NEW AND USEFUL ATTACHMENT.

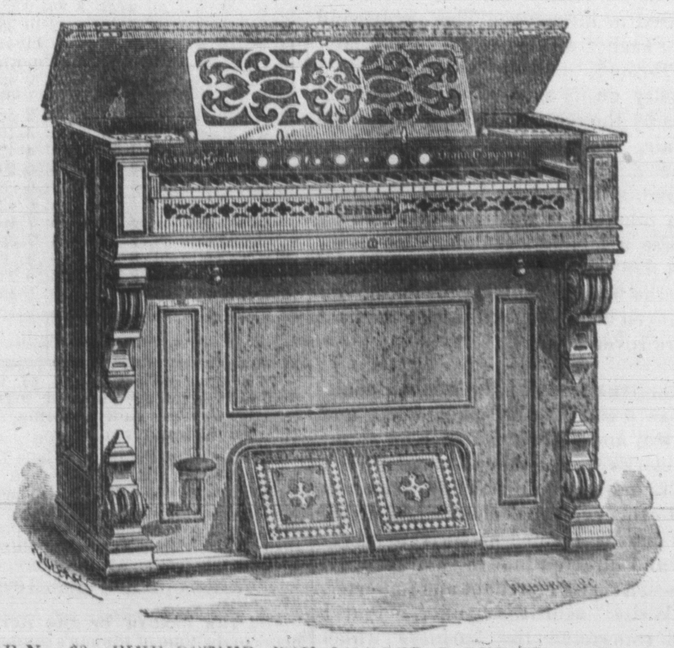
DAY'S TRANSPOSING KEY-BOARD

(Patented Sept. 13th and Dec. 13th, 1870.)

APPLIED TO

Mason & Hamlin Cabinet Organs.

The MASON & HAMLIN ORGAN CO., respectfully invite attention to a new invention of Mr. W. G. DAY, of Baltimore, in connection with Cabinet Organs, which they believe will be found of great practical use. It enables the performer, by a simple movement of the key-board to the right or left, to raise or lower the pitch of the entire instrument a half or whole step, or tone. The transposition from one key to another, so often necessary in accompanying vocal music, in order to bring it within the compass of the voices, is thus made perfectly easy. The performer, indeed, continues to play in the key in which the music is written, while the music is really given a half or whole step or tone, below or above, as desired.



STYLE No. 69.—FIVE OCTIVE, DOUBLE-REED CABINET ORGAN, with DAY'S TRANSPOSING KEY-BOARD, FIVE STOPS: 1. VIOLA; 2. DIAPASON; 3. MELODIA; 4. FLUTE; 5 VOX HUMANA. With two sets of Vibrators throughout, one of four feet pitch, one of eight feet; Improved VOX HUMANA; AUTOMATIC SWELL; Self-adjusting Reed-Valves; Improved Bellows; Foot-Board, Ivory fronts to Keys; Clothed Mortises; Lamp Stands, &c. Heavily panelled front and sides, carved ankles, smooth finish Extra. Price, $175.

With an instrument having this attachment, if a tune written in the key of G be found too high for the voices, the performer can at a single movement shift his key-board, and so lower the pitch a whole or half-step or tone; the singers really singing in the key of G *flat* or F, while the player still plays as if in G. Those who have had experience in accompanying vocal, and especially church music, know how often it is desirable to change the key and sing at a higher or lower pitch, and how difficult it is for the player to do this, and will appreciate the value of the invention.

The mechanism is quite simple and appears to be free from liability to get out of order. We apply this to but one style of our organs (as shown above), which corresponds exactly in other respects to that known in our catalogue as Style 21.

MISCELLANEOUS.

THE "OLD CATHOLICS."—The sympathisers with the Old Catholic movement at Rome have started a weekly paper in French called the *Esperance de Rome*. Dr. Frederic Nery is the editor, and the prospectus states that Dr. Döllinger, Father Hyacinthe, and Professor Friedrich, Reinkins, and Michelis have promised their support and co-operation. "Our religious programme," the editor says, is resumed thus:—Church reform—no schism—but spiritual union in a Church truly Catholic with all those who believe in Christ and hold to the Apostles' Creed. In politics we advocate universal peace. We desire the unity, development, and prosperity of Italy, that she may become the true representative of political and religious liberty."

BRITISH PRINCIPLES SPREADING.—At Bari, on the Adriatic shore, there was a Pædo-baptist Church of seventy five members. The pastor of these brethren, learning of Brother Cote (the Baptist minister) and his work at Rome, invited him to come down and address his people on the subject of Christian baptism. Like Peter when summoned to Cornelius, the good brother went, and soon he was sent for to come down and baptize forty persons in that church. The old pastor very soon baptized the remainder, and now the whole church of seventy-five persons have professed one common faith.—*Journal and Messenger* (Cincinnati.)

Mr. Caleb Gates—

The leading facts of my case are as follows:—I was troubled with a pain in my left side for several years back, and tried some preparations which failed to do any good, I took a trip to New York about four years ago; grew worse after me arrival there; felt a violent pain in my forehead and directly above my eyes so that I could scarcely open them for a time; then I applied to a doctor, who informed me that I had a combination of diseases, viz—liver complaint, heart disease, pains in the back and shoulders and jaundice; he said he could cure me and gave me some medicines; also a plaster to wear on my side. I thought I felt somewhat better for a while but after arriving at Halifax, grew worse than ever. I left that place and came home; my friends said that I was too far gone to last much longer. The doctor's here advised me to discontinue using the medicines I had been taking, my knee joints and other parts of my body feeling very weak; they gave me tincture of iron, but it did me but little good; at length I gave you a brief explanation of my condition, asking if your remedies would do me any good; the answer was try them if you wish to do so. I took several quarts of your bitters and invigorating syrup and applied some vegetable plaster, and got great relief in a short time; kept gaining in strength and health, and my appetite has been good ever since, so that I can do a good day's work and travel around as well as ever. In fact my system is so regular of late that I need no common purgatives. The cure is an astonishing one even to myself, therefore after taking a view of the deplorable condition I was in I considered it a duty which I owe to you and my fellowmen to give the above statement, in order that it may be made public for the benefit of suffering humanity.

Yours Respectfully,
JOHN BOHAKER.
