

How Red Rose Tea is Grown

TEA is a native plant of Northern India. Transplanted to Ceylon it lost much of its strength and richness, but gained in fragrance and delicacy. That is why Ceylon tea is not a strong tea. That is why I blend Indian and Ceylon teas together—that is how the strength and richness, fragrance and delicacy of Red Rose Tea are secured—that is why Red Rose Tea has that "rich fruity flavor."

Red Rose Tea is good Tea T. H. Estabrooks St. John, N.B., Toronto, Winnipeg

MORE MONEY FOR M. P.'s LEADERS AND JUDGES.

Politicians Cheerfully Raise Their Own Salaries— Pension for ex-Ministers—Not a Protest From Other Side of the House.

OTTAWA, July 17.—Substantial increases have been given by the house of commons to leaders, members and judges. Their seasonal pay is raised \$1.00 per head, the prime minister's to \$12,000 and an annual indemnity not exceeding \$7,000 will be granted the opposition leader.

Dr. Stockton (St. John) favored the grant to the leader of the opposition. It was an office equally important to that of prime minister.

Mr. Fielding said that a proposal of this kind was first made in the Province of Ontario. He considered it another evidence of the development of the constitutional system.

Mr. Borden considered the proposal a year in any cabinet minister who had been at the head of a department for five years consecutively. Mr. Borden said the proposal was not one without precedent in the history of the empire.

WANTED SPEAKERS INCLUDED. Mr. Belcourt thought the speakers of both houses should be included in the annual plan.

The resolutions were adopted with trivial amendments.

THE INCREASE. The indemnity of members and senators is increased by a thousand dollars a session.

The salary of the prime minister is increased from \$5,000 to \$12,000, in addition to seasonal indemnity. The cabinet ministers' salaries are not increased. They only benefit to the extent of the \$1,000 indemnity increase. Members and senators get \$20 a day to thirty days, and if a session extends beyond that time the indemnity is \$1,500. The recognized leader of the opposition, in addition to his seasonal allowance, gets \$7,000. Instead of twenty cents a mile travelling expenses a member of parliament is allowed expenses for one trip to and from Ottawa a session. Payments are made to members monthly and there is the same provision as at present for making an affidavit of attendance. A deduction of \$15 a day is to be made for non-attendance.

Every member of the privy council of Canada who has served as a cabinet minister and head of a department for the full period of five consecutive years shall upon his retirement from the cabinet be entitled to receive, out of the consolidated revenue fund of Canada, an annuity equal to one-half of the salary attached to his office or position at the time of his retirement. Any such councillor obtaining a government office or becoming leader shall have his salary or allowance reduced by the amount of such annuity.

Under this provision \$2,500 a year is provided for Messrs. Blair, Hinton, Thorne, Foster, Haggart, Sir Adolphe Caron, Mr. Costigan, Sir Mackenzie Bowell, Sir Charles Tupper, Sir Hib-

bert Tupper, Sir Hector Langevin, Sir John Carling, making \$45,500 a year for these dismissed cabinet ministers. The total increase for parliament amounts to \$78,500 a year.

Mr. Fitzpatrick then presented resolutions regarding increased salaries for judges. On the clause prohibiting judges from engaging in any occupation or business other than their judicial duties Mr. Foster asked if it would prevent judges acting on commissions of inquiry or investigation. Mr. Fitzpatrick replied that only in case of urgent public necessity should a judge be employed on a commission.

Mr. Borden considered many judges underpaid, but the bench overmanned. He favored fewer judges, so that all could be better paid. The difficulty was that the provinces fixed the number of judges, and if parliament refused to make provision for their salaries it was really constituting itself a court of appeal on the action of the provincial body. While it was true there were too many judges at the present time, yet he believed that judges should be removed from any suspicion of tampering, and this he believed the increased salaries would assist in doing.

After some further debate the resolution was passed before six o'clock. The higher judges in all the provinces get increases of \$2,000 a year, and county court judges increases from \$1,000 to \$1,500.

In New Brunswick the salary of the chief justice is increased from \$5,000 to \$7,000, and Judges Barker, Gregory, Hanington, Landry and McLeod from \$4,000 to \$6,000. Judge Forbes remains at \$2,000. The salaries of Judges Carleton, Wedderburn, Wells, Wilkinson and Wilson are increased from \$2,400 to \$3,000.

