

LOCAL NEWS.

ILL.—Dr. Atkinson, ex-M. P. P., is lying ill at his home in Bristol, Carleton county.

SHORT FIRE.—On Wednesday the firemen had a short practice spin. They were called out on account of a slight fire in Alex. Thompson's paint shop, Brunswick street.

THANKSGIVING SUPPER.—The ladies of the Methodist church held a very successful supper at the church on Thursday evening. There was a large attendance considering the weather.

BELOW TOWN.—Hale & Murchie's mill will continue sawing till the new year. Mr. Morrison will run all winter; thus the people of this locality will have a good winter's work.

GENERALLY OBSERVED.—Thanksgiving day was very generally observed here. There were services at some of the churches, and sociables at several places during the evening. Most of the stores were closed.

INCREASING THE FUR.—Several of the Williamsburg youths were before a local magistrate and had to increase the county fund by from eight to twelve dollars each, for their doings of Halloween.

INDUCTURAL ADDRESS.—Prof. Davidson will deliver an inaugural address at the college on Thursday evening next, subject: "The relations of ethics to political economy." All are cordially invited to attend.

THE C. E. R.—John May has been over the route of the C. E. R., and reports all the bridges in first-class shape. The cars being newly painted, and the road and its equipment in its excellent condition.

THE DREDGE.—It is rumored that the dredge now working at the Otromoto shoals will be brought here to work at the wharves about the first of December. There will be more ice cutting than mud digging at that time.

IN KENT.—Hon. O. J. LeBlanc was chosen as the liberal candidate for Kent at the approaching federal election. The convention which met on Monday was well organized and felt very hopeful as to Mr. LeBlanc's success.

AMICABLY ADJUSTED.—The trouble between the publisher of the Freeman and the printers will, it is thought, come to an amicable adjustment and that enterprising journal continue to find its way to its thousands of readers.

AT CHATHAM.—Rev. Bishop Kingston went to Chatham on Tuesday to attend a meeting of the diocese at that place. There was the annual church union service in St. Mary's chapel on Thursday. A sermon was preached by Rev. Canon Roberts.

HE OWENS.—Private Anderson, a deserter from Ontario, who joined the school here, has been sentenced to forty-five days jail but objects to go. He is still at the guard house and it appears the military are in a quandary as to what to do with him.

FOOTBALL.—The U. N. B. football team met more than they had expected at Sackville, where the ball was kept all the time in the near neighborhood of their goal, and the result was seventeen points for Mount Allison and a goose egg for our boys.

OVER PRODUCTION.—The pulp mill and extract works at Miramichi are closed down on account of an overstocked market. However, there will be plenty of work for the men engaged at these works, as a greater amount of spruce logs will be cut this winter than for several years past.

FOR QUEEN.—J. DeVeber Neales has allowed himself to be selected as a sacrifice in Queens county. He will oppose the Hon. A. G. Blair. It is not yet announced what he has demanded but he has always been a supporter of the government and an office holder. He is to be slain on the 23d.

THE BRIDGES.—Besides the Woodstock bridge, work is going on rapidly at Montserrat, the bridge there over the Petaloudine being about completed. Work is also being done at Killam's mills and Elgin corner, Albert county. The Blackville bridge, Northumberland county, is making good progress.

AT BLACKVILLE.—Mr. Gibson's Blackville mill has ceased sawing for the season and large crews are being sent to the Barthelemy river lumber woods. It is expected that next season will be a brisk one. The grist mill there is in charge of Harry Steele of Gibson, a good miller and very obliging.

SPRAGUE.—It is wonderful to witness the spasmodic efforts made by some of our local newspapers to declare themselves liberal though run by conservative money, printing and influence and truckling to the demands of that party. They were liberal once but it would take a very fine microscope to find anything liberal about them at present.

CONSERVATIVE NOMINEE.—The result of Monday night's conservative convention at St. John was the appointment of George Robertson as standard bearer. George McLeod was first chosen, but as this did not appear to suit the party whips, George Robertson was then put up. The meeting showed that the party in St. John is not in a very cohesive state.

THREE YEARS MORE.—The bass fishing has, as all are aware, been prohibited during the past three years, but to add to the agony three years more are set apart as a time when no bass must be caught. Along the Miramichi this is felt to be an injustice and people are loud in their complaints. The minister of marine and fisheries comes in for many choice epithets.

INSPECTION.—On Monday afternoon General Herbert, commander-in-chief of the Canadian forces, inspected the infantry school and men here. He pronounced himself very much pleased with the condition of the barracks and with the military preparedness and skill of the men. The rooms were severely condemned and there will likely be a change made.

