MR. BLAIR IN QUEENS.
The reports from Queens county are to the effect that Mr. Blair is being well received wherever he goes; his canvass is a very popular one, the people of the county being evidently pleased with the idea of having the leader of the government as their representative. Reliable information shows that there is, within the county, really little or no combined opposition. Of course there are a few sore-heads there, as in every locality, who would oppose the return of an archangel as their representative; but the majority of the people are satisfied that the best interests of the county and the province will be served in the election of Mr. Blair. But where is any effort being made among the opposition to discuss the question before the people on its merits? A strong endeavor is being made to arouse a religious war among the people, and for this purpose Mr. Neales has been put in the field. He is being backed and supported—with wind of course—by Herman Pitts and William Roseborough, who have been busily engaged flooding the county with the same class of literature that disgraced the campaign in this county. Their efforts, however, are falling flat, and in many places rebounding against those who would use them to destroy others. The people of Queens pay no heed to such men as Pitts and his gang; and their appeals to passion and prejudice will have no effect upon people who have had their eyes opened to the true state of affairs. We confidently predict for Mr. Blair a magnificent victory on the 22nd.

THE ST. JOHN GLOBE, in last evening's issue, attempts to give its readers an idea of the situation in Queens county. For a well informed journal the Globe seems to be grossly ignorant of the true state of affairs in that county. The Globe's article would certainly leave the impression that Mr. Neales was brought out by the liberal party in Queens to oppose the return of Mr. Blair, and that Mr. Neales was a very worthy and desirable candidate. In point of fact Mr. Neales, who has hitherto had the confidence of no party in Queens or anywhere else, is the nominee of Mr. Pitts and a few wire pullers in Fredericton. He occupies precisely the same position in Queens that Pitts did during the campaign in York, being backed and assisted by the same gang, and the county is being flooded with the same vile literature for the purpose of electing him. We hardly think the Globe would approve of a candidate from Mr. Pitts' school, and yet its evident satisfaction with the attitude of Mr. Neales in Queens county looks as if the Globe was ignorant of the real situation, or Mr. Ellis was prepared to go a long way in order to make a mistake.

BOMBS FOR QUEENS.
Mr. Pitts and some of his satellites are in Queens raising the religious (?) cry that they made of such effective use in York. They endeavored to get a candidate but failed in inducing several whom they approached to take an active part against Mr. Blair and to lead in a crusade that puts neighbor against neighbor, that invades the sanctuary and stops not at the altar till J. V. Neales offered himself. We cannot say whether he will have the help of Mr. Pitts' brother-in-law. But we can say if he does he can make himself very useful as he knows all about the business. He was one of the active workers in the York crusade, in fact more so than Mr. Pitts himself. Is it not a farce? It does appear strange that the people of York lent their aid to these men to carry out their nefarious schemes and that they have the audacity to approach the people of Queens. It is highly probable that they will be taught a lesson that they will not forget for some time to come. They think the people of Queens do not know enough to look after their own affairs and that they must help them out. Were it not for these charlatans there would be no contest in Queens, the efficient and able leaders of both sides of politics in that county being glad to have the services of Mr. Blair. To what extent this persecution will be carried it is hard to tell, but the war has begun and is as bitter as feelings can make it. The people of Queens are used to the feelings that prompt their use are aroused and unless this matter stops just where it is, bitter sorrow must result.

Mr. Pitts is denounced by many of the Orangemen as a hot-headed and weak-brained fanatic, and many of his immediate followers are the same. True, there are men behind him who let him do the dirty work while they reap the benefit, yet he is the head and as such the people regard him. It is not too much to expect that the people of Queens will return such a reply that these dealers in scurrilous and inflammatory circulars will shrink from the light of day. Is it not enough that the feelings of good will that has heretofore existed in York should be exchanged for suspicion and hatred without the feeling being spread throughout the province? The parties are as strictly defined in this city as are two armies on the battle field; there is little or no trade between them, even the churches, instead of being a bond of union, are utterly helpless in the crisis. This is not a pleasant state of affairs; yet the men who have caused it glory in it, and are attempting to produce a similar state of affairs in Queens. The good sense and uprightness of the people of that county will not be imposed upon. Mr. Blair's return with a large majority is to be expected.

