THE GALLANT ENGLISH TAR.

(BY ELIZA COOK.)

There's one whose fearless courage yet has never failed in fight,
Who guards with zeal our country's weal, our freedom, and our right;
But though his strong and steady arm spreads havoc in its blow,
Cry "Quarter!" and that arm will be the first to spare its foe.
He reeks not though proud glory's shout may be the knell of death,
The triumph won, without a sigh he yields his parting breath;
He's Britain's boast, and claims a toast! "In peace my boys, or war,
He's to the brave upon the wave—the gallant English tar!"

Let but the sons of want come nigh, and tell their tale to him,
He'll chide their eyes for weeping, while his own are growing dim.
"Cheer up," he cries, "we all must meet the storm as well as calm;"
But, turning on his heel, Jack slips the guineas in their palm.
He'll hear no long oration, but tell you every man
Is born to act a brother's part, and do what good he can,
He's Britain's boast, and claims a toast! "In peace my boys, or war,
Here's to the brave upon the wave—the gallant English tar!"

The dark blue jacket that enfolds the sailor's manly breast
Bears more of real honour than the star and ermine vest,
The tithe of folly in his head may wake the landsman's mirth,
But nature proudly owns him as her child of sterling worth,
His heart is warm, his hand is true, his word is frank and free;
And though he plays the ass on shore, he's lion of the sea.
He's Britain's boast, and claims a toast! "In peace my boys, or war,
Here's to the brave upon the wave—the gallant English tar!"

BRIGHT FLOWERS FOR HER I LOVE.

BY WILLIAM ROSCOE K LAWRENCE.

Bright flowers for her I love
Yes, flowers and rich and rare,
The rose-bud and the violet
To grace her golden hair;
Yet nature's gems—though beautiful
And pure and bright they be—
Are not so fair as she I love,
Or beautiful to me.

Rare gems for her I love!
All sparkling in their light,
A diadem to grace that brow
So beautifully bright;
Yet earthly crowns must fade—
Immortal crowns above
Alone are worthy to be sought
By her I fondly love.

Music for her I love!
Melodiously low,
Breathed soft from harps whose golden strings
With songs of rapture glow;
Such music as the angels make
In worlds of light above—
Such music would I have to cheer
The heart of her I love.

And peace for her I love!
The peace religion brings,
Renouncing fleeting, transient joys
For bright and heavenly things;
Let happiness be here,
And heaven her rest above;
May this, my prayer, accepted rise
For her I truly love.

QUEEN VICTORIA.

No Sovereign on earth fills a more exalted position in the confidence and affections of his or her subjects than Queen Victoria.—Her Empire is almost limitless in extent, and hence her subjects are found on all sides of the globe. Throughout this vast dominion all hearts cherish no other feeling towards her gracious Majesty than that of profound respect and ardent love. The admirable qualities of heart and mind, which she has exemplified during her successful reign, justly entitle her to this elevated place in the hearts of her people.

The Sketch of Victoria by the pen of Mrs. S. J. Hale, originally written for the *Woman's Record*, as given below, presents her in the varied relations of daughter—pupil—wife—Mother—and Sovereign. Her picture is well drawn and brings out the several phases of her character in beautious and well wrought proportions and is fraught with instruction to enrich the mind and to improve the heart.—[Ed.

Victoria, the reigning Queen of Great Britain and Ireland, was born at Kensington Palace, May 24, 1819. Her father was Edward, Duke of Kent, fourth son of George III., and her mother was Victoria Maria Louisa, daughter of the Saxe-Coburg. Left a widow when her delicate infant was but eight months old, the Duchess of Kent devoted herself to the great purpose of training her daughter to be worthy of the crown which it seemed probable that she might wear. Queen Victoria is, therefore, the exponent of female nature rightly cultivated for the highest station a mortal can inherit by birth. The means by which this instruction was perfected, and the results to humanity, are studies for the statesman, philosopher, and Christian.