THE GUILTY.—The result of the trial of Rev. Sidney Wilson, C. B. Welton and Dr. Randall, in St. John, was a disagreement of the jury in the case of the former, while C. B. Welton and the doctor were found guilty. The jury stood eight to four in favor of convicting the reverend gentleman and he has been held awaiting another charge. It is a sad blow to the friends of the convicted men as their acquittal was expected.

A WORD TO THE WISE.—A certain sergeant of the infantry force in this city has made himself rather conspicuous during the late election and at several subsequent opposition gatherings. It would appear that he is going outside his place, having no vote he should not interfere with affairs which should not concern him. It is his duty to prevent strife not to take a part in what he knows may create disorder. It is not necessary to name him, but his conduct will have to change or there will be a report that will not be very pleasing to him. A word to the wise is sufficient.

MORE BOMBS.—Circulars were in character than those used in York were now being sent to Queens county in the interests of the opposition. It is not a credible state of affairs when men should try to get into power by defaming their neighbors and by inflicting measures villainous in character. A man who stirs up religious strife will steal or burn a building should he think it necessary, and the people of the province should frown down such scoundrels. We see the beginning but cannot say what the end may be. One thing is plain: Fredericton is not too pleasant a place to live in at present and religious strife is on the increase.

A POLITICAL ATTACK.

The Health of the City Never in a Better Condition.

It would appear that some of our contemporaries are making a great mistake in spreading abroad to the world the fact, as they express it, of the great prevalence of typhoid fever and other contagious diseases in this city at the present time.

In the first place the city has been almost free from disease the past summer—a majority of the people occurring being that of aged people. Again, the city for the hottest months, ranked the lowest in Canada respecting deaths—some months only six deaths occurring in a population of about seven thousand, or one in five thousand.

Most of the readers of these journals know just the reason why there is such an outcry respecting fever; they know that it is only the foundation for bartering one whom the public will not touch, and one whom they will strike in no other way. Is there a member of the council board who does not know that there is a greater menace to health in the very imperfect sewers than there is in the impurity of the water? Why not attack the greater evil?

If logs do lie in the neighborhood of the waterworks, are they not as clean as they can be? Have they not floated in the river for nearly a year? Can it be shown that they could contaminate the water? Remember they are sound and clean.

If there is a scheme on foot to harness Mr. Estey and others who may find it necessary to take logs along the shores, come out boldly and state just what is the reason for the attack. Don't say the city is in a desperate condition, for all know that such is not a fact. Certain of these journals have helped break up manufacturing enterprises in this city before, surely they will not attempt the same with Mr. Estey. What is their record in respect to the late woolsen mill project? If there was a cause for the sudden interest taken by these journals in any threatened condition of the public health, the HERALD would support them; but an attack by them on Mr. Estey, from purely political motives, may not be wise in the least, but will give wide publicity to something respecting the sewers—something practical, not a political attack.

Campaign Echoes.

A word is being disseminated disingenuously at a certain hotel, respecting the brilliancy and honesty of one of the late elected members of York. His harangue had reached a very interesting point when a lady teacher, who had listened patiently interrupted with: "It is no use to tell anything about him; he robbed my father of eight hundred dollars." It is needless to say that the w. g. collapsed.

Speaking at an out of town poll respecting some of the prominent supporters of Mr. Pitts, the name of a certain Fredericton worker, prominent in temperance and other social organizations, was mentioned. "It is a bystander, was run out of our house by my mother with the tongs; he is one of the greatest scoundrels ever in this village." Another said: "When I asked him if such was his name, he denied it, a man that will deny his name is not going to nominate a man to represent me."

The Intercorollary.

The feeling here respecting the proposed transfer of the I. C. Railway to the C. P. R. is about evenly divided. If the C. P. R. is to be the road with the road with the increase in rates—thus taking a heavy burden of taxes off the people—the change will meet with the favor of Fredericton. If, however, it will be the means of increasing the rates and crushing out the C. E. R., it will prove a disaster to the people of York and Northumberland. It must be said however, that a majority in the counties mentioned are in favor of the road remaining as it is; and they say that they have as much right to low tolls as the people of the upper provinces have to canals and large public works that they are taxed for, and from which they derive no benefit. It is believed though that the deal is made.

Scott Act War.

Inspector Mendon, of Chatham. Scott act inspector, received a very bad blow on the face from a flat iron in the hands of Annie Conway at Chatham on Thursday. It appears that he and constable Hill went to Conway's to look for liquor. He found the street door of the bar fastened and a guard on hand. He broke the door in and it came open, but a plank prevented it and the inspector charged through the breach, club in hand, and was met by the flat iron which smashed his nose and cheek. War is now declared.

