LOCAL NEWS.

OUT OF DANGER.—Lady Allen who has been seriously ill is now considered out of danger.

GETTING BETTER.—Rev. Wm. Downey is so far recovered as to be able to sit up and move round the house.

BEST YET.—A Stanley correspondent says that the past winter has been the best for years in that section for getting out lumber.

DAILY MEETING.—W. W. Hubbard, of the Kingsclear creamery, attended the Nova Scotia dairymen's meeting at Truro last week.

SHORT FIRE.—The roof of Fred McCausland's house, upper end of King street, caught fire from some sparks Tuesday at noon. There was little damage done.

ONLY A FEW.—Owing to the rain, only a small party of Templars moved toward the Masseyville on Tuesday last. They were well received and royally entertained.

CONFIRMATION.—On Tuesday, in the Mission chapel at St. John, Bishop Kingston confirmed thirty-three persons, seventeen males and sixteen females.

NO DAMAGE.—I. P. Ferris, M. P. P. for Quebec, on his way to this city on Monday, was hit by a horse through the ice and received a slight injury, but no damage was done.

RECEIVED A CALL.—Rev. B. H. Thomas, of Carleton county, who is well known to most Halifax readers, has recently received a call to the First Baptist church at Athol, Maine.

AFTER THE HUNTERS.—Howard Branncombe, of Queens, lately appointed game warden, has been up in Carleton county during the week looking after the hunters in that region.

PAY NOT WORK.—It is evident from Ottawa despatches that William Lipsett's name has been added to the Dominion pay roll, but he does not himself know what he is being paid for.

LOST HIS TEAM.—John Howard, of Lincoln, while driving home from this city with his wife on Wednesday, lost both his horses through the ice. They were a fine team and the loss is a severe one.

ST. MARY'S CHURCHYARD.—The item in last issue respecting the St. Mary's churchyard was misleading. The motion respecting a charge of \$5 on all bodies burying their dead in the aforesaid ground failed to pass and the matter remains as before.

HAS MANY FRIENDS.—Albert Palmer, ex-M. P. P. for Queens, was among the visitors to the house on Wednesday. Mr. Palmer, during his legislative experience, made many friends both in the house and in the city, and all were glad to see him.

LEAVE OF ABSENCE.—Miss Lettie Cliff, of the York street school staff, has, on account of falling health, been compelled to take leave of absence. Miss Lillian A. Burt, late of the Victoria school, Moncton, will take charge of the department for the present.

ANNOUNCED.—The case of Thos. A. Armstrong against the city of Fredericton, to recover damages caused by his cellar being flooded with water on account of the inefficient sewers, came up at the York county court on Tuesday but was adjourned till April.

WON THE SUIT.—In the civil case before the York county court, an action entered by R. K. Dickinson against the C. P. R. for damages for the killing by a train of five cows and a heifer at Canterbury Station, a verdict was given for the plaintiff of seventy-two dollars.

FERRY.—A perjury case in which the Cronk brothers, of Nackawick figured was before the police magistrate on Friday. It appears from the evidence that there has been trouble for some time and the present case was appealed from Justice Munroe's court at Lower Southampton.

NASHWAK BRIDGE.—At Nashwak bridge the piers are finished, the second span from the north side is being put in position, while the framers are progressing with the frame for the next span. The weather, suitable to rapid work, and the bridge is being built as fast as is consistent with a good job.

MOCK PARLIAMENT.—The students at college have a lively session of their mock parliament on Saturday evening and the attendance was large. The government carried a large majority on the vote to amend the reply to the speech from the throne. F. G. Green, minister of finance, delivered an able budget speech.

FAREWELL.—Capt. Galt, who has been in command of the S. A. here, had to say farewell on Sunday evening last, and goes to Ontario for a vacation. The gathering was crowded. A manufacturer of this city, to help pay the captain's expenses, put a ten dollar bill on the plate. Capt. Galt has been the most successful officer ever in command of this corps.

