THE CROUP

Any of the children ever have it? Then you will never forget it, will you? Don't let it go until midnight again, but begin treatment during the evening, when that dry, hollow, barking cough first begins.

Get out your Vapo-Cresolene (for you surely keep this in the house), put some Cresolene in the vaporizer, light the lamp beneath, and let the child breathe-in the quieting, soothing, healing vapor. There will be no croup that night. If it's midnight, and the croup is on, inhaling the vapor will break the spasm and bring prompt relief.

For asthma, bronchitis, sore throat, coughs and colds, it is a prompt and pleasant cure, while for whooping-cough it is a perfect specific. Your doctor knows, ask him about.

Vapo-Cresolene

CURES WHILE YOU SLEEP

"The apparatus is simple, inexpensive, and I believe, unequalled in the treatment of whooping-cough. The vapor is not injurious to healthy persons. It has a beneficial effect in allaying the irritation and the desire to cough in bronchitis. I earnestly recommend it."

JOHN MERRITT, M.D., of Brooklyn, in the N.Y. Medical Record.

Vapo-Cresolene is sold by druggists everywhere, or will be forwarded, express and customs duty paid, upon receipt of regular price. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene, 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE CO., 180 Fulton St., New York, U.S.A.—115.

STUDENTS AND ATHLETICS.

CHICAGO, Nov. 1.—Head Coach Stagg of the University of Chicago announced his intention today of again proposing at the next western athletic meeting stringent measures against professionalism in college athletics. He will suggest the prohibition of all summer base ball and kindred occupations for college athletes, without regard to whether the athlete is paid or not for his services. In Stagg's opinion that is the only way to handle the question successfully.
