Halifax, Sept. 28, 1880.

KING'S COUNTY MINISTERIAL CONFERENCE.

The next meeting of the above body will be held in the Baptist Meeting House, Wolfville, on Tuesday, the 5th of October, at 10 o'clock, A. M.

Among the papers to be read, is one by Rev. Dr. Tupper on "The Scripture meaning of the terms Pneuma and Psuche," one by Rev. Geo. Armstrong on "The extent of the Holy Spirit's Influence among men," one by Rev. J. C. Blakeney on "Restricted Communion," and one by Rev. J. L. Read on "The Duration of the Pastoral Relation."

Important business concerning Mission work in the county and the working of the Convention Scheme will come up.

A sermon will be preached in the evening by Rev. J. C. Blakeney, and a collection for missions taken up.

It should be borne in mind that this Conference is not composed simply of ministers. By Article II of the Constitution, every Baptist Church in the county is entitled to send two delegates, and it is very desirable that every church should be represented to this extent in addition to the pastor.

D. M. WELTON,
Sec'y. pro. tem.

Deaths.

H. M. S. Northampton, the Admiral's (flagship), from Quebec, and Frigates Blanche and Forrester, from Shippegan, arrived on Saturday afternoon.

The inmates of Mount Hope Asylum for the Insane had an excursion on board the steamer Micmac one day last week, one of them fell overboard, but was soon rescued.

Eighteen inmates of the Asylum, were recently removed, by order of the County Council, from that institution to the Poor's Asylum. They were mostly aged and idiotic and harmless.

The city Banks have large amounts of money on hand, and they will not take new deposits except at 3 per cent., which is a reduction of 2 per cent. from two years ago. It is rumored our Savings' Bank deposits will shortly be reduced to 3 per cent.

THE SUGAR REFINERY is looming up high above all other surrounding buildings—nine stories in height. The cornice is just completed and the roof covered with asphalt.

Dr. McKeen, of Cow Bay, C. B., by the accidental discharge of his gun, received severe injuries in his leg.

A young man named James Sullivan was drowned in Sydney Harbor, C. B., on Saturday night before last.

George Davidson, the first engineer of the first locomotive that ever run in British America, is now engineer of the Ford pit steam pump at Albion Mines.—Spring Hill Trades Journal.

The Wolfville Star reports another launch at Kingsport, from the yard of P. R. Crichton, Esq., a new barque called the Kedron, of 1,260 tons register. It is less than three months since Mr. Crichton launched a similar sized barque and has completed six in the same yard within five years, of about the same size and description.

At Hammond Plains, a little boy of 13 months old, child of Mr. James Kehoe, straggled through the open doorway into an adjoining room. The mother was aroused by the shrieks of the infant, and rushed in to find the poor little creature enveloped in flames. She caught it up and smothered the flames in her dress, receiving serious burns while so doing. But the child was injured fatally, and only lived five hours.

Mr. Donald McKay, the noted and distinguished Nova Scotia shipbuilder that ever lived, died at Hamilton, Mass., on the 20th inst., aged 70 years. He was the builder of the famous large ship the Great Republic.

Mr. A. H. Johnston, of Wolfville, was seriously, if not fatally, injured on Saturday of last week, by a vicious bull which he was leading to water. Mr. Johnston was leading the bull by a chain attached to the nose ring, when he became refractory and refused to proceed, and, on an attempt being made to urge him forward, the vicious brute made a sudden charge and knocked Mr. Johnston down. Mr. Johnston retained his grasp of the chain at first, and the bull gored and trampled him till he became insensible, and then left him. Some bystanders then rescued the unfortunate man from his perilous position, and it was found that one ankle was badly fractured, both thighs had been ripped open, and all the ribs broken from one side of the breast bone. At latest advices there was thought to be a slight chance for his recovery. The bull, which was the same one that gored Capt. Geo. C. Johnston several weeks ago, was shot as soon as firearms could be procured.

