NEW ADVERTISEMENTS.

THIRD PAGE.

Farm for sale..... .....H. B. Rainsford

LOCAL NEWS.

HOOP MAKING.—Several St. John parties are doing a large hoop making business at Rusiagornish.

PRACTISING.—Dr. Owens has removed to Woodstock from Millville and taken the late Dr. Connell's office.

AT BAYSIDE.—Miss Thompson of this city, has secured the school at Bayside, Charlotte county, for the ensuing term.

BELOW ZERO.—Thursday evening the mercury registered eighteen below zero, the lowest this winter in this city.

SPECIAL SERVICES.—Rev. F. C. Hartley is holding a series of special services at the F. C. Baptist church with good results.

ROYAL COMMISSION.—The royal commission on the liquor traffic resumes work on Tuesday next at Montreal. Dr. McLeod left on Friday to attend.

MEDICAL.—Dr. Bridges has secured the Dr. J. Z. Currie property on York street, and has commenced practice. Dr. Currie intends going to Boston for a visit.

SLEIGHING.—This city is now enjoying about nine inches of snow, the fall of Monday night, and the sleighing is excellent, with a consequent larger traffic from country districts.

APPOINTED.—Ora P. King, of Sussex, has been appointed judge of probate pro hac vice, in reference to the estate of Samuel Carson of Carsonville, Kings county, deceased.

WOOLEN MILL.—The new woolen mill built by Willis and Myles at Woodstock is about ready for work. The mill will be driven by a 45 h. p. engine, and machinery has been selected that will make the very best cloths.

SCHOLARS.—The hotels and boarding houses are full once more, the Normal school students having returned. Quite a number of the young people of the city have gone to other places to teach or attend schools.

AT BLACKVILLE.—R. H. McGinnis, lay reader for the parishes of Derby and Blackville, was presented by his friends on the 2d inst with a well filled purse as a token of esteem. The gathering met at the residence of B. N. T. Underhill.

NO BILL.—The case against a clergyman of this city for assault which came on at the York county court, was thrown out, the crown officers deciding that there was no evidence on which to found a bill and the case was dismissed.

FREDERICTON SKATER.—John A. Wisely, formerly of this city, was defeated in a skating race at Bangor on Monday last. He would have won but his skates cut through some shell ice throwing him. He did the five miles, however, in 18.34.

HAND MANGLED.—Mr. Hansein, an employe at Morrison's mill, met with a severe accident there on Wednesday evening. His right hand got caught in a shingle machine and was pretty badly mangled. He was brought here and received surgical aid.

GONE UP IN SMOKE.—A fire broke out at Sir Leonard Tilley's residence, St. John, on Tuesday evening and did much damage. Every thing in his library, including books, documents, furniture, was destroyed, many valuable reminiscences of his political life going up in smoke.

GONE WEST.—George Wilson, of the late firm of Wilson & Wilson, barristers, left on Tuesday for the Northwest where he will go into the practice of his profession. He is a young man of much legal talent, and will be heard from in the land of his adoption. He has the best wishes of all for success.

PROGRESSING.—The C. E. R. Co., who are making strenous efforts to give the public the very best accommodation, are to open the branch line from Blackville to Indiantown for traffic as early in spring as possible. This will be a great benefit to residents of the latter place, especially.

SUPPLY FOR REV. MR. ROSS.—At a meeting of the Presbytery of St. John on Tuesday morning in St. Andrew's church, it was decided to aid the home mission committee in securing and paying a supply for a month for the rev. Mr. Ross of Prince William, who is gradually recovering from illness.

CONVENTION.—The liberals of Queens and Sunbury intend having a monster convention on Wednesday next at Gagetown. From reports there will be much business of interest to that party up for discussion, and efforts will be made in each county to have as large a representation as possible.

SONS OF TEMPERANCE.—Sunbury division, No. 385, S. of T., have elected the following officers for the current term: E C Perley, W P; Kate Harding, W A; W Perley, R S; W R McGee, F S; G F Banks, treas; Bell Miles, chap; J C Harding, con; B Bent, A C; E Butler, I S; A A Treadwell, O S; M Harrison, organist; Jas Shields, P W P.