In our brief sketch we shall only allude to some of the seemingly small circumstances, yet really great events, because influencing a mind that was to have a vast influence on other minds. The ordering and training of Queen Victoria was entirely the work of her wise-hearted mother, and chiefly accomplished by female agencies. That her education was of the highest and most perfect order for her station, there are ample proofs; it has given to the greatest monarchy in the world the best sovereign the world contains; the best of her own royal line; the best, morally speaking, that ever sat on England's throne. More than this, Victoria was trained to perform all her duties; she is an accomplished lady, as perfect in her feminine, as in her queenly character; a dutiful daughter; a loving wife; a watchful mother, a kind mistress; a generous benefactor; an exemplary Christian. There are no startling contrasts; no weak inconsistencies in her conduct.—Such uniform adherence to the right and proper, under circumstances when selfish propensities are so often stimulated and so easily gratified, must be the result of the conscientious principle early and unceasingly cultivated. In this lies the germ of all moral goodness and the element of all true greatness.—From conscientiousness, enlightened by the divine precepts, are educed the virtues of obedience, temperance, truth, justice, mercy, prudence, fidelity, benevolence, and self-control; while the sweet feelings of love, hope and faith, whose union and exaltation form the crowning grace of piety, owe their best and holiest charm to the same principle of right. Let us see how the teachings of a mother could thus lead her child in the way of righteousness, whose end is always happiness.

Before the birth of this precious child, the Duchess of Kent had shown—in the previous circumstances of her life, and particularly in the personal sacrifices and risks she endured, when, leaving her own home in Germany, she hastened to England, so that her offspring might be British born—her deep devotion to duty, and that inmate wisdom which has guided her through every task and trial.—The Duchess of Kent nursed her infant at her own bosom; always attended on the bathing and dressing; and, as soon as the little girl could sit alone, she was placed at a small table beside her mother's at her meals, yet never indulged in any except the prescribed simple kinds of food. Thus were the sentiments of *obedience*, *temperance*, and *self-control* early inculcated and brought into daily exercise.

The Duke of Kent died in debt for money borrowed of his friends. The Duchess instructed the little Princess concerning these debts, and encouraged her to lay aside portions of money, which might have been expended in the purchase of toys, as a fund to pay these demands against her deceased father. Thus were awakened and cultivated those noble virtues, justice, fortitude, fidelity, prudence, with that filial devotion which is the germ of patriotism. And thus throughout all the arrangements during the first seven years, the order, the simplicity, the conscientiousness of the teacher were moulding the ductile and impressible mind and heart of the pupil to follow after wisdom and do the right. Love, in her mother's form, was ever round the little Princess; the counsels and examples of that faithful mother, like an inspiration, served to lift up the young soul to have hopes in God and faith in the Lord Jesus Christ.

Well was it that the Duke of Kent left his wife sole guardian over his child. The Duchess could arrange the whole manner of Victoria's education and superintend it. She did do this. From the day of her husband's death till Victoria was proclaimed Queen, the Duchess of Kent never separated herself from her daughter. They slept in the same apartment; the first lessons were given by maternal lips, and when careful teachers were employed, still the mother was ever present, sharing the amusements and encouraging the exercises and innocent gaiety of the child. Thus was Victoria trained. Her intellectual education was as thorough as her physical and moral. From her cradle she was taught to speak three languages—English, German, and French. In her fifth year, her mother chose, as Preceptor for the Princess, the Rev. Geo. Davys, now, through the gratitude of his pupil, Bishop of Peterboro. In the co-operation afforded by this gentleman with the wise plans of the Duchess for her daughter's instruction, he evinced great excellence of moral character, and his faithfulness was well rewarded. The Duchess confided in him fully. When the Princess became heir-presumptive to the throne, and it was intimated to her mother that some distinguished prelate should be appointed instructor, and Earl Grey named the Bishop of Lincoln, then was the conscientious and truly noble mind of the Duchess displayed. She expressed her perfect approval of Dr. Davys as her daughter's tutor, and declined any change; but hinted that, if a distinguished clergyman were indispensable to fill this important office, there would be no objection if Dr. Davys received the preferment he had always well merited. He was soon afterward made Dean of Chester. Such traits deserve notice, because illustrative of the good influence which surrounded the young Princess, and also because they exhibit the constancy of woman's esteem when gained by worthy conduct.

