

CABINET MAKING

Sir John Thompson has not yet announced the personnel of his cabinet. It is not generally believed that there will be many changes in the heads of departments.

THE CIVIC ELECT. NS.

The article in last week's HERALD calling upon the citizens to select some suitable person as mayor for the ensuing year, has been the means of bringing forward the names of several gentlemen, any one of whom would fill the position acceptably.

THE LATEST DEAL

The St. John Sun is not happy in the recent disclosure in Kent. J. D. Phinney was the one light in the local opposition ranks of those high toned political moralists.

THE LATEST DEAL

The St. John Sun is not happy in the recent disclosure in Kent. J. D. Phinney was the one light in the local opposition ranks of those high toned political moralists.

BEAR ISLAND

Nov. 25.—We learn that Chas. Huettner, of Coac, had several cattle injured by eating too many apples.

Nov. 25.—

Nov. 25.—We learn that Chas. Huettner, of Coac, had several cattle injured by eating too many apples.

The St. John Sun is inclined to criticize the intention of the Dominion government to do away with the immigration agent for New Brunswick.

It is said that John Black paid the fellow Ashford, one of the most ignorant and boisterous members of the Pitts gang, seventy dollars to go to Queens county and help stir up the "religious" cry against Mr. Birt.

The announcement recently made by Dalton McCarthy that he "will hereafter be a supporter of Sir Oliver Mowat," and that he is in favor of a reduction of the tariff,

Mrs. Gallagher who has been ill with erysipelas, is getting better. On Wednesday evening Miss Hooper addressed a large attendance in the Methodist church on mission work.

Mrs. Melissa Rideout is the victim of blood poisoning said to be caused from getting a splinter in her finger at the cotton mill. It is believed she will come out all right.

The social at Sewall's camp, Mangerville, on Tuesday night for the benefit of Rev. Mr. Nobles, was well attended and much enjoyed. The proceeds amounted to thirty-five dollars.

On Wednesday evening the St. Marys Sunday school held a social for the benefit of the church library. All present expressed their pleasure at the enjoyment provided. Proceeds amounted to fifteen dollars.

On Tuesday evening the members of the Baptist choir presented Miss Lizette Cowperthwaite with a handsome dressing case as a token of their esteem. Miss Cowperthwaite has been a member of the choir for years. She left for Boston on Thursday morning where she purposes remaining.

Work has been suspended on the new Episcopal church here on account of the severity of brick. Nothing will be done till spring.

Rev. Mr. Parsons baptized three candidates at the old church grounds on Sunday last. Services were conducted at the F. C. Baptist church each evening, and much good is being done.

NEW TANNERY.—The Arcott & Co. tannery at Benton, York, is fully completed and is now running order. It is a bonanza to the town.

MUCH OBLIGED.—Handsome calendars have been received at this office from the Liverpool, London & Globe insurance company, Wm. Wilson, agent in this city; also from the Central insurance company, A. D. McPherson, agent; W. H. Carten also presents a very attractive one advertising his drug business, for which we are much obliged.

ONLY SIX.—A statement that calls for contradiction has been circulated freely. It was to the effect that Capt. Howe, one of the recently elected members for York had visited the town on Monday and had taken home a backlog of reports for the local assembly. The truth is he had only six.

Nov. 30.—Chas. Kilburn, son of Byron Kilburn, has recently gone from our midst. He accepted a position offered him by Ben. Kilburn, who is the owner of a large store at Killbuck's station. He will be greatly missed by friends and acquaintances, as he was a favorite with the old as well as the young.

Alfred McKay, who has been visiting friends in Boston, returned home last week. The Baptists of this place are holding a series of socials. The last one was held at Shepherd's on Friday night.

Nov. 25.—We learn that Chas. Huettner, of Coac, had several cattle injured by eating too many apples. Recently a tramp passed through here. This of itself is not very remarkable, but it was a female tramp, or in other words, a man dressed in woman's clothes, as was discovered by some parties where he stopped all night.

Nov. 23.—Four more of our popular young men, viz. Solly Vall, Sandy Sinclair, Dallas Davis and Leonard Harrison, accompanied by James Davis of Fredericton, left here last week bound for New Hampshire. Our young men appear to like logging on the steep mountains of that hilly state, as each succeeding winter sees an increase in the number that go there.

Mrs. Maggie Rogerson of upper Brookway left to do a week's visit to friends in St. Stephen and Bay Side; and rumor says she will return no more as Maggie Rogerson, but to the happy bride of one of our most popular and esteemed young men. May they live to enjoy many years of prosperity and happiness is the wish of their many friends.

There are very few logging concerns on our river this year as C. E. Todd & Son have suspended operations on this river this year. They are very much interested in the fact that they have given work to a great many men and always paid cash for lumber.

Our school teacher, Miss E. Smith has decided to give up her school at the end of this term, much to the regret of her many friends here, as she has proven herself to be a very popular and highly efficient teacher.

