ST. JOHN STAR.

ST. JOHN, N. B., JANUARY 27, 1902.

SIR WILFRID AND MR. REDMOND.

When Mr. John Redmond, leader of the Irish Nationalists, was in Canada recently, Sir Wilfrid Laurier attended a banquet in his honor. Later the two gentlemen again met and in the course of their conversation Mr. Redmond says that the Canadian premier assured him of the sympathy which he had for the position of the Irish Nationalists. His utterances were gladly placed side by side in Mr. Redmond's repertoire with those of William J. Bryan and other distinguished statesmen. With such influence and such sympathy, the success of the movement which could in the words of the leader "defy the guns and forces of Lord Salisbury and Mr. Wyndham," was assured. Mr. Redmond returned to his flock greatly encouraged, albeit the tour from a financial and practical point of view was a dismal failure. The Nationalists need funds, just at present, far more than they need sympathy, pure and undiluted. Yet Sir Wilfrid's assurances are held in high regard and are brought out for display at every available opportunity. Just now they have figured in the British parliament and later they will be made to do mischievous duty somewhere else. Mr. Redmond and his followers ought to be informed that Sir Wilfrid's speeches are for the occasion only; that his assurances of sympathy are as many and broad as the claims upon them, and that his Saskatchewan musket is only a piece of oratorical effect. The promises of the liberal premier are of the kind on which hopes, but nothing more substantial, can be built. If Mr. Redmond knows this, he is not informing anybody else. It would not be in his interest to do so. But a large number of the British people, to whose ears these assurances of Sir Wilfrid are now brought, would be likely to suppose that the premier of Canada was a man with some of the elements of a statesman, a man on whose promises some reliance might be put. So the authority of his name would be likely to carry some weight. At any rate, it certainly is not a help to the councillors of King Edward. His action in the Redmond affair is about as bad a piece of bungling as he possibly could do. The people of Canada have reason to know just what that means.

REV. H. H. ROACH RESUMES.

Pastor of Tabernacle Church Back in His Pulpit—Memorial Service Next Sunday—A Testimonial.

Rev. H. H. Roach returned on Saturday from a vacation at St. John, N. B., and resumed yesterday the pulpit of the Tabernacle Baptist church, which he had occupied for twenty years. A very large congregation attended at both services. In the morning Rev. Mr. Roach preached an able sermon from John xv. 7, "Deson the theme, 'Abiding in Christ,' illustrating mainly his remarks by reference to some of his experiences during the epidemic. In opening, he expressed his great pleasure at being among his own people again, his great gratification in seeing a large number of his former hearers, and his assurance that, early dropped during the past two months, he would now be carried on more vigorously than ever.

At the evening service he announced that Sunday a memorial service would be held for those of the congregation who had succumbed to attacks of the dread disease which had robbed the church of eight of its attendants. Those belonging to the Tabernacle congregation who have died of smallpox are Mrs. Boyce, wife of Deacon Boyce; Rev. and Mrs. Lewis; Mrs. E. E. Alward; Guy Fawcett and the two children of Henry Hill.

FLOUR SELLS POOR \$50 A SACK.

LEWISTON, Idaho, Jan. 24.—A special from Elk City announces the arrival there of Allen Stonebreaker, carrying the mail from the Hunder Mountain and bringing the latest news from that district. He left the camp for Elk City on the 19th, and at that time supplies were nearing complete exhaustion. There were 75 men in the camp and unless supplies are taken in immediately the most of them will be compelled to leave at once. The last few sacks of flour sold from \$20 to \$50 per sack. A new district has been located and the locations are selling from \$1,000 up.

THE NEW CHINA.

PEKIN, Jan. 25.—Chinese officials have found treasure to the value of over 100,000,000 taels in gold and silver, which was buried in the women's quarters of the palace before the court fled from Pekin.

The court has granted five million taels annually to Yuan Shi Kai, viceroy of Chi Li, for the maintenance of an army of 100,000 men in Chi Li province.

Yuan Shi Kai has been given practically control of the army and navy of China, and proposes engaging Japanese instructors for the army and British instructors for the navy.

POLYMPHOPHIAN CARNIVAL.

The executive of the Polymorphian Club will meet at R. J. Wilkins' store, King street, at eight o'clock tonight to perfect arrangements for the annual carnival which is booked to take place at Victoria rink on the evening of Friday, February 7th.

While the Polymorphian skating carnivals have always been good in the past, the scheme this year is in distance of previous records. A lot of new features are in hand, and the club members swear they will wake up the city as never before.

VICTORIA RINK TONIGHT.

There will be a band at the rink every night this week. Tonight, in addition to the band, there will be a one mile race between Hudson Eren and Leonard Daly, to start about 9 o'clock. The ice is in great condition, and as a deep solid bed has been formed, there is no danger of even a few days of mild weather, should it come, spoiling the skating. Mr. Armstrong struck the right thing when he put an asphalt bottom in the skating area of Victoria rink.

MANUAL TRAINING.

This evening at eight o'clock in the High School room, Robertson of Ottawa will lecture on Manual Training as a Part of Modern Education. Prof. Robertson understands his subject in all its bearings. The subject appeals to teachers and to parents. Judge Trueman, chairman of the St. John school board, will take the chair, and it is expected that all the teachers in the city will be present.

