SAILOR WITH KNIFE THREATENS POLICE.

Officer Finley's Life Was in Danger.

Ex-Soldier Drew a Knife on a Mill Street Hebrew and Cut Him Before His Arrest.

Officer Finley arrested a man this morning who laid out for that officer a rather choice programme. First the officer's intestines were to be cut out, but as the knife that was evidently the instrument of operation was taken away from him, when Finley bumped him down and held him with a brooch, the officer drew the desperado's teeth, the schedule was changed to merely having Finley fired from the force.

The man in question gave his name to the officers as Walsh but beyond saying that he had served with the Royal Scots and had been with "Gat" Howard in South Africa and voyaging to the word of a Hebrew before him, he would give no information at first but later intimated that he was a mate on a coasting schooner.

His reference to the Hebrews was because of a row he had with some of the Mill street second hand dealers that ultimately led to his arrest.

Early this morning he called at William Webber's store and sold to that gentleman a revolver and purchased a rain coat. Later he returned, about 11:30 a. m., and said he had sold the coat for fifty cents, and that that was all it was worth. Mr. Webber replied that he did not care if he had given it away. Walsh then began to abuse Webber, according to the latter's statement, and threatened him with all kinds of horrible mutilation and death.

At this point Samuel Webber entered the store, overheard the conversation and saw Walsh throw his coat back and reach his hand to his hip pocket as if to get a revolver. Instantly he grabbed Walsh's hand and a tussle ensued. Walsh did not have a gun but a long bladed knife, and in the mix-up he cut the officer's hand badly.

He was then forcefully ejected and the police set for. Walsh made no attempt to get away, but quietly walked across the street and in a cigar and beer store bought six cigars and a package of cigarettes. It was in this store that Officer Finley arrested him.

On the way to the lock-up Walsh threatened the officer, saying he would cut him up in a most unscientific way, but the officer, who knew he had a knife on him, did not give him a chance to get his hand to his pocket. In the lock-up Walsh threatened him before he knew what happened found himself on the floor, with Finley holding him down as if he was a child, while Officer Lee took from his pocket a bloody knife with a blade about eight inches long. Samuel Webber's cuts are not severe but are very painful.

MUNICIPALITY SEEK SHELTER IN A ROUMANIAN PORT.

Undecided Whether to Disband or Go Back and Fight--Russian Baltic Fleet Demoralized.

BUCHAREST, July 8.—The port authorities at Kustendj, Roumania, have been instructed to call upon the 700 mutineers who are on board the Kniaz Potemkin to leave from that vessel without arms, informing them that they would be treated as foreign deserters while in Roumania.

There is much excitement on board the Kniaz Potemkin where differences of opinion exist between the leaders, some of whom are adverse to laying in Roumania while others propose to return to Russia and join the mutinous ships. The Kustendj permitted a delegation of the mutineers to enter the town and purchase provisions. The sailors report that the Black Sea fleet not only did not try to capture the Kniaz Potemkin, but that the crews of the ships openly rejoiced when the rebel battleship left Odessa.

The crews of the Russian gunboats met some of the crew of the Kniaz Potemkin ashore and fraternized with them, the sailors embracing one another. The Kniaz Potemkin is accompanied by a Russian torpedo boat. About three hundred Roumanian soldiers are being concentrated at Kustendj to meet eventual acts and the cabinet ministers are proceeding there today to deal with the situation.

In the event of the refusal of the mutineers to submit to these conditions or of hostile action against the town, the Roumanian warships were ordered to use force.

LONDON, July 8.—A private telegram received here today from Odessa says the town is quiet.

ST. PETERSBURG, July 8.—A 40 m.—The unprecedented spectacle of a powerful modern battleship cruising around the Black Sea in the hands of a crew, who, under the rules of international law cannot be regarded as other than pirates, and of the admiral in command of the rest of the Black Sea fleet frankly confessing his inability to cope with the situation and ordering the rest of the warships to be drawn up, has stupified the Russian admiralty. On the Georgi Pledomets, which came in its fortunes with the Kniaz Potemkin after it arrived at Odessa, and landed its officers, the more loyal or

\$10,000,000 FOR EDUCATION--JOHN D. ROCKEFELLER'S LATEST MUNIFICENCE.

The Standard Oil Magnate's Great Fund to be Used Without Restriction as to Religion or Territory--Carnegie Outdone.

NEW YORK, July 8.—Announcement has been made of a gift of \$10,000,000 by John D. Rockefeller to the General Education Board to be devoted to the cause of higher education with particular regard to colleges as distinguished from universities. Coming as soon after Mr. Rockefeller's donation of \$1,000,000 to Yale University, this gift was received with enthusiasm by all persons engaged in important educational work.

Dr. Wallace Buttrick, secretary and executive officer of the board for the states south of the Potomac and Ohio rivers and for Arkansas, Louisiana and Texas, informed the General Education Board of the endowment at a meeting held in its offices at No. 53 William street.

John D. Rockefeller, with other prominent men of New York, was instrumental in forming the General Education Board in February, 1902. A very broad charter was obtained from congress and signed by President Roosevelt on January 12, 1903.

Immediately a gift of \$1,000,000 from John D. Rockefeller was passed over to the board, especially designated for educational work in the south. Funds have been added by others since that time, and the board has confined their work hitherto mainly to educational work in the southern states.

According to the board the present gift differs from Mr. Rockefeller's best gift in the following particulars:—The principal of the gift of \$10,000,000 made on the organization of the board could be distributed. The present gift of \$10,000,000 is held as endowment, the income only being available for distribution.

The first gift could be used for common schools and secondary education. The second gift is confined to higher education and is designed especially for colleges as distinguished from the great universities, although there is no prohibition in the letter of gift against making contributions to universities.

Both gifts are alike available for denominational schools as well as for those which are non-sectarian. While the funds may be employed for denominational schools, they will be employed without sectarian distinction. No special denomination will be particularly favored, but the gifts will be open to approved schools of all denominations, although they cannot be employed for giving specifically theological instruction.

In distributing the funds the board will aim especially to favor those institutions which the well located and which have a local constituency sufficiently strong and able to insure permanence and power. No attempt will be made or to resuscitate moribund schools or to assist institutions which are so located that they cannot promise to be permanently useful.
