical strain to which he was subjected as one of the consequences of the political contest in North Kilkenny.  
Mr. Hennessy, immediately after the exposure in the O'Shea divorce case in December, 1890, contested North Kilkenny election, and defeated the Parnellite candidate, Vincent Sully, by 1,147 votes. This contest was probably the greatest test of strength between the Parnellites and the followers of McCarthy and the defeat of Sully, no doubt counted for a great deal in the following series of disasters that befell the Irish leader.  
He was the first Irish Catholic conservative to sit in the house of commons, and at once became a steadfast supporter of Disraeli. He was created a knight, and in 1867 left parliament to enter the colonial service.

**MONTECAL, Oct. 7.**—The death of Parnell created a profound sensation here where there are two of his staunchest supporters and the other distinctly hostile to the dead statesman. But now the hostility is forgotten and only expressions of sympathy are heard. A canvas of opinion among prominent Irishmen elicits the belief that the hands of Gladstone are strengthened, and that his death will do much to heal schisms of the party.

**TORONTO, Oct. 7.**—The news of Parnell's death was received with intense surprise in Toronto. Genuine regret was expressed on all sides at the sudden calling away of the man whose personality had so powerfully impressed himself on English politics. It was the general topic of conversation on the street and exchange, and at city hall. Sympathizers with the cause of home rule, including alike both wings of the national party, freely admit that Parnell's death will mean quickly the end of anything else could have done, unite the two sections of the party, and advance the cause which both have at heart.

**HUNG UP BY HER ARMS.**  
Willing to Sacrifice Herself for Parents' Liberty.  
Beril Sutzki, his wife and his son Moses, arrived in Boston on the Warren line steamer Kansas on Friday. An acquaintance of the family tells a remarkable story of Russian cruelty and romantic escape, which is substantially as follows:  
The family gave a party on May 23 last in their home at Trabe, in the interior of Russia, in honor of the 13th birthday of Moses, who had then come to man's estate under Jewish customs.  
The Russian laws forbid the assembling of private parties, and the local police took advantage of this to demand a large sum of money in a larger amount than had been given. Incensed at his failure, he summoned a detachment of soldiers, and without judge or jury, started them off for Siberia.  
After a six days' march the officer in command made a proposal to a daughter of the family—Annie Mary, or Chl Marie—agreeing to release the whole family if she would submit. She was willing to sacrifice herself for the salvation of her parents, but her father refused to accede to the proposition. In consequence she made her yield, she was strung up by the arms and although there was no intention to murder her, she died in frightful pain.  
Members of section B. of the nihilist heard of the outrage and divided a plan to rescue the family. A drugged keg of beer was placed in the way of the soldiers, who were overcome by the liquid, and after the execution of the captain of the soldiers for revenge, the rescuing party crossed to the Prussian frontier, put the family on a vessel bound for Hull, Eng., from which they proceeded to Liverpool by rail, and from thence came to Boston by the steamer.

**BLACK AND WHITE ELOPE.**  
Mrs. Smith Run Off With Her Husband's Negro Farm Hand.  
The quiet little town of Litchfield, Herkimer county, N. Y., has witnessed a sensational episode that occurred there some six weeks ago the facts of which have just leaked out. The woman is Jennie Smith, a good looking blonde, aged 25, wife of James Smith a well known farmer of that place. They were married four years ago, and have two pretty children. The man is a negro, formerly known as "Buck" Smith aged 20. He began working on the farm of James Smith last spring and had been there all summer. His employer often drank too much and on such occasions abused his wife. The young negro took Mrs. Smith's part and she soon formed a warm attachment for him. In the second week of August last she eloped with the negro and all trace of them was lost. On Wednesday the deserted husband learned that they were living together in the wilderness of the northern part of the country, and he immediately swore out warrants charging assault in the second degree on the man and outrage of public decency on the woman. They were arrested and the woman was taken before a justice at Ilion and released. The negro is in jail awaiting examination.

