FREDERICTON, SEPTEMBER 21, 1895.

THE LOCAL OPPOSITION.

A few facts which have leaked out during the week, show that a condition of absolute chaos exists in the local opposition, not only in this, but other constituencies. The report comes from Kings, and seems to be believed, that Mr. Fowler, who headed the opposition ticket in that county in the last election, has withdrawn from the ranks of Dr. Stockton's supporters, and may seek a nomination from the government party. It is even announced that Mr. Fowler will run on a ticket with the Solicitor General and Mr. Scovil, and Mr. Fowler has not denied it.

We cannot vouch for the correctness of the reports, but we know that Mr. Fowler's defection is one of the things Dr. Stockton and his friends are fearing. If Mr. Fowler really does intend to cast in his lot with the government, it is excellent evidence that as a leading Orangeman and ex-provincial grand master of that order, Mr. Fowler believes there is nothing in the insane contentions of Pitts and his friends regarding the unfair administration of the school law in this province. Mr. Fowler has been one of the lawyers employed on behalf of the Orange association in the school investigations at Bathurst, and if after having seen and heard all that occurred, he reaches the couclusion that the government are blameless of the charges hurled against them, and are worthy of his support as an Orangeman, the fact will go far towards conciliating opponents of the government, who have been led to become such by placing confidence in the howlings of the Pitts gang. But where does it leave Pitts? Well, from what we can hear, the opposition managers in York have about settled that. There will be no room on the opposition ticket for Mr. Pitts. His friends are preparing to throw him overboard, and recognizing that, he has already started on his canvas of the county on his own behalf, giving free lectures on Ireland, etc., and writing up in his paper the back yard prattle of every farm house he visits.

Our opposition friends in this county, as well as Mr. Fowler in Kings, therefore recognize the fact that no party in provincial politics can hope to be successful when its chief aim is the arousing of sectarian differences among the people. The holy war which such charlatans as Pitts attempted to work up, must soon spend itself, and is indeed, now no more, although spasmodic efforts may be made by its promoters to renew it, that there only claims for public notice may be kept fresh before the people.

NO LONGER DENIED.

Some weeks ago when The Herald announced that Mr. Foster had decided not to contest York county, a vigorous denial went up from all the government organs, big and little, but it is observed that no such denials are now made by Mr. Foster's friends. The Herald did not make the announcement without positive information, and now even those who contradicted the report are compelled to admit its correctness. Mr. Foster was in New Brunswick for over two months this summer, and yet he never showed his nose near Fredericton, so disgusted was he with the treatment he has received from the government party in this county. It is said that the first to sour on him among the party managers here was Mr. Gibson, who nominated Mr. Foster in the first instance, and that one by one the others fell into line with the Nashwaak king, and the Minister was firmly but politely told that he was not wanted in York. Of course no Tory candidate in this county could save his deposit without Mr. Gibson's support, and that gentleman is able to dictate to the party who shall be the candidate. Mr. Foster out of the race, the wirepullers are now looking towards Marysville to learn who the great magnate desires to fill the gap. Both Mr. Pinder and Mr. Pitts would be willing to accept a nomination provided the funds were put up, but it is not likely Mr. Gibson will wink in the direction of either of these distinguished statesmen. In the meantime, Tory circles are in a "quondorum," as one of our eminent public mem would say, and Mr. Gibson ought to wink promptly that their anxiety may be relieved.

RETURNED TO JOURNALISM.

The St. John Record is now in the hands of a joint stock company, and its new editor is George E. Fenety, ex-Queen's printer. Mr. Fenety was the pioneer of daily journalism in St. John, and made the old Daily News a success, until he struck a softer snap in the government employ. He was Queen's printer for thirty-two years and made a fortune estimated as high as $150,000. Now in his old age (he is past 83) he returns to his former work, in the editorial chair. The Record publishes a picture of its new editor, who has adopted the novel method in New Brunswick journalism of signing his name to the articles he writes. Mr. Fenety promises to discuss the whole political situation from the time he was assisted by Mr. Wilmot and Mr. Fisher in introducing responsible government in this province, down to the present, and will no doubt be able to right all the wrongs that have been perpetrated, during the long time he has been outside of active journalism. The contract is a heavy one, but doubtless a young and lusty youth like Mr. Fenety will have no trouble in accomplishing the whole business before the snow flies. We welcome Mr. Fenety's return to the journalistic ranks.

Surely after the insecurity of the Fredericton post office boxes has been shown by the theft of valuable letters belonging to the bank of B. N. A., the Dominion authorities will see that the boxes are made secure in the future. A complete outfit of new boxes is required and until such is furnished, the public will have little confidence in the safety of their mail matter while in the post office building.

