

Your anxiety is for your delicate child; the child that in spite of all your careful over-watching, keeps thin and pale. Exercise seems to weaken her and food fails to nourish. That child needs Scott's Emulsion with the Hypophosphites—not as a medicine, but as a food containing all the elements of growth. It means rich blood, strong bones, healthy nerves, sound digestion. No child refuses Scott's Emulsion. It is pleasant and palatable.

The Return Of the Pendulum.

In 1892 the property of the commercial school was at its height. The proprietors of many of these schools abandoned methods that had produced excellent results and adopted others which were wholly experimental. It may safely be said that in most cases the change was not made with the expectation that the schools would be strengthened educationally, but that the new ideas would have greater verting value. But a reaction has set in. The conclusion has been forced upon thoughtful teachers that the school that educates its pupils best advertises itself best; that a device which may attract inexperienced boys and unthinking parents, may not commend itself to the class of people whose friendship and patronage must be secured and retained as a basis of permanent prosperity. Those schools which adhered to tried and approved methods, which gave their pupils solid and symmetrical knowledge, which steadily refused to be carried off their feet by patented systems of education, are now reaping the benefit of their wise conservatism. Such schools have not the task before them now of reversing the damage done by experimenting with fads. Those schools which have trifled with their reputation by experimenting with one or another of the new schemes are realizing that their reputation for real efficiency has been injured, and are seeking their more conservative co-workers forging ahead. Only a small proportion of the larger schools will be accepted in lieu of genuine educational advantages, then, perhaps, the public will take kindly to patented systems of education.—Progress, Rochester, N. Y.

Just so! Ours was one of the colleges preferring unimpaired reputation; and a clear conscience to temporary gain. Result: our fall opening is the best we ever had. It is most gratifying to find ourselves cleared in the right list and our position vindicated from so important an educational centre.

News Summary.

Thursday, Nov. 25th, will be Thanksgiving day.

A four-year-old daughter of Mr. Steen, of Cardigan, York county, was badly burned at a rubbish fire and died from her injuries.

Twenty million feet of hemlock and 25,000 cords of bark were consumed by fire at Nelson Run, Pa., resulting in a loss of \$200,000.

Two negroes named Penn and Hazelton were lynched Sunday night at Somersville, Ga. They were accused of arson and had been arrested by the sheriff and a posse.

General Montgomery Moore was sworn in administrator by Sir Henry Strong at the Governor General's office at Ottawa on Wednesday.

At Monday's meeting of the cabinet Dr. Pielt, M. P. for Rimouski, was called to the Senate. There are now three vacancies for the Commons: Temiscouata, Drummond and Arthabaska, and Rimouski.

Candidates were nominated on Monday in Newfoundland for the thirty-six assembly seats. The government party and the opposition have nominated full tickets in every district, and every seat will be contested.

The Supreme Court Tuesday decided that the provisions of the Civil Service Act only prohibit extra payment being made for the specific services an employee is appointed to perform.

George Fowler, Fairville, N. B., Saturday, while working at Cushing's mill stepped on a rope which suddenly tightened and threw Mr. Fowler into the air about fifteen feet. He struck his head and shoulder, receiving a bad cut. He will be confined to his home for sometime.

The driver of the mail stage running between Harcourt and Chipman says he was held up Wednesday afternoon by three tramps and threatened with his death if he refused to give up the mails, but succeeded in evading them.

The water at Three Rivers, in the St. Lawrence, has fallen fifteen inches within twenty-four hours and from the wharves there are reefs visible which have not been visible for seventeen years. The larger ocean steamers may not be able to go to Montreal for the remainder of the season.

The Supreme Court at Washington on Monday began hearing the appeal of counsel for Mate Thomas Bram, formerly of the Herbert Fuller, in an effort to save him from the gallows, he standing convicted of the murder of Captain Charles Nash, of the Fuller.

The electric light plant which furnishes light for the Manhattan State Asylum for the insane on Ward's Island, New York, was totally destroyed by fire Thursday night; loss \$25,000. All the inmates were removed to a place of safety. There was no panic or excitement.

Dr. Borden has received a cablegram from the Colonial office stating that a medal will be issued to all who participated in the Fenian raid in Canada in 1866 and in the Northwest expedition in 1870. The expense of striking the medals will be borne by the Dominion.

In an engagement with tribesmen on the Samana Range the Gordon Highlanders and the Gurkhas met with severe losses. The British forces were under command of General Biggs. He will continue to advance towards Kharappa, where he will be joined by General Lockhart.