It seems that bill stitching and circular distributing have their natural home on York street. For years Boyd Hamilton, one of the colored gents of that thoroughfare had a monopoly of the business. He covered all the posts and fences of the city with his glaring samples of the printers' art, but the exodus took him from us. A greater than he has arisen in Herman Hiemadine Pitts. Not only can he personally stitch more than Boyd did, literally and figuratively, but he has an army of assistants who are adept at the business. In a fortnight or less he can bill the county thoroughly and now he has gone down to Queens for a practice spin. What a great advance agent he would make for the black crook and other similar combinations.

EQUAL RIGHTS TO ALL.
The people of Queens are called on to decide between the hon. A. G. Blair and J. DeVeber Neales on the 22nd inst. There can be little difficulty in deciding as to whom the electors should choose. One has shown himself to be the foremost statesman that the province has ever produced, and all will allow that New Brunswick has sent some able men into the arena of politics. The other has no record. He has shown no brilliancy as yet and it is altogether likely never will. The present is a crisis for Queens, a proper choice just now will be the means of putting that county in the first rank; it will give her the advantage of having to guard her interests the ablest man in the house; it will secure to her a leading place in the race for advancement and prosperity.

York feels the mistake she made and though people are slow to admit that they have gone wrong, yet the statement is publicly made on the streets of this city to-day that were the election to be run again, the hon. A. G. Blair would carry a majority such as never before fell to the lot of a member of the York county caucus. The mistake that Queens should take advantage of the opportunity and secure the benefits that York has thrust beyond her reach. If it is the duty of the electors, as all will grant, to send the strongest man to the legislature that they can find, then there can be no question as to whom Queens county will place at the head of the poll. If the people decide to put themselves into the hands of a ring showing neither ability, honesty nor common decency then they will support the candidate put up by Pitts and his gang. Mr. Pitts' motto, "equal rights to all," was the password that demoralized France and allowed the Germans to drench its streets with blood, it has been for years the rallying cry of the assassin and cut-throat, it spurred on to deeds of crime and cruelty the Ku Klux Klan of Pennsylvania, it has been the demoralization of Europe and thousands after thousands have fallen beneath the murderous blow when that motto has been the word of advance. It took its rise in Paris when the Germans were thundering at its gates, it weakened the people so that they could make no stand before the marauders, it drove Napoleon from his throne, sent his queen into exile and has been the rallying cry for the anarchist, socialist and communist ever since. This is the chosen motto of Mr. Pitts and his party. It has done more in York than it is not too much to say that the people of Queens will treat Mr. Pitts and his candidate as Herr Most and his bomb throwers were treated at Chicago.

DAIRYING PROSPECTS.
Butter has been advancing steadily in price as the result of the establishment of the creamery at Kingsclere. Although for months there was a difference of ten cents between the home-made and creamery article, now there is but a difference of two or three cents. The creamery butter has advanced the price of the other. It was first expected that the factory would be a failure and farmers would lose money by it, but it has turned out to be the reverse. The secretary of agriculture has been very earnest in getting the people to take an interest in these matters. The local government has endeavored in all possible ways to stimulate the dairy business but its growth has been slow. The farmers themselves are to blame, they doubted the utility of the scheme and were not inclined to risk any

Induce the farmers of Stanley, Southampton, Dumfries, in fact all large parishes throughout the county and province to erect factories and go about the work in the most economic way. Prof. Robertson and the men sent out by the local government have done much. A prominent farmer of Mannors-Sutton, who manages a grange estate said that he had known before the visit of the experimental dairy, butter to sell as low as nine cents per pound, but since that time, almost a year, butter had never fallen below fifteen cents. Those visits, he said, have been worth to this district alone \$1500.

Not only then has the creamery enriched the people by increasing the price of butter but the lectures and explanations given have increased the value from nine to fifteen cents per pound in one district, and similar results must have followed in others. The better the price paid for the farmers' products, the more advantage is reaped by all. It has been said that Mr. Blair and his government deserve no credit for this; that these results would come of themselves. Perhaps no more childish argument has been made than this. It is the beginning of a better state of things for the farmers and despite all arguments to the contrary the farmers realize that the government under Mr. Blair has been the first to come to their rescue.

