Weekly Herald

SATURDAY MORNING, JAN. 26

EDITORIAL NOTES

Our Local House is expected to open about the middle of February.

Before leaving Adrianople the Turks burned their provisions and blew up the ammunition.

The Toronto Mail, leading opposition journal, says that Mr. Anglin will again be offered the Speakership.

It has been denied that Sir J. A. Macdonald intends to resign his seat in Parliament.

S. J. Massey, formerly editor of the Montreal Star, now Ticket-Agent for the White Star Line, Liverpool.

It is said that Tilden will be again nominated, as the Democratic candidate for the Presidency, in 1880.

Many property-owners on Mill street are much dissatisfied with the latest award made by the Commissioners for widening that street.

A bill will be introduced into the Manitoba Legislature this session, abolishing saloons in Winnipeg, the Capital, an imposing greater restrictions on hotels.

The Italian Parliament has voted 10,000,000 francs to defray the expenses of a Manseum in the Pantheon, for the dead King, Victor Emmanuel.

The Senate of Ohio has passed a resolution favoring the re-nomination of alder, the passage of the dead bill, and a consoling President Hayes and Secretary Sherman.

A statement recently published in the Gazette shows that the Government of the Dominion has on deposit with the Bank of New Brunswick \$333,239.04, and in the Maritime Bank \$331,577.00.

The population of Ireland was in 1841, 8,175,194. In 1871 famine and emigration had reduced it to 6,411,416. In the first ten years of 1841 to 1851 there was a loss of nearly 2,000,000.

The troubles in South Africa do not appear near a settlement. A general raising has taken place among the Galkas and a severe engagement has been fought, in which the British were successful. More troops are being sent out from England.

The Jesuit Fathers at Washington did not accede to the request of the Italian Minister that should also be celebrated by them for Victor Emmanuel, as they had no official information of his reconciliation with the Church.

Sir Garrick Wolsey, in an article in the Nineteenth Century, says that in 1892, when the present military system of France will be in full working order, the country will have two and a half million of soldiers at its disposal.

Nicholas Flou, the distinguished author of the 'Frisman in Canada,' which we noticed some months ago, has in press a novel entitled 'Dorsal Ray or the Nautilus of a Kiss.' Its plot is principally laid in Canada. The book will contain many Canadian scenes, and will doubtless have a very large circulation, particularly in Canada.

We are pleased to see that the Chief of the Fire Department, Mr. Stanley, the explorer, is to be the recipient of the thanks of the people of the United States for the distinguished services which reflect so much honor on the American nation. Mr. Stanley will be honored by his countrymen by having a vote passed by the representatives of the people, thanking him for his late brilliant achievements in Africa.

THE RECENT DEFEAT.

The defeat sustained by the Reform party in the county of Digby on Saturday last, was a most interesting one. It was a defeat which, in the eyes of the Reform party, was a crushing one. It was a defeat which, in the eyes of the Reform party, was a crushing one.

The death is announced, at St. John's, of the late Rev. Joseph P. O'Connell, of the first Canon of the Cathedral Chapter, founded 21st January, 1841, the same day on which the late Bishop of the same diocese was consecrated. Mr. O'Connell was born in 1814. He was ordained priest in 1837, and from that date until shortly before his death he was secretary to Bishop Bourque, the former bishop of Montreal.

There will no doubt be a large audience present in St. Peter's Hall, Portland, to assist at the first lecture delivered by the auspices of St. Peter's A. R. S. Philip Cox, A. B., the lecturer of the evening, will, we are confident, maintain the well-earned reputation he has established here and elsewhere as a thoughtful, graceful, eloquent speaker. The St. Peter's Society seem from the choice they have made, to be resolved that their lectures will be fully equal, if not superior, to those of the other societies holding their lectures in St. Peter's Hall. The lecture will commence at half-past seven o'clock to-morrow evening.

The fire of Wednesday morning proves that the new Chief of the Fire Department needs to look most carefully after the apparatus of the fire-arm in every part, and see that it is in good working order. The efforts he has already made in that direction are most praiseworthy, but it is only by a more careful examination of the whole machinery of the fire-arm, that Mr. Smith has shown such commendable energy and high-sounding confidence in his new office, that we may look for the greatest efficiency in all that remains to be done in the Fire Department, in all that he has control of.

We again call the attention of our readers to that excellent publication—the American Catholic Quarterly Review—now in its third volume. The success of this sound and scholarly exponent of Catholic thought in America, is certainly a gratifying sign of the times. In the publisher's note to the third volume we see that the Review is rapidly increasing. It is now published twice a month, and its circulation is rapidly increasing. It is now published twice a month, and its circulation is rapidly increasing.

The Jesuit Fathers at Washington did not accede to the request of the Italian Minister that should also be celebrated by them for Victor Emmanuel, as they had no official information of his reconciliation with the Church.

THE ST. JOHN RELIEF SOCIETY.

Our readers will remember that the HERALD was very outspoken some months ago when the society bearing the above name was brought into existence for the purpose of aiding the sufferers by the fire of the 20th of June last. No one then doubted now doubts of the necessity for such an organization. We freely admit that the society has done and is doing a vast amount of good work; but in saying this we do not for a moment intend to close our eyes to the way the whole business of the society has been conducted from the beginning. All who take an interest in this matter will remember exactly how the gentlemen at the head of the movement took the whole business in their own hands, how quietly and persistently they ignored the existence of such a public official as the Mayor of the city and the Aldermen and Councilors who are elected by the people to represent them in all public affairs of a city.

What was done in the commencement of the relief movement has, it is now, being given over since and the society has at length been taken up in the Common Council by one of the members, who complained that the meetings of the society and the work of the society were not being carried on in a proper manner. It was at that time that the Mayor of the city was asked to take the society under his protection, and to see that the society was carried on in a proper manner. The Mayor, however, declined to do so, and the society continued to work on in its own way.

It is not possible to say how many of the members of the society are now in the city. It is not possible to say how many of the members of the society are now in the city. It is not possible to say how many of the members of the society are now in the city. It is not possible to say how many of the members of the society are now in the city.
