UNITED STATES BALLOON WINS THE BENNETT CUP

PARIS, Oct. 2.—All the uncertainty regarding the result of the balloon race for the James Gordon Bennett cup, started from here on Sunday afternoon, was ended at noon to-day, when a despatch was received by the club announcing that the Hon. C. S. Rolls and his companion, Col. Capper, in the balloon Britannia, landed at Sandringham Upland at 6.30 last night, thus establishing that Lieut. Frank P. Lahn, Sixth Cavalry, U. S. A., the American competitor in the race, who descended near Whitley yesterday in the balloon United States, is the winner.

Major Hersey's trip as Lieut. Lahn's assistant was quite accidental. A Frenchman, Leves, having been selected as his assistant. But the aero club of France protested, and Major Hersey, who had just arrived here from Norway with Walter Wellman, leader of the Wellman Chicago Record-Herald expedition, eagerly seized on the chance. Lieut. Lahn covered 415 miles against 370 miles covered by Von Miller, his nearest competitor.

The beautiful cup, presented for competition by James Gordon Bennett, becomes a trophy of the Aero Club of America. The first cash prize of \$2,900 goes to Lieut. Lahn and the endurance medal to Mr. Rolls, who was the longest in the air.

Later in the day the Aero Club of England received a telegram announcing that Hon. C. S. Rolls and his companion, Col. Capper, landed at Sandringham Upland at 6.30 last night, thus establishing that Lieut. Lahn, Sixth Cavalry, U. S. A., the American competitor in the race, who descended near Whitley yesterday in the balloon United States, is the winner.

St. John, N. B., Oct. 2nd, 1904.

Try Satisfactory Warm WINTER CLOTHING.

MISER'S HOUSE SEARCHED; THOUSANDS IN GOLD FOUND

An Old Woman Made a Will Giving Her Money to Charity—Searchers Among Her Possessions Discover Boxes, Jars and Other Receptacles Filled With Coin.

NEW YORK, Oct. 2.—A Hudson, New York, despatch to the Herald states that pots of gold filled with coins dating back to the reign of King George III., bearing the date 1770, and bills tied in knots stuffed into vases and cups, were found yesterday in least expected places of the Robinson homestead at Hudson, where four weeks ago neighbors found the body of Miss Frances Caroline Robinson. Until the hidden money was found it was supposed that Miss Robinson left not more than \$4,000. But with the finding of the concealed treasure the estate is brought up to more than \$50,000.

The finding of the hidden treasure will, it is thought, cause considerable will that Miss Robinson left. The next of kin will probably take the matter into the surrogate court on the ground that the estate is of unusual kind, although she was always regarded as alert in business transactions. Captain Robinson was of unimpaired mind, although she was always regarded as alert in business transactions. Captain Robinson was of unimpaired mind, although she was always regarded as alert in business transactions.

Relief work for the stricken communities down the bay is now systematically being carried on. Food, clothing and bedding is being furnished, and although there is still much suffering it is not so acute as at first. There is still need, however, for all the supplies that can be sent in from the neighboring States.

BAODAD, Fla., Oct. 1.—This region suffered terribly in the hurricane of last Thursday and Friday. The sea was ten feet above ordinary high tide and the whole country was inundated. At the Bay Point and Robinson Point mills there were four to five feet of water. The water in the road between here and Milton is ten feet deep in many places. The streets are blocked with fallen trees and debris and all electric light and telephone wires are down.

A number of houses here and along the coast at other points have been demolished, but so far as known there was no loss of life.

MONROE, La., Oct. 1.—The storm here Wednesday, Thursday and Friday last was terrific, the tide rising six feet higher than it has in fifty years before. The wind came from the east, driving the waves from the Gulf entirely over the narrow neck of land at the entrance of the harbor. No lives were lost. Every wharf on the bay was demolished.

WILL CONSIDER SALARY BEFORE TAKING BALLOT

Church of England Synod in Session With a Large Attendance.

FREDERICTON, N. B., Oct. 2.—The Church of England synod convened in the Church of England Hall at 2.30 this afternoon with Archbishop Neale presiding.

The meeting opened with prayer, after which the secretary called the roll. There is a large attendance of both clergy and lay delegates, and much interest is being taken in the outcome. It is said that before balloting is proceeded with the question of paying the coadjutor's salary will be opened up and the initiative will be taken by Justice Hamilton, who will present a resolution from the Dorchester deanery strongly protesting against any interference with money now used for missionary purposes or the using of any moneys not specially set aside for the purpose of paying a bishop.

