

August 3rd.

NEWS ABOUT TOWN

Social, Personal and General Occurrences of the Week.

CRISP AND TO THE POINT.

Sells Bros. circus paid \$5,000 in customs at St. John last week. Mrs. Fraser will receive at Farraline place each Tuesday until further notice.

The Citizens' band will give an open concert on parliament square this evening.

The Fredericton business closed Friday for vacation. It will re-open Aug. 11. The proceeds of the Foresters' celebration here on July 1st netted the handsome sum of \$330.

D. W. Hoeg & Co's. canning factory is in full swing again; berries are being canned now ad infinitum.

Chas. Wilcox, of Keswick, is in luck. He has lately fallen heir to property in England, left him by an uncle.

Moses Hoyt, an aged resident of Lower Prince William, died Saturday morning at that place. He was 79 years of age.

The hay crop is about all cut and in. Farmers didn't have to stack any of the cut this year; the barn room was ample.

William Kinghorn, of Nashwaakia, who is a delegate to the I. O. Foresters' convention, arrived safely at Liverpool on Monday.

It is said that ex-superintendent Alexander, late of the Cathedral here, has secured a position in a hospital in Montreal. This gentleman was for years a purgator in the British navy.

City Treasurer Moore collected \$27,000 taxes on the 25th, the last day on which to take advantage of the five per cent discount. This was \$500 less than was collected at the same time last year.

The bicycle club house will be ready for occupancy about the 13th of August. The boys are talking of celebrating the opening by a bicycle meet in the afternoon followed by a ball in the evening.

Henry H. Stewart, formerly a compositor in the Farmer office, addressed the Gospel Temperance meeting Sunday evening. Mr. Stewart is now a school teacher; he taught last term at Benton, Ontario county.

The Fredericton Board of School Trustees have decided to extend the time for filing applications for the vacant positions on the teaching staff until Aug. 12th. The applications already in will also be considered.

There is to be a social dance in the Opera House, Woodstock, next Thursday, and the Fredericton cricket team are all invited. Though they did not win at cricket, they were evidently a social success in Woodstock.

Health Inspector Farrell has given the whole "Nigger Heaven" and "White-chapel districts" a complete renovating. If this had been done years ago, the epidemic would have been avoided, but it is never too late to mend.

The 7th band is improving wonderfully. Their open air concert in front of the Normal School last Friday evening was a decided success. Messrs. J. H. Wilcox, W. J. Golden, and J. H. Hawthorn each provided refreshments at the close of the concert.

Deputy Sheriff Hawthorn is after the dogs whose taxes are not paid. Every dog that has not the registration tag affixed to his collar after to-morrow will find it to his advantage to fight shy of the authorities. The city officials mean business this year.

Messrs. Jas. S. Neill, Dr. Conthard, Joseph Walker and Robert Davies returned Monday from a fortnight fishing trip on the Bangor. Though this has been an exceptionally poor season for fishing, they report themselves satisfied. They were successful in landing a good many fish and had a most pleasant trip.

Citizens of all classes will be glad to hear that G. T. Whelpley is now on the straight way to recovery. He has been gaining slowly all this week, and today is able to sit up. The Herald joins with the rest of his friends in hoping that he may speedily be about his place of business as before.

Woodstock, as well as Fredericton, is moving in the matter of complete sewerage. In fact, Woodstock has got considerable of a lead on us in this work. Fredericton is still thinking of probable cost, a wise thing to do, while the Woodstock council has decided to ask for leave to issue \$100,000 sewerage bonds. It was originally the intention of the council to ask for \$25,000, and posters to that effect were all over the city before the council changed its mind.

The annual sale of unmarked lumber took place last Wednesday afternoon. One half million feet of spruce logs were sold to E. L. Jewett, of St. John, for \$8.05 per thousand feet; thirty thousand feet of pine was bought by Hilyard Bros., St. John, for \$8 per thousand; one hundred and fifty thousand feet of cedar was sold to T. E. Babbitt & Sons, of Gibson, and a quantity of hemlock was bid in by the Fredericton Boom Co. for \$2.75 per thousand.

The Tartar base ball nine having returned from a successful encounter with the St. John team, will give the Marysville team another game some day this week. This time our boys will meet the cotton factory club on their own grounds, and as it is a hard ground to play for a team unaccustomed to its hills and valleys, the Tartars will have to hustle to win. We venture the prophecy, however, that they will be equal to the occasion.

Monday afternoon, John Smith, a well known city truckman, was driving down street with his three-year-old son on the seat beside him. His attention was attracted for a moment and when he looked back to the place where the child had been sitting, the child was absent. Looking down he saw the wheel of the heavy truck wagon just passing over the breast of his son. Everything was over in a moment, but the child is probably fatally injured. Morphine had to be used, so great was the agony of the little fellow.

