THE MANSLAUGHTER CASE.

Mr. Powell Moves for the Prisoner's Discharge, the Court Rules Otherwise.

DONOVAN, June 10.—This afternoon at the opening of the court Mr. Powell on behalf of the defence, moved for the discharge of the prisoner on the following grounds: "First: There is no evidence to go to the jury. Second: There is no evidence of any violence being committed. Third: If violence was committed there is nothing to connect the prisoner with it. Fourth: If there is any evidence of such violence and any evidence connecting the prisoner with it, there is no evidence of excess of punishment which a person standing in loco parentis would be justified in administering. Fifth: If there is any evidence of violence there is no evidence of such violence having caused the death of the deceased. Sixth: There is no evidence of any fear on the part of the deceased such as is necessary to produce death. That a mere probability is not sufficient for the case going to the jury. I take the further ground that supposing there is evidence of violence, and that such violence contributed to the death of the deceased, there is no evidence to show that the causing of death by such violence was a result, or could fairly or reasonably be expected to follow as a result of such violence. Mr. Powell then took up the different grounds and explained them very fully. His main point was that there was no evidence adduced by the crown to show that the girl had actually been whipped since October which whipping could, in no way, cause the death of Mabel. His honor decided that there was sufficient evidence to go to the jury, although he held Mr. Powell had made a very strong presentation. Mr. Powell then opened for the defence. He said: That the defence would call witnesses to prove that Mabel was well used by Mr. and Mrs. Stevens, that they were not a violent couple, that the night of the 3rd he (Mr. Caldwell) went into Mabel's room and found her vomiting. He also showed how he would prove to the jury that the prisoner was innocent. Miss Margaret Hughes was then sworn. To Mr. Wells—I reside in Point de Chene at present. I have been at Mrs. Stevens' for five months. I only saw at Mrs. Stevens' once in 1892. I remember seeing Mabel there. She looked as well as usual when I was there last September. I saw no marks on her face, and she received. I did not observe any marks on Mabel. I remember Mabel went to the Opera House with Mrs. Stevens when I was there. She was always in good spirits when I was there in 1892. To Mr. Pugsley—I made night dresses for Mabel. The night dresses I made for her would not be below her feet. Sometimes Mabel seemed to be cross and surly and other times very good natured. I only judged her appearance. Miss Minnie Adams was sworn. To Mr. Wells—I have known Mr. and Mrs. Stevens for about three years. I have been to Mrs. Stevens' sometimes for three weeks at a time. I was to Mrs. Stevens' while she and Mr. Stevens were out west. I saw Mabel. Miss Stevens treated Mabel kindly so far as I saw. I heard of Mabel taking some handkerchiefs. When I was at Mrs. Stevens' Mrs. Caldwell and Lucy were there and Mabel. This was after Christmas. I stayed at Mrs. Stevens' the night of the 2nd of January. Miss McDonald was on the stand when court closed this afternoon.

ALLENDALE.

JUNE 15.—Allendale is looking its best just now. Crop growing fine, the black flies are the only thing that mar the happiness of our people. The late arrivals at this place is Mr. and Mrs. James Adams Jr. Although quite a young man when he left home he has made the first improvement in Allendale, where he followed the carpenter trade, from there he went to St. John and worked some time. After getting married he concluded to see what the states was while he expected to Brooklyn, N. Y., his family, about thirty years ago. This is Mr. Adams' first visit to New Brunswick since he left home. Mr. Adams has been very successful in Brooklyn, owning a fine property in that city. They are staying with his brother, Andrew Adams. Mrs. Madden this morning having grown much worse had to call in the doctor again. We were in hopes that she would be able to get out again after her long illness. We had our other visit from our popular pedlar, Mr. Baird, this morning.

UPPER MAGAGUADAVIC.

JUNE 15.—We are having very fine weather at present. A great many of our men are working on the logging train, making the place look deserted. Mrs. E. Case is visiting at her father's W. Jamieson's. J. Jamieson is enjoying a visit from his daughters, Miss Lizzie and Marie from Vermont. They have been away for over two years; and they will be heartily welcomed home. Sherman Glass has returned home looking well after his work. Miss Leonard, teacher at Blaney Ridge, spent Sunday with Miss E. McMillan. Miss Maud King passed through here Saturday en route for Vanocboro to her aunt's. Fishing excursions and hunting expeditions seem to be the order of the day. The fishermen have been very successful this season; but we often hear of the abnormal fish brought up to the top of the water, and then thinking of prior engagements, exorcises and swims placidly away. Willie Ray has been very successful having succeeded in catching three fine bears. STANLEY, NO. 2. JUNE 7.—The farmers are busy getting in their buckwheat, and are daily expecting two yearly visitors, the tax gatherers and the potato bugs. We generally stuff the one with promises and the other with the green. Mrs. James S. Fairley was taken suddenly ill on Saturday last, with lung trouble. There has been quite a run of gasperaux in the Miramichi. Win. Richards has a large force of men and horses working on the corporation drive. The water is quite low. Our enterprising merchant, B. Thibodeau, is now prepared to exchange cloth for wool, with the farmers at reasonable rates. He has also, in connection with his well furnished store, a good blacksmith shop, and can do anything in that line with neatness and despatch. Ben is a hustler and can blow his bellows with the best of them. English Spavin Liniment removes all hard, soft or calloused lumps and blisters from horses, blood spavin, curbs, splints, ring bone, swellings, sprains, sore and swollen throat, coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful blemish cure ever known. Warranted by Davies, Staples & Co.

ABRAHAM LINCOLN

When leaving his home at Springfield, Ill., to be inaugurated president of the United States, made a hearty address to his old friends and neighbors, in which he said: "MEMORABLE GIVE YOUR BOYS A CHANCE." These words come with as much force today as they did thirty years ago. How give them this chance? Up in the Northwest is a great empire waiting for young and sturdy fellows to come and develop it and "grow up with the country." All over the West and are the young fellows, the boys that Lincoln referred to, seeking to better their condition and get on in life. Here is their chance! The country referred to lies along the Northern Pacific R.R. Here you can find pretty much anything you want. In Minnesota, and in the Red River Valley, or North Dakota, the finest of prairie lands fitted for wheat and grain, or as well for diversified farming. In Western North Dakota, and Montana, are stock ranges limitless in extent, clothed with the most nutritious of grasses. If a fruit farming region is wanted there is the whole state of Washington to select from. As for scenic delights the Northern Pacific R.R. passes through a country unparalleled. In crossing the Rocky, Bitter Root and Cascade mountains, the greatest mountain scenery to be seen in the United States from the coast to the coast. The wonderful land, wonderful in graceful form and glowing color, are a poem. Lakes Pend d'Oreille and Clear d'Alene, are alone worthy of a trans-continental trip, while they are the fishermen's Ultima Thule. The ride along Clark's Fork of the Columbia river is a daylight dream. To cap the climax this is the only way to reach the far-famed Yellowstone Park, to his old friends and neighbors, in which he said: "MEMORABLE GIVE YOUR BOYS A CHANCE."