FOR THE HOSPITAL.—The hospital aid society intend holding an entertainment in the city hall on the evening of Tuesday, the 17th inst., for the benefit of the hospital fund. The program will include among other pleasing features a tamborine drill and operetta "The Gypsey Peddler." The F. O. M. W. orchestra have promised to attend.

A JOB FOR HIM.—William Lipsett, who has lost the position of janitor at the parliament building, through his own acts, has seen fit to take up the baby racket and has imposed on the suffering public, who may [illegible] the Reporter, a column and a half of "tears." He should be presented with several napkins and employed to flood a skating rink.

NO PAY.—The special meeting called by the city council to deal with the question of providing a salary for the city fathers was a failure. It is either follow the same old system or give place to others who will. Perhaps the aldermen did not think it was an opportune time to strike for wages; especially as the aldermanic elections are so [illegible] at hand.

CALLED AWAY.—Eben. Miller of this city was called to St. John on Monday to attend the funeral of his brother-in-law, W. G. Mathewson. The funeral took place on Tuesday at St. John, there being a large attendance. Being past master of New Brunswick lodge, No. 22, F. and A. M., his brothers in arms buried him with all the honors due to a worthy member.

CRISP VS. CURRIE.—Rev. Isaac Howie has written out the charges made by Mr. Currie and the document has been placed in the hands of Dr. Sprague, chairman of the committee. A committee will meet at Fredericton on February 1st, when rev's Crisp and Currie will be examined. A complete investigation will be made and the fault placed on the shoulders of the proper person.

FOR DAMAGES.—Miss Bina Henry of the university class of '91, has just recovered from an electric railway company of Chicago $125 for damages sustained in an accident on their cars. While endeavoring to board a car it started, and she was thrown, receiving a severe cut on the head. She advertised for the addresses of those who saw the accident, and soon had sufficient evidence to convince the railway company that there was no chance to trifle with her. They compromised the matter with the above result.

BILLS OF SALE.

Annual Meeting of the Board of Trade.

The Fredericton board of trade held its annual meeting on Monday afternoon at the city hall with a large attendance. Henry Chestnut read an interesting paper relating to the defects in the present laws respecting bills of sale. It dealt with the matter in a very particular manner, and convinced any who might have before been doubtful that there is an urgent necessity for a change. Mr. Lemont made an address dealing with the same question, and all in all, the matter was pretty well ventilated. A committe composed of A. Randolph, Wm. Lemont, and M. Tennant was appointed to confer with the government on this question.

The insurance rates also came up for discussion. All members were of the opinion, that considering the amount spent for fire protection here, the insurance rates were too high. The council of the board were authorized to petition the New Brunswick board of fire underwriters and ask a reduction from the present tariff in this city.

The following officers were chosen for the year: Pres., J S Neill; vice-pres., Wm Lemont; sec., J W McCready; council; A G Edgecombe, J J Weddall, M Tennant, A H F Randolph, G W Hodge, F Chestnut, F B Edgecome, J T Clarke, J M Wiley, H H Pitts, A Lottimer; arbitrators, J S Neill, W Lemont, J W McCready, O McGoldrick, J Pitblado, G Whelpley, A Staples, and A Randolph.

Now for a Skate.

After urgent requests the Fredericton curling club have decided to open their rink for skating every Monday evening during the winter, so long as they receive patronage to cover expenses. The C. R. I. band will be present each evening. Ladies' tickets have been placed at 15 cents; gents' tickets 25 cents. Doors will open at 7.15, first band at 8 o'clock. Tickets to be had at the rink. Former efforts by the company to keep the rink open for skating were not patronized, and the result was the rink had to be closed. They will attempt it again, and will do all possible to please the public if their efforts are rewarded. They only ask for enough to pay expenses. This pleasant sport should be kept up. Fredericton had in years past, skaters fit to meet all comers, but the sport has died out; patronize this effort to revive it.

Parents and McNeills.