**MISS BELLE JAMIESON, OF SHAWNEETOWN, ILL., WAS KILLED SUNDAY BY MR. WHITE.**  
The health officer says: "Our hands are virtually tied. We have only an appropriation of one thousand dollars, for myself, my secretary, the officers that are allotted to me by the city and everything." The appropriation in Montreal is \$85,000.  
Much regret is expressed in England at the trouble with the British farmer delegates to invited visit the maritime provinces of Canada. It is reported here the sole cause of the trouble is the objection of the dominion government to free trade doctrines so freely expressed by the delegates. This gives the English people a small opinion of Canada's love of country as compared with her devotion to party.

**CHINESE MIGRATION—A TROUBLESOME QUESTION.**  
OTTAWA, Oct. 9.—The customs returns shows a steadily increasing flow of Chinese into British Columbia from China, with every indication, remarked an official of the customs department today, that such a state of affairs will continue until some understanding is arrived at between Canada and the United States, by which the government of the Dominion will co-operate with the authorities at Washington to prevent them being smuggled across the border from Canada into the United States. The request of President Harrison made to the British government, that the latter would urge Canada to take some action as thus indicated to prevent the great smuggling of Chinese from Canada across the border has had no result. The Minister of Customs today, when asked as to the number of Chinamen who had entered Canada during the past eighteen months, handed over corresponded the following statement: From last January, 1900, to 20th June, 1891, 41, total Chinese population entering Canada from China through the regular channel was 2,638, each paying \$50 per capita on landing. The number to whom certificates were granted to leave the country and return was 2,107 number returned, 1,011; number who passed through the country en route to Canada through the United States, 5,010. It is quite apparent the customs authorities say here, as shown by the rapidly decreasing Chinese, population of British Columbia, and other parts of Canada, that in addition to the Chinamen daily arriving from China there is an enormous exodus of residents Chinese is steadily going on from the Dominion to the United States.

**THE SITUATION IN HAWAII.**  
The death of the Queen will bring about the most serious of political complications, and already wirepullers are at work to secure control of the islands in the interest of England. Honolulu newspapers dare not print a word of what is happening, but the people are in a great fever of excitement.  
Americans in Honolulu will make a desperate attempt to prevent the islands from falling into British control. The father of the heir to the throne, who is an Englishman, will work to his advantage in the interests of the British. Americans will take advantage of any lapse of time to prevent Princess Kalanui from taking the throne. The natives are in sympathy with Americans and want either a republic or annexation to the United States.  
The Hawaiians feel no loyalty toward their native ruler, who has foreign blood in her veins. The situation is so critical that the presence of two or three warships from the United States is an absolute necessity.  
Queen Dowager Kapiolani is also dangerously ill with pneumonia, and may die at any moment. The English minister is the friend and companion of Mr. Claghorn, the father of the heir to the throne, Princess Kalanui.  
Americans have some knowledge of what is to be done and are taking precautions to organize and secure arms sufficient to protect their rights. The general election is rapidly approaching, and excitement is at a fever heat between rival political factions.

**DULL IN BRITISH COLUMBIA.**  
While so many people are talking about the advantages of British Columbia the perusal of a few extracts from a letter received from a workman out there may prove beneficial to those who have the "roaring fever." In speaking of the state of trade in the country he says: "This place is far behind what it is advertised. Trades and laboring work have been very dull all summer. It has been a very rainy season, and the prospects of the autumn are not very bright. The British Columbia boom seems to be over for the present, but the general opinion is that in a year or two it will go ahead again. At present I would advise any man who has got any sort of a living in the east to stay there, and not come out here. Newsagents tell us that thousands of men are employed in the lumbering and canning industry, but they do not mention that there are twenty Chinamen to every white man working for from ninety cents to \$1 per day. Such is the case here, and so long as Chinese laborers are employed in such numbers a white man will find it hard to obtain work."
