There are in connection with the Halifax and Dartmouth Sabbath School Association 28 schools, 529 officers and teachers, and 4,330 scholars. Only Methodist, Baptist and Presbyterian schools affiliate with the Association.

The weather during the past month has been highly favorable for securing the crops in good order.

A plasterer named Rooney, who must have been a little astray, jumped from Wood's wharf in the harbor one day last week, proposing to catch the steamer for New York. He said he was bound to catch her. He had drifted down the harbor a considerable distance when a man named Fleming, a spar maker, employed on the wharf, rescued him in a boat.

MESSES. T. GRAHAM & SON,

DEAR SIR,—It gives me great pleasure to inform you of my perfect cure of CATARRH, from which I have suffered in its most severe form for 12 years without being able to find a remedy for it, and I had long thought that nothing could cure me, but thanks to Providence and the use of your valuable preparation, CATARRHINE, I have been completely cured of that distressing and I might say disgusting complaint, and I only used one box. I can confidently recommend it to any suffering from that complaint. Price 25 cents a box.

Yours truly,
C. F. F. SCHOPPE.

Auraleine is a great healer.

All persons about to visit foreign lands sailors, fishermen, lumbermen and miners should take with them a supply of *Johnson's Anodyne Liniment*. It is both for internal and external use, and is worth its weight in gold.

Hip disease, fever sores, ulcers, blotches, pimples, and many loathsome diseases originate in impure blood. *Parsons' Purgative Pills* make new rich blood and will change the blood of the entire system in three months, taken one a night.

PAUSE, PONDER AND PERUSE!—The invention of that Superior and Complete Sewing Machine (The Family Sewing Machine), marks one of the most important eras in the history of machinery, and when we consider its great usefulness and extremely low price (\$25), it is very difficult to conceive of any invention for domestic use of more or even equal importance to families. It has great capacity for work; beautiful, smooth, and quiet movement; rapid execution, certainty and delightful ease of operation, that at once commends it above all others. The working parts are all steel, strong and durable, and will last a life time; the bobbins hold 100 yards of thread; the stitch is the finest of all the stitches made, neat and regular, and can be regulated in a moment to sew stitches from an inch in length on coarse material down to the finest, so infinitesimal as to be hardly discernable with the naked eye, and with a rapidity rendering it impossible to count them as fast as made; it has more attachments than any other, and it does to perfection all kinds of heavy, coarse, plain, fine, or fancy needlework with ease, and far less labor than required on other machines. It needs no commendation, the rapid sales, increasing demand, and "voluntary" encomiums from the press, and the thousands of families who use them, amply testify to their undoubted worth as a standard and reliable household necessity, extending its popularity each day. Machines sent anywhere to be examined before any money is paid. **AGENTS WANTED** by the Company. Address them for information. **FAMILY SEWING MACHINE CO., 755 BROADWAY, NEW YORK.**

Another communication from Mr. Geo. Sewell, dated Moncton, N. B., June 23, 1878.

J. H. Robinson, Esq.—Dear Sir—I wrote you in May last informing you of the wonderful cure your "Phosphorized Emulsion of Cod Liver Oil with Lactophosphate of Lime" had made in my case, and at the same time promising to write from time to time to let you know how I was getting along. I am much better in every way; am stronger; can walk a good long distance without getting tired. Sleep well and eat a hearty meal. In fact I am a new man in every respect, and those who saw me three months ago and see me now, can hardly believe that I am the same person.

The above are facts, and believing that ingratitude is one of the unpardonable sins, I feel it a duty to tell you of what, under a kind Providence, your preparation has done for me. Wishing you every success, &c., &c.

Price, \$1.00 per bottle; six bottles for \$5.00.

VEGETINE

A Home in the Celestial City.

MINNEAPOLIS, MINN., Dec. 18, 1878.

