OPENING OF THE LEGISLATURE.

The New Brunswick legislature, which opened on Thursday afternoon, was addressed for the first time by Governor Fraser as chief magistrate of the Province, and the speech from the throne contains references to the leading political questions of the day. His Honor's reference to the lamented death of his immediate predecessor, was expressed in fitting language, and struck a responsive chord in the hearts of his audience. Perhaps one of the most important questions dealt with in the speech, was the Bathurst school difficulty, which all will hope is in a fair way for an amicable settlement. Another important matter upon which the Governor was able to comment was the reform of the legislature and the country, was the remarkable development, during the past year, of the dairy industry of New Brunswick. In this branch of agriculture, the possibilities of the future can scarcely be estimated, and the practical assistance extended to it by the local government deserves and will receive the strongest commendation of the country. The speech promises some important legislation, including the judicature bill to amend and simplify practice and procedure in the courts, and a measure for the reform of the probate courts, cutting out an important part of the session.

Mr. Wells, the mover of the address, appeared in good form, and made an excellent impression on the house. He is a young man of promise, and will, no doubt, occupy a prominent position in the public life of the Province. Dr. Stockton affected a high literary style in his opening remarks, and his criticisms on the administration and its policy were somewhat labored and stale. His amendment to the address is of the cheap catch-penny character, and will delude nobody. The opposition leader shows great lack of knowledge in his reference to the dairy industry, and his misrepresentation in that regard was promptly disproved by the Attorney General, who showed that the development of that branch of agricultural work had been carried on in this Province almost exclusively by the local government and not by the Dominion authorities, as alleged by Dr. Stockton. Mr. Blair was quite willing to acknowledge the value of the services rendered by the country by Prof. Robertson, the agent of the Dominion government, but the substantial assistance rendered the dairy industry came from the provincial treasury. Mr. Blair handled the Lunatic Asylum business in a way that completely knocked the bottom out of the opposition's attempt to agitate the country on this question.

The government meets the legislature with an excellent year's record, and will, no doubt, command its usual strong support among the members.

A LIBERAL TRIUMPH.

The general election in Nova Scotia on Thursday resulted in a magnificent victory for premier Fielding and the liberal party. While the government majority will not be quite so large in the new house as in the legislature recently dissolved, the government have scored some notable victories in hitherto strong conservative counties. Especially is this true in the county of Cumberland which, ever since confederation, has almost without exception, returned conservatives to both the federal and local parliaments. Antigonish, represented at Ottawa by Sir John Thompson, premier, is also sound in its support of the liberal government. But perhaps Mr. Fielding and his colleagues will take the largest degree of satisfaction out of the disastrous defeat of the opposition leader, Mr. Cahon, in the county of Shelburne, and of his lieutenant, Mr. Webster, in the county of Kings. The opposition, by the defeat of these two gentlemen, is left without anybody possessing the qualifications of leadership, except Dr. Mackay, of Cape Breton, whose efforts in a former house were of a most unimpressive character. Indeed, Mr. Fielding's opponents will be as badly off for a leader of recognized tact and ability as is the opposition in the New Brunswick legislature. The brightest among the Nova Scotia legislators is Mr. Dincock, of Colchester, who has been an entirely inexperienced in political life and parliamentary tactics. The defeat of Mr. Lawrence in that constituency is a distinct loss to the government. One member of the administration, Mr. Macdonnell, lost his election. A remarkable result that announced from Cape Breton, where Mr. Fielding has only carried three out of the eight seats. He held seven of them in the late house and it was confidently expected that his legislation for the development of the coal industry would have assured him an unbroken representation from that island, but the popular fancy sometimes plays strange freaks and the people who had every reason to sustain the government, have elected its enemies. However, instances of that kind are on record much nearer home.

On the whole, Mr. Fielding is to be congratulated on the success of his third appeal to the Nova Scotia electorate. He assumed the office of government leader the same year that brought Mr. Blair into power, and the degree of popularity and power, these two gentlemen have enjoyed during the past eleven years, is only equalled by Sir Oliver Mowat, in Ontario and the late Sir John A. Macdonald at Ottawa. Both Mr. Fielding and Mr. Blair are yet in the prime of life, and we shall be greatly mistaken if we do not call at an early day to the larger arena of Dominion politics.

MR. CONNELL'S RESIGNATION.

H. A. Connell has resigned his position in the government and seat in the legislature, and the circumstances which led up to that action are fully set forth in the attorney general's address, which we publish elsewhere. Mr. Connell has had himself interviewed by some of the newspapers giving his reasons for the peculiar course he has pursued, but no doubt the public will accept without reserve the full and frank statement of Mr. Blair on the subject. Mr. Connell has had his way ninety-nine times when there has been an issue between himself and the other members of the administration, and because he could not carry his point in the one hundredth instance, like a petulant school boy he throws down his marbles and runs home to tell his mother. No doubt the government of the country will be successfully carried on without the aid of his distinguished but erratic services, and the sun will set and set on the Meduznik as of yore.

THE HERALD is informed that representative Keegan, of Maine, who was responsible for the appointment of Mr. Sharkey, the American consul here, having learned of the circumstances of Capt. Whittier's dismissal, has expressed his regret for his part in the matter, and has stated that if he had known how matters were here, he would have hesitated before recommending a successor to him. It appears, however, that Mr. Sharkey entirely disregards public opinion and will hold on to the place, which he should be ashamed to occupy at the expense of a gentleman in Capt. Whittier's circumstances.

HERMAN PITTS, one of the mis-representatives for York, gave one of his characteristic exhibitions in the house yesterday afternoon, very much to the amusement of the small boys in the gallery. Mr. Pitts' oratory is of the jumping jack variety, and when he reaches the crowning point of his indignation, grave fears are entertained for the safety of his anatomy. As a contortionist, Mr. Pitts has a great future before him.

It is understood that Mr. Dunn, M.P.P. for St. John county, has accepted an offer of the seat in the local government vacated by Mr. Connell.

DOMINION PARLIAMENT.

WILL RUN IT THEMSELVES.—The directors of the Kingsclear creamery held a meeting this week to arrange for running their factory for the summer. The present year's lease of the factory to the Dominion government has expired and the company are now in full charge themselves. The directors appointed W. Egerton Everett, manager of their creamery, and Mr. Everett is making arrangements for a dairy depot in this city.

The social will be served from 6 to 8 o'clock. There will be refreshments, and by way of variety, an apron sale, where a fine assortment will be seen to choose from. Everybody go; you will be sure to have a good time, as the socials in the past have testified. The object is a good one—towards church purposes.

Proposed Keely Institute.

Alex. W. Baird, of St. John, and W. Scott Robinson, of New Brunswick, representatives of the Keely Gold Cure Institute, were here this week for the purpose of organizing one of the institutes in this city, which will be open for patients from all parts of the province. They inspected the Ketchum and Wark properties below town, either of which is offered for sale at reasonable price and terms. After looking over both properties, Mr. Robinson came to the conclusion that the Wark estate is the most desirable, on account of its elevated situation, its fine appointment and its splendid water facilities. He has accordingly entered into negotiations with the owners of the property. Mr. Robinson does not want to purchase just at present, but prefers to rent the property for a year, with a view to purchasing it at a later date. He has offered \$6,500. In case negotiations can be satisfactorily concluded, it is said the managers are ready to have the institute in working order within a very short space of time.