Pitts' Candidate.

Respecting the nomination of J. DeVeber Neales the Telegraph of Friday says: "It is understood that the opposition party in Queens discouraged the putting up of any candidate. George F. Baird was present and worked the convention along these lines and says, to-night, that Mr. Baird's election is assured now beyond doubt. Pitts and some of his gang were there and they practically nominated Neales. Mr. Baird says Neales' nomination, under the circumstances will make it impossible for the opposition to take him up as it is practically an Orange nomination and the opposition would not commit themselves to that. Our advice to-night from Gagetown are that the better class of oppositionists are entirely opposed to Neales' political reputation."

Representation.

A project is on foot to reduce the representation at the city council board, allowing only one alderman from each ward, and each candidate to be elected by a city instead of by a ward vote. It is believed that this will expedite matters, will lessen friction, and may be more in the interests of the city. Instead of any practical work, much time is spent with trivial matters, while the burden of taxation keeps increasing without any limit. The council may be powerless in this matter, but if so, something must be done to stem the current. If the electors are so largely influenced by the opposition interest. They ought to get tired of being so often induced to oppose their best friends.

Douglasstown Bridge.

The Miramichi Advance says: The contract for the sub-structure of the proposed iron bridge at Douglasstown, tenders for which were advertised for in the Advance, has been awarded to Mr. Lawrence Doyle. The contract price is understood to be about \$3,400 for the stone abutments. The job will be a permanent one. The government treats Douglasstown pretty well, considering that its electors are so largely influenced by the opposition canvasses to vote plumpers in the opinion interest. They ought to get tired of being so often induced to oppose their best friends.

Miriam Robbery.—A young man from Miramichi, going to the west, was robbed here of \$50 while intoxicated, about a fortnight since, a notice of which appeared in a former issue. There has been an attempt to show that the robbery was committed in one of the hotels. Such is not the case, as has been made plain on the street, and the young man was found on the street sleeping, and when found by his friends the money was gone. He was then taken to the hotel and the case given to the police, with no clue as yet.

APPOINTMENTS.—In the county of Northumberland the following appointments have been made: Joseph Williamson, James Stewart and George Loggie to be justices of the peace; Maurice O'Donnell to be alms house commissioner for the parish of L'Anse-au-Loup, in the county of St. John; and Robert S. Sney to be labor act-commissioner in room of Vital Allan.

SILVER WEDDING.

A Fingerpost in Married Life Joyfully Celebrated.

On Tuesday evening a large gathering of the Stanley people met at Harry Turnbull's to celebrate his silver wedding. He had just got his new hotel finished and put in excellent shape, so beside the wedding the affair took also the shape of a house warming. It was an enjoyable time.

Among the guests were: Capt. Howa, Miss S. Howa, J. E. Sanson and wife, Jas. Howa, Mr. and Mrs. J. O. Thorburn, John A. Humble, Miss E. Evans, Mrs. Gill Pringle, Mr. and Mrs. R. Kelly, D. Kelly, Mr. and Mrs. R. Ashford, Mr. and Mrs. McNaughton, T. Currie and wife, Harry and Miss Crotty, David Douglas and son, M. McKinnon and daughter, C. R. Merrill and wife, Geo. and Miss Annie McMillan, Stanley Douglas, Mr. and Mrs. Robert Brewer, T. Douglas and wife.

The wedding gifts were very beautiful and included: silver pickle dish, Alex. Forbes; fruit dish, Alfred Sutherland; dressing case, Miss E. E. Sanson, Mary Crotty, Annie Harley, Messrs. C. McAlton, Thos. Buchanan; photo album, Mr. and Mrs. R. Brewer, John and James White, H. Crotty, James Crotty; water pitcher, D. Douglas, J. Douglas and wife; card receiver, Miss Mary and Ethel Sanson; water pitcher, Mr. and Mrs. John Sanson; dozen Rogers knives, Frank Strickland, M. A. Tweedie, city; silver cup and saucer, Miss Kitty Bider, Stanley Douglas; crust stand, Mr. and Mrs. J. B. Grievie, city; patent rocker, easy chair, dinner set, dozen cups and saucers, hanging hall lamp, large hall lamp, Stanley Douglas and son; silver set, Mr. and Mrs. A. Douglas, Dr. and Mrs. Moore, Charles Patchell, H. Malone; teapot stand, H. Douglas; half dozen cane seat chairs, Malcolm McKinnon and sons. Space forbids the mention of many others attending the esteem of friends.