The Gammell Will case is causing great excitement at Sydney, C. B. On Saturday, Watson who was Mr. Gammell's servant for many years, stated that from what he knew of the relationship existing between Gammell and his wife, he did not believe Gammell made the second will. Watson is a legatee by the second will for a considerable amount. Owing to the October term of the Supreme Court in Sydney being close at hand, the trial was postponed for one month.

Adams Archibald McKay, son of Rev. H. B. McKay, of River John, and for several terms a student at the Pictou Academy, won a gold medal and a bursary worth \$150 a year, at the recent matriculation examination at McGill College, Montreal.

The S. P. C. A. Journal in reviewing what the society has accomplished during the four years now past, says in that period the society has investigated 4,130 cases of cruelty to various animals; has prosecuted but 140; has totally stopped the tying of the legs of lambs, calves, sheep and poultry; has stopped, or nearly stopped, the brutal ill-usage to which horses were formerly subjected; has caused road-makers to cover up newly-laid stones on our streets; has almost extinguished the cruel practice of cutting off cocks' combs and dogs' ears and tails; has stopped the overstocking of cows when exhibited for sale; has prevented persons from starving their animals; has stopped the practice of putting sheep and lambs among oxen in railway cars; has been instrumental in having better accommodation provided for animals whilst in transit by rail, or whilst waiting at the stations for shipment; has taught persons that, although animals are their property, yet they may not ill use them; has appointed agents in nearly every town and village in Nova Scotia.

In addition to, or in the accomplishment of, this, the Society has circulated a vast quantity of literature in reference to Cruelty to Animals, seeking to obtain for the dumb creatures more humane treatment from their owners.

At Pictou on Saturday afternoon there was a destructive fire, by which the blacksmith's shop and dwelling owned by John McDonald & Son, was burned down. A valuable horse belonging to Mr. Davis, of Mount Thom, was burned in the stables. Many other buildings near at hand were in much danger, but were saved by the efficient firemen and steam fire engine.

"EVERYBODY IS DELIGHTED WITH IT."—Mr. Wm. McD. Wanless, writing from Verna, Ontario, March 25th, 1880, to F. C. Ireland, Agent for Graham's Pain Eradicator at Lechute, P. Q., says: "I wish to inform you that I received the Pain Eradicator all right, and I am happy to say that I soon sold it all, and the people are anxiously awaiting more of it. My wife has been very ill with a cold, but that good medicine soon cured her. Very many thanks to you for being the means of my knowing it. Please send me another gross as soon as possible, for it is in great demand here. There has never been anything like it in this place. Everybody is delighted with it. I have great success in selling it, and I am sure that can sell a hundred dozen in a short time." 2 ins. Sept. 29.

Some serious frauds have been discovered in the Debt Department of the Spanish Treasury. A Madrid banker recently cashed £1,800 worth of coupons upon forged stock, and the person who presented them proved to be a senior clerk in the Debt Department, who a short time since acted as secretary to a commission which the Government appointed to investigate these very frauds.

POPULATION IN THE UNITED KINGDOM.—According to the last quarterly return the population of the United Kingdom in the middle of this year is estimated at 34,505,043—viz. England and Wales, 25,480,161; Scotland, 3,661,292; Ireland, 5,363,590. For the quarter ending June 30 the births were 301,302, and the deaths were 173,653, showing an increase of 127,649, or at the rate of above half a million a year.

WHAT THEY SAY OF IT? A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Electric Oil. Read the following and be convinced:—Thomas Robinson, Farnham Centre, P. Q., writes: "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Electric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes: "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Electric Oil which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it equally as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes: "I have sold some hundreds of bottles of Electric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used.' It has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Percy, writes: "I was persuaded to try Dr. Thomas' Electric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a public benefit."

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Electric Oil. See that the signature of S. N. THOMAS is on the wrapper, and the name of Northrop and Lyman are blown in the bottle, and TAKE NO OTHER. Sold by all medicine dealers. Price, 25 cts. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

Deaths.