The following is a brief table of the salaries at present and the amount of increase:

Table with 3 columns: Position, Present Salary, Increased Salary. Includes Premier, Leader of opposition, Members, Senators, Retired ministers, and New Brunswick Judges.

NEW BRUNSWICK JUDGES. Chief justice, \$7,000; Other supreme court, \$6,000; Judges, \$4,000; County court judges, \$3,000.

Tonight, with the house in committee on tariff changes, Fielding, at Foster's suggestion, agreed to suspend the changed duty on dry white lead coming into Canada and sold by the importer prior to the date of the new tariff, until September first next. Foster's motions against the increase of salaries to officers who had been reported as defaulters in the past, were defeated, 66 to 50. These motions included the case of the postmaster at Treason and other equally notorious instances. Adjourned at 9:15 p. m.

The Prettiest WASH NECKWEAR Of The Season, American Goods That Are Just In.

Entirely new designs with just that little touch of style that no-one minds paying a few cents more for. White Wash Vest fronts, - 39c White Wash coat collars, - 39c Dainty Wash collar and cuff sets, 39c New designs wash stocks, - 39c

Also, Globes, Chimneys, Burners, Etc., Etc. The St. John Auer Light Co., Ltd, 19 Market Square.

MERCURY AT 103 IN NEW YORK STREETS.

NEW YORK, July 17.—After a respite of two days the hot wave that last week caused scores of deaths and hundreds of cases of prostration here, returned today with renewed intensity, the temperature being by far the highest of this season. The highest point reached was at four o'clock in the afternoon, when the weather bureau thermometer touched 95. In the streets, however, the heat was much greater, some thermometers recording as high as 103 degrees. While the heat was intense, the air was stirred by light breezes and the general suffering was somewhat mitigated by the absence of the excessive humidity that prevailed last week. It was largely owing to this that only two deaths, directly resulting from the heat, were reported. The number of prostrations for the whole city was less than fifty. There was little diminution in the heat after midnight, the mercury standing at 91 degrees at 11 p. m.

WASHINGTON, July 17.—The weather bureau tonight announced that there was no prospect for several days at least of a let up of the extreme heat, which has extended over the country for the past few days. The entire country from the Mississippi Valley eastward to Southern New England and the Florida coast is in the midst of a well marked midsummer hot spell. The maximum temperatures today were as follows: Philadelphia, 96; Chicago, 94; Cincinnati, 94; New York, 94; Detroit, 94; Washington, 93; St. Louis, 92; Pittsburgh, 92; Boston, 90.

INDIAN LAD CREMATED IN INCINERATOR.

OTTAWA, July 17.—Frank Ails, familiarly called Frank Elliott, a young Indian, died a horrible death at J. R. Booth's mill shortly after ten o'clock Thursday night. Caught in the machinery which feeds the incinerator, he was carried into the roaring furnace and practically cremated. It is believed, however, that he was dead before reaching the furnace.

The young fellow, who was seventeen years of age, was one of a number employed about the mill piling slabs of lumber in the machinery. Leading to the burner is a huge chain with miniature buckets, which scoop up the sawdust and carry it high up to the mouth of the furnace. Part of this mechanism passes beneath the crib work of the platform. It is not just known what took the young fellow there, but he was seen several times to go down a ladder under the platform as if to hide something. In doing this he had his pass near the moving chain. It is supposed that in fumbling around he tripped and fell and was caught in the driving mechanism. He was carried under the platform, over two or three pulleys and then up the incline leading to the furnace. In doing this he managed to break his body into two and crushed.

A HOT TIME IN MONCTON CITY COUNCIL.

MONCTON, N. B., July 17.—There were some interesting developments at the meeting of the city council this afternoon. Ald. Botsford moved for the dismissal of Police Officer Trites, suspended some months ago for being in a barroom while on duty, though Trites and the officer with him swore they drank nothing but buttered bread and ginger beer. Ald. Botsford's motion was not seconded, but was followed by a motion installing Officer Trites from date. This motion passed and Ald. Botsford resigned his position as chairman and member of the police committee. Ald. Botsford's resignation was accepted, and Ald. Fryers appointed temporarily in his place. Ald. Purdy, who had some differences with other members of the council in regard to the erection of exits in the Opera House, also tendered his resignation as chairman of the music committee. His resignation was accepted.

SUMMER SCHOOL OF SCIENCE.

