Board of Trade Adopts Resolutions Advocating Preferential Trade in the Empire.

A special meeting of the board of trade was held last evening for the discussion of imperial preferential trade, in compliance with requests received from the boards in Montreal, Toronto and other Canadian cities.

After a thorough discussion of the scheme from various points of view the following resolution, moved by D. J. McLaughlin and seconded by W. S. Fisher, was passed:

Resolved, That in the opinion of this board any tariff made by the imperial government would be productive of the best results for the empire by being so framed as to give a preference to products of British manufactures within the empire, such preference to be reciprocal and to apply to the colonies as they meet legislation granting the same preference to British and colonial products.

This action on the part of the imperial government would be productive of the best results for the empire by being so framed as to give a preference to products of British manufactures within the empire, such preference to be reciprocal and to apply to the colonies as they meet legislation granting the same preference to British and colonial products.

His Will the All-Absorbing Topic in London.

LONDON, April 5.—The war in South Africa, politics and every topic usually of interest, was forgotten today in the absorbing discussion of Cecil Rhodes' will. Regarding that extraordinary document, the Associated Press has ascertained some new facts.

The total of Mr. Rhodes' fortune is likely to prove to be £5,000,000 or slightly under that amount. The executors, to whom he bequeathed the residue of his estate, will divide about £1,000,000 or £1,500,000 between them.

According to the terms of this legacy, the amount is to be divided during their lifetime; but as each legatee dies his share goes to a common fund until the surviving legatee becomes its sole owner. Hence, one of the executors, the majority of whom are enormously wealthy, will one day inherit what will then have probably accumulated into nearly £2,000,000.

The executors, the Associated Press learns, have unusually full powers and can construe and add to the will as seems fit. Hence the omission of British Columbia, Nova Scotia and other Canadian provinces from the list of scholarships is quite likely to be corrected and each province of Canada may be put on the same footing as the American states. One of Mr. Rhodes' most intimate associates said to a representative of the Associated Press: "He drew up his will in the same spirit in which he approached all great undertakings. In his most important tasks he merely sketched the outlines and left us to fill in the details. His trustees are given plenary powers. In the matter of the scholarships, Mr.
