

Woolen Hats Holiday Gifts. Ladies, Gentlemen's and Children's FURS.

Weekly Herald.

SATURDAY MORNING, DEC. 29.

EDITORIAL NOTES.

Captain Boynton has been padding from Amiens to Abberville, on the Somme.

Hon. Mr. Laurier will deliver the speech of the evening before the Irish Society in Montreal shortly.

Dr. Holmes writes only in the morning. He devotes three hours a day to literary work.

The appointment of the Marquis de St. Vallier as the Ambassador of France to Berlin has been made.

His Excellency, the Governor General, is expected to address an Art Society at Montreal soon.

One thousand more workers in Sheffield have ceased work in consequence of the proposed reduction in wages.

Mr. Pierpont presented his letters of recall, and Mr. Walsh his credentials as United States Minister, to the Queen on Saturday last.

The Pope, it is said, is now holding daily audiences and is even mending in health. And so a certain occupation is gone.

The ORDO for 1878, printed at the HERALD ON ROOFS, is now ready and can be had at the Bookstore of Messrs. Edw. Haney & Co., King street.

The Quebec Government last year gave \$240,748 to Provincial charities, and still their balance on hand was three million dollars.

We continue to-day the publication of "Fulton-Valence," the opening chapters of which were received with so much favor by our readers generally.

Longfellow received the other day from the old South Post Office a letter of admiration of his works written in Japanese.

The Cunard Company have partially withdrawn their line of steamships sailing between Liverpool and Boston, a fact considered to indicate a great falling off in the commerce of the "Hub."

The publishers of the New York Catholic Review, a very able paper by the way, are bringing out a cheap series of Catholic works. Fabiola is the first of the series, the price being 25 cents.

The opposition in North Perth have selected Mr. T. M. Daly, a former member of Parliament, and now Mayor of Stratford, as their candidate for the House of Commons at the general elections, and Mr. John McDermott, of Wallace, for the Legislature of Ontario.

Senator Blaine is credited with saying that the Southern people are playing a policy whereby they hope to gain possession of the Government, and that harmony between President Hayes and the Republican party under present circumstances is impossible.

The newspapers of the city that have so far noticed Miss Nannary's life of Father Dunphy, speak of it in terms of approbation. We are much pleased, both on account of the work and the talented author, that the reception given her first effort has been so hearty and cheering.

The great equity suit in England of the Singer Manufacturing Company against Newton Wilson, involving the plaintiff's right to the exclusive use of its trade-name, has just been decided on appeal by the House of Lords in favor of the Singer Company, costs decreed against defendants.

The Torch, a witty, clever, readable paper, devoted to light literature, made its appearance last Saturday morning. We have much pleasure in welcoming this new aspirant to the rank of city journalism. The Torch is ably edited by Mr. Joseph S. Knowles, a gentleman who is known to be possessed of much ardent and refined taste in all that pertains to literary work. The new paper is beautifully printed at the office of G. W. Day.

A very enthusiastic Temperance meeting was held in St. Peter's Hall, Portland, on Sunday evening, under the auspices of the Catholic T. A. Union of New Brunswick. The speakers were listened to with the greatest attention, and their remarks were evidently received with satisfaction. We are informed that many of the foremost temperance men of the city made it a point to be present at this meeting, although the fallon sentence to the hall is considerable. The look such tears of the Union have reason to feel them saluted at the success of the first rally held in the city.

The speakers were Rev. Father Ouellet in the evening, Murray and R. J. Ritchie, Esq. President of the N. B. Union.

The revenue of the Province of Quebec, for the fiscal year, ending June 30th, 1877, was \$3,111, including \$2,122,016 balance on hand in 1876, and exclusive of \$4,185,833, derived from railway bonds. The expenditures were \$2,514,147.90, exclusive of payments to railways amounting to \$2,481,570, making \$5,996,417, which deducted from the receipts, leaves a balance on hand of nearly three million dollars. A nice snug little balance that! New Brunswick can hardly show such a comforting state of things in a purely material point of view. We often hear of how very far those French Canadians are behind the age. The above statement of facts would lead sensible people to the conclusion that they are not, after all, so very far behind in the matter of money-making, at least.

gallant band, while seeking to destroy Sitting Bull and his braves, is a thing on which poets will have to dwell, and the story will form an unperishable page in American history.