Capt. James W. Leonard of Deer Island, and others of the heirs of the Parent property in New York, held a meeting in this city on Wednesday evening. John E. Moores of Queensbury was present. It is very probable that this fine property will come into the hands of the Parents of Queensbury, and the McNeills of Nashwaak, as evidence is forthcoming that they are the heirs without the shadow of a doubt. A report is expected in a few days from a Boston lawyer which, it is expected, will throw much light on the subject. In the meantime Capt. Leonard is visiting the heirs at Queensbury and other districts, and all will be represented at the next meeting to be held here in a short time. The property is of great value, and it is hoped by all that the heirs will be successful in pushing their claim.

Summer Visitors.

From authentic sources we learn that this city will have an unusual influx of summer visitors the coming summer. Besides governor Russell of Boston, and others from that city, several representative men of Bangor, who have made St. Andrews the objective point of their summer touring, will come down here for a few weeks. It is plain that this city pleases American visitors very much, and with little advertising and suitable cottage accommodation the population of this city during the summer months might be much increased. It is highly probable that several suitable cottages will be erected as early in spring as possible at a point a few miles above town, and inmates for these are already secured. Now is the time to prepare for a rush.

The Law Courts.

Quite a discussion took place at one of the leading hotels on Thursday evening respecting the location of the law courts; and it was among the lawyers themselves, many of whom are in the city attending the courts. With the exception of a city practitioner, who happened to be present, the party were unanimous that the courts should be held at St. John instead of in this city, and they favored the passing of a law to make the change. Of course if this is the feeling, and the legislature sees fit to grant it, Fredericton will again be a sufferer. When a bill was up for this purpose before, it was lost by one vote; it may have a different result this time.

Smashed Their Skulls.

A few months since, Joseph Pelletier of Madawaska, was arrested at that place for desecrating a graveyard. Before he could be sentenced he managed to escape across the line. On the first of the present week it was learned that he had returned and was in hiding at his residence, where constables Maxime and Martin went to arrest him. Maxime went up stairs where the culprit was hiding, and as his head appeared above the floor, Pelletier struck him with an iron bar and knocked him senseless. Martin at once rushed to the rescue, but to meet the same fate. Pelletier then escaped to the border, but strong efforts are being made to effect his capture.

Sad Suicide.

A sad case of suicide is reported from Grand Falls. A young man, a native of that town, Henry McCluskey, was in company with two others hunting on the head waters of the Tobique river. The party made their headquarters in an old camp on Sisson brook, about thirty-four miles from Grand Falls. Food running low, two went to procure a fresh supply leaving McCluskey in charge of the camp. On their return next day they found McCluskey dead with a bullet hole through his breast. After being conveyed to the town an inquest was held when the verdict returned was that deceased had deliberately shot himself,

The McMichaels.

The prisoners McMichael, father and son, will be presented at the court for trial for the murder of Fred Titus at St. Marys, on Tuesday next. The younger man appears to have very little realization of the position in which he is placed and apparently enjoys a talk on the subject. The old man is more reserved and taciturn and now that the time for trial is approaching appears very irritable. It is said that the youth is not a son of McMichael but is a boy, named Hope, whom he adopted. At present they have engaged no counsel.

DROWNED.—A former resident of Oromocto, William Davis, lost his life in California on the 20th ult. while at work for the English dam company. When knocking a plank off a dam he fell in and was swept away by the rush of water. His son attempted a rescue but it was of no avail. He was in his seventy-fourth year. Deceased was the father of Mrs. John T. Currie, of Oromocto.

PROSTRATED.—Rev. J. A. McLean of Harvey Station, who has been unwell for some time past, was suddenly prostrated on Thursday morning by pneumonia, but is getting better. He attended the late presbytery meeting at St. John and overtaxed his strength.

RESUMED WORK.—The N. B. foundry has resumed work after a short respite for repairs, stock taking, etc. This is one of the principal industries of the city, and when closed down makes Ing street especially very dull indeed.

FARMERS AND DAIRYMEN.

Program Arranged for the Annual Meeting.

The annual meeting of the farmers and dairymen's association of New Brunswick will be held at the city council chamber in this city, on the 25th, 26th and 27th of this month. The following program has been arranged:

Wednesday, 25th, 3 p.m.—Opening; president's address; remarks from visitors; reports of officers and agricultural societies and appointment of committees. Evening session, 7.30 p. m.—"Agricultural education," Dr. Inch, chief superintendent education; Messrs. Howard Trueman, George E. Baxter, president Owens and Geo. Trueman.

