CITY COUNCIL MEETING.

Ald Everett Scores the Council for Going Back on its Economical Prettensions.

Sewerage, New Streets and a Variety of Other Topics Discussed.

In the absence of Mayor Vanwart, Ald. Lemont presided at the regular monthly meeting of the City Council held Tuesday evening. All of the members of the Council were present except Ald. Golding. The minutes of the last meeting were read and approved.

The expenditure in the different departments for which checks were ordered was as follows: Roads and Streets.....\$63.32 Public Works.....91.82 Fire Department.....34.87 Administration of Justice.....296.57 City Hall.....128.56 Report received.....17.05 Street Lights.....804.00 Old Burial Ground.....5.00 Sewerage and Water.....574.29

Moved by Ald. McPherson, for the Ald. Anderson, that checks be used for the quarter's salary of the city officers. Carried.

Checks were also ordered for the salaries of the police officers. Ald. Anderson, in trying to get a check for \$1,400, which was given a seat in the halling.

Ald. Macpherson submitted the report of the revision, which was ordered to be placed on file. Ald. Anderson, seconded by Ald. Adams, that a cheque be issued for \$100, payable to Ald. McPherson, for the \$100 in making up the list of electors for 1885.

Ald. Gilman submitted a report of the Alms house commissioner, which showed that there was a balance due the city of \$91.87, and asking for a cheque for the amount received, and cheque ordered to be issued.

The report of assessment appeals committee recommended that William McKenzie be relieved of his poll tax for 1885, and Ald. McPherson moved that he be relieved of all except his poll tax. Adopted.

The administration of justice report recommended that the Police Magistrate be paid \$100 out of the funds collected by him, for his services in trying Scott act cases. The report observed that since the adoption of the Scott act, Col. Marsh had tried all the Scott act cases which had been brought before him and that he had received \$100, a remuneration whatever for his services. A cheque was ordered to issue for the amount.

The report also recommended the purchase of four rubber coats for the policemen in trying Scott act cases. The purchase of rubber coats was ordered by Ald. Limerick, Macpherson, Gilman and Rossborough. The prevailing opinion appeared to be that the policemen were already provided for in this line, they had military capes.

Ald. Limerick thought a rubber coat would act as an encumbrance, and greatly inconvenience a policeman when he attempted to make an arrest, and Ald. Gilman moved, seconded by Ald. Everett, that this item be removed from the truck out and stand amended. Carried.

Ald. Anderson submitted the report of the fire committee which recommended that the purchase of three stoves to be used in the different hose stations for drying hose stock. Carried.

A report in reference to the City sewerage from the road surveyer was read. It stated that the sewer had been built on the present location in 1855, and he thought about \$100 of this could be collected.

Ald. Babbitt submitted the report of the Finance committee. The amount expended by the different departments the present year from Jan. 1st. to Oct. 31st. was as follows: Roads and Streets.....\$3,145.02 Support of Poor.....3,079.44 Fire Department.....2,874.54 Public Works.....2,611.75 Contingencies.....1,315.63 Street Lamps.....3,293.80 Sewerage and Water.....3,142.67 Alms House.....2,795.68 Board of Health.....449.61 Borrowed from Bank.....3,000.00

The sum collected in the same time including back taxes was: Taxes.....\$37,000.65 For Dog Taxes.....232.00 Police Court Fines.....131,131.40 Amt. borrowed from B.N.A. 9,000.00 \$43,384.05

Ald. Babbitt explained that the City Treasurer had been compelled to borrow \$5,000 from the bank in order to meet the large expenditure, and though the accounts just passed aggregated quite a large sum, he thought they could be paid without any further draft on the bank.

Ald. Babbitt then moved, seconded by Ald. Rossborough, that the City Treasurer be authorized to negotiate a loan with the bank of N. A., at the same rate of interest as the bank now charges them, for an amount to be decided upon later, to be expended in making arrangements for a system of sewerage, and for the opening up and widening of new streets.

This motion was put and carried. The City Clerk stated that it was almost impossible to tell how much they would require.

Ald. Babbitt thought that \$1,200 would be sufficient. Ald. Macpherson said perhaps they had better make it \$1,500 so as to be on the safe side, and what they did not want to use they could have alone. He would move that the blank in Ald. Babbitt's resolution be filled in with \$1,500.

Ald. Everett felt surprised at the council running in debt in this manner, and said

didn't look much like what they started out to do. He wanted to know if the intended to open any more new streets. He wished to remind the council that though they had \$1400 voted this year, they could not give us any more for new asphalt, as it was all expended on repairs.

This started the ball rolling on the asphalt question, and a long discussion followed.

Ald. Babbitt thought that Ald. Everett was taking a wrong view of the matter. The amount they proposed to borrow was to be used principally for sewerage. He did not take much stock in the opening up of new streets. In reference to the expenditure to be made for sewerage, the citizens were demanding that some scheme for a system be laid before them and it would not be right to charge this money to any of the departments.