HIS OPINION.—A farmer returning from the city on Wednesday was asked at the Covered Bridge by another farmer if he had been to the house. He replied that he had. "How do the York members get along?" "Well," said he, "Pitts writes, probably blood and fire screamers for his paper; How dreams of the half-bred he would have killed had he gone to the North-west; and Finder just sits—and smiles."

AT GRAND LAKES COAL.—The Green coal mine at Grand Lakes, now in possession of Walter McFarlane of St. Mary's, is to be sold to an American syndicate as soon as arrangements can be made. One of the new company with Mr. McFarlane and Edward Jack have been viewing the property, one of the best mines at that place, and a bargain will be struck. It is expected that the syndicate will boom the business.

TO CORRESPONDENTS.—Owing to lack of space, we have been forced to hold correspondence from Upper Gagetown, Hoyt Station, Canterbury Station, Gagetown, upper and lower Prince William, Scotch Settlement and Benton. All of this correspondence is new and bright, but while the house is in session correspondents will be as brief as possible, and should their items not appear they will know that it is no fault of theirs.

ORDER OF UNITY.—It is painfully evident that the Order of Unity has become insolvent. For over a year past members in this city and vicinity have refused to pay their calls, and a large number therefore dropped out of the ranks. The assessments became very numerous and so suspicion was aroused. There are something like one hundred and sixteen members here who have paid in an average of \$100 each. Many do not lose much as they from time to time drew out considerable sums as sick benefits at \$20 per week.

Mrs. HUNT AT THE HOUSE.—The address by Mrs. Hunt, the great temperance lady lecturer, before the house on Friday from 12 o'clock till one, was very much appreciated by the members as well as by the many citizens who filled the gallery. Her subject particularly was the teaching of temperance in the schools. She forbids that description of the address of which it was well worthy. His honor the lieutenant governor and Lady Tilly occupied seats on the floor of the house.

SEES A DARK CLOUD.

It Could Turn its Attention to Other Matters With More Effect.

The St. John Sun which sees a very dark cloud looming up on the political horizon at Ottawa is strenuously endeavoring to turn the mind of its readers to other matters that quarter by quoting what it pretends to be overcharges in some of the provincial departments. It would amaze the people of New Brunswick, and perhaps afford some instruction also if it would explain why the Dominion government pays that journal \$14,000 a year, or about forty dollars a day; why it costs the people of the Dominion about \$2000 to buy the number of cheap for the departments at Ottawa yearly; why there should be about \$3,000 of the people's money spent yearly under the pretense that it is paid for washing towels for the various saints or sinners who fill the federal offices. Don't strain at a gnat and swallow a camel. Br'r Sooth, but speak out respecting what you are assured is the unlimited extravagance of your masters.

It would be as well also in your criticisms of provincial affairs to enquire into matters closely yourself and not depend too much on your Fredericton correspondent, who, though a brilliant accountant, is not always to be relied on respecting provincial or county finances. You know that he had a hand in the census report which showed that Fredericton had seventy-one new industries producing the greatest "bum" imaginable. It does not detract from the correctness of his figures if he counted each wood sawyer as a saw mill for short lumber.

Give us a good plain statement of the man-agement of the Sun, worked at Ottawa and an occasional dash of provincial affairs will get you the appetite of your readers. In this connection the Miramichi Advance says:

"The righteous soul of the St. John Sun is much moved because, according to the New Brunswick auditor-general's report, about twenty individuals, firms and incorporated companies have been paid an aggregate of \$12,429.00 for printing, lithographing, advertising, etc., during 1892, for the government at Fredericton. The same paper, however, views with perfect equanimity the fact that the Dominion auditor-general's report of the Sun publishing the names of the party, alone, was paid \$13,870.00 for printing and advertising for a similar period, chiefly for the Intercolonial railway. The Dominion auditor-general has complained of the fact that the bills for work done to the Sun office is not permitted to go through his office for audit, and the reason may be assumed to be because the press charged would not be paid by the official. Under these circumstances it might be expected that the Sun, in its usual fault-finding with the local government, would have the prudence to stop short of the printing accounts.