As will be seen by the returns published in another column, Cleveland has been elected by a large majority in the United States. Not only has he defeated Harrison, but has made that defeat a death blow to the republicans. It was an outcome of the McKinley tariff, that placed the Pinkertons armed with rifles and revolvers over the working man, to compel them to submit to the most cruel treatment. Like the Egyptians of old they stood over the Israelish workmen and forced them to make bricks, not of clay but of gold, Carnegie's profit for one year at Homestead being \$1,500,000. The McKinley bill goaded the people on to desperation. In the manufacturing states where the people were under control of bosses, Harrison held a firm grasp, but the farmers and planters of the south and west were free men and voted out the reign of coercion and intimidation. The result will be in the United States it is difficult to tell. If it tends to make a more amicable understanding between that nation and Canada, the result is and will be a great benefit. Instead of retaliation on each side the line, the people will be free from the control of combines and coercionists.

The Montreal Star says: Hon. Edward Blake's return to Great Britain, marks the final and lasting severance of his connection with Canadian affairs and politics. There is not, says the Star, in history another such instance of self-sacrifice as Blake's. His stern sense of duty alone impelled this eminent man to give up the greater part of his life to the cause of Irish home rule. It cannot be added that it is for hire or office. His law practice in Canada was greater by far than the salary which he can hope to receive. He did not see eye to eye with the liberals of the dominion, and he felt that the country had been so involved by the present government that it would be a giant's task to rescue it. He believed that it was his duty to go where he could do some good, and so he made the sacrifice—one greater by far than any other Canadian politician has made, and one that has given him the friendship, not alone of America, but of the world.

A recent issue of the St. John Sun says: "Poor York county is roundly abused by the local government organs all the way from Mason to Grand Mann. The only district in the county which seems to be thoroughly appreciated by the supporters of Mr. Blair is the section called York. The government it may be marked, does not object to a solid vote when it goes the right way." Cork voted thirty-two for the government and none for the opposition. It may be fair to the people of that village to state why they so voted. There was not an opposition candidate in the district either to address or visit the electors, the candidates on that side were perfectly unknown to the people, there was not one opposition ballot sent to the poll, those wishing to vote against the government could not get their ballots and did not vote (there were three of these) there was no attempt made by the opposition to change the vote of the election previous. These are facts. Perhaps if some of the Sun's editorials and Pitts' anarchist circulars had found their way to Cork, there might have been a change in the vote. It may be said in this connection that, though Mr. Pitts had his name on a separate ballot, to catch the temperance people of this city, yet none of these separate ballots were sent out to the county; if they were we have failed to hear from them. Cork supported Mr. Blair and his ticket because the people so desired. Had they felt the other way a team would have been sent to the city for ballots and circulars.

George Robertson has been chosen by the straight line conservatives as their standard bearer in St. John, in the election to fill the seat vacated by Mr. Skinner. John A. Chesley, also a conservative, has issued his card to the electors. He states that "he will favor the securing, upon fair and just terms to both countries, closer reciprocal trade relations with the great republic to the south of us." The liberals as a party have put up no candidate and will do so, holding their forces in reserve perhaps, for the next general election.

THE MCMICHAELS.
The McMicheals, father and son, are passing a very quiet existence in the jail, and do not appear to be very anxious as to their fate. The old man laughs as heartily as though years in the penitentiary were not before him, while the youth, if he realizes his position, is as stolid and unconcerned as possible. The elder has the appearance and the name of a very "bad nigger," and his reputation throughout the province and state of Maine is bad. He has led a wandering life, a few days in a village or town and then the people would desire him to move on. Only a few weeks ago the St. Andrews Beacon published details of his life at that place. It appears from that that confagurations were frequent—so frequent that the people requested McMicheal, in no very pleasant terms, to leave. While there was arrested and tried for murder, a man being found near his residence with his skull broken in. There was not enough evidence to convict, and so he was acquitted. He has a bullet wound in his cheek, said to be from the pistol of a man at Princeton, whom McMicheal was attempting to stab.

