Dr. HAMLIN'S HAND BAG FOR CHOLERA.

CONTAINING all the articles recommended by Dr. Hamlin, a well known Missionary residing at Constantinople, and possessing large experience in treatment of Cholera. In the Bag are full directions how to proceed in treating an attack, till the Physician arrives—a point of much importance, for as Dr. Hamlin remarks, on the approach of Cholera every family should be prepared to treat it, without waiting for a Physician. It does its work so expeditiously, that while you are waiting for a Doctor, it is done.

The Bag thus fitted out and locked, should be hung up in such a position, that on the slightest alarm it may be at hand. The public will see the immense advantage it will be to each family to possess in compact form and easy of access, the remedies which have been proved most efficacious with such directions as have in other land saved thousands of lives.

NEW SERIES OF ORGANS!

The greatest and best musical capacity at the lowest possible price.

THE MASON AND HAMLIN Portable Organs.

MASON & HAMLIN respectfully announce that, in order to meet the demand for low-priced instruments, they have commenced the manufacture of a new series of single-reed organs, the design of which is to furnish really good instruments in the most economical form and at the lowest prices possible. They are smaller in size and more compact than the Cabinet Organs, and hence will be known as THE MASON & HAMLIN PORTABLE ORGANS. The cases, which are all of walnut, are very plainly, though neatly and tastefully finished; and in various details, such as ivory keys, pedal coverings, music desks, hinges, &c., &c., not affecting the practical usefulness or durability of the instruments, less expensive materials and workmanship are employed than in the Cabinet Organs. This economy of manufacture is not, however, allowed to extend to the working parts of the instruments, which are all made with that scrupulous care and thoroughness for which the M. & H. Cabinet Organs are celebrated.

It should be observed that the principles upon which the MASON & HAMLIN PORTABLE ORGANS are made are just the reverse of those which are generally adopted in the manufacture of low-priced instruments. The plan commonly is to make as much show as possible in externals, and to slight the interior parts of the instrument, which are not seen. In the Portable Organs it is upon the external—upon those parts which are seen, and which are not essential to the musical capacity of the instrument that the saving is effected, and not upon the more important interior.

In that liquid purity and smoothness of tone by which the M. & H. Cabinet Organs are distinguished, and for which they have become so celebrated, the Portable Organs cannot claim to be fully equal to them. The necessity for adopting different and smaller cases and scales renders the attainment of this impossible. Yet it is confidently believed that in quality of tones the Portable Organs approach nearer to the M. & H. Cabinet Organs than do any other reed instruments. In power, quickness of action, and other excellences, they are worthy of highest praise. Each one is furnished with the Automatic Bellows Swell, two Blow Pedals, Combination Valves, and such other of the patented improvements of M. & H. as are applicable to them.

The Mason & Hamlin Portable Organs are FULLY WARRANTED for five years.

The following are the styles and prices:

No. 1. Four Octave Single-Reed Portable Organ, Black Walnut Case.....\$75

Length, 2 feet 7 1/2. Height, 2 feet 4 1/2. Depth, 1 foot 6 1/2 inches. Weight, about 67 lbs.