THE EXODUS.

Some Facts in Connection Respecting York County.

As this is the season of the year when residents get more or less uneasy respecting their prospects for the summer, and perhaps for life, and as quite a number are going or preparing to go to the states, a few items respecting the exodus from this county may be of interest. Atlantic, which was one of the most thriving sections of the parish of Dumfries, has now more vacant houses and farms than it has tenanted ones. Lake George, in the parish of Prince William, has vacant houses, or seventy per cent of its people in the United States. All over this parish, except on the river front, there are untenanted farms, many of which had been occupied for from ten to fifty years. New Maryland has also suffered severely. Some fine farms are lying silent and alone. In fact one whole section is depopulated. Of eighty families at Marysville, who were there or went there thirty years since, but three have not some or all of their family in the United States; but it may be said that this village has grown into a town in the meantime with a great growth of population. Mansfield has also felt the draft, many families going from Harvey, Little Settlement, Acton and Cork. Douglas and Kenwick have also added to the number of those gone across the line, and the very fertile parish of Stanley has sent upwards of a hundred to Uncle Sam's territory. It only requires a day's outing in the county to satisfy a skeptic that there has been an exodus, and a large one at that.

THE BURGLARS.

Caught in the Act of a Marysville House.

Since the burglary at Davis, Staples & Co., on Sunday, the 12th inst., the police have been making careful search for the perpetrators. A glove had been found at Geo. Wheelpley's the morning after the barn was broken and the glove was the clue by which the D. S. & Co. robbers were traced. On Sunday last word was received that Geo. O'Ree and Henry Gordon were having "big time" at the negro house above Marysville, and deputy sheriff Hawthorne and policeman Phillips went to that town. There they were reinforced by officer Barker and C. Clark, and went to Hudlins' residence. Here they found the men they wanted hidden in the attic. They were promptly arrested and brought to this city. On Monday they pleaded guilty before the police magistrate. The trial was postponed as another new case was wanted and at that time had not been found.

Before sentence was pronounced his honor decided to see if there were not others concerned in the affair, and by noon on Tuesday Hedley Bolton was arrested on the ground that he had received the stolen articles. Gordon and O'Ree got two years in the penitentiary.

At Upper Gagetown.

A very pleasing concert with the following programme took place: solo and chorus, Pulling Hard Against the Tide, Miss Nettie Coy; recitation, Holy Hand Breaker, Charles Watson; violin solo, Miss Blanche Tibbitts, accompanied by Mrs. Tibbitts, encores; solo, God Bless You, Miss Ada Coy; recitation, Over the Hills to the Poor Home; Miss Clara Brooks; song, Going to Market, Miss B. Tibbitts; song, Old Home Down on the Farm, Rev. W. R. Reed, accompanied by Miss Nettie Coy; encore, Let the Lower Lights be Burning, recitation, Lady Anleigh's Guest, Miss Louise Weston; mandolin solo, Miss B. Tibbitts, encores. The usual vote of thanks was then passed and tendered after which the pies were sold. John F. Hoban performing the duties of auctioneer. Total proceeds amounted to \$27. The money is for the benefit of the Baptist church.

Deaf and Dumb.

The report of the Fredericton deaf and dumb institution for the past year, shows that eighteen boys and nineteen girls, a total of thirty-seven pupils, have attended that institution, ages averaging from seven to twenty years. The school has had a very successful year. Its receipts equalled its expenditures, the amount being \$4,717.79. The school may now be said to be fairly established and has taken a place as one of the educational institutions of the province.

Visitors.—Among visitors to the city during the week may be mentioned: Judge Hamming, J. L. Black, ex-M. P. P. of Sackville, Judge and Mrs. Landry of Woodchester, A. B. Connell and wife of Woodstock, Nelson of Sussex, H. C. and G. P. D. Tilly, sons of the lieutenant governor, Mayor Chipman of St. Stephen, Wm. Douglas, ex-M. P. P. for Charlotte, Geo. A. Marchie, St. Stephen, Mayor Ray of Milltown, John Rutherford of Harvey, Henry Johnston of Welsford, Squire White of the Narrows, and J. McD. Belyea of Cambridge.