BERLIN, Jan. 25.—The Prince of Wales, who is to represent King Edward at the celebration of the birth of Emperor William tomorrow, visited the Prussian prince, Count Von Buelow, the imperial chancellor, the various ambassadors and other distinguished personages this morning.

C. P. R. To Increase its Capital Stock By Twenty Million Dollars.

ST. JOHN VISITED FOUR TIMES BY SMALLPOX.

The Epidemic of 1871 Found the Board of Health With 86 Cents to Its Credit.

In the last half century St. John has experienced four epidemics of smallpox, not epidemic in the true sense of the word, as accepted by the medical profession, yet the disease was on each occasion so prevalent enough to be regarded as epidemic by most people. In 1859-60 smallpox struck the city with considerable vigor, but while some of those attacked still survive, little history or statistics are obtainable of the extent of its ravages. Again in 1871 the inhabitants were attacked and over 2000 cases, with 71 deaths, followed before the epidemic was suppressed. Then there was another siege in 1873, which was the last until 1901. At other intervals during the period mentioned the disease made its appearance in a few separate cases, the last occasion being in 1885, when an epidemic in the province of Quebec, especially in the city of Montreal, where over 3000 people succumbed to its ravages. Then it will be seen that St. John was free from smallpox for 16 years prior to the present outbreak.

HERE BEFORE.

The epidemic of 1871 was similar to the one just subsided in three respects, it was originated by a sailor, flourished in the Haymarket Square districts, and was arrested by vaccination. In that occasion the disease obtained a strong foothold and threatened to wipe out a good proportion of the inhabitants because the health authorities then did not establish a general vaccination as promptly as was done in the 1901 outbreak. In 1871 the first victim who developed smallpox died and was buried without two attending physicians diagnosing the disease. In this way an epidemic firmly implanted itself, as illustrated by subsequent developments, twelve cases breaking out almost simultaneously about two weeks later. The supposition that this was the origin of the epidemic here was due to the fact that he had escaped from an infected steamer at Portland, Maine, and come to St. John. He did not take ill until three weeks after his arrival here, and owing to this elapsed of time doubt arose respecting the nature of his disease, but, subsequently, it was agreed that he carried the infection in his sea chest of clothes. The first victim's name was Wheaton, who was a painter, but came from Liverpool to Portland, Maine, as a passenger on the Allan line steamer Moravian. Smallpox broke out on the passage, so the vessel was detained on arrival at Portland. While she was in detention Wheaton got away, came to St. John just prior to Christmas of 1870, and lodging in a house near Marsh Street, Wheaton was the first to develop violent illness, died, and, though the physician maintained his disease was not smallpox, neighbors and the undertaker, the late Mr. Powers, had suspicions, especially when the information leaked out that the man had come from Liverpool, where the disease is so prevalent. It may be added here that Wheaton had hemorrhagic smallpox, in which an eruption did not appear before death, consequently this type is more difficult to diagnose than milder forms of the disease, which probably accounted for the inability of the physicians to diagnose correctly.

MASKS.

Domino Masks with curtains, all colors, only 6c. each.

VASELINE BARGAIN

50c box Vaseline Preparation for 25c. BOX CONTAINS: One Cake Vaseline Family Soap. One Tube Capsicum Vaseline. One Tube Vaseline Camphor Ice. One Large Tube Pure Vaseline. One Jar Vaseline Cold Cream.

WANTED—Board and lodging for students. Address the Currie Business University, cor. Charlotte and Princess streets.

AMBULANCE DRIVER DRUNK.

Michael Kelly, driver of the post-house ambulance at Snake Hill (Jersey City), went to West Hoboken yesterday afternoon to get four smallpox patients, children of Mrs. Mary Schaffner, and Mrs. Elizabeth Nolan, of No. 515 John street. The mother insisted on going along and they got into the ambulance.

Kelly stopped at several beer saloons en route to Snake Hill, making a prolonged stay in each, and when darkness came he was in a wabbling condition and scarcely able to manage the horses. Finally he fell asleep on the seat and the horses went along of their own accord, they dragging the ambulance leisurely through the streets of upper Jersey City. At 8 o'clock last night they came to a stop at the corner of Hudson street and Cambridge avenue.

Half an hour later William Shepherd, of No. 79, Hudson street, tried in vain to arouse Kelly, and hearing voices inside the ambulance, he got on the seat alongside Kelly and drove to the Webster Avenue Police Station. There Kelly was aroused, and it was then learned that the ambulance was from the post-house and that there were smallpox patients in it. The crowd that had gathered in front of the station scurried away in all directions. —New York World.

Have you goods to sell? Advertise them in the Star. It's a good medium through which to reach the people.

DOCTORS LIKE IT.

For over twenty years Vapo-Cresolene has received the unqualified support of the medical profession; we feel very proud of this. Physicians everywhere realize the importance of this direct way of treating all throat affections. Put some Cresolene in the vaporizer, light lamp beneath, and then breathe in the healing and germ destroying vapor. It is the doctor's prescription now for whooping cough, frequently curing it in a few days.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, \$1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., the Fulton St., New York, U.S.A.

WINNIPEG, Jan. 25.—The Lisgar election is fixed for February 20th; nomination a week earlier.

TORONTO, Jan. 25.—J. H. Beatty, president of the Federal Life Insurance Co. and of the Beatty line of steamers, died on Saturday of paralysis.

To cure a Headache in ten minutes use KUMFORT Headache Powder.