We are pleased to learn that Miss Blanche Davis of this place enjoys her new position as clerk in Edgecombe's large dry goods store very much. Miss Davis left her home in St. John, N. B., for her two weeks visit with her sister, Mrs. Thomas of Wilnot.

Miss Dolly Brockway has given up the notion of going to Boston for the winter; we are pleased to have a few of our young folks stay at home, for a good many of them are birds of passage—home during the summer months and away at the approach of winter.

Nov. 23.—A goodly number of our men have left us for their winter campaign in the forest. The Christy mill property, in vicinity of Springfield, has been purchased by Sylvester Moore of Macquac. Mr. Moore has set on foot to work the old mill humming once again.

D. McGrath had the misfortune to lose a valuable three-year-old colt last week, which died after a few hours illness. Killing and sewing bees are the order of business among the farmers and agriculturists in the afternoon and evening having been spent thus with Mrs. S. Gordon and Miss R. M. Howland, recently. The knitting-needle's click, click, may be heard through an occasional lull in the merry buzz of gossip, in Mrs. Reed's cozy sitting-room to-day; while the savory odors that float from Mrs. S. Howland's kitchen tell plainly where the next buzzy bee will be held.

Master Don Reed, while engaged in chopping trees for fire-wood last Thursday, cut an ugly gash in his foot which has confined him to his house for a few days. D. McGrath had the misfortune to lose a valuable three-year-old colt last week, which died after a few hours illness.

Nov. 29.—Moses Pond and Samuel Johnston, accompanied by their dog, were swamping a road about a mile from their home on Wednesday last, when the dog began barking in a frightened manner. On looking around they espied a man under the roots of an upland birch with just a little of his nose in sight. The men had their axes to fight it with, and after repeated blows succeeded in killing the animal. The skin weighed twenty-eight and a quarter pounds and measured seven feet four inches in length, by five feet five inches in width. The fur is said by all to be extra.

Daniel Henderson killed a hog recently that weighed 402 pounds. Mr. Christy, from Peniac, was visiting friends here on Monday. Alie Walker, from Peniac, was here on a gaming expedition. Partridges are very scarce and traveling hard at present.

DEC. 2.—On December 1st a social was held in aid of the Union church, which is not yet completed. After a very interesting musical program had been listened to cake and coffee were handed round. The sum of twelve dollars was realized. On Wednesday, November 30th, David Trearcent was married at Woodstock to Ella May, daughter of Andrew Grant. The bridal party returned by the midnight train.

Owing to the severe frosts for two or three nights, the large pond which supplies the railway works with water has been frozen over and the young folks lost no time in putting on their skates. The addition to the school house, which has lately been built, has been plastered. It is expected that it will be in use next term.

The enterprising merchants of McAdam are looking forward to Christmas, their stores being well stocked with seasonable goods. For a week there has been great trepidation among the Sisters of Notre Dame, Baltimore, Md., who occupy a picturesque convent adjoining St. Andrew's church on the York road, because of the mysterious ringing of the bell at all hours of the day and night. It kept ringing all night and deprived the sisters of sleep. It was heard in the church during high mass on Sunday and the section that was but the bell rang all the louder. The wire was entirely detached from the bell and it made still more noise. The bell was taken down and put up in a different manner. It kept on ringing and nobody could stop it. It rang so violently that the spiral steel spring attached was stretched straight out and the bell oscillated with such force that it beat against the ceiling. Sexton Holmcamp now places it in position every morning and removes it at night.

KILLED HIS WIFE. The story is told by the Chatham World that it is believed in Kingston, Kent, of a resident of that place that he beat his wife to death, and yet nobody has taken a step towards bringing him to account. It is truly alleged that he was drunk that he entered the parlor with an axe to smash the piano on which she was playing, that she stepped between him and the instrument, and that he dashed her violently against it, threw her down and kicked her. Miscarriage and death resulted within the week. The corpse was marked by bruises, mute testimony of a true witness against a husband's brutality. And yet nothing has been done to call the brute to an account. "Buck" was hanged for shooting a policeman who was trying to arrest him. This man goes free after beating to death the woman he has sworn to love and cherish.

A New Brunswick man, so says the Portland Press, who had been a lumber camp near Gorham, N. H., passed through Portland Tuesday on his way home. As the result of an accident he had the bones of one leg shattered, but refused to have the limb attended to, preferring to go back to New Brunswick for treatment. He suffered extremely, but was resolved not to have "a Yankee doctor."

AROUND THE WORLD

The St. Croix Courier is confident that St. Stephen will have the proposed new shoe factory established. The salvation army in the maritime provinces raised \$2,288.57 for charitable purposes during the past week.

It is reported the agent of the bank of British Columbia at Nelson, B. C., is a defaulter to the amount of \$40,000. R. A. Rawlings, ex-captain of the St. John police force, has been appointed a policeman at Moncton at a salary of \$40 per month.

Navigation is still open on the Miramichi and not a sign of ice is yet to be seen in the river. The Nelson is making regular trips between Chatham and Newcastle. Messrs. Dunn Broe are getting the machinery ready in the Purves mill at Carleton, St. John, and expect to commence operations about the first of next week.

