SPORTING MATTERS

AQUATIC

COATES ACCEPTS CHALLENGE.

W. H. Coates has expressed his willingness to accept the challenge of Harry Nice for another mile and a half sculling race, but he would like to give Mr. Nice's sore hand a chance to recover before arranging the event.

The last race was rowed under conditions laid down by Nice, and it will therefore be Coates' turn this time to make the arrangements. The Neptune man is strongly in favor of rowing at Millidgeville. The course there is much better than in the harbor, being more free from interference and the weather conditions being rather more dependable. This matter, however, will probably be left to the club to decide.

Both men have now a victory to their credit and the third race will be watched with much interest.

For the next race Coates will have his new Claspar shell. It arrived here at the end of last week and was given its first trial on Saturday afternoon. The new boat is the first specimen of the builder's art that has ever been seen here. It is about the same length as the old boat but is two inches narrower in the beam, measuring only ten inches across the rock-pit. It is remarkably light, weighing scarcely more than twenty pounds. Mr. Coates is fully satisfied with the showing it made on the trial spin.

YACHTING

COWES REGATTA OPENED.

COWES, Isle of Wight, Aug. 6.—The Cowes regatta opened today under the most brilliant auspices with a programme of races under the Burgee of the Royal London Yacht Club. The roads were crowded with yachts of various rigs and with stately warships guarding the kings of England and Spain, who with their consorts, watched the races from their respective royal yachts.

The weather was bright, but the wind was very light. The chief event of the day was a handicap race for schooners exceeding 100 tons, over a forty-eight mile course, in which Emperor William's Meteor, Claud T. Cayley's Adela, Herr Guillmano's Clara, Viscount Iveagh's Cetonia, and other big yachts started.

Another race was for seventy-nine footers, competitors being Geo. W. WatJens' yawl Navahoe, Myles B. Kennedy's cutter White Heather, Sir James Pender's cutter Kariad, and R. N. W. Young's cutter Nyria.

COWES, Isle of Wight, Aug. 6.—In the race for seventy-nine footers the White Heather crossed the line first, but lost the race to Nyria, having to allow her 3 minutes 55 seconds. The Nyria won by 55 seconds.

Kariad came in third and Navahoe fourth.

TENNIS

WRIGHT AND JOHNSON WIN.

NEWCASTLE, N. H., Aug. 6.—The finals in doubles were completed this afternoon, when Irving Wright and C. F. Johnson defeated C. F. Brinley and J. A. Nichols, 6—3, 0—6, 6—0. Beals, Wright and Gears were unable to play the finals of the above match, and the championship went to Wright and Johnson by default.

THE TURF

AT SARATOGA.

SARATOGA, Aug. 6.—Dandelion and Tangle, coupled in the betting at 13 to 5, won first and second in the $10,000 Saratoga handicap one mile and a quarter at the opening of Saratoga's racing season today. Dandelion in winning created a new track record for the distance, stepping it in 2.04 2-5, which is three-fifths of a second faster than the Irish Lad's time made in 1903. Galalvant third. Gallavant and Red Leaf were the pace makers for half a mile, when Gallavant took the lead and showed them the way to the stretch. Dandelion at this point went to the front followed by Tangle and Dandelion won easily.

DAVID SAVAGE IS WORKING NEAR CITY

He Had Been in the Hospital But Left the Institution on May 22nd—Mother Notified

A letter was received a few days ago by Manager Gorbell of the Seamen's Mission asking for information about Daniel Savage. The letter was from Mrs. Savage who had not received word from her son since last February, and as he was then ill in the hospital here she has since been worrying about his condition.

Mr. Gorbell learned from the hospital authorities that Mr. Savage had left the institution on May 22nd, having had an operation performed for abscess of the arm. It was also learned that he is at present working either at the Mispec or Musquash Pulp Mills, and as soon as he is definitely located he will be informed of his mother's anxiety. Mr. Gorbell has in the meantime written to her of her son's recovery.

KIDNAPPERS MAY HAVE KILLED BOY

Police Believe Body Found Near Ossining is That of Victim of Italian Band

OSSINING, N. Y., Aug. 6.—That the boy whose body was found in an old orchard near this place on Saturday was the victim of a band of Italians who after abducting him and failing to receive a ransom for his return killed him is the belief of the police and Coroner who have charge of the case.

