News Summary.

DOMINION.

—Yarmouth is to have asphalt sidewalks.

—A small quantity of flour has been shipped north by the government to Peace river and Athabaska in charge of the Hudson Bay Co, to be applied to the relief of destitution among the Indians of those districts during the coming winter should the necessity arise.

—The Annapolis Spectator, which suffered by fire some time ago has resumed its former size and is as bright and newsy as ever.

—The oysters are abundant at Miramichi. Three Cocagne boats secured 80 50 and 30 barrels respectively, which sold at $1 per barrel.

—It is said that Geo. A. Hawkesworth, a postal clerk on the Windsor & Annapolis railway, has made $15 000 out of a gold property in Annapolis county, this sum being his share from the sale of some areas in which he was interested.

—Lumber operations during the coming winter on the upper Ottawa promise to be the most extensive for several years. Reports from Mattawa state already 7,000 shanty men have passed through that place on their way to upper Ottawa lumber districts.

—About 12,000 barrels of Gravensteins were shipped to London via Halifax during last week. The apples are the product of the Annapolis and Cornwallis valleys.

—A splendid class of iron ore is now being raised at Brookfield, N. S. Coal too is likely to be found in paying quantities.

—An inch of snow covered the ground at Fredericton, Tuesday.

—A young man died at Port George, Annapolis county, from the effects of the swelling of plum stones.

—Truro has 22 conductors, 70 brakemen, 25 drivers, 28 firemen. Altogether there are some 250 railway employes, and the I. C. R. dispenses $10,000 per month in wages to them.

—The eighteenth company of the Royal Engineers, now serving at Halifax, is to be strengthened.

—The S. S. Parisian was got afloat and has arrived in Montreal. Her hull is uninjured.

—Two cases of smallpox appeared in Toronto last week.

—During the month ending 29th September, 107 cars of freight were forwarded from Houlton station on the N. B. R. Of this number 50 cars were loaded with potatoes, 15 with hay, 11 with starch.

—As Messrs. Nelson Bennet, Willie Lawson and Charlie Parsons were going partridge hunting, at Canterbury, a gun which Mr. Bennet was carrying, accidently discharged, and the load entered the muscle of the left arm, making a gastly wound. Mr. Bennet was at once taken to Dr. H. V. Warneford's office. The doctor extracted several shot and found it necessary to put a number of stiches in the wounded arm.

—Wentworth Moffatt, 74 years old, a miller working in Day's mill, at Macdonald's Point, Q. C., was accidently killed on Thursday. His right arm was caught in the machinery and wound around the shaft. When found life was extinct.

—Clarke Caldwell, a contractor, fell from a staging of the church of England institute, and was instantly killed. He was a member of the firm of Johnston & Caldwell.

—Friday evening the Miller Lime Kiln at Robertson's Point, at the mouth of the Narrows, was destroyed by fire. The loss is estimated at about $10,000, no insurance.

—Two children of Rev. John Cherry, of Galt, Ont., died on Thursday last, by eating poisoned chocolate drops sent through the Post Office from Toronto. Twelve other families received packages of the drops, but fortunately before they had tasted them they heard of the Cherry children's death. The drops contained strychnine. A similar package, addressed to A. S. McKay, Pictou, N. S., was seized by the P. O. authorities at Toronto, and handed over to the police. No clue to the sender has been found.

—The imports at the port of Moncton in September amounted in value to $93,144, as compared with $66,400 in the same month of last year—increase $26,744. Duty collected $43 266, against $38 433—increase, $4 333. The exports for the month amounted to $29 109, a decrease of $6 202 as compared with the same month last year.

—The Albert Southern is rapidly nearing completion. The line runs from Salmon River, a distance of 17 miles, of which 10½ miles have been completed, that is from Albert to West river. This portion of the road has been graded and ballasted and trains are running. The remaining 6½ miles have been partly graded. The only heavy bridges are two across the West river, which is crossed twice by two Howe trusses with 50 feet a clear span. About 125 men are employed on the line now and it is expected that it will be finished early in the spring. Warren Oliver, the chief contractor, is pushing the work forward with all despatch.

—A despatch from the N. W. indicates a lively business in grain trade, as the first shipment of 27,000 bushels of wheat has just reached Port Arthur, the grand distributing point both by boat and rail. It is stated on good authority that Manitoba farmers are getting exactly double the price for their wheat as the same article brought this time last year. Gen. Olds, of the C. P. R., states no trouble need be anticipated with regard to rolling stock, as the company took timely precaution to provide all the necessary cars that the great crops of the present were expected to exact.

