FOODER CORN.—Reports from all quarters go to the effect that the fodder corn sent on by the secretary for agriculture, is doing well and appears to be well suited to the climate.

BAPTIST CHURCH.—The pulpit of this church was occupied on Sunday last, both services, by Mr. Lewis Biggs, of Colgate University, N. Y. His sermons were highly appreciated.

THE BOOMS.—Work at the Douglas and Sugar Island booms will be completed in four weeks; the lower booms will not get through till five weeks later, or about the first of November.

AT ST. PAUL'S.—The Rev. A. J. Mowatt's sermons at St. Paul's on Sunday last, drew out a large attendance, all of whom appreciated the services very much. The reverend gentleman has many friends here, this being very strongly attested on Sunday.

SUMMER TRAVEL.—As a sample of what a good river boat would do for this city it may be said that Thursday evenings trip of the Weston had twenty-seven American tourists who put up at the Queen. The Barker almost as large a number.

SHARP SHOOTING.—One of our city officials shows a fifty cent piece with a bullet hole through the centre. To test the accuracy of silver shooting of a Tobiague guide he placed the silver against a tree at thirty yards distance. The guide readily pierced the coin.

NORMAL SCHOOL.—Already 300 applications for admission to the Normal school have been received and it is expected that the total roll will contain 900 names. Last year's class was the largest since the opening of the institution, but this year bids fair to beat all records.

THE WATER WITCH.—The hull of the Water Witch has been rescued from the waves and will be repaired and used in future as a low boat propelled by horses. The engine will not again be placed in her. The undertaking should have been a success, but it failed because so river men say the hull was not strong enough for the engine.

FOOTBALL PICKS.—The R. C. congregation of Kingsdale will hold their annual picnic at French Village on Tuesday, Aug. 30th. All sorts of sports will be arranged. Admission to grounds 10 cts.; dinner, 30 cts. and tea, 40 cts. A big time is promised, and as these picnics have been well carried out in the past the present one should be largely patronized.

SALMON.—Large fish, supposed to be salmon, have been seen this year in the Magaguadavic, near St. George. Your correspondent speaking to Mr. Glendinning, fish warden, of this fact, was told that these fish were likely the species that was placed in the Magaguadavic waters some years since. They have gone out to the salt water and are unable to return on account of the numerous dams on the river.

THE RED MEN.—Indian agent Farrell, of this city, who makes an annual trip among the children of the tribe, says that the Indians are steadily showing improvement in their homes and surroundings. He has under his charge 700 Indians, distributed thus: Edmundston, 40; Tobique point, 120; Woodstock, 80; Kingsdale, 100; St. Marys, 110; Ormoco, 50; Upper Gagetown, 57; Apohaqui, 38; St. John, 18; and Charlotte, 20. There are three schools at Tobique point, Kingsdale and St. Marys.

THE KINGSLAR CATTLE LAW.—Coun. Murray's cattle law appears to have excited the ire of the residents of back Kingsdale. The reasons given are, that the law is specially designed to benefit the farmers of the front. Cattle are put out on the backlands all the summer and the residents of these places in Harvey, Mystral settlements and Smithfield have to watch their crops all summer; that the law should be changed to read May instead of November. It is said that a petition will be circulated to have it modified.

NABEWAK BRIDGE.—Jimmy says the bridge across the mouth of Kingsdale is dangerous. Had he been on board on Saturday night he would not have knocked that bogus bill of sale off his carriage on the bridge. Like a horse thief he has got tired of blessing and is now on a circuit; Jimmy's circuit, however, being bounded by the jail limits. Will he come out squaring any way whether the bridge be when he crossed it and own that the stick in his gin was all the timber he knew anything about that evening.

REHS IN COTTON.—The St. Croix Croquet, some time since, published an account of the great work done in one of the rooms of the cotton mill at that place. The Marysville men set out to do better and have accomplished it. In one week three slasher dressed 3,786 cuts of pattern work, sixty-three yards to a cut. The slasher men were: James Hovey, James and Wesley McConeghy. John Hiron made the slasher, helped the slasher and attended the web drawing. This is far ahead of what the St. Croix mill did yet Marysville has not as yet done its best.

SONS OF ENGLAND.

Their Anniversary Parade and Supper.

One of the finest processions seen on our streets for some time was that of the Sons of England on Sunday morning last. This fraternal society has had but a short existence in this city and county, but its growth has been strong and rapid, and it has now been grounded among our other institutions.

Shortly before the time for morning services crowds began to gather on Carleton street and soon the parade was formed as follows: I. S. C. Band, Standard Bearer of Islington and Rose of Stanley Lodges, Mayor Beckwith and John Payne, Members two abreast, Officers according to seniority, Chaplains in gowns and caps.

