

\$1.24; per S. Selden, Esq., John Bew, Arichat, N. S., \$6.00; a friend in Lower Granville, N. S., forwarded through Rev. P. R. Foster, \$1; Mrs. Geo. Dart, Stewiacke, N. S., \$2; J. W. Frail, Mahone Bay, N. S., \$2.

During a visit to Sackville, N. B., last week, subscriptions to the amount of \$50 to our Foreign Mission were obtained, and "more to follow." At Masstown, N. S., also a respectable subscription was secured last Sabbath. Other fields which I have visited are circulating subscription lists which promise to yield good returns to our Foreign Mission Treasury.

Yours truly,

W. P. EVERETT,
Sec. F. M. Board.

Local News.

PROVINCIAL APPOINTMENT.—Provincial Secretary's Office, Halifax, Nov. 1878. His Honor the Lieutenant Governor, by the advice of his Executive Council, has been pleased to make the following appointments:

To be Members of the Legislative Council of the Province of Nova Scotia, —Hiram Black, of Amherst, in the County of Cumberland, Esquire; James Simon Macdonald, of the City and County of Halifax, Esquire.

On Saturday night there was a severe south east storm of wind, snow and rain. There was a considerable amount of activity amongst the vessels lying at the wharves of the city, many of them sustained slight injuries, but none any serious damage.

The lakes were frozen on Saturday but the ice was not safe. Several lads who were skating broke through and got a wetting, but no further casualties occurred.

A fire broke out on Tuesday last in the upper part of the building occupied by C. H. Whitman & Co. The store had been closed about an hour before. It is supposed that the fire originated from a defect in the flue of the house adjoining. It was extinguished after working some time by the firemen, but the building and goods were much damaged.

On Wednesday afternoon last about 1/2 past 5 o'clock the government steamer Glendon was slowly coming up the harbor, when just off the market wharf a "dingy" boat containing seven men from the cable steamer Minia, lying in the stream, was coming on shore. The dingy attempted to cross the Glendon's bow, the boat was not observed until the steamer was close to her. The steamer's engine was immediately stopped and the men in the boat were shouted to, but they kept on rowing. The boat was still in the way and was run down. The boat filled, but was not much injured, as the steamer was hardly moving when she struck it. One man from the boat got over the bow of the steamer, three more were hauled on board with lines, and the other three were rescued by a boat which was launched from the steamer. They were only a few minutes in the water. There was a light in the Minia's boat, but it was not shown until she was under the Glendon's bows, when the steamer stopped, but too late. The men in the boat had a narrow escape.

On Wednesday afternoon a man named James O'Brien, while sitting at the dinner table in his boarding house on Gerrish Street, suddenly leaned back in his chair, making a sound as if choking, and died immediately.

At Barrington on Tuesday last Wm. Morricey shot himself in his own barn. It is supposed that the death of his wife a few months since, had so affected his mind as to lead to this sad end. He was a fisherman, fifty-three years of age.

A man named Gallagher, from Londonderry mines dropped dead at Green's Crossing on Wednesday last. He was subject to fits.

Lawrencetown, Annapolis Co. was the scene of a terrible accident, or worse, on Sunday the 15th inst. It appears that two young men, named Charles Taylor and Hiram Late, together with a girl named Amelia Freeman, called at the house of Mr. William Late, and persuaded his daughter, Emma Late, a girl of about 19 years of age, to go out for a walk with them. They walked some distance, and stayed out so late that they were unable to get into their homes. They then decided to go to Morton's mills and stay there for the night. On arriving at the mills, the two girls gathered some chips and wood, and made a fire in the fireplace. They all laid down by this fire, and it is said, went to sleep. About four o'clock, a.m., one of the men was heard knocking at his mother's house, and when she appeared at the window, told that Emma L. was badly burned at the mills. Some of the people were aroused, including Dr. Morse, who proceeded to the mill, and were met with a sight which almost baffles description. Her body was horribly burned. She was, however, still alive, but lingering in the most intense agony. She was taken to her home on a board, where she lingered in the most excruciating agony until 1.30 p.m., when death released her from her terrible sufferings. Taylor, Late, and the girl Freeman, were arrested and taken to Annapolis jail. On being questioned, they did not know anything about it, more than that when they were awakened Emma Late was all in a blaze.

