## WORK IS WHAT IS WANTED

(Chatham World.)

The way to build up a community is for every person in it, who can, to put some money into industries that give the people employment and push the industries to success. Industries that last all the year round are the best; but those that last part of the year are better than none. The most valuable power on earth is human power, but when it is not employed it is not only lost but it also consumes part of what others earn. Work creates wealth; work sets money in motion; work pays debts; work is the vital power in prosperity, and that city, that community, and that nation whose people are idle, are poor, and poor in proportion to the number that work and the time they work. Heaven's greatest earthly blessing to any people is to give them honest remunerative work.