—A notice in the Canada Gazette states that the Civil Service entrance examinations will commence in St. John, Halifax, Charlottetown and other Canadian cities on Tuesday, 13th November next, at 9 o'clock, a. m. Applications from persons intending to be examined must be filed with the Civil Service Board at Ottawa on or before 25th October.

—The assessors of Toronto have completed their labors, and the total assessment amounts to $113,183,828, as compared with $98,297,901 for last year, showing an increase of $14,885,927. The population of the city according to the assessors is 138 150, an increase of 11,981 during the year.

—The Chignecto Marine Railway Co. announce a meeting Oct. 29th, to ratify the issue of a million and a half of cumulative preferred stock.

—Fears are entertained for the safety of Her Majesty's ship Wrangler which left Jamacia for Halifax some weeks ago and has not since been heard from. War ships are to be sent in search of her.

—If a purely charitable institution were to distribute $55,000 00 to the victims of misfortune amongst us, the circumstance would challenge the admiration of the civilized world. The greatest misfortune that can befall a family is the loss of the bread-winner by death. At this moment the Dominion Safety Fund Life Association, St. John, N. B., has poured $55,000 00 into such homes—not through humiliating charity, but through the unselfish devotion and business prudence of the deceased.

—As George Legere, son of David Legere, of Shediac, was cleaning his gun preparatory to partridge shooting, he fired at an out house some fifteen yards from the back door. He was horrified to find that part of the charge had gone through and wounded his sister, Christiana, a girl some 15 years old, who unknown to him was in the building. The shot went through some thin boards there were on for battings, and some 4 or 5 struck the girl in the face and head, while 8 or 10 lodged along from the shoulder to the hip. Two or three appeared to have entered the side in such a way as to endanger the intestines and as the wounded girl is suffering from pain in that region the result may be serious. The gun was a long French fusee and a strong close shooter; the shot about No. 5 in size.

—On a lovely Sabbath morning some six weeks ago while Mr. Howe of Boston with his wife and family were paddling down the River St. John and passing a "bend" where the trees crept close to the water side, the party were shot at from the bush. Mrs Howe was shot dead, and several others were in great peril. Who were the murderers? Two men, Phillips and Trafton, were arrested and after a fair trial they have been convicted of manslaughter, and condemned to fifteen years of penal servitude. The sentence is heavy, but in view of the awful crime committed it is light enough. The criminals are to be pitied, for they were hungry men, and when trying on the previous evening to catch fish for food in the river some one connected with the Howe party fired a shot to frighten them. It was this, it seems, that stirred them up to their murderous deed. There is no excuse for their atrocious crime; and the circumstance mentioned merely explains to some extent how it could have occurred. It is only proper to add that if Mr Howe had been "resting according to the commandment," the tragedy would not have occurred. His conduct in treating Sunday as a day for pleasure and travel tended to break down the respect of the people for public law. Of course, this does not furnish the slightest palliation of the awful crime committed; but it was an incidental part of the case which the moralist may fairly look at.—*Pres. Witness.*

—A drug store has been opened in Kelley's new block, Cor. Main Street and Broadway, Woodstock, N. B., by Messrs. Parker Bros., of St. John, N. B. With a handsome store, well fitted up and stocked with fresh and pure drugs, under the efficient charge of Mr. George W. Parker, the public may be sure of careful and satisfactory attendance. They intend giving special attention to filling prescriptions; and we bespeak for them a large share of the trade of Woodstock and vicinity.

BRITISH AND FOREIGN.

—An engineer and captain have been arrested at Portsmouth, Eng., for showing to American war secrets parts of Spithead forts.

—A banquet was given at the Munich palace last week in honor of Emperor William. The prince regent proposed the health of the emperor. The latter in reply said that as in 1870 the Bavarian royal house and people had given a magnanimous impulse to German unity, so had the Regent Luitpold been the first after the present emperor's accession to help to lighten the cares devolving upon him in a few difficult tasks. For the different peoples of Germany it was necessary that their princes should stand faithfully together. In conclusion, he promised to maintain with steadfastness the Hohenzollern's friendly alliance with the regent and house of Bavaria, in grateful remembrance of the magnificent reception accorded him.

—Dr. Ludwig Hahn, chief of the Press bureau and compiler of the history of the life and works of Prince Bismarck and other historical books, is dead.

—A further sale of Canadian store cattle imported by the Canadian Cattle Company at Aberdeen, yielded an average price; 397 were sold. There was a large attendance and brisk buying. The total proceeds were £5647 15s giving an average of £14 4s. 6d. per head, against £13 10s., the average of the last cargo. An extra cargo of 315 cattle is due by the Europa, and the trade is assuming large proportions.