Prof. Sam. Wary and Sanford Bartlett provided excellent music while the tables were under the supervision of Mrs. Logan who all know who have effected Stanley in fair time is a host in herself.

The hotel is large, painted white, and occupies the centre of the business portion of the village. The dining room runs the length of the main building and part of the ell. The floors are hardwood and all the inside is finely finished. There is a large cellar and good supply of water. A veranda runs round the building with a balcony making a fine seat from which to get a view of the Nashwaak river. The hotel is to be called the River view house. The cost is in the vicinity of \$5,000. There are good out-buildings and large stables. It is quite an addition to Stanley and will help along the active business of the place. The Herald unites in congratulation to Mr. and Mrs. Turnbull on this happy celebration of their silver wedding.

WHY HE SHOULD GO.

He does well to Move to the Commercial Metropolis.

The Miramichi Advance, one of the lively journals of the east side contains the following: "Hon. A. G. Blair, who has sold his residence in Fredericton, is to remove with his family to St. John. Fredericton, thus loses its most prominent citizen and St. John will be honored in securing as a resident the leading and most able public man of the maritime provinces. Some persons seem to think that Mr. Blair has done well in deciding to leave York county, but we think he has done just what he should do. No man could do more for both York county and the city of Fredericton than Mr. Blair has done in the last ten years, during which he has been leader of the government of the province. York, however, has at the instigation of a coterie of fanatical persons, such it professes much rather than men of Mr. Blair's calibre and efficiency to represent it. Why, then, should Mr. Blair waste his life in the interests of such a community? The province, as a whole, appreciates and honors him, and he has no reason to regret his commercial metropolis, where there is a large field for work in his profession and a social and business environment much more congenial to his tastes than that which he leaves. A constituency as treacherous, fanatical and ungrateful as York has proved itself to be in the case of Mr. Blair, deserves to be left to the class of men it has so decidedly declared its preference for."

Maryville News.

The residents of the upper ward, west side, are having an argument laid down by James Conway, who stood at the head of the F. C. B. church.

The foundation of the Episcopal church is laid, just below Geo. Hanson's, on the eastern side of the street.

Much pleasure is expressed here at the gratifying reports respecting the recovery of Miss Sadie Till.

The "new mill," so called, is being thoroughly repaired by the city works, under the supervision of Richard Staples.

On Sunday evening thirteen candidates were joined to the Methodist church under the labors of the rev. Mr. Lodge.

Rev. Mr. Parsons is carrying on a series of very interesting special services in the F. C. Baptist church.

A deal is in contemplation whereby Thomas Wheeler, the old time driver will sell out his stock and wagons to a company composed of Morrison, Waterman, Pugh and McDonough.

John McConnaught's horse took a trot from the barn to Fredericton on Monday without waiting for a driver. He made the road in about the quickest time on record, and with the exception of a collision with a back did no damage.

Passed Away.

In this city on the 6th inst. Mrs. Cornelia Tipple, relict of the late Rev. W. W. Tipple, passed away from this world at the age of seventy-three. She was well known in Queensbury where she spent twenty-five years of her life. There she with her husband removed to this city on account of the failing health of Mr. Tipple, who died within two years of his coming here. She leaves six sons and three daughters.

The remains of Mrs. Elizabeth Berry, widow of the late James Berry who was for many years a gardener at government house, were interred here on Saturday last. Her death occurred at the residence of her son, James Berry, St. John, on the Thursday previous.

John McConnaught, a well known resident of Sheffield, has passed away to his rest. He was buried at Pine Grove, on the eastern side of the river, the rev. C. Dennis and Rev. Mr. Austin officiating. He leaves a wife and three sons to mourn his loss. His age was eighty years.

John Sampson, a well-known resident of Stanley, fell dead at the residence of Thos. Griffiths at Cardigan about ten o'clock on Friday. He was in his usual good health apparently and was sweeping the snow from a wagon when he expired. He was sixty years of age.

James Yerxa, a brother of Barclay Yerxa of this city, died at Boston, his remains being brought here and buried at Keswick on Friday. He was forty-five years of age.

ABANDONED.—All search for the missing South settlement has been given up. No tidings of the fate of the child has been gleaned and no reasonable theory has been advanced. Everything has been done that the city can do but it is a very peculiar state of affairs that the child could disappear without leaving the smallest trace.

FULLY THUNDER.—John Gibson's large schooner will be ready to receive the plank in a few days. All the timbers are now in position and ship experts declare the vessel to be ready for launching during the spring freshet.

GUNS! GUNS!