UNDEVELOPED.—Geo. R. Adams is going to New York to take a course at a first-class undertaking establishment. He will return about the middle of May and open an undertaking business here.

OBITUARY.

Deaths of Popular and Well Known Persons.

Daniel McGinnis, of Marysville, who has been a great sufferer from cancer of the stomach for months died at his residence there on Tuesday evening. Deceased was a native of Richibucto, and had a large circle of friends in the adjoining town.

Allan Ramsay, son of Thomas Ramsay of Marysville, died at his residence, Quebec, on Monday. Deceased was a graduate of the U. N. B., and followed the profession of a civil engineer, his work being in connection with the railways of the Dominion. At different times he held important positions on the C. P. R. He was a member of the U. N. B., and followed the profession of a railway, who with three children survive him. One of his sisters, accompanied by Nelson Campbell of this city, left on Tuesday to attend his funeral at Quebec. All the other residents of Marysville remember Allan very well, and he had their greatest respect.

Married.

At Armstrong's Corner on the 22nd inst., by the Rev. Wm. Wass, William B. Lyons was married to Miss A. Mand Barton. No wedding has perhaps for years taken place in that district between parties with so many warm friends.

Rev. A. C. Dennis performed the marriage ceremony at Gagetown on the 21st inst., that united for Mr. David Howe and Miss Sarah Brooks, both of Lawfield, Queens Co. They have hosts of friends in that district who wish them much felicity.

William L. Anderson, of the firm of Anderson & Walker, this city, was married on Tuesday, the 21st inst., to Miss Ella S. Pullen of Boston, Mass. The ceremony was performed at St. John by the Rev. L. G. McNeill. Mr. Anderson and his bride have the best wishes of all.

At the residence of Mrs. John Chase, sister of the bride, on the 22nd inst., the rev. Mr. Payson solemnized the marriage between Annie Boone of Oromocto, and Herbert Nason of Ruslogomis. Both are favorites in their own neighborhoods, and are receiving hearty congratulations.

LUMBERING.—The north-western part of the county has been heavily lumbered this winter especially in the neighborhood of North Lake, Monument Brook and Grand Lake. On these waters there were about 5,000,000 feet of spruce and cedar logs cut, and 5,000,000 on Pirate Brook, a feeder of Grand Lake. These logs have been got by St. Croix parties. The winter has been reported extra dry for lumbering.

THE BRIDGE.—Despite the prophecies, the highway bridge is now in a fit state for the crossing of the water, and the work of putting down the top loar is not yet completed. Of course teams are supposed to travel the ice, as the bridge has not been opened to travel, but in case of necessity five minutes work will make safe crossing. Mr. Burpee has been in a good job of it in a very short time.

Graveyard Insurance.

In the Supreme court here yesterday judgment was delivered on the writ of error in the Wilton-Randall conspiracy case. Justices Hanington and King did not hear the argument and took no part. The chief justice, Palmer, Fraser and Tuck had lengthy written judgments, the reading of which occupied the court over an hour and a half. Justices Tuck and Palmer were for reversing the judgment of the St. John county court and quashing the conviction, taking the ground that the companies alleged to have been defrauded—the Total Abstinence and Golden Rule Alliance—were doing business illegally in Canada, and that there could be no conspiracy to defraud an illegal transaction. The Chief Justice and Justice Fraser took the opposite view on this point, but were in favor of a new trial, on the ground of improper admission and rejection of evidence and misdirection of the jury. The court being thus divided, Justice Tuck withdrew his judgment, so that the judgment of the court is for a new trial.

FIRE AT LINCOLN.—The house and barns of Geo. Howland were burned to the ground on Monday about noon. Mr. Howland and wife were absent but two children were in the house when the fire started. The neighborhood gathered and saved what they could. Two colts were pretty badly scorched before they were rescued.

