TIME-KEEPING APPEARS IN DEMAND.—There have been several attempts recently to commit robberies of watches.

The Keeper of the Public Garden on the Common is instructed to give away the flower roots, as there are no available means of keeping them through the winter.

The steamer *Richmond* built at Dartmouth for the County of Richmond, sailed on Tuesday for Lennox Passage where she will be used as a ferry boat.

THE CHICAGO SUFFERERS will receive an amount of aid from Halifax equal to, and perhaps greater than from many larger cities. Seven names have given \$150 each. Upwards of twenty give \$100 each, and a similar number \$40 or \$50 each. Then a host have put down \$25, \$20, \$10 or \$5.

POLICE OFFICE PRISONERS.—An order has been posted in the police station directing the officers on duty not to release any prisoners except by order of the Stipendiary Magistrate or Mayor. The practice of discharging prisoners on the orders of aldermen has been found to work badly, as many thus released fail to appear for trial. The aldermen will probably rejoice that they no longer have a privilege which has been a source of annoyance to them.—*Chronicle.*

A man named Lawrence Murphy, was burned to death in a small house near the railway at Athol, Cumberland county, on Tuesday night, 17th inst. It is probable that a spark from his pipe ignited the bed clothes.

THE AGRICULTURAL EXHIBITION AT WOLFVILLE on Thursday and Friday last, was a great occasion. The fruit in quality was very fine and in quantity abundant, and is said to have been far in advance of any preceding year. The number of persons in attendance was also far greater than heretofore. The exhibition building was the one erected last year near the Railway station. Large tables filled with all the various kinds of prize vegetables occupied the centre of the hall. Two broad shelves running around the sides of the building were filled with the different varieties of apples and pears. The grapes seemed to surprise everybody. A large case raised in the open air by Mr. Sutton of Cornwallis, showed what may be done here with proper care and skill. Those from Mr. Cunard's hot house were very large fruit. Visitors were there from all parts of the Province, and many from far beyond. Sleeping accommodations were in great demand on Wednesday and Thursday nights. The splendid band of the 78th Highlanders arrived from Halifax, in the mid-day train on Friday, and offered additional attraction. His Honor Sir Hastings Doyle and Lieutenant Governor Robinson of P. E. Island, and Mrs. Robinson, Admiral Fanshawe and Mrs. Fanshawe, with a number of other distinguished personages were present. The Longfellow Prize—a handsomely bound copy of his poem "Evangeline," was presented to Dr. C. C. Hamilton by His Excellency the Lieutenant Governor, with a few suitable remarks, full of pleasant humor. Our readers will be interested in reading a list of the prizes, and the successful competitors. The following are the principal ones:—

The Conversazione held in Blackader's Hall in the evening, was attended by the leading fruit-growers of the country. Dr. Hamilton, the President of the Association, referred to the Fruit Exhibitions he had attended in the U. States and Quebec, as not to be compared with the present one.

Avard Longley, Esq., V. P., complimented the members of the Association on the progress made in fruit culture in the past two or three years. He called attention to the necessity of care in packing fruit after it had been grown, so as to realize the greatest profit for their labor. Mr. Kerr read an instructive paper on packing fruit for the foreign market. Quite a number of speakers gave the results of their experience, and offered valuable suggestions in respect to the rendering of fruit-growing more successful and profitable. Rev. David Freeman showed how a small piece of land may be made a source of much pleasure, instruction and advantage. Dr. Bingay offered some thoughts on fruit packing, and on the best kinds of the smaller fruit. These speakers were followed by Messrs. W. H. O. Halliburton, A. H. Johnson, Geo. Creed, Rev. T. A. Higgins, L. Rand, T. W. Chesley, Sydney Shaw, C. F. Eaton and Rev. Mr. Godfrey, on the various branches of cultivation, preservation and preparation for market. The President spoke briefly at the close, congratulating the Association on the success which had attended their Exhibitions at Wolfville.

JUDGE McCULLY.—Highly complimentary addresses were presented by the magistracy, the bar and a number of other leading gentlemen at Liverpool, and Lunenburg, to the Honorable Judge McCully on his recent visit to those places for the first time, for the purpose of presiding at the Supreme Court there. In his reply, Judge McCully made reference to the high character of his predecessors and of the other gentlemen who at present occupied seats on bench; and concluded his address at Lunenburg as follows:—

A tidal wave, as it were, of more than ordinary prosperity seems to have set in upon our shores; and if I were required to say which of all the eight counties I have passed through since leaving Halifax—Hants, Kings, Annapolis, Digby, Yarmouth, Shelburne, Queens or Lunenburg—exhibited the most reliable marks of thrift, successful enterprise, and domestic contentment, I should be at a loss to decide. Sea and land seem to have vied with each other in yielding up their richest, choicest resources, everywhere filling to overflowing the laps of our industrious, happy people. Our coasting trade flourishes. Never in the history of the Provinces was the extensive, increasing foreign-going shipping more profitably or promisingly employed than at the present hour. No dread of war disturbs; no plague impends. Therefore I reciprocate your congratulations and from my heart wish that you, the signers of this address, all may long survive to participate in and enjoy so many and such distinguished blessings vouchsafed by a kind overruling Providence.

A Missionary just returned, says he regards "Johnson's Anodyne Liniment" as beyond all praise, and efficacious beyond any other medicine. It is adapted to a great variety of special cases, and is the best pain killer in the world.

THE PICTOU COUNTY AGRICULTURAL EXHIBITION held at Pictou on the 11th inst. was a success; the show of live stock was extensive. There were some fine horses on the field, especially a two or three year old stud, one weighing 1545 pounds, a monster. The show of cattle was not up to the average. Two bull calves, one owned by Mr. James Hogg of Durham, and the other by Mr. A. Ross of Mill Brook were much admired for their extraordinary size. There was a very fine display of sheep and pigs. The show of agricultural implements was not very large. The display of fruit was remarkably good.—*Reporter.*

Fever seldom makes an attack without warning; and may often be thrown off by soaking the feet in warm water, wrapping up warm in bed, and taking two or three of "Parsons Purgative Pills."

No. 500 William Street, Sept. 8, 1870. —I had suffered for more than fifteen years with distressing pain in my breast, which some medical men supposed to be Rheumatism of the heart; I also suffered from pain in the back part of my head, extending through to my temple.

After every available means had failed, one bottle of Graham's Pain Eradicator cured me.