At Seal Harbour, on the 19th inst., John Beiswanger, aged 46 years. He made a public profession of his attachment to Christ about six years ago, by baptism and union with the Baptist Church at Seal Harbour, organized by Rev. Anson Bigelow. He has always been known as a laborious faithful good man, and an humble Christian; ready to do, but depending upon the finished work of Christ for forgiveness. He was engaged to take charge of the Sabbath School to have been organized on the very day of his death, so his early and sudden death has left a gap in this little community not easily filled. There are thus left to mourn the loss of a kind husband and loving father, a deeply afflicted widow and four little children, whom he committed in full confidence to the care of our Heavenly Father. Truly his end was peace.

At Wolfville, on the 17th of August, Laura A. Brown, infant child of Ingerson and Sophy Brown, aged 1 year.

At Brooklyn, Wilmet, Sept. 15, Samuel M. Wheelock, aged 30 years.

At Big Baddeck, C. B., on Sept. 17th William Jones, J. P., Judge of Probate, etc., aged 81 years.

At Brighton, Digby, N. S., on the 14th inst., of consumption, Wm. H. Young, aged 74 years.

At Port Lorne, on the 20th of September, Jordan Messenger, aged 80 years. Our brother was baptized in 1829 by Rev. William Elder into the fellowship of Hampton Church, and continued a consistent and useful member throughout life. In his death he rejoiced in the Saviour. May God comfort the sorrowing widow and friends.

At Walton, on the 15th inst., of croupal diphtheria, Harold Hamilton, aged 5 years and 42 days, eldest son; and also on the 17th inst., of diphtheria, Anna Ruth, aged 2 years and 7 months, only daughter of Edwin A. and Minerva H. Bancroft.

At Middle River, near Chester, on the 21st of August, Matilda, relict of the late John Countaway, aged 67 years.

At the residence of James E. Potter, Esq., Clementsport, on the 13th inst., after a brief illness, Susan Chute, aged 81 years, beloved wife of the late deacon Abram Chute, Clements. Her life was exemplary, her death triumphant.

At Lakeville, Cornwallis, on the 2nd inst., Frances, beloved wife of James Rielly, in the 87th year of her age. Her sight was not dim, nor her hearing defective, and she seemed to be in possession of all her mental faculties to the last. Although not united with the followers of Christ, she loved the great Head of the Church, and it ever seemed her aim to do His will. During her last illness she bore great bodily suffering with resignation to the Divine will, and often expressed her desire, "Oh I long to go home." Her aged partner, children, numerous relatives and friends deeply mourn their loss, but they sorrow not as those without hope, feeling that their affliction and prepare them to meet her, where death cannot enter, and sorrow and suffering are no more. On the 5th inst., the Rev. S. Welton addressed a large audience at her funeral from the words "Prepare to meet thy God."

On Tuesday, Edgar G. Smith, jeweller, second son of James A. Smith, teacher, aged 29 years.

At the Poor's Asylum, Sept. 21, Sarah Brack, aged 39 years.

At Hardwood Hill, Pictou, on the 7th inst., Alex. Sutherland, in the 17th year of his age.

At Stellarton, on the 6th inst., Donald McDonald, aged 62 years.

At West River Station, on Monday, the 13th inst., Wm. S. Graham, Postmaster, in the 69th year of his age.

At Annapolis Royal, on the 20th inst., Nathaniel Proctor Mott, in the 81st year of his age.

At Middleton, Sept. 15th, Frederick Harding, M. D., aged 37 years.

At Gate's Mountain, Sept. 17th, Barbara A., daughter of Wm. Gates, aged 3 years.

At Pictou, on the 3rd Sept., Francis A. Kennedy, in the 76th year of his age.

DALHOUSIE COLLEGE AND UNIVERSITY.

THE MUNRO BURSARIES.