—For the first six months of 1888 the English railways killed 165 people and injured 957.

—Owing to heavy rains floods have occurred throughout Switzerland. A number of railways have been damaged to such an extent as to cause interruptions of traffic.

—Two hundred and fifty thousand English miners threaten to strike October 29th unless their demand for a 10 per cent. increase in wages is complied with.

UNITED STATES.

Reports from Mexico state that the losses throughout the country by the late cyclone and floods exceed $3,000,000.

—A camp has been set up in the lava deserts of Arizona, where workmen are employed in sawing up and polishing agate logs. The remains of what was once a large forest have been there changed into the brilliant agate. Every ridge and knot of the original trees has been perfectly translated into this gem. It is estimated that this change took place 35,000 years ago.

—An order has been issued by President Havemeyer, of the sugar trust, shutting down two refineries of the firm of Decastro & Donner at Williamsburg, L. I. These refineries are among the largest in the country, and fully one thousand men will be thrown out of work. The shut down is for an indefinite period.

The Boston *Herald* contains the following: The training school for nurses connected with the Waltham Cottage Hospital, has graduated a class of eight nurses. The exercises were held in Lyman hall, and were largely attended. Dr. E. R. Cutler presided. The names and residences of the graduating class are as follows: Jane C. Peters, Dorchester, N. B.; Katherine Barker, Gloucester; Mary Rourke, Charlestown; Catherine Hood, Waltham; Alice Partelow, St. John, N.B.; Rosetta Nelson, Melrose; Annie N. Burbank, Norwich, Ct., and Katherine F. Mullen, Waltham.

—A sunflower 12 feet high with a blossom 56 inches in diameter is a product of Nevada.

—Shipman, Barlow, and Larocque and Choate, New York, have made good to the Farmer's Loan and Trust company losses to the amount of $112 644 caused by the forgeries of their clerk Bedell of bogus mortgage fame.

—The master, second officer and survivors of the British ship Earl Wemyss, from San Francisco for Queenstown, which was sunk in collision with ship Ardencaple, were taken aboard ship Creedmore from Manilla for New York, Sept. 9. The master's wife and children and first officer and 19 of the crew of the crew of the Earl Wemyss were drowned.

—A fiendish attempt to wreck a heavily loaded excursion train was made on the Dwight branch of the Chicago and Andalton road last week between Wenoma and Lacon. Kerosene was poured on ties and stringers of a small culvert, rags were saturated with oil and set on fire. It was discovered by the engineer just in time to avoid another horror.

Come to the bridal chamber, Death!
Come to the mother, when she feels
For the first time, her first-born's breath,
And thou art terrible!

The untimely death which annually carries off thousands of human beings in the prime of youth, is indeed terrible. The first approach of consumption is insidious, and the sufferer himself is the most unconscious of its approach. One of the most alarming symptoms of this dread disease is, in fact, the ineradicable hope which lurks in the heart of the victim, preventing him from taking timely steps to arrest the malady. That it can be arrested in its earlier stages is beyond question, as there are hundreds of well-authenticated cases where Dr. Pierce's Golden Medical Discovery has effected a complete cure.

Yarmouth, Oct. 6. G. E DAY.

Messrs. D. McAlpine & Son are now busily engaged at their *Province of New Brunswick Directory*, which will contain all the names of the male population from 20 years and upward, the business they follow, and their P. O address; and all females in business throughout the province. It is a large undertaking, and will be a boon to the public. We have had nothing like it for nearly 20 years, and it will be a valuable work for all, especially business men and women. The price is exceedingly low for such a large book, and the advertising spaces are very low, especially as it is to last ten years, the publishers guaranteeing not to publish again for that period. They need all the help they can get to cover expenses. All should support the work, especially by advertising in it, as that is the main source of benefit to the publishers. We hope the business men will rally round the publishers and not let it fall through, and be behind all other provinces in the Dominion or states in the Union.

Rheumatic Pains

Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nerviline. It is safe to say that nothing yet discovered has afforded equal satisfaction to the suffering. A trial can be made at a small cost, as sample bottles of Nerviline can be had at the drug stores for 10 cents, large bottles 25 cents.

—WANTED.—One Colporteur, apply to the Baptist Book and Tract Society.

GEO. A. MCDONALD, Sec'y-Treas.