Some little time ago, a specialist was in Fredericton repairing the Cathedral organ. One of the pipes in St. Dunstan's church needed some repairs at the same time, and the gentleman from New York was asked to do the work. His charge was \$80, which was promptly paid, and he departed for New York, taking the organ pipe with him. He has not been heard from since, though he has been written to several times. Now a new organ adorns the Chapel. It was imported by J. F. McMurray & Co., and is the handsomest reed organ ever seen here.

During the thunder storm Friday afternoon, lightning entered the front door of Eley's mill and traversed the whole length of the building, struck the gang chain, and was carried off into the river. Chas. Gough, who works near the slip, was badly stunned but otherwise uninjured. Messrs. Harry Mackey and Wm. Haining narrowly escaped. The mill was set on fire but was quickly extinguished. The saw factory at St. Margy also suffered; the doors of the furnace were smashed to atoms and considerable damage done. No one was injured.

Jeremiah Tracy's store, a small wooden building at Tracey Street was entered by burglars Monday night, between ten p. m. and daylight Tuesday morning. The safe was blown open and three hundred dollars in cash stolen. The safe was completely shattered, one large pane penetrating the ceiling. The money was only placed in the safe Monday being receipts of blueberry sales. There is no clue to the scoundrels. Mr. Tracy thinks the parties knew the money was there, although it must have been the work of expert safe crackers.

Results of the Examinations.

The examiners appointed jointly by the Board of Education and the University Senate to conduct the Matriculation and Grammar school leaving examinations, were in session at the education office on Monday and Tuesday, and report that 46 candidates presented themselves for the matriculation examinations, and 18 for the leaving examinations. Of the 46 candidates for matriculation 12 passed in the second division, 3 in the third division, and 22 others passed in the third division conditionally, that is to say, having the required general average, but failing to reach the average in not more than two subjects. Supplementary examinations must be passed in these subjects before a matriculation certificate can be granted. The remaining 9 candidates failed to pass. Of the 18 candidates in the leaving examinations 10 passed in the second division. No third division is recognized in this examination. The examiners are Prof. W. F. Stockley, V. N. B., Prof. S. W. Hanton, Mt. Allison; John Brittain, Normal School; and Wm. Brodie, Charlotte County Grammar school. These prepared the examination papers and summed up the results. The following associate examiners assigned to the candidates answers: W. M. McLean, M.A., St. John, Grammar School, Latin and Greek; James M. Palmer, M.A., Sackville, Algebra and Geometry; P. G. McFarland, M.A., St. Stephen, High School, English Language; G. H. Harrison, M.A., Carleton county Grammar School, English Literature and Book-keeping; B. C. Foster, M.A., York county Grammar School, Natural History, Physics, etc.; R. D. Hanson, M.A., Kings county, Grammar School, Chemistry and Arithmetic; E. W. Lewis, B.A., Restigouche county, Grammar School, History and Geography.

The results of the Normal School Entrance examinations, and of the Preliminary examinations of teachers for advance of class are not yet known.

K. of P. Excursion.

Federicton Lodge No. 6, Knights of Pythias, and Fowler Division, No. 5, U. B. of the same order, have about completed arrangements for a monster excursion to St. Stephen and Calais August 20th. The Grand Lodge of New Brunswick begin their annual labors in the former town on that day and the Uniform Rank of the order will have a grand field day and parade. Divisions from Portland, Me., Bangor, Lewiston, Auburn, and Saco, Waterville, Bangor, Calais, Houlton, St. John, Woodstock, Moncton, etc., will be there, and it is expected that between 2000 and 3000 Sir Knights in their gorgeous uniforms will be in line, making undoubtedly the largest parade of the order ever held east of Boston. Calais and St. Stephen are also arranging a programme of water sports, and taken altogether, it will be the biggest day the hunting border towns ever had. The K. P.'s excursions, picnics, etc., of former years have always been carried out in a first-class manner, and they mean this excursion to be no exception. The tickets have been placed at the unprecedented price of \$1.25 for the round trip.

Some Good Shooting.

