THEY WERE THERE.—In our last week's issue we inadvertently omitted the names of the firemen from the description of the premier's reception. The ladies never looked better nor marched better than on that occasion, and if our reporter failed to notice them he was the only one in the crowd who did so.

WOODBOAT TOURISTS.—A party from St. John has been doing the city first of the week. They mustered thirty strong, consisting of both sexes and came by wood-hack. The boat was neatly arranged and the party had a very pleasant trip with every comfort. As a picnicking tour they say it takes the cake.

The evening was enlivened with dancing, the supper and the festive music making the hills echo like the reverberations from a Dennybrook fair.

PROHIBITION COMMISSION.

The Opening Session—Some of the Testimony.

The commission met in the city council chamber at ten o'clock this morning with the following commissioners present: Clark Gignault, Judge McDonald, Kribbs and Dr. McLeod, P. Monahan, of Halifax, secretary. The following were summoned to give evidence: Chief Justice Allen, Judge Fraser, John A. Marsh, A. Sterling, Albert Chase Beckwith (city clerk), A. F. Street (collector of customs), John M. Wiley (pres. board of trade).

As to how the act is carried out here can say that it has been in force for ten years and that the police have done all they could. Think that the act is not operative. There are a number of places where liquor is sold. The people appear to be against the act. Before the police strike to do their duty. Think there are half a dozen or more places where liquor is sold, in round figures. Have several temperance societies here, and could not suggest any amendments to the law.

To Mr. Clark—Had an inspector here but the act was not better enforced than now. Council have given directions to have the law enforced. Believe the police are as diligent as they can. Public sentiment is against the law, although they vote for it they are really against it. Believe that total prohibition would not carry here it would prevent the getting of liquor.

To Mr. Clark—Had an inspector here but the act was not better enforced than now. Council have given directions to have the law enforced. Believe the police are as diligent as they can. Public sentiment is against the law, although they vote for it they are really against it. Believe that total prohibition would not carry here it would prevent the getting of liquor.

To Mr. Gignault—The McCarthy act was never in force here. There was no more drunkenness under the license act than at present. It is similar in the county to what it is in the city.

To Mr. McLeod—Think that the cases of appeal interfere with the enforcement of the act. Some cases ran as long as two years. These appeals and long delays had the effect of weakening the feelings of the people. The feeling of the majority of the people is against the law. I know people who supported the act and yet violate it. Did not know why first cases were made in instead of second and third, unless it was on account of the appeals. A case before the courts now. Could not say whether there was illicit sale under the license law or not, think there was. The licensees observed the license law. The convictions prove that the authorities try to enforce the law. Market and Street laws are well enforced, but are sometimes violated. There is no less drinking now than under the license law. Think the city has not improved in morals or business over that of fifteen years ago. There is as much pauperism. Did not attribute any improvement in the city to the act. Would not declare that there was not more than six places where liquor was sold.

Chas. Beckwith was then sworn: Am not connected with the enforcement of the Scott act. Have good temperance societies, they are doing good work as well as the churches, and they have a good effect. Have better effect than legislative enactments. The law is not enforced in the country villages.

To Mr. McLeod—The law was well enforced at first but getting slack since. Again shortly after a Scott act election the law was well enforced.

To Mr. Clark—Think that the pressure on the enforcement of the law slackens, but think the law can be enforced if the sentiment is with it, but I believe it is the reverse of that. A private citizen from getting liquor. Think the police do all that they can be expected to do. Do not think the Scott act can be amended to make it more effective. The population has increased and drunkenness has decreased. Attribute this decrease to the churches and temperance societies. Think the law is violated here. Would not be difficult for a person coming to the city to get liquor. The law is enforced in the country districts of this county, but not in Suburby. The act was carried there by a large majority but there was a small vote polled. Believe that many vote for the act and then do not observe it.

To Mr. McLeod—Did think the citizens should enforce the act. Did think the police should enforce the law whether the citizens take action or not. The vote was not a test as it was so small that the sentiment of the county could not be judged by it. Know no law that is violated here so openly as to think that. Should care if the people would not support the act if it would be a barrier to getting liquor. There are places where liquor is sold openly as well as publicly. I think no law is so constantly and persistently violated.

Chas. Beckwith's evidence. The commission is hearing the other side of what we go to press.

BASE BALL.

The Game Between the Shamrocks and Infantry School.

The Irish literary and benevolent society excursion from St. John arrived here about eleven o'clock on Monday last. There were five carloads of pleasure seekers and they appeared to enjoy themselves. Many went to Marysville by the buses to take in the beauties of that rural town, but the chief event was the base ball game which was between the Infantry school team and the Shamrocks of St. John. The game was played at nine p.m. which affords a very excellent place for games of all kinds, and should be better patronized, although there was a paying crowd to see Monday's game. The school club was weakened by the loss of two members, but had good talent in their places. The school placed in the field Doran, c; Offen, p; Byers, 1st b; Adams, 2d; Marsh, 1st f; Doherty, 2nd b; Elson, 2d; O'Malley, c; Bradley, c. f. After the first innings Doherty took second base, sending Doherty to the pitcher's box. The Shamrocks were: Hayes, c; Dawson, 3rd b; Morris, 1st f; Conolly, s; Mitchell, 1st b; Doran, 2nd b; Donovan, r; Fair, c; Isaac, c. f.