Thursday, 26th, 9 a.m.—Practical working of cream separators and a Babcock milk testing machine. 10 a.m.—The discussion on dairying will be opened: "The cow, her feed and how to handle her products," by practical gentlemen present; "the position of dairywork in New Brunswick," by John Robertson"; "a practical illustration of buttermaking," by S. L. Peters; opening of question box, and general discussion. 2 p.m. "the essentials of success in co-operative buttermaking," J W Hart, supt experimental dairy station, Sussex; a general discussion of co-operative dairywork; how best to start creameries and cheese factories; markets for dairy products and what they demand, by Messrs. John Robertson and J W Hart. 7.30 p.m.—"The essentials to success in a good cheese making business," by James N Sloat and others; general discussion and opening of question box.

Friday, 27th, 9 a.m.—Practical working of cream separators and milk tester. 10 a. m. Election of officers; "corn growing and the making of ensilage in York county," by David Parent, Queensbury; the same for Kings county, by Abram Alward, Butternut Ridge; reports from corn growers and siloists in all parts of the province; general discussion. 2 p.m.—"Sheep husbandry in its several branches" will be discussed by Messrs Robt Brown, Northampton, H B Trueman, Point de Bute, and P C Powys, Fredericton; a general discussion with particular attention to the dog nuisance will follow; reports of committes and passage of necessary resolutions. 7.30 p.m.—Fruit growing—apples and small fruits, several papers; "enemies to fruits and how to fight them," prof Fletcher, dominion entomologist, Ottawa; general discussion.

The by law committee will meet on the evening of the 24th, at the Queen hotel, and the executive committee at 10.30 a.m., 25th, in the city council chamber.

The Nashwaak Bridge.

Oppositionists are endeavoring to make capital out of affairs connected with work at the bridge across the mouth of Nashwaak. Mr. Foster was told to do a certain amount of work there that was necessary to prevent accidents and that completed his duty, was done. Instead of hundreds being spent on this bridge the fact is that its cost the past five years has been very little, not so much for repairs as any other bridge on the same stream between Stanley and the mouth. There has not been expended on it in the past five years as much as at Marysville after the freshet that took out the span, and this bridge suffered at the same time.

As to the trouble between the Messrs. Haines and Foster, all the trouble is the imagination of a jack-knife carpenter of St. Marys, who attempted to build bridges and failed disastrously, and then because the government would not put him in boss builder or chief commissioner or some similar position he demeans himself by trotting across the bridge and retailing his petty tales to opposition journals, the editors of which have crossed the mouth of Nashwaak bridge on a visit to a Scott act hotel often enough to know all about the structure. It forms capital however whether true or not to have a shot at the government and employes, but these things are getting pretty well played out. The object of the attacks at present is to have the work stopped but it will go on all the same.

New Brunswick Dairying Co.

The general annual meeting of the shareholders of the New Brunswick dairying company (limited) was held on Saturday last at Lower French Village. The reports of the officers showed the business of the company to be in a progressive and flourishing condition, and the shareholders approved of the course taken, by giving them an almost unanimous re-election. The following resolution, moved by Mr. Bliss and seconded by Mr. Powys, was unanimously carried:

Resolved, That we, the shareholders of the New Brunswick dairying company (limited) in annual meeting assembled, desire to express and place upon the records of the company our deep sense of the irreparable loss which we in common with this community and the people of the county of York generally, have sustained by the lamented death of our late president, Chas. E. Murray.

The board of directors for 1893 was elected as follows: Messrs G W Dykeman, W T Whitehead, J C Murray, Isaac Kilburn, Z R Esty, P C Powys, A E Cliff, Willard Kitchen, Ranney Murray, Egerton Everett and W W Hubbard. Byron Kilburn was appointed auditor for the company. At a meeting of the board, after the adjournment of the shareholder's meeting, the officers were elected as follows: President, G W Dykeman; vice-president, W T Whitehead; secretary, W W Hubbard; treasurer, Isaac Kilburn; auditor for directors, Egerton Everett.

Marysville News.

