Poetry.

ALONE.

Patient and faithful, and tender and true,
Praying and thinking, and working for you—
Bearing all-silently sorrow for years—
Hopefully striving to conquer my fears:
Say, did my patience, my tenderness, truth,
Merit not more than the blight of my youth?

Give me once more my wild energy back,
Give me the hopes that illumined life's track;
Give me the faith that I wasted on you—
Give me the love that I squandered thereto—
You cannot; too lightly you cast them aside,
And for you and all others those feelings have died.

Yet, though the hopes that I cherished are dead,
Though the light from my spirit forever hath fled,
Though 'twas doubting in God when I doubted in you
As my standard and type of the leal and the true;
O'er the wreck of my life I would never repine,
If the peace I have lost were but added to thine.

Miscellany.

THE PRINTER.—Whoever feels disposed to throw a reproach or slur upon the Printer let them read the following from the *Peoria* (Ill.) *Journal*, in which we find a tribute to "the art Preservative of arts:"—

"He is only a Printer." Such was the sneering remark of a leader in a circle of aristocracy—the codfish quality. Who was the Earl of Stanhope? He was only a Printer. What is Prince Frederick William, just married to the Princess Royal of England? He too is only a Printer. Who was William Caxton, one of the fathers of literature? He is only a Printer. What was G. P. Morris, N. P. Willis, James Gales, Charles Richardson, James Harper, Horace Greely, Bayard Taylor, Charles Dickens, Theirs, Douglass Jerrold, George D. Prentice, and Senatsrs Dix, Cameron, Niles, and Bigler? They too were Printers. What was Benjamin Franklin? He also was a Printer. And last, what is James Buchanan, who occupies the most enviable position on earth? Only a Printer! Every one cannot be a Printer—brains are necessary.

☞ A correspondent asks through the N. Y *Musical Review*, whether "Is it proper for the congregation to rise and turn round to face the choir during the singing?" To this question Dr. Lowell Mason replies as follows:

"Our own taste, or sense of propriety, says it is not. It seems to be disrespectful to the pulpit, from whence comes the offer of life.—It leads to forgetfulness of the true design of singing, and to the mere gratification of the eye, or ear, or to criticism, etc. We think it much better for the people to rise, face the pulpit, and join heart and voice in the song.

PHRENOLOGY IN THE QUEEN'S DOMINIONS.—Within the past few years much interest has been manifested in the science of Phrenology by the good people of New Bunswick and Nova Scotia. They have read the works on the subject, and satisfied themselves of its utility, and of its application to the moral and intellectual development and improvement of man. To carry out this, and to obtain the fullest possible information, with all the modern discoveries they have invited Prof. L.N. Fowler, of our firm, to visit them professionally, and to give them the benefit of his extensive research and experience in this direction. He has, we believe, concluded to visit those Provinces some time during the coming months of August and September. Further particulars will be given in our next.—*New York Life Illustrated.*

THE LAND OF BLOOD.—The most disgraceful fact, of late years, in the policy of both England and the United States, is the absurd tolerance they show towards Spain. Contemptible in every point of view—from the shameless wanton on the throne to the brigand on the mountain, from the corrupt Concha at Havana to the paramour Serrano of Madrid—we have yet the melancholy exhibition of America allowing these brutal, blood-thirsty Spaniards to murder a hundred and fifty American citizens in cold blood, and of England permitting the same miserable Government to carry on the slave trade with impunity.—*American paper.*

HEAT OF THE SUN.—On Wednesday one of the trackmen on the railroad between Rochester and Buffalo, N. Y., discovered that the rails were bent in two places, and on examination showed that the heat of the sun had so expanded the rail that it had curved each way—it being the combination rail—fully six inches out of line. All this expansion must have taken place within two or three hours, as not more than that time had clapsed since trains has passed over the track. The discovery was made just in season to warn approaching trains of the danger.—*State of Maine.*

The Paris "Constitutionel" on the Difficulty between England and Spain.

The Spanish Press and public opinion have resented the bitter taunt of Lord Malmesbury in alluding to the "vile ingratitude" of Spain, which was well calculated to wound the self-esteem of a generous nation, and which, moreover, offered a singular contrast with the deference and courtesy to the United States. If certain planters in Cuba act improperly in purchasing slaves from the slave-dealers, they are, after all, only the accomplices of more guilty parties, namely: of those who facilitate slave dealing. How is it, therefore, that the first are denounced while the complaints of the latter are recognized as legitimate? How are we to appreciate this employment of two weights and two measures with the rules of justice? Thanks to the possession of Gibraltar, an enormous quantity of English merchandize is smuggled into Spain, to the prejudice of the Spanish customs and the national industry. Will this abuse be attributable to the Spanish government? The Bible Societies inundate the Peninsula with books and tracts which attack the Catholic religion and the Pope. There are probably Spaniards who purchase these books, since there are so many agents who deal in them. But it will be said that the Spanish Government makes common cause with the publishers of Protestant Bibles? Before declaring a country to be responsible for reprehensible deeds committed by private individuals in distant colonies, it is essential that the accusing party should have entire conviction of his own innocence.—The Spanish journals have more than once commented on the fact that England, in spite of her friendship for Spain, has kept possession of Gibraltar. They, moreover, remember that under the first Empire, the English troops pillaged all the fortified places which they captured from the French, such as Ciudad Rodrigo, St. Sebastian, Badajoz, which had enjoyed peace and protection while occupied by our troops."

The *Constitutionel* concludes by recommending the Madrid press not to attach undue importance to the language of Lord Malmesbury, nor to suppose for one instant that England would permit Cuba to be taken from the Spanish crown.

RE-ESTABLISHMENT OF THE OLD PLAN OF MANAGEMENT.

LEWIS RICE, Proprietor, respectfully announces that he has resumed the *old plan* of management as it existed before the recent alteration. The accommodations and conveniences of the House are unsurpassd, and the recent improvements and alterations, for the comfort of guests, have nothing to be desired.

A MEDICAL REVOLUTION!

THE WORLD UNANIMOUS.

HOLLOWAY'S OINTMENT.

THE GREAT COUNTER IRRITANT!

The virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth diffusing its cool and regenerating influence.

SKIN DISEASES & GLANDULAR SWELLINGS.

Every species of exterior irritation is quickly reduced by the anti-inflamatory action of this Ointment, Angry ERUPTIONS, such as SALT RHEUM, ERYSIPELAS, TETTER, RINGWORM, SCALD HEAD, NETTLE RASH, SCABIES (or ITCH) &c., die out, to return no more under its application Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORES, AND TUMORS.

The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

WOUNDS, BRUISES, BURNS, AND SCALDS.

In cases of the fracture of the bones, injuries caused by steam explosions, BRUISES, BURNS, SCALDS, RHEUMATISM, STIFFNESS OF THE JOINTS, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

UNDENIABLE TESTIMONY.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun-shot wounds. It is also used by the surgeons of the Allied Navies.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Rheumatism,	Sore Throats,
Burns,	Ringworm,	Sores of all kinds
Capped hands,	Salt Rheum,	Sprains,
Chilblains,	Scalds,	Stiff Joints