The game throughout elicited considerable "kicking" on the side of the Shamrocks, and they invariably got their own way, which showed more courtesy than good sense on the part of the school. Bradley's catches and Doherty's three batters were the events of the afternoon. Score stood 8 to 2 in favor of the Shamrocks.

A SPECIAL TRAIN of seven first class passenger cars has been chartered and will convey the A. O. H. excursion on Monday, August 22nd, to Chatham and return.

PICNICS.

The Sunday Schools Take Their Annual Outings.

The picnic party that were to go to Belmont on Thursday afternoon by Florenceville gathered at the steamboat wharf and decided to postpone the trip in consequence of the weather.

The Baptist Sabbath school of the city took their picnic at Burton, Sun. Co., the Florenceville being chartered for the occasion. There was a good attendance and a very pleasant day. Many of the people of Burton joined the picnicers and took a hand in the sports.

The C. of E. choir of St. Marys parish held their picnic at Durham on Thursday when a grand day was had. The C. E. R. is a popular road for outings as the ladies and little folks are well looked after by the conductors and on this account a large crowd went to Durham. All report a pleasant time. The Rev. Mr. Parkinson, who is a worker, made the picnic a success.

The Baptist Sunday school children of Gibson and St. Marys took their annual outing on Barker's grounds just below the mouth of Nashwaak, on Wednesday. The Rev. Mr. Nobles and Mrs. Nobles as well as most of the teachers and parents attended and enjoyed themselves equally with the little folks. All sorts of sports were engaged in. The tables were spread on the grass and full justice was done to the contents. The prize winners in the different sports were: In the infant class—Kitty Miles, Nellie Cole, Lena Staples, Harry Hoban, Chas. Ryder, Percy M. Can and Frank Heron. In Mrs. Goodspeed's class—Bessie McManus, Bessie Cole, Minerva McManus and May Mayne. In Allen Hoban's class—Ern. Sewell and Andy Bradley. In Miss Titus' class—Ed. Haines, H. Bradley and Ger. Colwell. In Miss Goodspeed's class—Fannie Hoban and Bessie Bono. The two hundred yards race was a tie between H. Harvey and E. Bradley. The ladies' archery was won by Mrs. Cowperthwaite, the girls' archery by W. Hallett.

Gibson and St. Marys. William Lewis is having his house painted. Murray Garity is home from Boston visiting his parents.

The month of Nashwaak bridge is getting a new flooring. J. Kierstead who was very ill is coming around again all right.

Ben. Ryden has a house in progress of erection on Bradley lane. There is no change in the teaching staff of the St. Marys School.

John W. Doone has opened the Exchange hotel recently completed. He has had the month of Nashwaak bridge is getting a new flooring. J. Kierstead who was very ill is coming around again all right.

Haynes & Brewer's steam yacht is being fitted for pleasure. Patchell's has all it can do.

The Boom company have almost completed a new work house, using the old one for a sleeping apartment.

Spencer Inch is having the water from McFarlane's reservoir put into his house. John Howe is doing the work.

The F. C. Baptists have decided to build a church. It is likely to be located on Neil's avenue, between the most convenient for the Northern Pacific railroad to Yellowstone National Park, Pacific coast and Alaska.

The trip is made with the highest degree of comfort in the elegant vestibule train of the Northern Pacific railroad, which carry dining cars and luxurious Pullman sleeping cars from Chicago, St. Paul and Minneapolis to Yellowstone Park.

It is worth to take the trip of a lifetime, purchase the low rate excursion tickets sold by all principal lines in the United States and Canada via the Northern Pacific railroad to Yellowstone National Park, Pacific coast and Alaska.

The evening glory of the trip through the Northern Pacific is the visit to Yellowstone Park, the land of hot springs, geysers and gorgeous canyons, and to Alaska with its endless ocean channels, snow-capped peaks, and beautiful glaciers.

WEDDED.

The Chinese Still Keep up Their Ringing. There will be three regular weddings in Marysville next week. Marysville holds the record for connubial bliss.

Mr. Joseph Bilezard of the city and Miss Emma May Foster of Havelock, Can. Co., were on Wednesday married by the Rev. Geo. R. Payson. The friends of both parties extend congratulations and many good wishes.

Richard Gregory, son of Sergeant Gregory, and Miss Maggie Arnold, daughter of James Arnold, all of Marysville were married at Gibson Wednesday last, the 10th inst., by the Rev. Mr. Nobles. As Richard is one of the best boys of the county he got a rousing send off. The bride is a favorite and both have lots of well wishers in the factory town.

At Gagetown on Monday morning at the Methodist parsonage a large crowd assembled to witness the nuptials of Miss Irene Babbitt, daughter of R. I. Babbitt, registrar of deeds for Queens Co., to the Rev. A. K. Simpson of Rhode Island, a Baptist clergyman. The Rev. A. K. Dennis performed the ceremony. A handsome address with a purse were presented the happy couple on their departure for the island state.