HARVEY STATION.
Nov. 10.—Miss Minnie Glendening, who is in charge of the school at Tracyville, Sunday evening is home on a visit. She returns to her school on Monday. Allan Robison, who is attending business college, St. John is also spending a few hours later. Deceased leaves a wife and family.

Anti-Dandruff, Dods's Kidney Pills, Dr. James' Nerve Smith, Orange Quinine & Wine. Campbell's Quinine & Wine, Enos Fruit Salt, Faines Celery Compound. California Syrup of Figs, Beef, Iron and Wine, Quinine, Iron and Wine, Cough Balsam.

W. H. CARTER, Druggist and Apothecary. COR. QUEEN & CARLETON STS. FREDERICTON, N. B.

AROUND THE WORLD.
The Week's Events in Brief—The Ocean of our Embrace.
Stamboul again takes the world's station record. He went a mile in 2:05 flat. The big mile of Marlborough was found dead in Blenheim Palace Wednesday morning. Mr. Bain, M. P. for Boulogne, whose seat is contested, will resign to save costs, and a new election will take place. The big mile of Marlborough was found dead in Blenheim Palace Wednesday morning. The workmen virtually surrendered. A novel attraction in Halifax is a moose trained to harness and is likely to do some fast trotting in the immediate future. The trial of rev. Dr. Charles A. Briggs, New York, charged with heresy by the Presbyterian church, has been adjourned by the presbytery until Nov. 28. The French despatch boat "Brandon" has been seized by the British steamer "John Holley" loaded with Winchester rifles for Dahomey. Fire broke out in Camden, Maine, about 2 o'clock Thursday morning, and before it was subdued, destroyed the entire business portion of the town including the telegraph office. The report that the Argentine Republic and Peru are combining to attack Chile is said by the Chilean government to be absurd. The report is also regarded in this city as utterly inferrable. Details of an election affray at Holdard's store precinct Anderson county, S. C., on Tuesday, show that three men were killed, and several wounded; all fourteen inches of snow at Ravere du Loup, and that a snow plough had to be placed in front of a train between that place and St. Jean Port Joli on Saturday morning. Thomas McGaughey, a Charlestown toper, perjured himself to save a liquor-seller from punishment, and has been sentenced to reserve imprisonment in Dorchester penitentiary. Advice from Hayti tell of an attempt of uprising at Cape Haytien. Hippolyte was on the alert, however, and nipped the revolution in the bud. There were many arrests, and it is said some executions. Mr. J. M. Ruddock, of Chatham, purchased the Miramichi foundry on Friday last. He has a number of men at present employed putting it in thorough repair and expects in a few weeks to be prepared to fulfill all kinds of orders. Probably the largest financial winner on the election is Mike Dwyer, the well-known turfman. It is said on good authority that he will pocket a gain of nearly \$80,000. Mr. Dwyer placed his money in every conceivable way. The mills in and about St. John are, with one or two exceptions, still running, and it looks as if they will continue in operation for some time. There is an abundant supply of logs for the mills which saw all winter and for the early spring sawing. Mr. Watson, the woman poisoner Neill's counsel, has moved for further respite on the ground that he expects more affidavits from America bearing on the prisoner's insanity. It is, however, expected that the law will take its course, and that Neill or Cream will be executed next Tuesday. An I. C. R. employe named Levi Clark died quite suddenly Saturday night at Moncton. On his way home in the evening he was seized with a fit or fainting spell and fell and injured his brain to some extent. Deceased leaves a wife and family.

Work in all branches of the trade neatly and promptly done.
R. BLACKMER,
Nearly opposite City Hall.
INCIDENT.
SOME people in this town seem utterly incapable of appreciating a generous act, merely because a young man calls on a young lady half a dozen evenings during the week, and occasionally drops in between meals. There are people mean enough to insinuate that it means something besides anxiety about the health of the sick mother or to see how the kitchen range is working. This speaking of ranges that reminds me of the large stock I saw in Chebucto store of cooking ranges and stoves, judging by the stock on hand we come to the conclusion that firm does not intend to take any back seat in that line. Should you require anything in that line just give Chestnut & Sons a call they can satisfy you as they can.
R. CHESTNUT & SONS.