YARMOUTH, N. S., July 15.—The Summer School of Science, so auspiciously opened on Monday, is in full swing, although pupils are still coming in, and quite a number are expected early next week. The enrollment up to the present is 100. The lectures are well attended, those on English literature leading. There is great interest shown in botany. The field expeditions as well as laboratory work are well attended. The faculty have been unremitting in their efforts to arrange lectures to suit the greatest number possible, as there must of necessity be several lectures going on at once.

CAR AND TEAM COLLIDED.

An accident occurred yesterday afternoon on Prince William street which caused some commotion on that thoroughfare. Car 49 was coming along towards King street at a lively clip when one of the city teams, No. 2, Driver Winchester on the seat, attempted to cross the tracks near the corner of Duke street. Before the car could be stopped the team and horse were up-ended and driven forward about twenty feet. The screams of the ladies in the car brought out the people in the neighboring offices. These set to work and extricated the horse from under the fender, beneath which it had been forced, and at length got Mr. Winchester's team into some semblance of respectability, though with smashed shafts and damaged harness.

FATAL ACCIDENT IN PORTLAND.

PORTLAND, Me., July 17.—Wm. M. Fowler, aged 31, was fatally injured today by being caught under a falling pile of lumber at the mill for which he was a teamster. He died in the hospital shortly after the accident. His name was in this city and he is survived by a widow and three children.

Tomorrow's 'Sun'

—WILL CONTAIN THE— International Sunday School Lesson, the Young People's Societies, a Review of the Religious News of the Whole World, and a Department of Brilliant Selections. IN THE "SUN" EVERY WEDNESDAY.

SWAM LOWER RAPIDS OF NIAGARA RIVER.

NIAGARA FALLS, N. Y., July 17.—Carlisle D. Graham, of this city, and Wm. J. Glover, Jr., of Baltimore, Md., successfully swam the lower rapids of the Niagara River from the American side of the whirlpool, to Lewiston this afternoon. Glover beat Graham by four minutes. The distance of four miles was covered in 26 minutes by Glover. The start was made at 4:02 p. m. from flat rock, which is on the American side. The swimmers did not venture in the upper rapids where Captain Webb lost his life about 25 years ago.

FOOLHARDY BATHER JUSTLY PUNISHED.

NEW YORK, July 17.—Prompt retribution was meted out tonight to Samuel Brooks, a bather at Audobon Beach, whose foolhardy mischievousness imperilled the lives of three young women. Brooks was rescued by the police after having received a terrible beating at the hands of hundreds of people who had seen him rock a boat until it was capsized and its occupants thrown into the water.

SENATORS THINK I. C. R. IS SUFFICIENT.

OTTAWA, July 17.—In the senate this afternoon, Power of Halifax severely criticized the interim report of the transcontinental railway commission in relation to routing a line parallel to the Intercolonial at an immense cost. Senator Wood thought the proposition to lease the I. C. R. to any other company would not be popular in the maritime provinces, nor in the interest of Canada, and Senator Owens said the I. C. R. would serve the purpose of the country for the next 20 years. Senators McMullen and MacKeen hoped the government would pause ere it endorsed the construction of this new line from Quebec to the Nova Scotia border.

TO ENTERTAIN VISITING KNIGHTS OF PYTHIAS.

The Knights of Pythias held a mass meeting of New Brunswick and Manx Lodges last evening in their hall on Germain street, to decide on the entertainment to be given the visiting Knights from Massachusetts who are expected next month. The chairman of the meeting was Robt. Maxwell, M. P. After considerable discussion regarding the manner of welcoming and entertaining the visitors, the meeting elected the following committee to arrange a programme for the occasion and submit it to a later meeting: Baron Wilson, W. E. Hopper, L. O. Thomas, A. L. Dodge, E. C. Wilson, Hugh McLeellan, B. Stillwell, Robt. Maxwell, H. T. Hughes, Robert Strain.

LAWYER SUICIDES.

GANANOQUE, Ont., July 17.—Daniel Sheppard, barrister, of Gananoque, committed suicide this afternoon by taking carbolic acid. He was under arrest charged with a serious offence against a ten-year-old girl, but escaped the vigilance of those watching him. He was 62 years old and a brother of Mayor Sheppard.

CANADIAN DROWNED IN THE STATES

WASHINGTON, July 17.—Wm. F. Hubbard, aged 25, a forest assistant in the forest department of the bureau of agriculture, was drowned in the Potomac river today by the capsizing of a canoe. Hubbard came here three or four years ago from Toronto, Canada.