The Baptist church is to be dedicated tomorrow. Rev. Mr. Stewart will preach in the afternoon, and the Rev. Dr. Day in the evening.

John Fisher and wife, of Boston, are here visiting friends. John was formerly a resident of this town, but has become a citizen of the union and has benefited by the change.

John Murdoch and family left Marysville on Tuesday last for his old home at Burlington, Vermont. Mr. Murdoch has been for six years foreman of the card room in the factory; a member of the brass band and a man well liked by all the people, young and old. He has received the offer of a better salary in the mill at Burlington where he worked previously to coming here. Of course the larger salary was a temptation and although sorry to leave, yet the money is an object to all. It may be said here also that Mr. Murdoch is one of the most capable cotton mill men we have ever had here and his place will be a hard one to fill. The boys miss him in their social circles and he received a rousing send off from them on Monday night.

FINGER TAKEN OFF.—Joseph Bolster, while working at a single saw in Babbitt's mill, Gibson, on Tuesday afternoon, had the misfortune to cut his right hand severely. The forefinger and thumb were lacerated so that Dr. Coulthard, who attended, had to amputate the finger at the lower knuckle. Mr. Bolster about a year since got the same finger, losing about an inch of it at that time.

DEPOSITS.—During July the deposits in the New Brunswick branches of the Savings Bank were \$110,695.25 and the withdrawals \$117,207.30. In July last year the deposits were \$77,381.22 and the withdrawals \$93,802.40.

OBITUARY.

Death of an M. P.—Deaths in Fredericton and Vicinity.

The sad intelligence reached us on Thursday of the death, that morning, of William Kimber one of the old residents of Kingsclear. For months past he has been in poor health but it was not thought that death was near. He was well and favorably known in this city as well as in the parish where he resided. A large number of citizens attended the funeral on Friday morning at ten o'clock.

At Sevenside, York Co., on the 6th inst. James Harris departed this life, aged seventy-four years. He was an ex-soldier in the British army, 15th regiment of Foot. He came to Fredericton about thirty-two years since with his regiment. His time expired about twenty-nine years ago. About twenty-seven years since he married Abigail May Sepe, daughter of Mr. Sepe, of New Maryland, who survives him. He was well known and much esteemed at Russborough. Deceased was a native of England, born in Whetstone, in the year 1818. The funeral services were conducted by the Rev. Mr. Alexander, the interment taking place on the 9th inst., at the English church, New Maryland. The funeral was very largely attended. He leaves four sons and two daughters, who have the sympathy of the community.

William Gentry, who kept a refreshment parlor on Regent street, in the vicinity of the Waverly house, died on Monday evening about a hospital where after considerable time he has been ailing from Bright's disease. Deceased leaves several brothers and sisters, three of the former being in Canada. His home was at Donk settlement where his mother, a widow, resided. His many acquaintances thought much of him. His funeral took place on Wednesday morning and was largely attended. He was a member of the church, of which he was a member, conducting the interment. The pall bearers were Norman McDonald, Thos. Sharkey, John McLennan, Thos. Allen, J. D. Hanlon, and Thos. Flaker in charge. A large number of citizens attended the funeral, tokening the esteem in which deceased was held.

Dr. E. P. Legere, M. P., for Kent county, died at Grand Digby, Kent, on Monday morning. It will be remembered that during the recent session of parliament the doctor was very ill at Ottawa. He was removed to a hospital where after considerable time, by careful nursing, he recovered sufficiently to be able to be brought home. He then went to live with his brother at Grand Digby, where he died. He was in his seventy-seventh year, was originally from Brittany, having left that county for Acadia, two centuries ago. The deceased received a common school education, then taught for a while, after which he took a medical course at St. Joseph's college. He took his M. D. at Detroit college of medicine in 1888 and in the same year married Miss Elsie Michaud, niece of the Rev. Thos. Michaud. He was also interested in the vocation caused by the elevation of Mr. Landry to the judgeship, but as parliament was dissolved he did not take a seat. In the general election of 1891 he was again elected, but is a young man of many talents, was personally quite popular and promised to be of great benefit to his county and province.

CHERRY FACTORY.

The cherry factory opened on Wednesday, of last week, under the supervision of Mr. McCroskey of the Harvock cheese factory. Teams are on the road each morning between Wm. Calhoun's, Beaver Brook, and Capt. Fred Wilber's Mountville, to get the milk, and on the 11th brought about 1000 lbs., with an increase of 100 lbs. daily. It is thought that in a week or two the supply will be equal to one ton. The factory is said, by men who have been appointed by the government to look into such things, to be the best in the province and that the country affords splendid facilities for cheese making.

SPLE DRIVING.—Frank Currie, with a train and sple driving crew has begun work on the Gibson-Woodstock branch of the C. P. R. He will do quite an amount of work between St. Marys and Keswick, putting in supports to all the larger bridges.
