Thomas Malcolm, at Montreal,
Says Maritime Provinces
Want Government to
Keep Road.

(Montreal Herald.)

That the people of the maritime provinces would object to the sale of the Intercolonial by the government, is the opinion of Mr. Thomas Malcolm, who built and operates the International Railway.

The International runs from Campbellton, in the extreme north of New Brunswick, to the Maine border and will be part of the complete system giving connection with Bangor in Southern Maine. The line is 113 miles in length. The building of a bridge is the only connection lacking between the two roads.

Mr. Malcolm, who left for home yesterday, after visiting Ottawa, thinks that the people are getting a good service from the I. C. R., and that, considering it is a paying proposition, they would not be willing to see it become one of the greater railway systems.

Just Splendid

We doubt whether there is any one little thing on earth that will afford an elderly person so much pleasure as to find a glass that will give them GOOD vision after their eyes once begin to fail; something that will "make them see like they used to." Those on the shady side of life are always and eternally "TRYING" glasses to see if they can't find a combination that will restore lost vision.

Let us once get a pair of our glasses on anyone and we invite them to try others to their heart's content—such comparisons only bring out the superiority of our glasses and the excellence of our work.
