

STARVE THEM OUT!

Why not starve the germs to death? Scott's Emulsion will do it.

The germs of consumption are an invading army numbering millions upon millions; they must all be fed or they will soon die of starvation. A lung a little below "par" in vitality is just to their liking.

Why not put new life into it? Scott's Emulsion feeds the lungs. It fills the blood with nourishing food for all the weak parts. Good food means life. Life means resistive force.

Germs cannot live on healthy tissue. Scott's Emulsion and good fresh air drive out the germs of consumption.

THE BLOOM OF HEALTH.

Little children always need careful attention—but they do not need strong drugs. When any ailment comes they should not be dragged into insensibility with the so called "soothing" medicines, nor should they be given strong nauseous, griping purgatives. The very best medicine in the world for such troubles as colic, sour stomach, indigestion, constipation, diarrhoea, worms, colds, simple fevers and teething troubles, is Baby's Own Tablets. If your little ones suffer from any of these troubles give them the Tablets and see how quickly they will bring back the bloom of health. Give the little ones an occasional dose of the Tablets and you will keep them well. Mrs. Robt. Hanna, Elgin, Ont. has proved the truth of these statements and says:—"I find Baby's Own Tablets the best remedy for indigestion and teething troubles." The Tablets cost 25 cents a box, and may be had from druggists or by mail from the Dr. Williams Medicine Co., Brockville, Ont.

George Dart, aged twenty-six, one of the alleged desperadoes arrested in Lynn, Mass. on Tuesday, after a running revolver fight, is said to hail from New Brunswick. He had been arrested before for burglary. Dart was identified as one of the gang of robbers which has been operating in a score of Massachusetts towns. One of the same gang was shot and killed in East Boston in December.

TOO LITTLE BLOOD.

Is the Cause of Most of the Misery in Every Day Life—Improve the Blood and Disease Will Not Exist.

Among the many thousands who testify to the value of Dr. Williams' Pink Pills as a blood and nerve tonic is Miss Mary Jackson, Normandale, Ont., who says:—"I have used Dr. Williams' Pink Pills and have derived such great benefit from them that I consider it my duty to let others know their worth. For upwards of three years I suffered from anaemia, and grew so weak that I could scarcely walk about the house. I had no color in my face, my lips and gums were bloodless, I lost all ambition, suffered from headaches and dizziness, and fell away in weight until I weighed only ninety-four pounds. I doctored a great deal, but it did not seem to do me any good. I was then advised to try Dr. Williams' Pink Pills and before I had taken them ten days I felt better and my people could see a change in me. I continued using the pills for some weeks and am now in the very best of health. Every depressing symptom has passed away and I have gained fourteen pounds in weight. I think there is no medicine can equal Dr. Williams' Pink Pills and I strongly recommend them to all weak and ailing girls."

Miss Jackson's experience should bring hope to all the weak ailing girls and women. What those pills have done for her they will do for others. Every dose adds tone and vigor to the blood and nerves, brings a glow of health to sallow cheeks, a sparkle to the eyes and a ruby redness to the pallid lips. No other medicine has done so much to bring comfort and health to weak girls and women. If you are ailing give the pills a fair trial and new health and strength will be yours. Do not accept any pink colored substitute; the genuine pills always have the full name "Dr. Williams' Pink Pills for Pale People" printed on the wrapper around every box. Sold by medicine dealers everywhere or by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams Medicine Co., Brockville, Ont.

WHAT DO OUR PRAYERS MEAN?

In our moments of deepest devotion we have comfort in the thought we are privileged to be one with God in Christ. Yet, is it not well that, even when we feel nearest to God in His service, God never treats us as we often treat Him? How sad it would be for us if God should accept our standard of faithfulness as the one to which He would conform! Quaint old Thomas Fuller says: "Lord this day I disputed with myself, whether or no I had said my prayers this morning. Yet at last, I hardly recovered one token, whence I was assured that I had said them and only said them rather by heart than with my heart. Can I hope that Thou wouldst remember my prayers, when I had almost forgotten that I had prayed?" Do we always recall our prayers, because of their really meaning something? Do we ever recall God's special answer to our most recent prayers?—Sunday School Times.

London which anybody who ever passed a year round there must admit, is one of the most uncleanly among the large cities of the world, according to a report just issued, has a lower death rate than Paris, certainly one of the cleanest of places, and New York. Medical officers give the death rate of the British metropolis last year as 17.2 a thousand, the lowest record except 17.1 in 1901. One paper has accounted for the low figure by saying that all invalids and sick persons who can afford to do so are in the habit of getting away from London before the end comes.
