Between [illegible] five o'clock he left his home [illegible] Street, and was proceeding [illegible] I. C. Mr. McLellan then proceeded to the station and left as usual on his train, saying nothing to any person then of his experience.

The hold up occurred within a stone's throw of Chief Crawford's residence.

Con. McLellan has been travelling this route from his home to the station for many years and this is his first experience of this nature.

CALLAGHAN—LEGOFF.

The nuptials of Mr. James A. Callaghan and Miss Edna May LeGoff were celebrated in St. Aloysius church at half past seven Monday morning. The ceremony was performed by the Rev. Father McLaughlin in the presence of a large number of friends and relatives of the contracting parties. The bride was becomingly gowned in a cream serge suit with viena rose trimmings, large picture hat and gloves to match. The bride was attended by Miss Mary Callaghan, sister of the groom, looking charming in an amethyst broadcloth suit, with hat to match, while the groom was attended by Mr. Theodore Vautour. During the ceremony Mendellsohn's wedding march was played by Mrs. John Leger. After the ceremony a reception was held at the bride's home, after which Mr. and Mrs. Callaghan left on a bridal tour to Quebec Montreal, Toronto and Niagara Falls, taking with them the best wishes of their many friends for a happy married life.

The bride's going away gown was green broadcloth with hat to match. A large number were at the depot to see them away. On their return they will reside in Campbellton. Many valuable presents testified to the esteem in which the bride is held. The groom's gift to the bride was a set of mink furs.

The boy is the father of the man. The boy that learns to be a gentleman in his sports, that can trust himself in a crowd, and that would scorn to win by unfair means, has already laid the foundations of good citizenship.

The largest room in the world under one roof and unbroken by pillars is in St. Petersburg. It is 620 feet long by 150 feet wide. It is used for a drill shed, and a whole battalion can manoeuvre in it. The roof is a single arch of iron.

The Associated Press says Chinamen are eating wildcats to make them ferocious. We should think it would make any animal ferocious to be eaten by a Chinaman.

The airship is not going to give up the race for public attention to the other claimants. A Chicagoan has perfected an aeroplane that will fly like a bird. Unfortunately aeronautics seem to have retrograded in holding the public's interest. Perhaps they are not dangerous enough.

The killing of antelope is prohibited in the United States. These intelligent animals are greatly admired over there because they generally have a couple of horns with them.

Don't rub the soap on the flannels and don't use a wash board.* Rinse in lukewarm water, wring out and dry as quickly as possible. Woolens washed with Taylor's Borax Soap never *shrink, feel* softer and look better. 5c a cake at all grocers'. Try *one.* It softens the water and won't hurt your hands.

Pellagra, it is claimed, caused the terrible death roll in Andersonville prison during the Civil War, which has hitherto been attributed to the negligence of those in charge. The explanation may soften one of the bitter memories of the war.

A Berlin museum has recently acquired a very valuable manuscript which originated in the second century B. C. It seems to be of the nature of a biographical dictionary, for it contains a list of the leading men of the time of art, statesmenship and warfare with much other general information of a similar nature. The paper was found in the wrappings of a mummy.
