ST. JOHN, N. B., OCTOBER 3, 1904. PROSPERITY AND TAXATION. Liberal papers these days are casually mentioning very frequently that Canada is prosperous. Liberal papers these days are casually mentioning very frequently that Canada is prosperous. Certainly its trade has increased as the trade of a young and growing country must, no matter how much governmental stupidity may tend to keep it back. And it is greatly to be hoped that the financial welfare of each Canadian has also increased as, living under present conditions, he certainly needs the money. He has to make much more money than he did under Conservative rule in order to pay his taxes, for instance. During the year just closed there was collected from the people in taxes \$26,000,000 more than was collected in the year ending June 30, 1896, when the Liberals said the government was robbing them.

PORTLAND THE TERMINUS. Among the old line Liberal papers which find it impossible to support the railway policy of the government is the Montreal Witness. That sturdy journal states one of its objections to that policy—the objection which, perhaps more than any other, appeals to St. John people—as follows:—"We find inconsistency in the attitude of the government. When the Transcontinental Railway Bill was passing through the house the government was urged by the Opposition, over and over again, to insert a clause in it that would have required all goods to come by and depart from Canadian ports. Why did not the government accept this amendment if it is in favor of such a policy as it now declares it is? Clearly, because the Grand Trunk Pacific people would have none of it. If such a clause had been included in the bill, the railway people would have given up the enterprise. They never wanted the section of the new transcontinental line east of North Bay. The Grand Trunk Pacific certainly looked forward to using Port Arthur, Montreal and Portland as its chief terminals, and Portland will always be one of its chief terminals."

GOVERNMENT DISTRESS IN PRINCE EDWARD ISLAND. It does not always pay to delay political appointments. The position

of Lieutenant governor of Prince Edward Island was ready to be filled some months ago. Mr. Rogers, Mr. McKinnon, Mr. Hazard, and several other politicians from Queens county were supposed to be willing to be appointed. The government held out various hopes, Sir Wilfrid trying to please all without giving any one a good reason to be pleased. Now he has appointed Mr. McKinnon, who had been nominated for Ottawa. Mr. Hazard, who had been chosen for the other Queens nomination, has retired. Mr. Rogers, who was a member of the local government, has also thrown up his position. Thus Queens, which was the only county on the island that the government could even hope to carry, has become decidedly unpromising—Sun.

The Globe remarks that it is not at all necessary that the Conservatives should win St. John in the coming election. Perhaps not. The city could probably drag along in opposition. It hasn't done badly during the past eight months. But it would be a lot more convenient to be on the side of the new government, especially when that government is pledged to nationalize this port and to guarantee the export of the new transcontinental's traffic here instead of at Portland.

The Liberals are seriously considering the sending of a petition to the government to have the representation of this constituency enlarged. They think that if the ticket could be stretched big enough to accommodate about twelve names they might be able to bring something like harmony out of the existing inharmonious muddle.

Messrs. Casgrain and Clarke are two of the ablest public men in Quebec and Ontario respectively. Both will undoubtedly hold prominent positions in Bordet's cabinet. They are worth hearing. They speak in the Opera House tonight.

RESCUED BY DOG. Animal Enters Burning Building Which No Human Could.

GENEVA, Oct. 1.—After escaping in their night clothes from a house on fire in St. Saphorin, Canton Vaud, a dog, the name of which was Henri, a boy of 4, had been forgotten. It was impossible for a human being to enter the house, which was enveloped in a thick smoke. The father made two attempts, but failed, and then remembered his dog, a beautiful collie. "Go and fetch Henri," he said, pointing to the house. The dog immediately rushed up the stairs, but returned terribly burned. A second and third time the animal entered the house, and was then seen dragging out the child, whose clothes were all right. The boy was unconscious, but is expected to recover. Immediately the lad was safe the dog rushed out to the woods, howling with pain. Its coat was burnt off. M. Parlier, borrowing a run, followed it and put it out of its misery.

NONE PAST THIRTY-FIVE. Carnegie Company Buys Employees Over That Age.

PITTSBURGH, Oct. 1.—The Carnegie Steel Company has issued a circular letter to superintendents of plants and heads of departments instructing them to employ no men more than thirty-five years of age in certain departments, and extending the age limit to forty in others. The rule does not apply to laborers. It affects a large number of the most expert steel men. The reaction in the steel and iron industry led many plants idle, and the resumption of the Carnegie mills in the Pittsburgh district attracted hundreds of these men back to their old homes, only to meet the statement that no men over thirty-five years would be employed.

MADGE KENDALL'S DEBUT. (M. A. P.) It was at the mature age of three that Mrs. Kendall—then Madge Robertson—made her first appearance on the stage. The theatre was the Marylebone in London, then under the management of her father, and the play was "The Seven Poor Travellers." Her part was that of a blind child, and at the rehearsals it had been impressed upon her that she must keep her eyes shut in order that the audience should think she could not see.