DEAFNESS CURED.—A very interesting 132 page Illustrated Book on Deafness. Noises in the head. How they may be cured at your home. Post free 3d.—Address Dr. NICHOLSON, 30, St. John Street, Montreal. 30

SPECIAL.—"Harvest Concert Exercises." Five hundred Baptist Sunday Schools can be supplied now with "Harvest Concert Exercises." Send 6c. for sample copy. No better time in the year than at present to hold such a concert, when flowers, fruits, vegetables, wheat, etc., etc., are being gathered in. A moderate supply could be obtained for the occasion, and with this exhibitor give the exercise, throwing in a lot of choice music and charging 10c. or 15c. admission. By this way you can replenish your library, or send it as a donation to the Baptist Book Room to aid Colportage work. Who will try?—GEO. A. MCDONALD, Sec-Treas.

A Trial by Jury.

That great American jury, the people, have rendered an unanimous verdict in favor of Dr. Pierce's Pleasant Purgative Pellets, the standard remedy for bowel and stomach disorders, biliousness, sick headache, dizziness, constipation and sluggish liver.

The Difficulty Experienced

In taking Cod Liver Oil is entirely overcome in Scott's Emulsion of Cod Liver Oil and Hypophosphites. *It is as palatable as Milk*, and the most valuable remedy that has ever been produced for the cure of Consumption, Scrofula and Wasting Diseases. Do not fail to try it. Put up in 50c. and $1 size.

FREE

$85 Solid Gold Watch Sold for $100 until lately. Best $85 watch in the world. Perfect timekeeper. Warranted. Heavy Solid Gold Hunting Cases. Elegant and magnificent. Both ladies' and gents' sizes, with works and cases of equal value. One Person in each locality can secure one free. How is this possible? We answer—we want one person in each locality, to keep in their homes, and show to those who call, a complete line of our valuable and very useful Household Samples. These samples, as well as the watch, we send free, and after you have kept them in your home for 2 months and shown them to those who may have called, they become your own property. It is possible to make this great offer, sending the Solid Gold watch and Costly samples free, as the showing of the samples in any locality, always results in a large trade for us; after our samples have been in a locality for a month or two we usually get from $1000 to $5000 in trade from the surrounding country. This, the most wonderful offer ever known, is made in order that our samples may be placed at once where they can be seen, all over America. Write at once, and make sure of the chance. Reader, it will be hardly any trouble for you to show the samples to those who may call at your home and your reward will be most satisfactory. A postal card on which to write us costs but 1 cent and after you know all, if you do not care to go further, why no harm is done. But if you do send your address at once, you can secure free one of the best solid gold watches in the world and our large line of COSTLY SAMPLES. We pay all express, freight, etc. Address Stinson & Co., Box 814, Portland, Maine.

HO! FOR PULP

And SPOOL WOOD!

A Splendid Chance for an Investment.

The Subscriber will offer for Sale, during the next thirty days.

ALL that Valuable Mill Property situated at INGRAM RIVER, HALIFAX COUNTY, N. S., including Mill, Machinery, Wharf and adjoining premises; Also one of the Best Water powers in the Province. This is a rare site for the profitable manufacture of Pulp. A large quantity of Spool Wood Laths, Shook, etc., could be produced here.

The close proximity of the Mill to a safe harbor, always open for navigation, where large vessels can be conveniently loaded, gives this place unrivalled advantages. About 3,000 acres of Wood Lands are obtainable at a low figure from the present owners, besides a quantity of Government land can be secured now.

Intending purchasers are invited to confer with the undersigned *at once*. If not sold before, a Public Sale will take place near the Mill on WEDNESDAY, the 24th of October, commencing at 2 o'clock p. m.

H. J. HART.

Halifax, Sept. 24th. 40

WM. S. ROBBINS, No. 11 Main Street,

ST. JOHN, N. B.,

General Agent for New Brunswick.

ST. JOHN, N. B., July 27th, 1888.

To the President and Directors of the Mutual Relief Society of Nova Scotia.

Gentlemen,—Your Treasurer, T. B. Crosby, has this day handed me the cheque of the Society for two thousand dollars, being the full amount of the certificate issued to my late husband, Daniel J. Gillies.

For the immediate payment of my claim on proof of death being filed, I am grateful, as, because of business reverses, other property of my late husband is required to settle his estate. The manner in which your Society treats the bereaved ought to commend it to others.

Respectfully yours,

MRS. D. J. GILLIES.

DRUNKENNESS

Or the Liquor Habit, Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. *It never fails.* The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For circular and full particulars address GOLDEN SPECIFIC CO., 185 Race St., Cincinnati, O.