OTTAWA despatches to the government papers indicate that a session of parliament will be called in November to deal with the Manitoba school question. There appears now to be no prospect of a compromise.

MR. BECKWITH'S DISMISSAL.

Some of our opposition friends affect to believe that the country is no longer safe because Mr. A. G. Beckwith has been relieved of his duties in the public works department. The government members, with the exception of some observations made by Hon. Mr. Emmerson to a Moncton reporter, have not spoken publicly of the dismissal, preferring probably to let Mr. Beckwith down as easily as possible, but it must not be concluded from that fact, that there is no defence of the Government's action. The charge is made that the dismissal was for political reasons, but THE HERALD is in a position to state that there is no truth in the assertion. Mr. Beckwith was relieved of his duties simply and solely because the executive felt his services could be employed no longer to the advantage of the department. They had excellent evidence before them, and can produce it if necessary, showing Mr. Beckwith's inattention and incompetency, and they parted company with him in the same manner as any private individual would with a servant who failed to satisfactorily fill the position for which he was employed.

THE HERALD does not propose at this stage, to go into the circumstances which led up to Mr. Beckwith's dismissal, but if he and his friends force a discussion on the point, we shall be prepared to furnish facts which in the public mind, will be more than sufficient to justify the Government's action.

Since the above was written, the Moncton Transcript has come to hand, containing an interview with Hon. Mr. Emmerson, chief commissioner of public works.

The Transcript representative called Mr Emmerson's attention to criticisms appearing in the Fredericton Gleaner, St. John Record, and Moncton Times as to the dismissal of A. G. Beckwith, to which Mr. Emmerson replied:—

I never was to my knowledge interviewed by any reporter upon the subject; some of my friends have privately asked me about the matter, calling my attention to the charges in the Gleaner that Mr. Beckwith had been dismissed for political reasons. I repudiate any such idea, and anything which I said was in the form of a private communication. If the matter has to be gone into, and Mr. Beckwith and his friends require that done, I will then be in a position to give the public some facts which will certainly justify my action. In the meanwhile, all I have to say is that in the exercise of my discretion, as the head of the department of public works, I deemed it to be in the interests of that department and of the public that Mr. Beckwith's connexion with the department as an engineer should cease.

The opposition press make a great outcry whenever a local government official is dismissed, no matter whether the circumstances justy such dismissal or not, but we think if the government cashiered a few more persons in their employ, individuals who are in constant conclave with the government's enemies, the public service would not suffer. Just as soon as a government official develops into a general spy and informer, his usefulness is done, and he ought to be sent about his business. The government have nothing fear from a full and free investigation into its acts; its members invite and receive that on the floors of the legislature, but the administration has a right to expect from all its employes, not only faithful service, but a policy of "mind your own business," and let politics alone.

The school trustees are really to be congratulated on the fact that they have at last made a move towards having the Charlotte street school premises cleaned up. It is about five years since the matter was attended to before, and the present move was not made until the board of health called attention to the filthy condition of the premises. It would not be a bad idea to get a sprinkling of new blood into the school board. The gentlemen who compose that body at present are no doubt all estimable persons, but there is no reason why they should continue in position for all time. There are plenty of live, progressive citizens who, no doubt, would be willing to serve on on the board. Give them a chance.

Hon. Dr. Pugsley, the Conservative candidate in Kings county, while in Winnipeg last week, said to a Free Press reporter in speaking of the Manitoba school question, that it would play a conspicuous part in the next elections in New Brunswick if the government should pass remedial legislation. In New Brunswick, he said, there is a strong sentiment that the matter involves the vital question of provincial rights, and any interference therewith by the government would not be regarded with favor.

MR. FOSTER AND KINGS COUNTY.

[St. John Telegraph.]

There seems to be no doubt that the Hon. Geo. E. Foster has made up his mind to run for the county of Kings at the coming general election instead of for the county of York, for which he received the Conservative nomination. This report, of course, will be vigorously denied by Mr. Foster's organs, but we have it on such excellent authority that we think there can be no doubt about the accuracy of the statement. When Mr. Foster abandoned the county of Kings, and appeared to champion the candidature of the Hon. William Pugsley, he gave a number of reasons why he should go to York instead of remaining in Kings. He had been offered the nomination in York, and the delicate state of his health made it preferable to Kings, because, in his opinion, it would be easier to run an election in York county. While Mr. Foster was making certain reasons public for abandoning Kings, he was telling his friends privately that he was going to York because he could not stand the expense involved in an election in King's county. He mentioned some fabulous sum that he had expended in securing his election in 1891, and, altogether, spoke in very uncomplimentary terms of the solid yeomanry of the county which honored him by selecting him as its representave for so many years. Now Mr. Foster finds that York is not likely to be such an easy county to carry, and he proposes to make a desperate effort to be elected in King's, notwithstanding his selection of the Hon William Pugsley to take his place. The finance minister has been informed that it is utterly hopeless for him to expect to carry York, in view of the action of the Government with reference to the remedial order, and so he returns to his first love, preferring to expend another $10,000 to carry his election rather than risk defeat in York.