It is also said that the other deaneries in the province have prepared similar resolutions and will present them. The discussion on this, if it is introduced before the balloting, will probably occupy some time.

From one source comes the information that the finance committee will state that Bishop Kingston will give \$800 towards a coadjutor's salary for the dean, to constitute the Bishop-coadjutor's salary.

YORK COUNTY COURTS.

FREDERICTON, N. B., Oct. 2.—The York County Court opened this morning. There was no criminal business, the docket consisting of a bastardy case from Marsville and four civil actions.

The York Equity Court this morning considered two cases, one the appointment of a trustee in the estate of Elizabeth Hovey, and the other the application of an infant, Hainsford Winslow, to sell land.

The hearing in the case of Geo. Pick vs. John A. Edwards was adjourned until 29th October.

COMPANY FORMED TO BUILD A NEW RINK

Which Will be Used by the Hockey League. Capital is \$15,000 and the Promoters Hope to Have the Rink Open by January 1st.

That St. John will have another rink within the next three months is now practically assured. It has been felt for a number of years that St. John should have a real up to date skating and hockey rink, but as long as there was one rink catering to these lines of sport business men did not feel that it would be wise to start a new one. However now that it is understood that this winter there will be no skating and hockey rink, a number of prominent business men have taken up the matter and are forming themselves into a new company.

The company has several sites in view and hope to have the new rink opened by New Year's Day. The company also propose to have in connection with this rink an up to date bowling alley.

This winter the company will encourage hockey and other ice sports, and will as a result have the rink built with a large seating capacity so that people may watch these games from a good position.

HEARST IS ACTIVE IN HIS CAMPAIGN.

Spoke Last Evening at Five Meetings.

Denounces Corporations, Jerome, Parker, Steadman and Others of His Opponents. —He is Not for Murphy.

NEW YORK, Oct. 1.—Congressman Wm. B. Hearst, the candidate of the Democratic party and the Independent League for governor, tonight paid a flying visit to Brooklyn, where he addressed five mass meetings in half an hour. Mr. Hearst was accompanied by Lewis Stuyvesant Chanler, nominee for lieutenant governor, the same ticket, who also spoke. Large and demonstrative crowds greeted them, the greatest gathering being at Prospect Hall, where the final meeting was held. Here Mr. Hearst spoke in the presence of 1,000 people.

"The Democratic convention at Buffalo openly and scornfully repudiated the corporation attorney, Jerome and other corporate attorneys and paid political agents of the corrupt interests. Alton B. Parker is a typical corporation lawyer. He can be fed to hold an opinion on any subject and argue any side of the case."

"Nothing has helped me more to make up my mind than the opposition of Alton B. Parker, William F. Sheehan, Edward M. Shepard, Paul D. Cravath, District Attorney Jerome and other corporate attorneys and paid political agents of the corrupt interests. Alton B. Parker is a typical corporation lawyer. He can be fed to hold an opinion on any subject and argue any side of the case."

"He is a notorious example of the petty lazarist in politics, who secures preference he does not deserve by promises he does not intend to perform."

During Mr. Hearst's address at the Brooklyn Casino a man in the audience interrupted him with the question: "How about Murphy?" Mr. Hearst, raising his hand, said: "No, my friends, pay no attention to him. He is not for Murphy."

Some one on the platform then said: "That is the first raising statement of the campaign."

Mr. Hearst replied: "I must correct the gentleman. This is not the first statement. I have said all along, no matter for what reason, Murphy any other boss was for me. I was not for him. I have said all along, no matter what citizens or group of citizens or convention of citizens were for me, I would still stand as the candidate of the Independence League."

Unless the United States pure food commission changes its mind, the people of the United States will soon be using granulated yellowish sugar, having a distinctly yellowish tinge. The commission has decreed that no mineral bleaching substance be used in the bleaching of sugar, and the refiners and their chemists are much disturbed.

Sugar chemists say that they use four pounds of mineral bleaching substance to every one million pounds of sugar, for bleaching purposes. This, the sugar chemists say, is not adulteration; that it is merely purification by a thoroughly healthful process. The pure food commission cannot see it in that light and insists that the whitening process be abandoned. If that is done, the result will be that all sugar refined under the commission's new directions will be of a distinctly yellowish shade.

WANTED—A male orderly for night duty. Apply at GENERAL PUBLIC BUREAU, 10-2-11

TRUE BILLS AGAINST CLARKE ON ALL THREE COUNTS.