At the meeting of the School Commissioners last week there were 76 applications for the office of Janitor for the new High School. Mrs. Donahoe was appointed.

The High School is to be publicly opened on the 6th of January.

ANOTHER COMMUNICATION from Mr. Geo. Sewell, dated Moncton, N. B., June 22, 1878.

J. H. Robinson, Esq.—Dear Sir—I wrote you in May last informing you of the wonderful cure your "Phosphorized Emulsion of Cod Liver Oil with Lactophosphate of Lime" had made in my case, and, at the same time promising to write from time to time to let you know how I was getting along. I am much better in every way; am stronger; can walk a good long distance without getting tired. Sleep well and eat a hearty meal. In fact I am a new man in every respect, and those who saw me three months ago and see me now, can hardly believe that I am the same person.

The above are facts, and believing that ingratitude is one of the unpardonable sins, I feel it a duty to tell you of what, under a kind Providence, your preparation has done for me. Wishing you every success, &c., &c.

Price \$1.00 per bottle; six bottles for \$5.00.
Brown & Webb; and Forsyth, Sutcliffe & Co., Halifax, Wholesale Agents.
Nov. 6. 2 ins.

DIPHTHERIA has for a long time been very prevalent and very fatal. Its fatality seems to be greatly owing to neglecting what is supposed to be an ordinary cold or sore throat until it has progressed to its last stages, and then when medical aid is procured it has often been found to be too late. From the fatality attending this disease every family should keep a suitable remedy on hand and use it on the first appearance of sore throat. A preparation called DIPHTHERINE has been placed before the public. It is the discovery of an English Physician and has been regarded where it is used to be an infallible remedy for that disease. To place it within the reach of all it is put up in bottles with full directions, and sold by Druggists and Dealers in medicines at the low price of 25 cents a bottle.

Sept. 4.

DRY GOODS, DRY GOODS! WHOLESALE.

WE beg to advise the completion of our Fall and Winter Stock.

The ENGLISH, FRENCH, and AMERICAN Markets have all been visited by one of the firm, and our Stock (including many SPECIAL LINES) secured at very low figures, which we now offer at a very small advance.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.
ITS MEDICINAL PROPERTIES ARE
Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of SCROFULA, SCROFULOUS HUMOR, TUMORS, CANCER, CANCEROUS HUMOR, ERYSIPELAS, SALT RHEUM, SYPHILITIC DISEASES, CANCER, FAINTNESS AT THE STOMACH, and all diseases that arise from impure blood. SCIATICA, INFLAMMATORY and CHRONIC RHEUMATISM, NEURALGIA, GOUT and SPINAL COMPLAINTS, can only be effectually cured through the blood.

For ULCERS and ERUPTIVE DISEASES OF THE SKIN, PUSTULES, PIMPLES, BLOTCHES, BOILS, TETTER, SCALDHEAD and RINGWORM, Vegetine has never failed to effect a permanent cure.

For PAINS IN THE BACK, KIDNEY COMPLAINTS, DROPSY, FEMALE WEAKNESS, LEUCORRHEA, arising from internal ulceration, and uterine diseases and GENERAL DEBILITY, Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system acts upon the secretory organs, allays inflammation, cures ulceration and regulates the bowels.

For CATARRH, DYSPEPSIA, HABITUAL COSTIVENESS, PALPITATION OF THE HEART, HEADACHE, PILES, NERVOUSNESS, and GENERAL PROSTRATION OF THE NERVOUS SYSTEM, no medicine has ever given such perfect satisfaction as the Vegetine. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by Vegetine have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

WHAT IS VEGETINE? It is a compound extracted from barks, roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good sweet sleep at night. It is a great panacea for our aged fathers and mothers, for it gives them strength, quiets their nerves and gives them Nature's sweet sleep—as has been proved by many an aged person. It is the great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it. It relieves and cures all diseases originating from impure blood. Try the Vegetine. Give it a fair trial for your complaint; then you will say to your friend, neighbor and acquaintance, "Try it; it has cured me."

Valuable Information.

Boston, Mass.