H. R. Stevens, Boston:

About nine and a half years ago I had a fever; the doctor gave me some poisonous medicine, drove the disease into my leg, and it broke out, and has been from two to ten running sores ever since. I could not sleep a fourth of a night once in six months, and a great many nights was compelled to get up and take opium—apiece as large as a pea—to deaden the pain. I have tried everything I could hear of, in fact, I have paid out hundreds of dollars and found no relief until I commenced taking Vegetine, and now I can go to bed at eight o'clock at night and sleep until seven o'clock in the morning, and no occasion to awaken from pain. I was used up, perfectly dead inwardly, and frequently when I would get up, would be dizzy, and have to put my hand on something to keep from falling; but since I commenced taking Vegetine it has all disappeared, and I feel like a new man. My honest conviction is that it will cure my leg entirely, from the present looks and feelings. I shall continue taking Vegetine, and recommend it to all whom I come across; and I hope the man who introduced Vegetine into the United States will have a home in the Celestial City.

Yours most sincerely,
W. S. LEACH.

PRESERVE

RESTORE YOUR HORSES,

BY THE USE OF

DR. WOODBURY'S

Horse Liniment

It is a desideratum, the want of which has long been seriously felt by proprietors of horses. All persons who are so situated as to be compelled to keep their horses stabled, know how difficult it is to prevent their feet from becoming feverish, dry, and contracted, with all the innumerable evils attendant on stabling, high feeding, and driving over hard roads.

To all owners of horses so situated, the Proprietor of this Liniment confidently offers it as THE REMEDY, both as a preventive and cure.

Its action is to remove fever and dryness, thereby causing the hoofs which have become hard and brittle, to be softened and elastic, and promotes the rapid growth and full development of soft new hoof in such a manner, as can be best appreciated by being witnessed.

Its beneficial effects are so prompt and decided, as frequently to very far exceed the expectations of the most sanguine, to excite their admiration—and secure their highest confidence. All horses that are stabled, should have an application of this Liniment to the hoofs of the fore feet, once in every two or three weeks, to prevent their becoming feverish, dry, brittle, hard, contracted, or otherwise injured.

Horses that are foundered, or whose hoofs are contracted, or in any way diseased, should have this Liniment applied to every part of the hoof, every third or fourth day. The more inveterate the case, the more frequent should be the application; and in cases of long standing, should be continued for a sufficient length of time for the old or diseased hoof to become softened, and the growth of the new fully developed.

The Liniment should be applied to every part of the hoof, and rubbed gently into the hair around the upper part of the hoof. It can be best applied with a small brush. While this Liniment is

The Only Decidedly Reliable Remedy Known

For all Affections of the Horse's Hoof, it is equally efficacious in the removal of

Splints, Curbs, Bog Spavins,

and in all cases of Bruise or Strain in the Joints or Tendons, and enlargements of any and every description, and given internally, will promptly relieve and remove any and every character of

COUGH, ENLARGEMENT OF THE GLANDS, AFFECTIONS OF THE KIDNEYS, &c.

And in our prevailing Horse Distempers, given in doses of a table spoonful, two or three times a day; it is, infallibly,

THE REMEDY!

A Cough which cannot be removed by this Liniment, may be considered incurable. For Coughs, Enlargements of the Glands, or Affections of the Kidneys, give a table spoonful night and morning in their food.

For Splints, Curbs, Bog Spavins, or Enlargements of any kind, apply it freely to the part, night and morning, until it blisters, which will be readily known by sweating or weeping of the part, which will soon dry, and form a thick scurf or band; allow this to remain until it falls off or rubs off quite easily, which will be in from six to ten days; and then if the enlargement be not entirely removed, repeat the application as before.

As the Proprietor of this Liniment is quite aware of the many worthless nostrums offered to the public at the present time, he would beg to say, that all articles manufactured by him are strictly WARRANTED to effect that for which they are recommended, when used according to directions. Use this preparation thoroughly, for all and every disease of the Horse for which it is recommended. Criticise it closely. Carefully watch, mark, and note its effects; and honestly judging it on its merits, you will be compelled to endorse the sentiment, that NO STABLE SHOULD BE WITHOUT IT.