ST. MARTINS PEOPLE WILL KICK HIM OUT. But Savery Is Wanted by His Former Landlady To Square a Little Bill—His Conduct the Talk of the Village—He Will Not Be Given the Church.

Rev. Harry S. Savery announced yesterday on leaving St. John, that he was going back to St. Martins to face the music, and intended staying there if he was not kicked out. There is every indication that Mr. Savery will not remain in St. Martins as a good many of the people are preparing to experiment on him in the kicking process. The Star talked this morning to a number of prominent residents of the village, and the opinion expressed was that Savery would not dare to show himself there again. During the summer he had boarded at the Powles House. He was always regarded as a rather gay specimen of a clergyman, lively, and anxious for all sorts of amusements, but no person thought there was anything very much wrong with him until within the last few weeks, when his conduct was such as to cause comment among those whom he was most intimate.

When he reached St. Martins on Saturday people had no idea of anything out of the way, nor in fact, did his slovenly appearance make any message on Sunday. But Monday the people were thunder struck. They had not expected anything of the kind, and the incident was the only topic of conversation. In fact, this is still the case.

Savery's conduct is condemned by all, and there is not the slightest possibility of his being taken back to the city or even of his life being made at all comfortable as he stays in St. Martins merely as a visitor. It is assumed that although the majority of the people never want to see him again, the landlady at the Powles House would be by no means disappointed if he returned and paid her some of the money which is due, for the statement is made that Savery has been boarding at this place all summer and has paid very little of what has been due. He left all of his clothing at the Powles house on Saturday, and this is being held pending his possible return. Savery left St. John at noon yesterday, stating that he was going direct to St. Martins. He was in Hampton all last night, and had not reached St. Martins at noon today.

HAS GONE TO BANGOR

LATER.

The Star has learned that Savery left on this morning's train for Bangor, having come in from Hampton on the early express. He is believed to be on his way to his home in Plymouth, Mass., and has arranged to meet some of his friends on the journey.

HAMPTON, N. B., Oct. 2.—Mr. Savery after leaving the hotel late last night was seen and hospitably cared for privately and his physical condition attended to. He was in a very bad condition, his nervous system badly shattered and during the night he experienced a sharp attack of heart trouble. It would seem as though his condition is largely attributable to drugs. Anyway he does not seem to realize all that has been going on since last Saturday morning. He has been receiving medical attention by the express from St. John on his way to his home at Plymouth, Mass., with the intention of staying with his wife and mother until the former passes away, when he will start out to enter on a new career in some other profession than that he has lately followed and in some place where his abilities may win him future success.

PREPARE FOR YELLOW GRANULATED SUGAR

Pure Food Commission Refuses to Permit the Use of a Bleaching Compound

NEW YORK, Oct. 2.—The Tribune to-day says: Unless the United States pure food commission changes its mind, the people of the United States will soon be using granulated yellowish sugar, having a distinctly yellowish tinge. The commission has decreed that no mineral bleaching substance be used in the bleaching of sugar, and the refiners and their chemists are much disturbed.

Sugar chemists say that they use four pounds of mineral bleaching substance to every one million pounds of sugar, for bleaching purposes. This, the sugar chemists say, is not adulteration; that it is merely purification by a thoroughly healthful process. The pure food commission cannot see it in that light and insists that the whitening process be abandoned. If that is done, the result will be that all sugar refined under the commission's new directions will be of a distinctly yellowish shade.

CUSTOMS WILL NOT HINDER THE BEAVER

At yesterday's meeting of the common council Alderman McCleodrick said that the American drug Bothford should be purchased by the city, as he thought the Beaver would be prevented by the customs from doing any other work than that which it is now engaged in.

A Star representative called at the customs this morning and asked if the statement made by Ald. McCleodrick, that the customs would not allow the Beaver to work for the city was correct. The reporter was informed that the statement was under a wrong impression.

The customs are simply required by their instructions to report to the customs department if the Beaver should engage in any other work than that in which it is now engaged.

THE CASE STANDS OVER UNTIL THURSDAY MORNING—MR. BAXTER HAD OBJECTIONS—SOME DIFFICULTY IN GETTING A JURY—THE PUBLIC EXCLUDED.

In the circuit court this morning the grand jury came in at 10.30 o'clock and returned a true bill against William E. Clarke on all the counts in the indictments. Judge Landry thanked the jury for their careful attention and discharged them.

The prisoner was then brought in and the indictment read over to him. He pleaded not guilty. Mr. Baxter raised a technical objection to the indictment and thought it should be quashed. The objections were answered by the attorney general. His honor reserved judgment.
