By EDWARD B. OLIVER.

Principal of the Mendelssohn Musical Institute, Boston.

This volume embodies the principal ideas and instructions contained in the elaborate and voluminous work of distinguished German, French and Italian Masters, disencumbered of the great mass of words in which they have been usually obscured, stated in simple language, and made plain to the understanding of all who desire to know something of the Theory and Science of Music. This Manual is the result of more than twenty years' experience in the labor of teaching. It will be found to be the best book that can be placed in the hands of beginners, and for advanced scholars an invaluable hand book of reference.