The loss of the war-steamer "Huron," Commander Ryan, was one of those sad, tear-laden events, which astound the world.

In our own fair Dominion, the events of the year 1877, have been much on a par with those of 1876, — the year about which will be of a different character, as the General and Local Elections take place in it. On the whole, the country has not suffered as much as was to be expected, from the depression ruling everywhere.

Of course, honorable members of Her Majesty's Loyal Opposition, as in duty bound, have preferred the usual number of charges against Mr. Mackenzie's Government during the year. The Government, on their side, have, of course, as is always the case in such matters, proved, to their own satisfaction, that their opponents were the most foolish of men ever to dream of finding anything like corruption or favoritism in the ranks of the party of purity and reform. This is, at least, according to the average mind in the matter of utter moral depravity. Public works, beneficial to the whole Dominion, have been carried on in a manner that proves the Dominion Government to be possessed of much energy and a natural desire to leave behind them some monuments of their ability, which will sell future generations that the great Reform party once was in this Canada of ours.

1877 has witnessed the beginning of an agitation for Maritime Union in the Provinces by the sea, which, doubtless, will soon bring about the desired change.

The trade and commerce of all these Provinces have been such that we have great reason to be thankful. Lumber and the fisheries have been prosecuted with satisfactory results, which have, in many cases, been an improvement on those of former years. The decision of the Fishery Commission, held at Halifax during the year, while not settling all the questions in dispute, has arrived at a solution which is favorable to these Provinces and the whole Dominion. The Commission, in itself, is an evidence that the world is growing tired of settling difficulties between nations by the sword, and will be found in the future more disposed to have recourse to peaceful means of arbitration.

While the Province during the year 1877, has reason to be thankful for the peace and contentment and plenty reigning throughout its borders, the City of Saint John, the heart of the Province, has been cruelly scourged. The year 1877 is one which will be forever memorable in our annals as the year in which the great Fire occurred. No former fire would have done so much damage to this or any other city, and it is not probable that such another really memorable event will ever be recorded in our history. Sad as the event was, it gave rise to many noble deeds of generosity, showed so clearly the energy, during our business men, the faith and confidence of our citizens generally, that, while we cannot look upon it as a universal blessing, we have no reason to be despondent, particularly when the form of a fairer and more beautiful city is rapidly taking the place of it. Looking at what has been accomplished during the latter months of 1877, we have no reason to congratulate ourselves on the progress made, and to look forward to 1878 as the inauguration and beautifier of the work of 1877. We look, then, to the new year with confidence born of past successes, hoping that for the readers of the HERALD in particular, and for all in general, it may be —

A HAPPY NEW YEAR.

THE OLD YEAR AND THE NEW.

In a few short days the year 1877, which began with such promise of peace and happiness to the world will be added to the load-roll of time as a further proof of the victory he is quietly though steadily gaining over men. The year that is passing away is one that has not been marked by any of the great events that will cause it to be called to mind more prominently than many of the hundreds that have preceded it. The events of the year may well be called commonplace, with here and there a fact that will long be remembered by individuals, communities, or countries as it possesses a more than local interest or importance.

In England, during the year 1877, which there has been much excitement over the war between the Russians and Turks, which it is to be hoped will not stain the annals of 1878. Nothing has transpired to draw the nation to which we look with the greatest concern, as her interests are in a greater or a less degree own, into the struggle, which at times seemed imminent. That England may long remain at peace, should be the desire of all who look for the progress and enlightenment of mankind. There appears every reason for hoping that this year now approaching will not look upon the annals of the great powers drawn up in battle array, but rather that difficulties which must naturally occur, will be more generally settled by peaceful means than by the sword.