Benton.

Sept. 18—Parkey O'Donnel and Huldah, youngest daughter of Nemy Boyle, were married at St. Agnes' church, Richmond, Sept 3rd. The bride was very becomingly attired in a dress of blue cashmere with white silk trimmings, and was attended by Miss Maggie Howie, who wore a dress of fawn colored broadcloth with green silk trimmings. The groom was supported by J. L. Boyle, brother of the bride. The young couple were accompanied to the church by a large party of relatives and friends, thence to her father's home, where the party sat down to a bountiful repast.

SEEKING A COMPROMISE.

The Dominion Government Backing Away From the Remedial Order.

Greenway Will Not Recede.

The Quebec L'Electeur publishes what it states is the text of the second order regarding the Manitoba school question, which was approved by the Governor-General on July 27, and which has not yet been officially made public. The sub-committee of the Privy Council, to which was referred the memorial of the Manitoba Government in reply to the first remedial order, makes a report to His Excellency which forms this second, and suggests that the Dominion Government should avail themselves of the invitation expressed in the memorial for further discussion on the subject, and that the attention of the provincial authorities should be invited to certain considerations suggested by the foregoing extracts.

In the interest of all concerned, it will not be disputed that, if possible, the subject of education should be exclusively dealt with by the Local Legislature.

Upon every ground, in the opinion of the sub-committee, this course is to be preferred, and with the hope that this course may yet be followed, the sub-committee have now the honor to recommend that Your Excellency will be pleased to urge upon the Government of Manitoba the following further views which may be pressed in connection with the remedial order.

The remedial order, coupled with the answer of the Manitoba Government, has vested the Federal Legislature with complete jurisdiction in the premises, but it by no means follows that it is the duty of the Federal Government to insist that provincial legislation, to be mutually satisfactory, should follow the exact lines of this order.

It is hoped, however, that a middle course will commend itself to the local authorities, that Federal action may become unnecessary.

With a view to settlement upon this basis, it seems desirable to ascertain by friendly negotiations what amendments to the acts respecting education in public schools, in the direction of the main wishes of the minority, may be expected from the Manitoba Legislature.

It is believed by the sub-committee that the religious opinions and rights which have been recognized in the judgment of the Judicial Committee of the Imperial Privy Council could be sufficiently met by the Local Legislature without impairing the efficiency or proper conduct, management and regulation of the public schools.

It is with the object of effecting some such changes in the educational system of Manitoba that the sub-committee desire that an expression of opinion be obtained from the Government of Manitoba.

It was with this view that the Canadian Government at the last session of the Federal Parliament made the following announcement:

"Though there may be differences of opinion as to the exact meaning of the reply in question, the Government believes that it may be interpreted as holding out some hope of an amicable settlement of the Manitoba school question on the basis of possible action of the Manitoba Government and Legislature; and the Dominion Government is most unwilling to take any action which can be interpreted as forestalling or precluding such a desirable consumation.

"The Government has also considered the difficulties to be met with in preparing and perfecting the legislation on so important and intricate a question during the last hours of the session. The Government has, therefore, decided not to ask Parliament to deal with remedial legislation during the present session. A communication will be sent immediately to the Manitoba Government on the subject, with a view to ascertaining whether that Government is disposed to make a settlement of the question, which will be reasonably satisfactory to the minority of that province without making it necessary to call into requisition the powers of the Dominion Parliament.

"A session of the present Parliament will be called together to meet not later than the first Thursday of January next. If by that time the Manitoba Government fails to make a satisfactory arrangement to remedy the grievance of the minority, the Dominion Parliament will be prepared at the next session of Parliament to be called as above stated, to introduce and press to a conclusion such legislation as will afford an adequate measure of relief to the said minority, based upon the lines of the judgement of the Privy Council and the Remedial Order of the 21st March, 1895."

The sub-committee have therefore the honor to recommend that Your Excellency will be pleased to cause communication to be had through the Lieutenant-Governor of Manitoba with the Government of that province, in order to ascertain upon what lines the local authorities of Manitoba will be prepared to promote amendments to the acts respecting education in schools in that province and whether any arrangement is possible with the Manitoba Government, which will render action by the Federal Parliament in this connection unnecessary.

