For the time of HIGH WATER at Pictou, Pugwash, Wallace and Yarmouth add 2 hours to the time at Halifax.
 For HIGH WATER at Annapolis, Digby, &c., and at St. John, N. B., add 3 hours to the time at Halifax.
 The time of HIGH WATER at Windsor is also the time at Parrsboro', Horton, Cornwallis, Truro, &c.
 For the LENGTH of DAY double the time of the sun's setting.

Agriculture, &c.

PRUNING.—Cut down every worn out and worthless tree. It shades and saps the ground usually with a clump of suckers. Cut away all sprouts from the roots of your trees. An hour spent around a good tree is time well invested. We have been pained at seeing so many orchards utterly neglected in this particular. Good farms in other respects are frequently disfigured by these unsightly orchards. It should not be so. There is no reason why a man who looks well after his horses, cattle and sheep, should not also look well to his orchard.—*Prairie Farmer.*

Weston's advice to pedestrians is to swing the arms by the side, keep the mouth shut, not run down hill, wear laced shoes and linen stockings, and pour whiskey now and then into the shoes.

Plumbago, or graphite, the material now used in manufacturing lead pencils, is obtained from a mountain in Siberia—the deposit in Cumberland, England, which was used at first, having been exhausted. The present source of supply has only been made use of since 1865, and it is estimated that it cannot be exhausted in a thousand years.

TRANSPLANTING IN THE NIGHT.—An exchange informs us that last spring and summer he made the following experiment: He transplanted ten cherry trees while in bloom, commencing at four o'clock in the afternoon, and transplanted one each hour until one in the morning. Those transplanted in the daylight shed their blooms, producing little or no fruit, while those planted during the darker portions maintained their condition fully. He did the same with ten dwarf pear trees after the fruit was one-third grown. Those transplanted during the day shed their fruit; those transplanted during the night perfected their crop, and showed no injury from having been removed. With each of these trees, he removed some earth with the roots. This suggestion is of sufficient importance to attract the attention of farmers and others who intend to transplant trees.

GOING TO SLEEP.—The following is a valuable recipe, whether it be efficacious must be a matter of experience. If it be found so on proof it will be to many invaluable:

The secret of being able to sleep at will is the power to fix the attention upon the breathing. The person must depict to himself that he sees the breath passing from his nostrils in a continuous stream, and the very instant that he brings his mind to conceive this, apart from all other ideas, consciousness and memory depart; imagination slumbers; fancy becomes dormant, thought subdued; the sentient faculties lose their susceptibility; the vital or ganglionic system assumes the sovereignty, and he no longer wakes, but sleeps.

BREAD PROSPECTS.—While bread is the staff of life, men who wish to live and have not much to live upon, will be interested in the grain prospects of the world. It is perhaps too early to count strongly on appearances, but thus far accounts from different sections of our own country, and from the grain raising States of Europe, are quite encouraging. In all Southern Russia, around the Black Sea, the granary of Europe, and in the neighboring States of Turkey, reports indicate an unusually good crop of wheat. The same may be said of the grain prospects of California, fast becoming the most important grain-raising State in the Union, and of other sections of the West.—*Boston Traveller.*

EVERYBODY'S FRIEND.

ARCHIBALD'S VEGETABLE PAIN BALSAM.

THE great internal and external remedy for Coughs, Colds, Sore Throats and pains of all kinds; it is one of the best preparations ever offered to the public for Rheumatism and Neuralgia, warranted to stop the Toothache in four minutes, and Headache it always gives relief.

Mr. JOSEPH CORKUM, Chester, Lunenburg Co., writes, Dec. 5th, 1866:—It is the best medicine I ever used; my legs were swollen for nearly a year, and by two rubbings of the Pain Balsam they were completely cured. I have used it myself and so has my family for Headache, Toothache, Coughs, Colds and Sore Throat, and always found it to give almost immediate relief. I never want to be without it.

Many other testimonials to the efficacy of this valuable remedy which would occupy too much space to enumerate have been and are being constantly received.

Wholesale Agents, Brown Brothers, and Cogswell & Forsyth, Halifax, N. S.; and J. Chaloner, St. John, N. B., and Druggists generally.

Oxygenized Air;

A CURE FOR

CATARRH,

AND DISEASES OF THE THROAT AND LUNGS,

APPLIED BY

DR. C. L. BLOOD,

No. Montgomery Place, BOSTON, MASS.

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is usually caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the bronchial into the air vesicles, and such is the exsoriating, or scalding property of the matter, its contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a full description of these diseases.

Out of the many thousands of testimonials received we publish the following:—

DR. C. L. BLOOD,
 Dear Sir: I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adapt your system in the treatment of all forms of chronic affections.

Fraternally yours,

L. M. LEE, M. D.

No. 199 Westminster Street Providence.

DR. C. L. BLOOD,

My Dear Sir: I have tested your remedy "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,

Rev. R. TOMLINSON,

Plymouth, Mass.

Send for Circular, and address

THE SCIENCE OF HEALTH.
 Every Man his own Physician.
HOLLOWAY'S PILLS,
 AND
HOLLOWAY'S OINTMENT.

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system; abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints, and unrefreshing sleep. The Liver becomes affected, and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhoea, and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels, and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its "modus operandi" is first to eradicate the venom, and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin

Arising from a bad state of the blood or chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old; married or single, at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Mercurial Eruptions,
Burns,	Piles,
Chapped Hands,	Rheumatism,
Chilblains,	Ringworm,
Fistula,	Salt Rheum,
Gout,	Scalds,
Lumbago,	Skin Diseases,
Swelled Glands,	Sprains,
Sore Legs,	Stiff Joints,
Sore Breasts,	Tetter,
Sore Heads,	Ulcers,
Sore Throats,	Veneral Sores,
Sores of all kinds,	Wounds of all kinds.

CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON" are discernable as a Water mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor

HOLLOWAY 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients and the disorder affixed to each pot and box.

Dealers in my well-known medicines can have Show-Cards, Circulars, &c., sent FREE OF EXPENSE, by addressing Thomas Holloway, 80 Maiden Lane, N. Y.