Prof. Cadwallader has been visiting St. John.

Several of the young people have gone to Sackville to resume work.

It is announced that the rev. Dr. Carman, the great Methodist divine, will preach in the Methodist church here to-morrow morning; Dr. Allison, of Mount Allison college, will occupy the pulpit in the evening.

The members and adherents of the F. C. Baptist chuch, met at D. Pughs residence on Wednesday, and formed an association known as the F. C. Baptist Christian Aid society. One of its aims is the construction of a sidewalk from the Methodist church to the F. C. Baptist church. The following officers were elected; pres, Mr. Hallet; vice-pres, Miss Jane Robinson; sec, E. Staples; treasurer, H. Manzer.

A case has been put in the hands of town marshal Barker that is exciting some interest. One day during the first of the week, a lady chanced to go to a neighbor's leaving no one in the house and not locking the door. On her return she found that her husband's watch, valued at $30, had been stolen. Suspicion fell on a man who had been seen in the vicinity, and it is expected he will be looked after very shortly.

Gibson and St. Marys.

Miss Sewell returned on Monday to St. Martins.

Arthur Brown is seriously ill, but it is thought he will recover.

Dr. Mullen has gone to take a post graduate course at McGill medical college.

John Culligan, who has been confined to the house for some weeks, is getting around again.

The social in the church hall on Tuesday evening under the auspices of the Episcopal church, was well attended and was a success.

Freeman Rideout, who was hurt seriously on Saturday last by a fall from a bridge on the Gibson-Marysville road, is able to be out again.

The congregation of Rev. Mr. Parkinson of this place, and friends from the city, met at the manse on Thursday evening and presented the worthy pastor with a well filled purse as a token of esteem for himself and Mrs. Parkinson.

GOOD DONATION.—The sum of $792.68, collected by the bishop in aid of the sufferers by the great fire at St. Johns, Newfoundland, has been forwarded by the bank of New Brunswick without charge.

MAL-PRACTICE.

Dr. Turner, of Eel River, Before the County Court.

One of the cases before the coun[illegible] court, that is of especial interest, is that [illegible] Albert Patterson of Eel River against D[illegible] Turner of the same place for mal-practi[illegible] on a daughter of the plaintiff. J. A. Va[illegible] wart and D. Jordan appear for the plaintif[illegible] with attorney general Blair for defenc[illegible] Mrs. Patterson, Wesley Carpenter of S[illegible] John and Dr. Colter of Woodstock, wer[illegible] the witnesses examined on Wednesday.

Wesley Carpenter said that at the time o[illegible] the child's illness in March 1891, he was at Eel River, and enquired of Dr. Turner how the child was getting along. Dr. Turner replied to the effect that he had been in consultation with Dr. Colter that day and that he was going to prospect for the cause of the swelling on the child's body. He (witness) visited Albert Patterson's and on Sunday morning Dr. Turner came and after chloroforming the child, drew off about a tablespoonful of a milky fluid in a syringe. In answer to a question he, Dr. Turner, replied that the fluid was water the air causing the milky appearance. This water was put into a vial and carried by witness to Woodstock to Dr. Colter.

Dr. Colter said that when called to see the child in March, 1891, he found it propped up with pillows. He ordered the child stripped and laid down. The first thing he noticed was the child's heart beating on the right side of the breast bone. He saw a uniform swelling of the left side from the arm pit to the hip; spaces between the ribs distended. He called Dr. Turner's attention to these points. Dr. Turner agreed that the cause was pleurisy. Dr. Colter said it might be months or years before the lung will recover its usefulness. He detailed the working of the disease and the general treatment in such cases. He said he would remove the puss or water if the patient's life was in danger.

Dr. Hand was called, it being agreed that he would not be required to give expert testimony. He said he had visited the child and repeated the drawing off of the pus. He swore that he did not see any holes in the sides of the tube which prevented the free delivery of the water. This does not appear to coincide with Mrs. Patterson's evidence.