Speed on Railroads.

Dr. Lardner adopts some ingenious arguments, or rather illustrations, to show the velocity with which our express trains move. The Great Western Express to Exeter runs at the rate of 43 miles an hour, including stoppages, or 53 miles, not including stoppages. To attain this rate, a speed of 60 miles an hour is adopted midway between some of the stations; and in certain experimental trips 70 miles an hour have been reached. A speed of 70 miles an hour is equivalent to 35 yards per second, 35 yards between two beats of a common clock. All objects near the eye of a passenger travelling at this rate will pass by the eye in the 35th part of a second; and if 35 stakes were erected at the side of the road, a yard asunder, they would not be distinguishable one from another; if painted red, they would appear collectively as a continuous flash of red color. If two trains with this speed passed each other; the relative velocity would be 70 yards per second; and if one of the trains were 70 yards long, it would flash by in a single second. Supposing the locomotive which draws such a train to have driving-wheels seven feet in diameter, these wheels revolve five times in a second. The piston moves along the cylender ten times in a second; but as there are two cylinders, which act alternately, there are really twenty puffs or escapes of steam in a second. The locomotive can be heard to "cough" when moving slowly, the cough being occasioned by the abrupt admission of waste steam up the chimney; but 20 coughs per second cannot be separated by the ear, their individuality becoming lost. Such a locomotive speed is equal to nearly that of a cannon ball; and the momentum of a whole train, moving at such a speed, would be nearly equivalent to the aggregate force of a number of cannon balls, equal to one-fourth the weight of the train. That a "smash" should follow a "collision" is no subject for marvel, if a train moving at such speed, or anything like such speed, should meet with any obstacle to its progress.—*Dodd's Curiosities of Industry.*

Practical Experience of Dr. Gries, in Consumptio.

Magdeburg, 16th Sept. 1853.

My wife having suffered for years from a pulmonary complaint, became so ill at the beginning of this year, that I looked daily for her dissolution. The remedies which hitherto had relieved her remained now without effect, and the operations of the lungs and night sweats debilitated her fearfully. It was in this evidently the last and hopeless stage of pulmonary consumption when every medicine remained powerless to even afforading temporary relief—that I was induced by a medical brother in Hanover, who makes pulmonary consumption his special study, and treats it with DuBarry's Revalenta Arabica, to try this strengthening and restorative food, and I am happy to be able to express my astonishment at its effects. My poor wife is now in as perfect a state of health as ever she was, attending to her household affairs and quite happy. It is with pleasure and the most sincere gratitude to God for the restoration of my wife, that I fulfil my duty of making the extraordinary efficacy of Du Barry's Revalenta, in so fearful a complaint, known; and to recommend it to all other sufferers. GRIES, M D

CERTIFICATE FROM DR. GATTIKER.

Zurich, 3 September, 1853.

I have tried Du Barry's Revalenta Arabica for a complaint which had hitherto resisted all other remedies—viz., CANCER OF THE STOMACH; and I am happy to say with the most successful result. This soothing remedy has the effect, not only of arresting the vomiting, which is so fearfully distressing in cancer of the stomach, but also of restoring perfect digestion and assimilation. The same salutary influence of this excellent remedy I have found in all complaints of the digestive organs; it has also proved effectual in a most obstinate case of habitual flatulence and colic of many years standing. I look upon this delicious Food as the most excellent restorative gift of nature. DR. GATTIKER

Plymouth, May 9th, 1851.