The Order of Phoenix is the name of a new society founded on the ruins of Iron Hall. The Order will undertake to branch out and organize subordinate lodges throughout the country. It is reported in Montreal that the cotton combine controlling all the mills in Canada except Parker, St. John, N. B., had secured control of the latter, making the chain complete.

Ptryck Fullan, anti-Paranellite member of parliament from Meath, has been arrested, on the grounds of clerical infidelity on behalf of anti-Paranellites and other illegal practices. Jay Gould, the great Wall street broker, died at his home in New York on Friday morning of pulmonary consumption. He died very peacefully. The funeral takes place Monday morning.

Robert Vanour had one of his legs broken in a mill on the Kouchibouguic river, about ten miles above St. Louis on Wednesday last. Dr. Ferguson of Kingston attended the injured man. The hole in the ground in the Grand or Silver Mountain, Idaho, for which an English syndicate paid \$1,000,000, is pronounced absolutely worthless. It was cleverly sealed before the sale.

It appears that Sir Charles Tupper is not coming to Canada this year after all. The baronet no doubt finds London a very congenial city to live in, and he prefers the easy life of a high commissioner to the hard work of a premier. Dr. John Witherspoon Scott, president Harrison's father-in-law, died at Washington on Thursday afternoon at 4:10 o'clock. He passed away peacefully. He had been unconscious for hours. He was born in Beaver county, Pa., on June 23, 1807.

Deboucheville, premier of Quebec, threatens to resign if Chapleau is appointed lieutenant governor of Quebec. This action on the part of the Quebec minister has greatly complicated Sir John Thompson's plans in forming the new cabinet. A despatch says that news has been received from Samoa to the effect that the native insurgents had attacked the English residents. Orders were telegraphed to the commander of the Queen's light squadron to send the warship Bangaroomo to Apia without delay.

A Digby paper says: E. H. Nichols handed us three fair sized apples of the yellow Balfour variety, which grew as the second crop. The tree blossomed after the first apples ripened and produced fruit fully developed but somewhat small in size. This is a rare occurrence. The Standard's correspondent at St. Petersburg says the appeal of the provinces to the government for help indicates the famine will be acute, though less general than in 1891. Private correspondence believes pessimistic harvest reports but shows that in places peasants are starving.

The men who had been searching for the bodies of the three Campbellton men who were drowned by upsetting the canoe in which they were going shooting, have given up the hunt and returned. They saw nothing of the bodies. Neither of the drowned men underwent the management of a birch. A stone weighing probably ten tons fell from the sky, striking the earth a mile northeast of Newcastle, Col. It sank deep into the earth and was a heated condition when discovered. Its color is of a nature entirely foreign to the locality. People are convulsed it dropped from the north talked of comet.

Six lumbermen who have arrived at Ottawa from the lumbering shanties report that black diphtheria is making havoc among the men employed in cutting timber in the Madawaska camps. Many deaths having already resulted. The people are panic stricken and are without medical aid. The six men escaped from the camp and tramped their way to Ottawa, several hundred miles. The negroes in Memphis, Tenn., were wild with excitement Saturday night. All the colored churches were crowded with their members, who every moment expected to hear Gabriel's trumpet announce the end of the world. Men, women and children fell upon their knees and prayed God to save them from the devil. The comet attracted but little attention from the whites.

Abraham Lincoln When leaving his home at Springfield, Ill., to be inaugurated president of the United States, made a farewell address to his old friends and neighbors, in which he said, "I am now about to quit this world, and I am glad to do so, for I have lived a life of usefulness to my country." Up in the Northwest is a great empire waiting for young and sturdy fellows to come and develop it and grow up with the country." All over this broad land are the young fellows, the boys that Lincoln referred to, seeking to better their condition and get on in life.

The country referred to lies along the Northern Pacific R. R. Here you can find pretty much anything you want. In Minnesota, and in the Red River Valley, or the Dakotas, the finest of prairie lands fitted for wheat and grain, as well as for diversified farming. In Western North Dakota, and in the stock raising limitless in extent, clothed with the most nutritious of grasses. If a fruit farming region is wanted there is the whole state of Washington to select from.

As for scenic delights the Northern Pacific Railroad passes through a country unapproached in crossing the Rocky, Blue and Cascade mountains, the greatest mountain scenery to be seen in the United States from the car window is found. The wonderful land, wonderful in grandeur form and glorious, under a sky of blue, is a scene of beauty and grandeur. Lakes Pend d'Oreille and Clear Lake, are alone worthy of a trans-continental trip. There are the famous Yellowstone, Snake and Cascade mountains, the greatest mountain scenery to be seen in the United States from the car window is found. The wonderful land, wonderful in grandeur form and glorious, under a sky of blue, is a scene of beauty and grandeur. Lakes Pend d'Oreille and Clear Lake, are alone worthy of a trans-continental trip.
