BOXING NOTES.

Though Sam Berger may visit Boston next week it is not likely he will box at Chelsea, for he stated in New York yesterday that he does not intend to do any more boxing for at least three months.

Jemmy McCann, manager of Terry Martin, received an offer from Davon for Martin to box Willie Fitzgerald some time next month. As Martin does not want to box again till cooler weather the offer will be declined.

That Mayor Becker of Milwaukee is a believer in boxing is shown by a scheme he has to help raise \$100,000 for a new auditorium. He figures that \$50,000 can be raised on boxing matches alone, and the plan is to hold the contest in a big circus tent.

Sandy Ferguson seems to be pretty well fixed for managers. He has one in New York, one in Chelsea, and now Carl Harris of Chicago is pointing at him as a fight for \$500 a side between Sandy and Huggie McMahon of Cleveland, the bout to take place in private.

Joe Humphreys, manager for Terry McGovern, Tuesday night denied the report that the Brooklyn fighter is in a manumant in South Norwalk, Conn. A story to the effect that McGovern arrived at the institution on Tuesday night in bad condition was printed Monday, Humphreys said: "Jerry is at the Ackley Cottage, Panopossee Lake, in the Berkshires hills where he has been with his family since June 1, with the exception of a short trip to the city. I talked to him yesterday and he is on the telephone, and they are very independent over the report that he is in a manumant. Terry is getting ready for a busy campaign next fall and is in fine condition. Life in the Berkshires hills just suits him. I wonder why the sensation mongers can't let him alone when he has settled down."

O'NEILL LILA

TO BUY LONDON DOCKS
And Put Them Under Single Control for Better Service.

Present Divided Management Responsible for Failure to Keep Port Facilities Up to Date.

LONDON, July 23—Shipping interests have been encouraged to hope that something definite is at last about to be done to settle the difficult problem of the port of London. Nominally the first port in the world, it is notorious for its shallow and difficult channels and indeed has been dubbed by irritated sufferers as the first and worst of its kind in the world.

Repeated futile endeavors have been made to place the port in control of a single authority with a view of reforming conditions. A committee of ship owners, dock directors and merchants which has been sitting to devise a new unification scheme has at length agreed to recommend the appointment of a controlling body in the form of a Trust similar to the Mersey Docks and Harbour Board, which would acquire all the docks, deepen the channels and generally modernize the port and methods now in use. The board would represent mainly the ship owners and merchants who pay harbor dues, but now having a finger in the control pie have been figured at a total of fifty-four. There are, however, actually only six effective authorities, but this is quite enough to produce a conflict.

The prime object of the new scheme is to centralize control and harmonize divergent interests.