The weather on Saturday afternoon was not favorable for good shooting, yet some excellent scores were made. Charley Nell had the list. This is a habit Charley has acquired. This score makes him the winner of the first class medal given for the best aggregate in the spoon competition. He also wins the first class spoon in Saturday's competition. E. R. Mack, another excellent shot, won the second class spoon and P. R. Gardner, the genial giant of the post office, carried off the spoon in the third class. The following are the scores: P. C. E. Neill.....91 Capt. J. D. Perkins.....88 Sgt. W. J. Duncan.....88 Sgt. C. J. Wainwright.....85 P. R. Mack.....84 Lt. J. H. Hawthorn.....82 D. L. Babbitt.....78 J. S. Campbell.....74 J. W. Bridges.....74 P. R. Gardner.....68 Dr. Seery.....45

The Tartars in St. John.

The Tartar base ball nine left home on Wednesday last to play a series of games with the leading clubs of St. John, and Fredericton has reason to be proud of the showing made by the boys. The first game was played Wednesday afternoon with the Starlings, and resulted in a hard won victory for the St. John players by a score of 8 to 7. Our boys played in hard luck throughout, but St. John papers say that they put up one of the best games ever seen there. On Friday morning they met the Ross who recently defeated the Starlings in a series of games. The colonial players did up this team to the tune of 19 to 12. The same afternoon the Gas House team were nearly shut out, the score standing, Tartars, 14; Gas House, 1. The boys came home Saturday morning and received a warm welcome. They have arranged to play the Franklins, of St. John, here on an early day. It might be added that they met four or five more Franklins papers as opponents in every game they played in St. John. Fredericton is proud of you, Tartars! Keep it up!

Still in the Ring.

Victoria county still leads as the county of gallantry and romance. An exchange remarks this interesting and touching instance, which shows that the old days are not yet gone down with the past. "The good people of Andover are interested in a little romance which occurred in that neighborhood within a few days. A resident of the parish, a man between 75 and 80 years of age, was widowed by a husband who was a driver on Tuesday last. While they were out driving, the horse of the lady was burned, and the poor woman was much exercised over the fact that she would have to come to go to. Her companion very gallantly offered to share his horse with her, and the offer was promptly accepted. The marriage took place immediately, and everything has been serene and happy since."

George Peter's Narrow Escape.

George Peters, the stalwart colored man from Morrison's mills, had a very narrow escape from death early Tuesday morning. He had been out during the night plying his vocation and, with a companion, was returning in a truck wagon to his home. Peters having had to toll all night at the mill, was naturally very drowsy. In fact, so sleepy did he become that he failed to note that his head projected far out between the side of the truck and wheel. His companion, who was doing the driving, also failed to note this fact. As a consequence, when he went to turn his horse, George's head was caught in the wheel, and the able-bodied colored man owes his life more to the stability of his head piece than to the wit contained therein.

Child Run Over.

Seymour Chase, the 5-year old son of Edward Chase, was run over Monday morning and badly hurt. While playing near the side of his father's home on George street, a horse belonging to James Bishop, attached to a light wagon, and driven by two little boys, came along close to where he played. Both wheels passed over his left side, left arm, right cheek and the top of his head. The little boy was picked up in a bruised and bleeding condition and carried home. The injuries are very severe. The boy's father is very ill with typhoid fever at Victoria Hospital, and his mother is lying in a precarious condition at her home on George street, suffering from the same disease.

THE CITY COUNCIL.

Committee Meet to Discuss the Sewerage Question.

The City Council met on Monday evening and resolved itself into a committee of the whole to consider the sewerage question. A. G. Beckwith's letter offering to make a survey and plan for \$250 was read. The Mayor expressed the opinion that it would cost somewhere about \$1000 to obtain data from which to figure the cost of a complete system of sewerage, but he said he was perfectly willing to assume the responsibility of this expenditure. Ald. Golding didn't see it that way. He said he had asked in the early part of the season for an extra assessment of \$400 for public works but the council would not assess for this service one cent over that of last year. The council were desirous that there should be no over expenditure in any of the departments, yet here at one jump they were thinking of entailing an over expenditure of \$1,000.

Ald. Babbitt thought it would be a good idea to have Mr. McInnes, assistant sewerage engineer of Boston, visit Fredericton and talk the matter over with the council. The following associate examiners assigned to the candidates answers: W. M. McLean, M.A., St. John, Grammar School, Latin and Greek; James M. Palmer, M.A., Sackville, Algebra and Geometry; P. G. McFarland, M.A., St. Stephen, High School, English Language; G. H. Harrison, M.A., Carleton county Grammar School, English Literature and Book-keeping; B. C. Foster, M.A., York county Grammar School, Natural History, Physics, etc.; R. D. Hanson, M.A., Kings county, Grammar School, Chemistry and Arithmetic; E. W. Lewis, B.A., Restigouche county, Grammar School, History and Geography.

The results of the Normal School Entrance examinations, and of the Preliminary examinations of teachers for advance of class are not yet known.