For the last ten years I have been suffering from Dispepsia, headaches, nervousness, and shifting pains, and medicine without relief. I am happy to say that your Food has cured me, and I am now enjoying better health than I have had for many years past.

J. S. NEWTON.

Devon Cottage, Bromley, Middlesex, Mar. 31, 1849.

GENTLEMEN,—The lady for whom I ordered your Food is six months advanced in pregnancy, and was suffering severely from indigestion, constipation, throwing up her meals shortly after eating them, having a great deal of heartburn, and being constantly obliged to have recourse to physic or the enema, and sometimes to both. I am happy to inform you that your Food produced immediate relief. She has never been sick since, had but little heartburn, and the functions are more regular, &c.

You are at liberty to publish this letter, if you think it will tend to the benefit of other sufferers.

THOMAS WOODHOUSE.

DR. WURZER'S TESTIMONIAL.

Bonn, 19th July, 1853.

This light and pleasant Farina is one of the most excellent, nourishing, and restorative remedies, and supersedes in many cases all kinds of medicines. It is particularly useful in confined habits of body, as also in diarrhœa, bowel complaints, affections of the kidneys and bladder, such as stone or gravel; inflammatory irritation and cramp of the urethra, cramp of the kidneys and bladder, strictures and hæmorrhoids. This really invaluable remedy is employed with the most satisfactory result, not only in bronchial and pulmonary complaints, where irritation and pain are to be removed, but also in pulmonary and bronchial consumption, in which it counteracts effectually the troublesome cough; and I am enabled with perfect truth to express the conviction that Du Barry's Revalenta Arabica is adapted to the cure of incipient beetic complaints and consumption. PROFESSOR MOTTS

Celebrated Female Regulating Pills.

These wonderful Pills are compounded entirely from the vegetable kingdom, and they are now recommended to the Female sex as an invaluable remedy for many complaints to which they are subject. In obstruction—either total or partial, they have been found of inestimable benefit for healthy action. The Aperient stimulent and tonic properties are so admirably combined in the composition of these Pills, that they clear the Bowels from all corrupt and vitiated matter—rouse up the sluggish action of the Heart, Blood, and other fluids from all Humours—strengthen the nerves and muscles, and give tone and energy to the whole system.

These Pills will most effectually put to flight all complaints which may arise from Female Irregularities, such as Headache, Backache, Giddiness, and Dimness of Sight, Ringing in the Ears, Costiveness, Loss of Appetite, Pain in the Side and Chest, and general lassitude and debility. Thousands of Females who are fast approaching the verge of the grave, may be relieved by giving these Pills a thorough trial. They have never been known to fail in effectually removing the complaints above enumerated, and want only to be known and tried to satisfy the most incredulous of their intrinsic value.

DR. MARCHISIS' UTERINE CATHOLICON.

THE DISCOVERY OF THE ABOVE PREPARATION HAS ESTABLISHED A NEW ERA IN THE HISTORY OF THE HEALING ART; it is, in truth, one of the greatest Medical Discoveries of the Age, because it will cure more than nine-tenths of a class of distressing diseases incidental to females in every stage of life, and which have heretofore resisted the best efforts of the Medical profession in all countries, to a degree beyond that of almost every other malady to which any portion of the human family is heir. The diseases to which we refer are usually known by the term of

FEMALE COMPLAINTS,

and comprise all the derangements to which females are liable by the peculiarities of their organization. Among these are PROLAPSUS UTERI, or Falling of the Womb; CHRONIC INFLAMMATION and ULCERATION OF THE WOMB; INCIDENTAL HÆMORRAGE, or Flooding; FLUOR ALBUS, or WHITES; CHLOROSIS; PAINFUL, SUPPRESSED and IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted,) of whatever duration and severity. ALL THESE COMPLAINTS can be pleasantly, safely, and certainly remedied by this preparation.