The mission of Hon. W. S. Fielding, the Canadian Minister of Finance to Great Britain, also includes discussing with the Colonial Office what proportion of £1,500,000, which it is proposed to expend in strengthening the Canadian defences, should be borne by the Imperial government.

A party of sixteen prospective gold hunters under the leadership of Howard Blackburn, of Gloucester, Mass., set out from that city for the Yukon region Monday evening in the schooner Hattie J. Phillips. The schooner is 65.46 tons burden. It is the purpose of this party to make direct for San Francisco via Cape Horn, where a cargo of 75 tons of blacksmith's coal will be sold and mining supplies secured.

The United States monetary commissioners have received no official information regarding the action taken by the British cabinet on Saturday last. Private advice, however, convinces them that the cabinet has dealt the deathblow to their mission. It is expected the commissioners will shortly be informed that Her Majesty's government regrets being unable to accede to their proposals, but is willing to listen to any other plan they may suggest. The

commissioners believe their failure means that no further effort in behalf of bimetallicism will be made for many years to come. They attribute their failure to the opposition of the bankers and of the London Times.

Crazed with liquor and flourishing a 32-calibre revolver, Ferdinand Carrier, who hails from Rimouski, started down Wellington street, Ottawa, Tuesday morning, scattering people on all sides. As he neared Rideau Club he commenced crying: "I am after Sir Wilfred Laurier, an I will shoot him." He was arrested. At the police station it was found that four of the six chambers were loaded, and in his pocket were found two boxes of cartridges.

LIVES IN DANGER.

The Time for Action and Great Care.

Paine's Celery Compound Should Be Used This Month.

Our changeable autumn weather brings fear to the hearts of thousands of rheumatic sufferers who are unable to go to warmer climes. The present month with its wet, cold weather and chilling north east winds will, without doubt, increase the agonies of those who are afflicted with acute, chronic, inflammatory and sciatic rheumatism. The uric acid in the system, which the kidneys have not removed, is poisoning the blood, causing stiff and swollen joints, twisted legs, arms, fingers and contracted cords. When it reaches the heart it generally proves fatal.

Rheumatic sufferers, why remain in agony and peril? There is a sure cure and a new life for all if the proper agency is made use of. The true agency, Paine's Celery Compound, has triumphantly met hundreds of cases far more subtle and dangerous than yours; it will surely meet your troubles. It is for you to determine this day whether you shall be free from suffering and take on a new life, or remain in a condition of helplessness and torture that may drag you to the grave at any time.

Bear in mind that Paine's Celery Compound cures all forms of rheumatism, and does the work so well that the disease never returns. Mrs. M. J. Vince, of Barrie, Ont., says:

"I am happy to say that I have taken Paine's Celery Compound with great results. I had sciatica so badly that I could not turn in bed or walk without help; and for a period of three weeks was helplessly laid up and suffered pain that at times was unbearable."

"I tried many medicines, but all in vain. I was afterwards recommended to try Paine's Celery Compound. I used six bottles, and am entirely cured and enjoy good health. I take great pleasure in recommending the valuable medicine that cured me."

An Important Letter

The following letter speaks for itself. Its value lies in the fact that it was entirely unsolicited and the lady who writes speaks from her experience of taking Wyeth's Liquid Malt Extract, the only true Malt Extract on the market:

St. John, West End, N. B., June 12, 1897.

MESSENGER, DAVIS & LAWRENCE CO., LTD.

DEAR SIR,—I have been taking Wyeth's Liquid Malt Extract for some time and have now taken seven bottles and at present weigh more than I ever did in my life. It is also excellent for baby, as the one or two days I have not taken it he did not have milk enough, but always when I am taking it has plenty and is just as strong and well as can be.

Wyeth's Malt Extract has been so good for us both that I thought I must write and tell you of it. Three people whom I have told of it are now taking it and are highly pleased with it. I thought at first I would not be able to take it, as my digestion is rather weak, and the alcoholic preparations distressed me. Now I take a wine glass full of Wyeth's in a glass of water and it helps instead of injuring my digestion. As the preparation has done me so much good I thought I would let you know this fact."

About Positions.

Many who go to a business school desire employment afterwards. I get positions for all who complete my "A" or actual business course—Book-keeping or Shorthand and Typewriting. They must qualify in such branches as I see they may need, attend regularly and give earnest attention to their studies. I shall do my part—I have done it so far and expect to.
