

"EUREKA" is the sentiment of countless sufferers who find the balm of relief, and the fountain of their health and strength, in AYER'S SARSAPARILLA. It is the most potent of all the alteratives to purify the system and cleanse the blood. It possesses invigorating qualities, so that it stimulates the faded vitality and purges out the corruption which mingle with the blood, promoting derangement and decay. We are assured by many intelligent physicians that this medicine cures beyond all others of its kind, and we can fortify this statement by our own experience.

FACTS ARE STUBBORN THINGS.—The thousands that have used Graham's Pain Eradicator acknowledge the fact that it makes the most permanent cures of chronic complaints such as Rheumatism, Asthma, &c., as well as being the most safe, gentle and efficacious remedy known for most forms of Pain. Its superiority is acknowledged by the Medical Faculty many of whom adopt it in their practice.

From Mr. J. B. Fenwick, Produce and Commission Merchant, Railway Station, St. John, N. B.:

"I had suffered very much with pain in my back for two years previous to 1868, when I was induced to try Graham's Pain Eradicator. The first application gave me immediate relief and by a few applications I was entirely cured as I have felt no return of it since. If applied according to the direction I believe it will prove efficacious in all cases for which it is recommended."

READ CAREFULLY.—Samuel Osborne, Sophiasburg, says: "I was affected with Dyspepsia for nearly four years, my lungs becoming affected towards the last. I was induced to try the Shoshonees Remedy. After using three or four bottles I felt much better and gained strength rapidly, my health improved steadily and rapidly, and when I had taken three or four bottles more, I was quite restored to health and strength, and have experienced better health than for forty years before. I had been under the treatment of a number of physicians before, but never received any material aid until I used your remedy."

A. McKay, Truro, N. S., says: "He was very bad with Liver Complaint, but used the Shoshonees Remedy, and in a month I was as well as I had ever been in my life. I am now in business and wish you to send me three dozen by steamer."

A. Wood, Conception, says: "That he has tried the Remedy for Liver Complaint and Dyspepsia with great success. I have also used the Shoshonees Pills and find that they are as good as any I ever tried."

Henry King, Geneva, N. Y., says: "My wife was intensely afflicted with dyspepsia for a long time. We consulted physicians of three different schools, and received no benefit. She has taken three bottles of the Great Shoshonees Remedy, and is now hearty and well."

Rev. John Scott, says: "Mr. McKenzie Botting suffered from an attack of Rheumatism, and was unable to move without help; but after taking a few bottles of the Shoshonees, was able to walk as well as ever. Price of the Remedy in pint bottles, \$1; Pills, 25 cents a box. Sold by all medicine dealers."

GALLERY AND AREA.—In one church, a trackless preacher, who happened along, spoke of "the poorer class who rent cheap seats in the gallery." Consequently, the poorer class were resentful and deserted that church for another where they were just as poor, but were not likely to be reminded of it. Much more shrewd was the management of Rev. Dr. T., who found that the gallery of his new church was useless, because people were foolishly sensitive. He persuaded several families of wealth and culture to take seats up stairs; a new fashion set in, and the stairs have been worn ever since by a multitude of willing feet.—*Christian Register*.

ANOTHER STORY OF A FAITHFUL DOG.—A man in Vernon county, Missouri, was riding on horseback through an extensive timber land, accompanied by the sagacious animal in question. The dog jumped and caught the bridal rein and stopped the horse. The man drove him off and tried to proceed, but he persisted in stopping the horse, and showed such excitement in the manner that his master concluded he was mad, and, drawing his revolver, shot him. The dog started and ran back, wailing with pain, along the path by which they had come. Presently the man missed his overcoat, which had been tied to the saddle. He turned back to search for it, and about a mile back he found it on the ground, and lying on it was his faithful dog, dead from his wound.

Lord Radstock, writing from St. Petersburg on "British interests" says:—"When passing through Berlin I had the advantage of seeing M. de Buelin, the Minister for Foreign Affairs, and he spoke, not as a diplomatist, but as a high-minded Christian man. His words were to this effect:—'We want the English people to be in sympathy with us in our desire to ameliorate the condition of the oppressed Christians in Turkey, and he expressed his astonishment that a country like England

where there was so much Christian feeling, should be indifferent to the fate of those suffering populations.' The real danger to British interests is not the advance of Russia, but that terrible national pride which thinks of no welfare, of no honour, but its own; and that supposed wisdom which, for the sake of avoiding future dangers to our commercial prosperity, rushes into a war which brings certain present distress and poverty, and may possibly strike a lasting blow at our national prosperity."

The Alliance has some sensible remarks on the popular style of narrating conversions:

Furthermore, accuracy of date as to when the light broke in can never be a matter as important as the quantity of the light that becomes thus irradiant. There was once a good deacon in a big city who was accustomed to state in experience meetings that he was converted at the corner of Vine and Fifth Street, while crossing, at half-past seven in the forenoon; and it was felt by his friends as often as he gave the date that he should have made more of the conversion and less of the date, compensating by the quality of his life what he might lack of detail as to the street crossing where the virtue began.

TO FARMERS AND OTHERS.

LAST AUTUMN while visiting the Nursery belonging to Mr. JAMES THOMSON, near WINDSOR TOWN, I was shown some as excellent fruit and trees as I ever saw—especially Plums and Pears, and Apple trees of almost every variety of what the market now demands. Farmers and Gardeners intending to enlarge or set an Orchard could not do better than patronize Mr. Thomson as the price of his trees is far below those imported, grown in our own Climate and in our soil. Purchasers will find it much to their advantage over imported trees. Falmouth, March 21st, 1878.
