A PROMISING HOLIDAY. If we have fine weather on the 24th there will be lots of amusement in Fredericton.

May 24th, Her Majesty's birthday, comes on Friday of next week, and will be celebrated in the usual happy manner in this city. Indeed the programme, as it looks from this distance, will offer more, and a greater variety of amusements than have ever been hitherto afforded to the citizens of Fredericton on such an occasion.

In the forenoon those who do not go fishing or into the country to spend the day (and these forth of amusement will no doubt have a large number of participants) will have the pleasure of witnessing an inspection and review of the R. C. I. in the officers' square at 11 o'clock. The band of the corps will turn out for the review. About the occasion and the treatment, our excursion will arrive from St. John. The one brought 6000 people up, and there is every evidence that this year's will be no less successful. These, with the large number of visitors from adjacent villages and from the country, will swell the number of strangers in the city to a very large crowd.

In the afternoon there will be sport in almost every corner of the city. At the Trotting Park there will be horse and bicycle races for large purses of money and gold medals. A member of the Park Association tells that there will be a large number of visitors from adjacent villages and from the country, will swell the number of strangers in the city to a very large crowd.

Then it is said the Sons of England will parade sometime during the day, and the firemen are arranging for a torchlight procession in the evening to which they have invited the bicyclists. These two bodies made a very pretty combination when the Governor General was here last summer, and if they can co-operate again, it will be very pleasing to the citizens. The Citizens' and 71st Batt. bands have been engaged for the procession.

Baseball enthusiasts, too, will have an opportunity of witnessing their favorite sport. Two clubs are coming from St. John to play our local clubs. The Denmark from the foggy city will be pitted against the Hoodoo, and the Starlings will compete with the Tartans. A dozen starts will be made at the time and place for the games will be made later.

Still another feature of the programme; Manager Barker of the boxing academy, is expected to have a dozen starts at the Wilmot Park will be open all day and the Citizens' band will play a programme in the pavilion during the afternoon.

We shall be able to furnish the official programme of all these events in our next issue, but in the meantime, sufficient details have been given to show that the public will have an interesting and profitable recreation on the 24th. To our friends everywhere, we say cut out your plans so as to be in the Celestial City on that occasion.

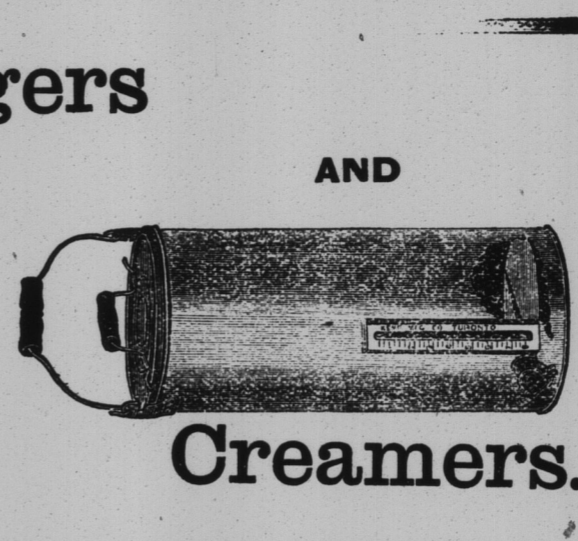

An Ormiston Man Drowned. James Cannon, who belonged to Ormiston and who has been in the employ of Jas. McNeil, driving team on the corporation drive, left Perth, Victoria county, Thursday night about 7 o'clock for Pokok bridge, on the Tobique River, with a team of horses and wagon. The night was dark and by mistake he drove down to the mouth of the Tobique bridge, and it is supposed, drove off the end of the bridge into the swift current below. The Indians heard him shouting for help as he drifted down the river, but his cries died out before they could render any assistance, and the unfortunate man and both horses sank out of sight. The wagon and one of the horses were found on the shore, about two miles below the place of accident, early next morning, with both sets of reins attached, which the drowning man had evidently unstrapped from the other horse, with whom he hoped to gain the shore in safety. The body of the deceased has not been recovered. Cannon formerly worked for Parker Grazier, and one of his sons is now in the employ of Dr. Steery of this city.