The procession filed down Queen to the cathedral where an interesting sermon was preached by Rev. Mr. Murray, of Stanley, from the text, "Blessed is the nation whose God is the Lord."

On Monday evening a banquet was spread at the church hall when about a hundred of the members and guests attended. Banquet and other decorations added to the attractions and the Sons had their tea in the very highest style. The president of Islington lodge presided, supported by president of the Sons of England, Stanley lodge, with G. H. Parker to his right, on the left of the chairman were Judge Fraser, Rev. Mr. Murray, of Stanley, Rev. G. G. Roberts and Rev. Mr. Weddell. Capt. H. H. Copple occupied one of the vice chairs, and F. B. Edgewood another.

A round of toasts and songs followed the supper, the company dispersing about two o'clock.

HIBERNIANS.

Their Excursion and Picnic at Chatham.

The Federation contingent of the Ancient Order of Hibernians left on Monday morning for their annual outing. This year Chatham was their destination. A train of seven cars was packed so that when additions were made to the crowd at Cross Creek and Boletown standing room had gone up to a hundred per cent. St. Michael's congregation of Chatham had gotten up a picnic to welcome their Celestial brethren. A base ball game between Celestial and Chatham nine was one feature of the day, the latter city carrying the honors by 23 to 8. The Federation and St. Michael's band furnished music, the former band going to Nelson for a sail during the afternoon.

Several of the ships in port carried hunting in honor of the visitors. His Lordship, the Bishop of Chatham was in attendance. The prizes and prize winners were as follows: Water color painting, Mrs. E. R. Adams; Fancy cushion, J. D. Craghan; Hall hanging lamp, Wm. J. Walsh; Canary and cage, Miss Lydia Kane; Knitted counterpane, Miss Barbara LeBreton; Lady's work box, Jennie Flanagan; Silver ice pitcher, E. Keating; Handsome cushion, Vincent Flanagan. The receipts amounted to something over twelve hundred dollars. The party arrived here about half past one, much pleased with their outing.

Novel Horse Race.

The following bit of history appears in a pamphlet published by the International Steamship company and is worthy of mention. It was taken from the St. John Gazette of January 1825. "RACE EXTRAORDINARY—Some days ago a bet of \$100 was made between Lord Hill and the 2nd Regiment of the King's Dragoon. Sirivers to drive from Kings square in the city to Avery's hotel in Fredericton, each party to drive a span and have two persons in each sight. They started at 6 a. m. on Saturday last (New Year Day), and in the short space of 6 hours and 32 minutes Mr. Hill drove to the place appointed. Doubts were entertained towards the close of the race as to which would best, but one of Sirivers horses dropped down with fatigue within three miles of Fredericton, which terminated the business. At the time he was a short distance ahead of Mr. Hill. The horse died shortly after. This bet had not, we learn, been kept for racing purposes, but was borrowed only two days previous, one of Mr. Siriver's horses having gone lame. The distance, including covers, etc., which they were obliged to ground on account of the weakness of the ice, is computed to be eighty-seven miles."

The wedding foreclosed by last issue of THE HERALD took place on Wednesday, the 6th inst., when Miss Gertrude McFarlane, a second daughter of Walter McFarlane, manufacturer, of St. Marys, was married to Robert Howie, son of Jas. R. Howie, merchant tailor, of this city. The ceremony took place at the residence of the bride's father, St. Marys, in the early morning in the presence of many relatives and friends.

The Rev. A. J. Mowatt officiated. The bride was the recipient of a handsome silver tea service from the workmen of Mr. McFarlane's factory, while the employes of Mr. Howie's establishment presented a beautiful parlor lamp. Many other magnificent presents attended the best wishes of friends for the young couple. They took the David Weston for St. John, en route to Nova Scotia, where they will tour for a few weeks.

Marysville Notes.

Miss Maud Fisher has been appointed to the new school here.

The R. T. of T. held a mammoth picnic at the Parry last afternoon.

Thos. McCree, overseer of one of the Fall River cotton mills, was here on Monday.

Rev. J. T. Parsons is removing into the new parsonage lately purchased by his congregation.

James Gibson, W. and A. Gibson with five friends from Boston and St. John, have spent the week at the Narrows.

A great many improvements have been made in the interior of the Methodist church under the supervision of Mr. Likely, a report of which will appear in our columns.

Messrs. Gibson, Perry and Potter, of Melrose, Mass., have been visiting the town. They spent two days on the upper Nashwak and by the aid of a camera will carry away sketches of the scenery along that stream.

Richard Staples, the inventor millwright, is continually adding improvements to the mill here. He has now arranged an automatic oiler for the gangs. It is the general custom to oil each hour, thus causing a loss of at least five minutes each oiling, or fifty minutes in the day to a gang, 200 minutes all told, or four hours and ten minutes, almost half a day's saving for one gang saved.