Dr. Colter was then examined by Mr. Vanwart. He was questioned respecting his procedure should he find symptoms such as Dr. Turner had found. He said that if he believed the enlargement on the child's side did not endanger life, he would not perform an operation but would follow ordinary methods but in high fever he would give relief if he was compelled to take a desperate course. This case did not appear to be of long standing. He was absolutely sure when he first saw it that it was a pleural gathering and as long as that remained, there was danger to life. He had met with as great displacement of the heart before. If an operation has to be performed the earlier it is done the better for the patient. He would not care to say that the operation should have been performed a day or two before it was. The tube for carrying off the matter was kept in the child's side an unusually long time, due to the youth of the patient and to the fact that as the side fell in, due to the outflow of the matter, the ribs came together and without the tube would have prevented the flow of the pus. The rib was not cut on account of the youth of the child. He said in all his practice with similar diseases he had not cut a rib. He then detailed his treatment in cases of pneumonia, which always accompanies pleurisy, whichever predominates gives the name to the illness. This concluded Mr. Vanwart's examination.

He was then examined by attorney general Blair with but a repetition of his direct testimony. He said that if he had had the proper instruments with him at the first visit, he would have performed an operation. There was nothing in Dr. Turner's treatment to obstruct him.

Theresa Patterson, daughter of the plaintiff was then sworn, her testimony being similar to those published.

The case is being continued to-day and will not be concluded till the middle of next week.

FOR POINTS.—The game at the curling rink for points on Tuesday last terminated as follows: H C Rutter, 18, W K Allen, 17, Thos Fowler, 15, J B Grieves, 14 and Jas S Neill, 14. A full length rink was used and the scores show fair playing. On the 18th inst. the following rinks will play the Thistle and St. Andrew's clubs of St. John and the St. Stephen's of the border city on the 19th inst.: T Fowler, M Lemont, G W Hoegg and T G Loggie, skip; H V Bridges, J S Campbell, A F Street and J B Grieves, skip; G Y Dibblee, A H F Randolph, J H Hawthorn and E H Allen, skip; L C McNutt, C E Neill, J S Neill and Harry Rutter, skip. The game for the oysters on Wednesday evening resulted in a victory for Campbell's rink over J H Hawthorn's of 14 to 4.

PULP BUSINESS.—It is evident that there is a stir in the pulp business. The maritime chemical fibre company, of Miramichi, want all the suitable logs and wood they can get for their factory. In the fall they closed down for a time, the market being overstocked, but now it is apparent that there is a rush. It is a grand business along the C. E. R., for the farmer as well as the railway. Only the best small spruce is used and the Miramichi spruce is the very best known for the product.

IN QUEENS.—The people of Queens county are very much pleased at the prospect of having two such capable representatives as attorney general Blair and L. Ferris, M. P. P. They are satisfied that the affairs of that county will receive a fair share of attention and that they have men who can look after their interests in any case. Mr. Neales, the defeated candidate, has called several meetings of his friends lately, perhaps to fix up the (bills) and so far as heard from there has been a very slim attendance.

ATTACKED BY WOLVES.—W. H. Dykeman, a blacksmith of Jemseg had a narrow escape from wolves last week. While in the woods near the Oromocto stream he came on a couple of the brutes, who sprang at him in a fury. One narrowly missed his throat. Mr. Dykeman had a revolver and sheath knife and only after strenuous exertions did he succeed in beating them off. He received several bad wounds but nothing serious.

THAT STRANGE VISITANT.—From latest reports the dog-fiend which is troubling the residents of a certain part of Sunbury county is still on its nightly parades; the latest is that he has got into the habit of disdaining the doors or other entrances and quietly walks through the side of the domicile. Of course reports are exaggerated but there is something creating much excitement in the district. He still refuses to be shot.

LONG SEASON.—The Fredericton highway bridge has now been closed after having made one of the longest seasons in its history. It is expected that a new covering of planks will be put on it this winter, which will be a chance for a howl from opposition journals. They will howl anyway whether the bridge is planked or not; and it is just as well to warn them in time so that they may get their "facts" together.

MIRAMICHI LUMBERING.—Mr. Johnson, who works for Wm. Richards on the Miramichi, was in town on Friday. He reports about a foot of snow in the woods making good hauling on level ground, and that all the teams available are busy. He says the past season was unexcelled for yarding logs, and the output on the Miramichi will be larger this year than for several years past.