The Winter Session of the Dalhousie College will commence on Wednesday 27th October, 1880. The Matriculation Examination will begin on that day, at 10 o'clock a.m., and Classes will be opened on Monday, 1st November. Students may enter as (1) Undergraduates, with the intention of applying for a University Degree in Arts or Science at the end of their course, or (2) as General Students who do not look forward to a degree. For the latter no Matriculation Examination is required.

The Matriculation Examinations are partly oral and partly written; the subjects for entrance into the First year of the Arts course are:—

I. IN CLASSICS.—Latin Grammar, Greek Grammar, one Latin subject, one Greek subject. The following subjects are recommended:—

In Latin.—Caesar, Gallic War, Book I.; or Virgil Aeneid, Book III.

In Greek.—Xenophon, Anabasis, Book I. Instead of the above, equivalents may be offered, if they be not parts of the Undergraduate course, on giving a week's notice to the Secretary of the Senate.

II. IN MATHEMATICS.—Arithmetic; Euclid's Elements of Geometry, Books I. and II; Algebra, Simple Rules and Simple Equations of one unknown quantity, not involving Surds.

III. IN ENGLISH.—Grammar; History of England; Geography; Composition.

The subjects for entrance into the first year of the Science course are:—

I. IN MATHEMATICS.—Same as for the First Year in Arts.

II. IN ENGLISH.—The same as for the first year in Arts.

III. IN LATIN OR GREEK OR FRENCH:—Latin.—The subjects of the Matriculation Examination for the First Year in Arts. German.—Grammar and Translation. French.—Grammar and Translation.

The following Bursaries and Scholarships are offered for competition at the Matriculation Examinations:—

1.—The Munro Bursaries.

GEORGE MUNRO, Esq., the founder of the Munro Professorship of Physics in this University, offers this year seven Bursaries for competition at the Matriculation Examination.

The value of each of these Bursaries is Two Hundred Dollars yearly with Free Class Tickets for the first two years of the Undergraduate Course, taken consecutively; provided that the holder of Bursary gain a Certificate of Merit at the Sessional Examinations of the first year. After these two years, the Bursaries are again to be competed for, and will be held during the third and fourth years of the Course, on Terms similar to those of the preceding years.

These seven Bursaries are allotted for competition to students from the following five districts of Nova Scotia, and from New Brunswick and Prince Edwards Island, one to each, viz.:

1. The Island of Cape Breton.
2. Pictou, Antigonish and Guysboro.
3. Colchester, Cumberland and Hants.
4. Halifax, Lunenburg and King's.
5. Annapolis, Digby, Yarmouth, Shelburne and Queens.
6. New Brunswick.
7. Prince Edward Island.

Candidates must satisfy the Principal, before the week in which the Examinations are held, with respect to the districts to which they belong, and as coming from which they are entitled to compete.

Students who have already Matriculated at any College are disqualified for competition.

The Bursaries will be awarded to those Students from the several districts mentioned, who make the highest total of marks at the Matriculation Examinations; but no Bursary will be awarded unless a Standard of Merit, determined by the Senate, shall be reached by the candidate.

The Examinations for the Munro Bursaries are the same as those for Professors' Scholarships.

Further information may be obtained on application to the Principal.

2.—Professors' Scholarships.

Two Scholarships, entitling to free attendance on all the Classes of the Undergraduate Courses in Arts.

The subjects of Examinations for these Scholarships this year are nearly the same as those for Matriculation in Arts at the University of Halifax, viz.:

Latin for 1880: Caesar, Gallic War, Book I.; Virgil Aeneid, Book III.

Greek for 1880: Xenophon, Anabasis, Book I.

Arithmetic: the ordinary rules of Arithmetic, Vulgar and decimal Fractions, Proportion and Interest.

Algebra: as far as Simple Equations and Surds.

Geometry: First and Second Books of Euclid.

English: Grammar, Analysis, Outline of English and Canadian History, and General Geography.

One Scholarship entitling to free attendance on all the classes of the Undergraduate courses in Science, is offered by the Professors this year for competition at the Matriculation Examination. The subjects are the same as those of the Matriculation Examination in Science.

By direction of the Board of Governors.