France, in 1877, has beheld many strange and eventful changes. The most gratifying event to note is the abdication of the President of the Republic to the constitutionally expressed wishes of the people. The Marshal-President appears greater in his obedience to the popular will, than even in his most glorious military conquests. With peace at home and abroad, the French nation will soon regain the old glories, and take her place among the leading powers of the world. The state of affairs in Italy during the year has not given rise to any great anxiety, except in so far as it is the country in which dwells the Head of the Roman Catholic Church. During the year the attention of the world was not concentrated on him who is in name king of Italy or his government, but on the Emperor of the Vatican, the great Pontiff who has lived beyond the three score and ten allowed to man, and who at the end of 1877 is as likely to see the end of 1878 as the king who has usurped his place.

The most remarkable event in Ireland, and the one most likely to lead to great ameliorations in the condition of that contented dependency of the British Crown, was the visit of Mr. Gladstone, which recently occurred. The friendly tone of the speeches delivered by this leader of thought and reform in Europe was of a nature to strengthen the hope that days of misrule in Ireland are numbered, and that a more liberal and enlightened policy towards that ancient kingdom will give less cause for complaint.

Germany Bismarck still rides the man of blood and iron. The Roman Catholics feel the full fury of his hatred of the free carrier of his mad dreams of almost universal power; but it is utterly impossible in the nineteenth century that a persecution so bitter will not in the end raise up many friends to the victims of his vengeance, by whose endeavors and by the force of popular opinion in favor of liberty of conscience, he will be hurled from his proud pedestal, as so many persecutors have been in the history of the world.

One of the greatest calamities of the year occurring in Europe, was the great famine in India, by which numberless millions were swept off the face of the earth. Sad as this event was, it was the cause of another — the universal response of Christians to the agonizing cry of the Indians for bread. On the whole, the extent of the disaster might easily have been greater than what is reported.

In the United States the year 1877 will be memorable as that in which the will of the people, as constitutionally and unambiguously expressed at the polls, was shamefully set at defiance; and a President, not elected by the citizens of the great Republic, thrust into office. Tilden, the choice of the people, by his magnanimity in allowing his opponent to remain peacefully, has acquired for himself a very exalted niche in the Temple of Fame.

The loss of the brave Custer and his

Government would he so remiss in the discharge of a duty it owes to the whole country, so utterly to neglect the feeling which even among savages, the feeling of the dead decent burial. We give the following statement of the case, hoping that those in a position to do so will be able to offer some satisfactory explanation of a state of things which is simply monstrous.

The bill facts of this scandal upon our Dominion, are as follows, as related to us from reliable sources, by a gentleman who was in Passamaquoddy Bay, about three miles from St. Andrews, there is situated a small island, known as Little Hardwood Island, which a number of years since was used as a quarantine station, and on it were erected hospitals for the shelter of the poor Irish emigrants, who had the misfortune to be passengers in ships in which small pox, fever, and other epidemics had broken off. From time to time, a number of these people were landed and quarantined, and in some cases numbers of the crew and officers of the ships, and were interred upon the island, where the Dominion Government, as a result of the ever memorable Sable gale, a few years ago, the sea broke so violently upon the island, that the waves carried on the outer edge of the Irish emigrants' coffin yard, and covering up as they were, exposing the ghastly contents of skulls and bones, and in some instances washing them out; even now the curious custom of visiting the island, can see the arm or leg bones sticking out through the soil. Our informant, who was on the island, and which was picked up last summer, on the beach of the main bank, near St. Andrews, which he supposed to be one of those washed out of the graves on Little Hardwood Island. Now, Irishmen, ought to ask the Dominion Government, what is the reason on this subject, that will result in compelling the Dominion Government to procure a decent covering for the remains of our Irish compatriots. Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real resting place, except the bones and coffins exposed by the action of the waves, the Deputy Minister of Marine wrote to the Medical Superintendent of the Marine Hospital, at St. Andrews, to report on the matter being brought to his notice, and the result was that the remains of our Irish compatriots, Mr. Gillmor, the member for Charlotte, to his credit be it said, on the matter being brought to his notice, wrote the Dominion Government on the subject, but instead of authorizing him to get a decent protection for the remains of the poor emigrants buried on this island, without anything to indicate their real