JUST RECEIVED, DIRECT IMPORTATION, THREE CASES GUNS. Powder, Shot, Cartridges Loaded, Cartridge Shells, Gun Bags, Belts, Pouches, etc. 40 Double Barrelled Breach Loading Guns, With all the Modern Improvement. 25 Single Barrelled Breach Loading Guns, 16 Muzzle Loading Guns, 15 Flobert Rifles, with a large stock of Martin, Winchester and other rifles. All of which will be sold at ROCK BOTTOM PRICES.

JAMES S. NEILL.

WIPED OUT. Cleveland Swept Into Power by a Great Majority. HAS 269 VOTES IN THE ELECTORAL COLLEGE OUT OF 442.

McKinley Tariff Has to Go. The result of the presidential contest on Tuesday will be gratifying to most of our readers, as it is a very apparent fact that a majority of the residents of central New Brunswick preferred the four years of Cleveland rule to the four of Harrison's.

Mr. Cleveland carried the solid south and the doubtful states, Connecticut, New York, New Jersey, Delaware, Indiana, Illinois and Wisconsin by majorities up to 44,000.

This gives Cleveland 269 votes in the electoral college to 151 for Harrison and 22 for general Weaver.

It appears from this result that protection has received a sad blow in the United States. It is a victory of the people over combines, protectionists, monopolists and all the influence of office and money. The republican party is not only defeated but demoralized. Driven to extreme limits a few years ago, they thrust on the people the McKinley bill, and it has proved to be the last straw, the back of the peoples camel has given way under it.

Mr. Cleveland will likely retire from a very active part in public life, and appearances indicate that the democrats will have a long lease of power.

The result may have an important effect upon the traffic policy of this country. There was nothing to expect from Harrison except retaliation. If Canada does not get better terms it must be allowed by all that she will get no worse.

Mr. Cleveland's nomination address showed plainly that he was in favor of the fullest possible freedom of trade on broad general principles. Some time may elapse before he can make a change and before the senate becomes democratic, but when that transpires Canada may expect, if he wishes it, a fair trade policy. There cannot be the least doubt as to the feeling of New Brunswick in the matter. Cleveland's election is taken as a token that better times are dawning, and there is no doubt that the people desire a change of policy. They were told and believed that they could not get it, now they think the time has come to make a bid for New Brunswick's natural trade.

In Connecticut the state was swept clean. Cleveland's majority is over 5,000 where before he had 328. The Democratic ticket is elected for the first time by large majorities. The state senate will be a tie, 12 to 12. The house of representatives is republican, but the democrats elect three out of four members of congress.

Governor Russell has again been elected in Massachusetts. Aside from this the democrats lost heavily in the state.

New Hampshire gave a fair majority for Harrison. In Vermont the republicans had a majority but a very reduced one over former years.

Rhode Island went strongly for Harrison, while Maine gave him a small majority. Arkansas gave Cleveland 29, a surprise and Alabama went still better with a surplus of 30,000. Cleveland's majority in Indiana, Harrison's state, is placed at 8,500. Delaware went democratic by 574 votes. In Idaho the fight was close but it is believed that Harrison is the choice.

The results show that there will be a democratic majority of 100 in the house. At the risk—and the Maryville brass band is bringing this all summer met for one evening late at the rink and found that there was some music still left in the instruments. The rink is now being put in shape for the winter's amusements and will be carried on at a greater scale than usual, there being some features engaged that have not before been put before patrons in New Brunswick.

DANVER'S AFRICA.—E. J. Glave's lecture and views on Africa at the city hall on Monday night were much appreciated by the large audience present. The lecturer was introduced by Dr. Inch, chief superintendent of education, in a fitting speech.

RESIGN.—The cotton mill at Maryville has been running at night for some time past to keep up with orders. Everything is rushing and the big mill is pushed to its utmost capacity.

CLOSE CALL.—A tumor has been removed from the chest of S. McIntyre, a colored man and he is able to be at work again. He has a close call—but is coming out all right.

SIXTY DOLLARS.—The Thanksgiving social at the Baptist church, Gibson, on Thursday night was well attended, the proceeds of the supper and sale being sixty dollars.

J. W. Hart, of the Kingsclear creamery, and Miss Blanche Dykeman, of Queensbury, were married on Thursday evening at the residence of G. W. Dykeman, the bride's father, in the midst of a large circle of friends.

BOOM BUSINESS.—The boom company are putting away their boats and boats for the winter. The season's work, which has been very successful, is closed.

TO ST. JOHN.—Hon. Mr. Blair has leased the house on Wellington row, St. John, belonging to the estate of the late T. W. Daniel.

192 and 194 Queen Street.