MR. H. R. STEVENS—

DEAR SIR:—My only object in giving you this testimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing that it was a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit, until I commenced taking the Vegetine, and before I had completed the first bottle I saw that I had got the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of Vegetine. To benefit those afflicted with Rheumatism, I will make mention also of the Vegetine's wonderful power of curing one of this acute complaint, of which I have suffered so intensely.

C. H. TECKER,
Pas. Agt. Mich. C. R. R.,

PRESERVE AND RESTORE YOUR HORSES, BY THE USE OF DR. WOODBURY'S Horse Liniment.

It is a desideratum, the want of which has long been seriously felt by proprietors of horses. All persons who are so situated as to be compelled to keep their horses stabled, know how difficult it is to prevent their feet from becoming feverish, dry, and contracted, with all the innumerable evils attendant on stabling, high feeding, and driving over hard roads.

To all owners of horses so situated, the Proprietor of this Liniment confidently offers it as THE REMEDY, both as a preventive and cure.

Its action is to remove fever and dryness, thereby causing the hoofs which have become hard and brittle, to be softened and elastic, and promotes the rapid growth and full development of soft new hoof in such a manner, as can be best appreciated by being witnessed.

Its beneficial effects are so prompt and decided, as frequently to very far exceed the anticipations of the most sanguine—to excite their admiration—and secure their highest confidence. All horses that are stabled, should have an application of this Liniment to the hoofs of the fore feet, once in every two or three weeks, to prevent their becoming feverish, dry, brittle, hard, contracted, or otherwise injured.

Horses that are foundered, or whose hoofs are contracted, or in any way diseased, should have this Liniment applied to every part of the hoof, every third or fourth day. The more inveterate the case, the more frequent should be the application; and in cases of long standing, should be continued for a sufficient length of time for the old or diseased hoof to become softened, and the growth of the new fully developed.

The Liniment should be applied to every part of the hoof, and rubbed gently into the hair around the upper part of the hoof. It can be best applied with a small brush. While this Liniment is

The only Decidedly Reliable Remedy Known

For all affections of the Horse's Hoof, it is equally efficacious in the removal of

Splints, Curbs, Bog Spavins, and in all cases of Bruise or Strain in the Joints or Tendons, and enlargements of any and every description, and given internally, will promptly relieve and remove any and every character of

COUGH, ENLARGEMENT OF THE GLANDS, AFFECTIONS OF THE KIDNEYS, &c.

And in our prevailing Horse Distempers, given in doses of a table spoonful, two or three times a day; it is, infallibly,

THE REMEDY!

A Cough which cannot be removed by this Liniment, may be considered incurable. For Coughs, Enlargements of the Glands, or Affections of the Kidneys, give a table spoonful night and morning in their feed.

For Splints, Curbs, Bog Spavins, or Enlargements of any kind, apply it freely to the part, night and morning, until it blisters, which will be readily known by sweating or weeping of the part, which will soon dry, and form a thick scurf or band; allow this to remain until it falls off or rubs off quite easily, which will be from six to ten days; and then if the enlargement be not entirely removed, repeat the application as before.

As the Proprietor of this Liniment is quite aware of the many worthless nostrums offered to the public at the present time, he would beg to say, that all articles manufactured by him are strictly WARRANTED to effect that for which they are recommended, when used according to directions. Use this preparation thoroughly, for all and every disease of the Horse for which it is recommended. Criticise it closely. Carefully watch, mark, and note its effects; and honestly judging it on its merits, you will be compelled to endorse the sentiment, that NO STABLE SHOULD BE WITHOUT IT.

It is put up in Four Ounce Bottles, a 45 cents per Bottle.

ALSO:

Dr. J. Woodbury's EYE WATER.

Those afflicted with Weak, Irritable, or any, and every description of SORE EYES, DEBILITY of the EYELIDS, &c., will find in this preparation a most prompt, certain, and efficient remedy.

A single trial will convince the most skeptical of its merits.

Apply at bedtime, rubbing it thoroughly to the lids and corners of the eye. In mild cases, two or three applications will be sufficient; but in severe cases, or those of long standing, its use should be persevered in for several weeks.

Prepared only by