The Greenway government, however, are evidently not feeling the spirit of compromise, as a Winnipeg dispatch says that whatever may be the opinion in the east, it is the unanimous belief there that Premier Greenway will not compromise in the slightest degree on the school question. On every possible occasion he declares his government will not recede a particle from its position.

THE PUBLIC NOT CONSIDERED.

(Thursday's Telegraph.)

A glaring instance of how the public conveyance must give way to the man at Ottawa, was brought to the notice of a representative of the Telegraph at the I. C. R. station yesterday afternoon. The Hon. George E. Foster, Minister of Finance, with Mrs. Foster, passed through the city on the C. P. R., en route to Ottawa. They occupied the special sleeping car Montmorency, which car had been advertised to go to Quebec on the express for that place yesterday afternoon, but the Hon. George E. had made up his mind to go to Ottawa, and that settled the matter. A private car he must have, and a private car he had. Quite a number of passengers by the Quebec express, who had paid for the privilege of going in the sleeper, found that there was none on the train and were compelled to take the ordinary cars.

At Wichita, U. S, Thursday, Judge Reed broke the record for rapid disposition of divorce cases. Mrs. Julia A. Leonard obtained a divorce in ten minutes and two seconds. Judge Jennings, of Woodward, O. T., claimed that he had beaten the world's record when he granted a divorce in nineteen minutes. Judge Reed held his watch during the proceedings to make sure that he had distanced all competitors.

In the ranks of the Anglican clergy, says the Montreal Witness, there are many of the eloquent men in the country, and some of the most prominent of these are now here in attendance at the Provincial Synod here. Dr. Courtney, Bishop of Nova Scotia, is admittedly one of the finest orators on this continent, and this apparently sweeping assertion was fully endorsed by the large congregations which heard him Sunday.

During a wedding ceremony near Meat Cove, Cape Breton, last Tuesday night, a row occured, when Hugh, Alexander, John and Allen McEachren and John Donahoe were stabbed by John Burton with a large jack-knife. Three of the wounded are not expected to live. The place is one of the "wildest" on the Cape Breton coast, where laws are set at defiance and it is believed the culprit cannot be taken without assistance of a strong military force.

At Cleveland, Ohio, Monday, Mrs. Henry Nolin was fatally burned, and her infant son, Henry, was burned to death. The mother tried to start a fire with kerosene, pouring the oil from a can into the stove. A terrific explosion followed and almost in an instant she was enveloped in flames. She succeeded in getting out of the house with one child, Willie, who was also severely burned. Henry was dead when found, and Mrs. Nolin will die. Several neighbors were badly burned in attempting a rescue. The house was entirely consumed.

At Norwich, Conn., Wednesday, Mrs. A. W. Cressman's little daughter Flossie, about seventeen months old, died from drinking carbolic acid. Between 2 and 3 p. m. the girl went down to the cellar to get her some milk, and unknown to her the child followed, and climbing up to a high shelf on which were several bottles grasped one containing a small quantity of carbolic acid and drank it. The little thing just gave one scream, then became unconscious. Dr. Harvey was there in a very few minutes, but nothing could save the little one, and in less than an hour life was extinct.

A sad fatality occured at St. Therese, Quebec, Tuesday night. Mr. and Mrs. James Vernier being absent from home, their daughter Hermane invited Miss Alexina Cadieux and two gentlemen friends to spend the evening with her. About midnight, while the men were preparing to leave, Joseph Laroche, seeing a gun standing in one corner of the room, picked it up, not knowing it was loaded, and pointed it at his friend Duval, at the same time saying, "I will kill you." The weapon was discharged and the contents missing Duval struck Miss Cadieux in the face, killing her instantly.

HAND FORCE PUMPS.

JUST received from the manufacturers 5 dozen of the Cheapest and best force pumps we ever had, everybody who owns a house or has a store can have no excuse now. They are simplicity, efficiency and durability combined. They are double acting, throwing a continuous stream, being provided with two chambers, one working within the other. They are a protection against fire in the first start, throwing a small but continuous stream from a pail of water which would subdue the fire. They are useful to farmers, laborers, mechanics, professional men, merchants and thrifty housewives, in brief they will prove a great favorite. You can shower trees, plants, shrubbery; water your garden, wash wagons, wash windows, do most anything but pull teeth. Grand for potato bugs. Made of brass and tin, no wood about them and low in price.

Farmer and intelligent read this.

Many years of experience of the manufacturers warrants us in saying they are superior to any now offered in this or any other market. The cold, dry air circulation is perfect. We have several sizes in stock, together with some Canadian manufacture. Call in and look them over.