THE CLAIMS OF THIS MEDICINE to the confidence of the public are strengthened by the fact of its having received the approbation and liberal patronage of MANY PROMINENT MEMBERS OF THE MEDICAL FACULTY in the United States, some of whom have voluntarily given letters of commendation. (see pamphlet.) sustaining all that is claimed for the Catholicon as a curative agent.

Celebrated Toilet Preparations.

We would call the attention of the Ladies and Gentlemen of New-Brunswick to the following choice Toilet articles—

ISAAC BABBITT'S Superior Toilet Soaps,

CYTHEREAN CREAM OF SOAP, PANARISTON SHAVING CREAM, PANARISTON SHAVING SOAP, IN SOLID ROLLS, PANARISTON SOAP FOR MEDICAL USES, AND SHAVING POWDER.

These choice Soaps and Creams enjoy the highest fame for their superior excellence, both in this country and Europe. Medals have been awarded from the best institutions, and testimonials of their virtues by thousands who have used them.

Cytherean Cream of Soap for Ladies, softens the skin, removes freckles, purifies the complexion, and is free from all impure or irritating properties and is admired by all who use it.

Panariston Shaving Cream takes the place of all other Soaps as a preparation for the razor, and those who use it once will never after use any other.

Panariston Rolls are put up in a neat portable style suited to travellers' convenience.

The following are a few from the many testimonials received:—

Rev John Pierpont says of the Shaving Soap, "it is unequalled as a preparation for the razor by any thing that I the Cytherean Cream, "I have never met with any Soap Compound, which, in cleansing the most delicate skin, would, like this, leave it perfectly moist, soft and healthy." DR. Walter Channing says:—"I have no memory of so good an article." Dr. Luther V. Bell, Superintendent of the McLean Asylum, says—"It is superior to any other saponaceous compound I have known." Hon Horace Greely of the N. Y. Tribune, says "we have tried it, and found it a treat; no other soap is worthy of being mentioned the same day." Dr. Bailey, editor of the National Era, says, "it is in all respects the very best soap we have used."—Mrs. Swisshelm, editress of the Pittsburgh Saturday Visiter, says, "it is superior to anything in the soap line, either soft or hard." Mr Prentice of the Louisville Journal says, "the Cytherean Cream of Soap is probably the best for preserving the purity of the skin which has yet appeared." The New York Literary World says, "Mr. Babbitt will be the Sayer of soap, the great regenerator."

DEVINE'S Compound Pitch Lozenge.

An appeal to matter of fact, and common sense.

IT is that which has so long been sought for, and is in full faith offered to the public as a CERTAIN CURE for

Coughs, Colds, Whooping Cough, Croup, Costiveness, Asthma, and Consumption,

and will, in any case where lungs sufficient are left to sustain life, check the ulceration, and raise the patient to health. This is not an idle boast nor is this remedy sent into the market without a thorough trial; but has proved beyond a doubt that what has been asserted CAN BE DONE.

We do not ask you, reader, to take our word, but those who, but a few weeks ago had given up in despair and are now in the enjoyment of health, and without asking have given us their certificates in favor of this great remedy.

Let all, then, who are afflicted, TRY IT, and if the assertions on each box are not proved after an impartial trial, the price will be returned: when the article is not *perfectly satisfactory!*

If the Lozenge on being exposed to the air in hot weather should become soft, it is no objection, but rather goes to prove that they are in good condition.

S. D. Fuller & Co., Boston, Proprietors for Devine's Pitch Dozenge, Dr. Corvell's Pain Expeller and Macaronick, a sure cure for the Piles; also, the Yankee Extract, an article warranted to take out all Grease, Oil, Paint, &c., without injury to the finest texture or showing any dust on the part cleansed. HOLLOWAY'S OINTMENT

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. William Abbs, Builder of Gas Works, Knaresborough, near Huddersfield, dated May 31st, 1851.

To Professor HOLLOWAY.

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England, Chemist, 13 Market Street, Huddersfield.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 70, St. Mary's Street, Weymouth, dated May 15th, 1851.