Word has been sent to every police department in the United States asking for information of children who are missing and who may have been kidnapped. Acording to Dr. J. F. Schasmeister, who performed an autopsy on Saturday the boy had been dead at least six weeks. Owing to the condition of the body it was impossible to determine how the boy met his death. There is every evidence, however, that the head was severed before the body was placed where it was found.

As near as he can judge, Dr. Schasmeister says the boy was about fourteen years old and had dark hair. The clothing found on the body was of excellent material. There was no coat or hat found and there was nothing in the trousers pockets which would lead to identification. The kidnapping theory is borne out by the fact that whoever placed the body in the spot where it was found must have been thoroughly familiar with the locality. The place is about a quarter of a mile off Highland avenue, the main thoroughfare, and about 150 feet from Havel street, an old road, which is seldom used. The body was lying in a clump of briar bushes and was covered by an old shawl, such as are used by Italian women. The old orchard is on the estate of Mrs. Josephine Y. Birney, mother-in-law of De Lancey Nicoll of New York.

Lumbardo Desto, an Italian who is employed by a florist in this place, told Coroner Silleck at the inquest on Saturday that he had seen the body several weeks ago, but was afraid to say anything about it. Very little could be elicited from the witness beyond this statement, and although the coroner decided not to hold him, he was cautioned not to leave the vicinity.

SAYS JAIL COSTS THAW $150 DAILY

PITTSBURG, Pa., Sunday. — That Harry Kendall Thaw is spending $150 a day for his personal comfort in the Tombs is the story told by Paul McDonald, who spent from July 18 to July 31 in that prison, where he was held on a charge of embezzlement. Since being brought back to this city a prisoner the case has been dropped. McDonald says:—

"I was in a cell next to Thaw. Frequently have I marvelled at the way he spends his money. On one occasion I saw him give an attendant the change from a new one hundred dollar bill after his breakfast bill was deducted. He has his check book in the cell with him and three checks on a page and as soon as one needs money Thaw will send out and have the check certified. Upon it being returned to him he will deliver it over to the person for whom it is intended.

The attendant at the Tombs run to answer his call and they are well rewarded for their efforts.

"I would venture to say his expenses within the Tombs exceed $150 daily. Breakfast finished, Thaw reads his mail. When Evelyn Nesbit Thaw arrives Thaw often censures her for sins, either of omission or commission, but generally they agree. Sometimes his language is vituperative. At other times he is all tenderness.

"I have heard him say, "I'd rather be dead than worried to death by you people trying to make me believe that I am crazy.'"

Excited over the reports of the death of Miss Edna Thomas, Harry Kendall Thaw from the Tombs yesterday made the following statement:

"The papers this morning say the Thomas woman is dead. This is another of the falsehoods of the creatures whose supine tool they would have her made to cover up their tracks."

That was asked if he had anything to add to his statement, as it did not appear to be conclusive.

"I have nothing to say except that this is the true story and all others are false," was his reply.

CHICAGO BANK FAILS FOR $1,000,000

Milwaukee Avenue State Bank has Suspended—Money Lost in Real Estate Speculation

CHICAGO, Aug. 6.—That the shortage in the accounts of the Milwaukee Avenue State Bank will run close to $1,000,000 much of which has gone in real estate speculation and commercial ventures, was the statement made this afternoon to a reporter of the Associated Press. This statement came from a man in a position to talk authoritatively.

CHEMICAL COMPONENTS OF MAN.

German scientists announce that the material for a man weighing 150 pounds can be found in the whites and yokes of 1,200 hens' eggs. Reduced to a fluid, the average man would yield ninety-eight cubic metres of illuminating gas and hydrogen enough to fill a balloon capable of lifting 155 pounds. The normal human body has in it the iron needed to make seven large nails, the fat for fourteen younds of candles, the carbon for sixty-four gross of crayons and phosphorous enough for 820,000 matches. Out of it can be obtained, besides, twenty coffee-spoons of salt, fifty lumps of sugar, and forty-two litres of water.

Advertising is an older institution than most people believe. It is first mentioned in the book of Ruth.—Chevalier Caesar Augustus Baratoni, Am. Passenger and Freight Agt., London and Northwestern Railway of England, Australia.
