Halifax, May 6th, 1879.

DEAR SIR,
I am glad to hear that you are about to resume the agency for the North British Co.'s "Nutritious Condiment," originally introduced by you in 1872. It was then well appreciated by horsemen, cattle feeders and dairymen in this Province, and the animals shown at the Provincial Exhibition in October 1874, for the special prizes offered by you, were very creditable and attracted much attention.

I am, dear sir,
Yours truly,
GEORGE LAWSON.

George Fraser, Esq.

Halifax, 7th May, 1879.
This is to certify that for many years past I have known the North British Cattle Food Co.'s Nutritious Condiment to be used extensively in London, Liverpool, Manchester, Edinburgh, and Glasgow, and in every instance it has proved itself to be a most useful article, in fact "the only one that I know of that can be relied upon." It was used largely amongst the horses of my own regiment during the late epidemic. It is an invaluable preventative in both horses and cattle of colic and febrile diseases, so common in spring and autumn.

At the Exhibition of the Royal Agricultural Society of England, held at Swansea in 1872, numbers of the owners of cattle who obtained prizes, acknowledged "that it was due to the effects of this Condiment."

JOYFUL NEWS

For the Afflicted!

Port George, Annapolis, N. S., June 12, 187

C. GATES SON & CO.,

Gentlemen,—In the Autumn of 1877, my

little boy, about two years old, was in very

ill health on account of Worms, which de-

stroyed his appetite and made him peevish

and poor; the strongest symptoms of the

disease being starting out of a sound sleep

and crying loudly. I had never previously

used your medicines for any complaints to

which children are subject, but concluded to

try them in this case. I administered your

No. 1 Syrup according to directions, with

amazing results. One symptom after another

disappeared before it; it carried off Worms

four or five inches long, and when only two

bottles had been taken, "a perfect cure" was

effected. In March last, I gave the little fel-

low two bottles of your No. 2-Bitters as a

Spring Medicine to purify his blood, he hav-

ing been ailing on account of impurities there-

in. It cleared his blood, built him up, so that

he increased in health and strength in a very

short time, and ever since he has been well

and hearty. I may also say two swallows

(and not large ones either) of your No. 1

Syrup before mentioned cured me in about

fifteen minutes of a very bad cramp and pain

in the stomach, such as I never experienced

before or since. I can state further that I

have seen your Acacia Liniment applied to

cattle for the cure of distemper (so-called)

with most astonishing results. A gentleman

of my acquaintance had a pair of oxen seve-

rely crippled by this terrible complaint, but by

the use of five or six bottles of the Liniment

afforded a cure, was effected in about ten

days. I helped apply the medicine myself

and know it to be a fact. I am quite sure

no Liniment or other preparation in this coun-

try could have done so much in a similar

case as this Liniment did. I have used your

Nerve Ointment with complete success for

the cure of sore teats in cows; there is nothing

I ever tried or heard tell of that will cure

them so quick.

Yours with gratitude.

ISAAC B. SPINNEY.

signed, June 13th 1878.

Ayer's

Sarsaparilla

For Scrofula, and all

ny's Fire, Eruptions and

from internal ulceration, and Uterine

disease, Syphilitic and Mercurial dis-

eases, Dropsy, Dyspepsia, Emaciation,

General Debility, and for Purifying the

Blood.

This Sarsaparilla is a combination of

vegetable alteratives—Stillingia, Man-

drake, Yellow Dock—with the Iodides

of Potassium and Iron, and is the most

efficacious medicine yet known for

the diseases it is intended to cure.

Its ingredients are so skillfully com-

bined, that the full alternative effect of

each is assured, and while it is so mild

as to be harmless even to children, it is

still so effectual as to purge out from the

system those impurities and corruptions

which develop into loathsome diseases.

The reputation it enjoys is derived

from its cures, and the confidence which

prominent physicians all over the coun-

try repose in it, prove their experience

of its usefulness.

Certificates attesting its virtues have

accumulated, and are constantly being

received, and as many of these cases are

publicly known, they furnish convincing

evidence of the superiority of this Sar-

saparilla over every other alternative

medicine. So generally is its superi-

ority to any other medicine known, that

we need do no more than to assure the

public that the best qualities it has ever

possessed are strictly maintained.