W. C. T. U. SOCIAL.—The W. C. T. U., of this county, invited the students of the Normal school and university at a social in their hall on Thursday evening. The principal part of the entertainment consisted of addresses by Mrs. Hunt and Mrs. Archibald, two well known temperance lecturers.

MASS MEETING.—In connection with the new hall to be built at Gibson in the near future, the temperance people intend holding a mass meeting at a date not yet fixed. The hall is a necessity, and it is supposed that there will be no difficulty in procuring enough money to build it.

MCDAM FIRE.—McAdam had a serious fire on Saturday last when a house owned by Geo. J. Baskin and occupied by Andrew Miller got in a blaze. As there were plenty of men and a large supply of water the flames were quenched before much damage was done.

VESSEL ON FIRE.—The schooner Mary George owned by D. F. George of this city caught fire at St. John on Wednesday morning and was lost. It is thought however, that no serious damage will be done.

TO TOUR THE PROVINCE.—Dalton McCarthy has stated that he will tour the whole of the province and that he will thoroughly canvass the maritime provinces.

HOUSE BURNED.—Thomas Thompson's dwelling house at Lakeville Corner, Sunary county, with most of the furniture, was totally destroyed by fire on Wednesday last. There was a small insurance.

WHITE'S COVE.

MARCH 23.—On Thursday last the ladies of Mill Cove, Baptist church, gave a Banquet and concert in the hall here. The day proved stormy but in the evening quite a number gathered and the sum of \$8.00 was raised which will be used to defray the expenses of the Sunday School.

The Sons of Temperance gave an entertainment in their hall on Friday evening, which consisted of numerous recitations, readings and songs, after which the ladies of the church gave a picnic and cake followed by candy and nuts by the boys, all expressed themselves well pleased.

The many friends of Mrs. Miller Branncombe, will regret to learn of her death, which occurred on Thursday. The funeral was held on Sunday, the rev. Mr. P. King preached the funeral sermon.

As Andrew Kennedy and wife were returning home on the ice their horse became frightened, throwing the occupants out of the sleigh, it then ran out on the lake but was caught by some skaters.

Geo. Knight, had the misfortune to lose a valuable two year old colt.

Gallery Notes.

It has been taken for granted that the genial Geo. F. should hold the position of forty-second member of the local assembly till time shall be no more, but it appears evident that he will have a contest for the place with Messrs. Amelius Atkinson, of Carleton County. The doctor does not appear anxious however to put up the money.

Dr. Alward who does not pose as a free-trader by any means had the tables turned on his money on Thursday, in the discussion respecting the tax on pedlars. He said that the bill would open a trade and therefore he would oppose it. The Hon. Mr. Emmerson, said that he hoped the honorable member for St. John, would not only oppose all restriction to trade between countries.

The vote on the Atkinson amendment showed the opposition an unlucky thirteen. Fate appears to be against the party with so many P's, Pitts, Pinder, Perley, Powell, and Phinney.

Mr. Sievwright, of Gloucester is one of the most active of the new members of the legislature. He looks carefully after his county's interests and is prepared to speak intemperately on any subject that comes up. He bids fair to take a leading part among legislators.

Mr. Dibble did perfectly right in not presenting the petition from Carleton county respecting the public schools. It was put into the hands of Pitts to present and he wanted to foist it upon Mr. Dibble. There are very few members in the house who care to be connected with Pitts in any way, not even his colleagues from York.

The Carleton Sentinel says of the members for that county: "Mr. Dibble is a capital speech. It was his maiden effort as a legislator, and if he improves, or maintains the reputation gained thereby, his standing as a debater is assured."

Hon. Mr. Connell spoke well and to the point, meeting the several interruptions in a way to settle his argument and retort upon his questioners.

HOUSE KEEPERS.—House keepers and intending house keepers should call and see the beautiful new goods in Edgcombe's carpet rooms. The importation this season is particularly fine and artistic, and being imported direct from the manufacturers you can depend on the price being correct. So whatever you need for floor, window or door, you will find in these rooms, up second floor.