E. Lawrence, optician, will be at Wiley's drug store on Tuesday next (Jan. 17th) for the purpose of fitting the celebrated B. Lawrence & Co's spectacles and eye glasses. One day only.—advt.

The [illegible] agricultural papers, the [illegible] London, Ont., and Winnipeg, Manitoba, is out in new form and type, and presents a very handsome appearance. Hereafter the Advocate will be issued twice each month, instead of once as heretofore, a change which we are sure the farmers will appreciate, especially as the subscription rate remains at $1 per year. If you are not already a reader of this paper, send to the WM. WELD CO., London, Ont., for a sample copy, which will be sent free to all who apply.

WESTMORLAND ELECTION.—The St. John Globe rises to remark that the Acadian members of Westmorland county council have united in a memorial to the government respecting the return of Mr. Richard. It appears, so says the same journal, that they interviewed Mr. Melanson to the effect that if Mr. Killam resigned, Mr. Melanson would not oppose the election by acclamation of Mr. Richard. There does not appear to be much in this statement.

Dr. Lunn, surgeon dentist, saves many teeth by transplanting, which would otherwise be lost. Nitrous oxide gas administered for painless extraction of teeth. Dental parlors next door to Lemont & Sons.

CANED.—Rev. Mr. Fullerton of Calvyn Presbyterian church, St. John, who has resigned that pastorate, was presented by his congregation with a handsome gold headed cane and illuminated address, on Wednesday evening last. He leaves on Monday next for his new field at Charlottetown.

DEATH OF ANDREW CALDER.—Andrew Calder, one of the old and much respected residents of lower Southampton, died on the 3rd inst., at his residence in that district. Deceased was a native of Inverness, Scotland, and was in his sixty-eighth year. He had made a multitude of friends.

TWO LAUNCHES.—Gibson will see two launches this spring. John Gibson's large schooner will be ready to run off in May, and Chas. McCluskey will have his little schooner on the slides about the same date. It is apparent that this industry is gaining ground in this vicinity.

U. N. B. LECTURES.—Lectures formerly held on Saturday afternoons at the university will be resumed on Monday, Feb. 6th, at half-past four, and continued on the following Monday afternoons at same hour. Tennyson will be the subject for the term.

ON KING STREET.—Nearly all the trotters in the city and vicinity were out on King street on Friday afternoon. There will be the usual amount of 2.40 stories going the rounds with the usual amount of truth in them.

HOLINESS MEETINGS.—The Rev. A. Kinney, of Nova Scotia, and Rev. G. W. McDonald, of St. John, with others are holding a series of special holiness meetings in Fisher's building. Everybody is invited.

DUMPING GROUND.—As usual at this season of the year, the river is being made a dumping ground. It is clearly an infraction of the law, and trouble is likely to be the result. Be warned in time.

NO RUNAWAY.—The cause of the gathering on Queen street on Friday afternoon was only a team stopped because a neck yoke was broken. It did not result in a runaway.

HIGHLANDERS.—Among recent arrivals is Major G. T. Sutherland, commandant of the 78th Highlanders of Nova Scotia. He is taking a short course at the infantry school.

Save your money for bargains. Edgecombe will have a remnant sale in the near future which will be announced in due time. Plenty of room and lots of bargains. A real good time may be expected.—advt 1i

NEW ADVERTISEMENTS

VALUABLE FARM FOR SALE.

THE Subscriber offers for sale his valuable farm [illegible] fronting on the western side of the river St. John, in the Parish of Dumfries, about half way between Fredericton and Woodstock, containing 300 acres, of which 40 acres are intervale of the very best quality. There are three houses and three barns on the property. One barn new, 75x30 feet. The house in which the subscriber resided, was built only a few years ago, has a frost proof cellar is roomy and in first class repair. There is a good orchard on the place, and the premises are well watered. The Woodstock boat has a landing at the intervale from which there is an easy road to the highway. This property could be divided so as to make two good farms. For terms and further particulars, apply to the subscriber on the premises, or to HENRY B. RAINSFORD, Barrister, Fredericton.

H. A. DAVIDSON,
Jan. 14, 1893. Dumfries, York Co.