Ald. Lemont said he would be very sorry to have the impression go abroad that the \$1,400 spoken of had been misappropriated as it had been stated in one of the newspapers of the city. He had understood that if the Council were in funds well under the asphalt repairs had been completed they might do some new work, but the new work was not to be begun before the 1st of September. He would like this to be carefully understood by the citizens at large.

Ald. Macpherson thought it was plain and clear to everybody that there was no appropriation made for that amount, and if Ald. Everett would allow his mind to wander back to the spring of the year he would find that he was correct. When an article had appeared in The Herald in reference to this appropriation they had fully discussed the matter, and he thought it was clearly understood at that time that they had never intended to do any new asphalt until the fall, and only then provided there were any funds left.

Ald. Everett said that the board had ordered him to purchase a boat load of asphalt.

Ald. Limerick thought that Ald. Everett was entirely at sea in this matter. The minutes would show that it was well understood at the time that they were only to invest in new asphalt which was left at the 1st of Sept. He was in favor of the loan of \$1500 to be made from the bank of N. A. The citizens demanded that something must be done towards establishing a system of sewerage. If they did not want to use the whole amount they could leave it. He was in favor of opening up new streets if the like of Ald. Everett had an opportunity they would keep their lane from becoming anything. If Lovers' Lane had been properly laid out in the first place, it would not be so good a street as there was in the city. He hoped to see a large number of new houses built both up and down town.

Ald. Gilman said in regard to making this special loan of \$1,500, he was one of those who was in favor of it. He did not want to block the wheels of progress in the city. He believed now was the time to ascertain the cost of a system of sewerage, and if it took \$1,000 to it, he would like it by a temporary loan. He then took up the question of asphalt and discussed it at some length. They had appropriated \$3,100 for public works, and he had understood at the time that \$1,000 of this amount was for new asphalt. He did not think it any use for them to fight over it now; the work had not been done in the right season and it was too late now. If they didn't intend to spend the money which was it assessed for, Ald. Macpherson said that he believed Ald. Everett was sincere in what he said, but Ald. Gilman was not. Ald. Everett's intention was always good. Ald. Gilman had got an idea in his head over this asphalt matter and he had been trying to get the same idea into Ald. Everett's head. Why take up the time of the city over a useless discussion? THE HERALD's statement that \$1,400 had been misappropriated was only made to mislead the citizens and it did not amount to anything. He expressed himself as strongly in favor of a system of sewerage.

After some lively cross-firing between Alds. Macpherson and Gilman the motion was put and carried.

Ald. Babbitt stated that the board of directors on the Wilnot park required the interest on the \$10,000 which had been placed in the hands of the city for the benefit of Wilnot park, and he moved that the interest be drawn and handed over to them, and that the money be again deposited in the bank of N. S. Carried.

The report of the jury who had assessed the land damages in the Pennyfather estate was then read, and Ald. Macpherson moved that the sum of \$272 be placed in the hands of the City Clerk with which to settle the claim and pay the expenses. Carried.

A letter from W. H. Scully, in reference to the widening of Union street, was referred to a number of grocers, asking that they be relieved from the payment of \$5 as a license fee to sell fresh meats and poultry. As farmers were now permitted to come in and sell their produce from door to door, they did not feel like paying any license for what protection they received.

Ald. Gilman said if they abolished the grocers' license they must also abolish the butchers, and he was not in favor of doing either.

Ald. Macpherson called in question some of the statements contained in the petition. He agreed with Ald. Gilman that if they abolished the license fee for grocers, they must do the same for the butchers.

Ald. Limerick thought that this was one of the evils resulting from repealing the market bye law. He did not believe in making our own citizens pay for a privilege which our countrymen enjoyed free of charge.

Ald. Macpherson thought it was hard to make a law to suit the individual. What he agreed with Ald. Gilman that if they abolished the license fee for grocers, they must do the same for the butchers.

The Chairman thought that there was no more grievance for grocers than there had been in the past. It was agreed to refer the petition to the market committee.

SPECIAL NOTICE TO Storekeepers.

A DISAPPOINTED SPORTSMAN.

Jas. F. VanBuskirk's Unsuccessful Attempt to Exterminate a Flock of Ducks.

A large number of black ducks have recently made their appearance in the river, opposite the Government house, and as a result some of our sportsmen have had a busy time of it lately. In all cases their efforts have not been fraught with very disastrous results to the wily ducks, as the following incident will show.

On Wednesday afternoon, the eagle eye of J. F. VanBuskirk, a wing shot of high repute, rested on a flock of these birds near Stey's mill, and armed with a double-barrelled breech loader, which had previously been the means, so he says, of bringing many a bird out of the clouds, he procured a canoe and gave chase. By a clever piece of strategy which only he is capable of accomplishing, Mr. VanBuskirk managed to drift up to within a few feet of the unsuspecting ducks without being seen. Suddenly raising himself