To Professor HOLLOWAY.

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible, I had often read your Advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scars, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A WONDERFUL CURE OF A DANGEROUS SWELLING OF THE KNEE.

Copy of a Letter from John Forfar, an Agriculturist, residing at Newborough, near Hexham, May 15, 1850

To Professor HOLLOWAY.

SIR,—I was afflicted with a swelling on each side of the leg, (other above the knee, for nearly two years, which increased to a great size. I had the advice of three eminent surgeons here, and was an inmate of the Newcastle Infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment, I determined to try them and in less than a month I was completely cured. What is more remarkable I was engaged twelve hours a day in the hay harvest, and although I have followed my laborious occupation throughout the winter, I have had no return whatever of my complaint. (Signed) JOHN FORFAR

AN INFLAMMATION IN THE SIDE PERFECTLY CURED.

Copy of a Letter from Mr. Francis Arnot, of Brechons Lothian Road, Edinbro', dated April 29th, 1851.

To Professor HOLLOWAY.

SIR,—For more than twenty years my wife has been subject, from time to time to attacks of inflammation in the side, for which she was bled and blistered to a great extent, still the pain could not be removed. About four years ago she saw, in the papers, the wonderful cures effected by your Pills and Ointment, and thought she would give them a trial. To her great astonishment and delight she got immediate relief from their use, and after persevering for three weeks, the pain in her side was completely cured, and she has enjoyed the best of health for the last four years.

(Signed) FRANCIS ARNOT.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a Letter from Mr. Frederick Turner, of Pensherst, Kent, dated Dec. 13th, 1850.

To Professor HOLLOWAY.

DEAR SIR,—My wife had suffered from Bad Breast, for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I have never recommend them to all my friends. (Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases;—

Bad Legs	Chiego-foot	Sore-throats
Bad Breasts	Chilblains	Skin diseases
Burns	Chapped hands	Scurvy
Bunions	Corns (soft)	Sore-heads
Bite of Mosquitoes and Sand-Flies	Cancers	Tumours
	Contracted and Stiff Joints	Ulcers
Piles	Gout	Wounds
Lumbago	Piles	Glandular Swellings
Rheumatism	Scalds	Sore Nipples
Coco-bay	Elephantiasis	Yaws

Holloway's PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor HOLLOWAY.

SIR,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the violence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the *severity of the attack*, and the *speedy* cure, I think, speaks much in favor of your astonishing Pills. (Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart-Town Courier, of the 1st March, 1851, by Major J. Welch.

Margaret M'Connigan, nineteen years of age, residing a New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs: during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected a perfect cure.

WONDERFUL EFFICACY OF HOLLOWAY'S PILLS IN CASES OF DROPSY

Persons suffering from Dropsy, either about the turn of life, or at other times, should immediately have recourse to these Pills, as hundreds of persons are annually cured, by their use, of this direful complaint in its different stages, when all other means had failed.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2nd. 1851.

To Professor HOLLOWAY,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

AN EXTRAORDINARY CURE OF THE GRAVEL AND A MOST DANGEROUS FEVER COMPLAINT.

Copy of a Letter addressed to J. K. Heyden, Esq., Sydney, New South Wales dated Feb. 25th, 1851.

SIR,—A Mr. Thomas Clark, a Settler at Lake George was for a considerable time seriously afflicted with a Complaint of the Liver, together with the Gravel. His medical attendants, after using all their skill, candidly told him that his case was hopeless, and any further efforts useless in this situation, and when expecting every day would terminate his existence, a friend recommended him to try Holloway's Pills, and as a forlorn hope he did so, the first gave him considerable relief, he therefore persevered in taking them according to the directions, and is now restored to health. He will feel great pleasure in confirming this statement, or even make an affidavit to the same effect, should it be required.

(Signed) WILLIAM JONES, Proprietor of the Goulburn Herald, New South Wales
