

News, &c.

THE EASTERN QUESTION.

Our information on the Eastern Question is as vague as ever. In Britain, the public appear to have decided that the matter either is settled, or will be settled without more ado, and therefore, little or nothing is now said on the subject. At Paris, (says a letter,) the opinion of many political persons is the same as that expressed by the Austrian and Russian Embassies, namely, that the Emperor of Russia will raise no objection to the modification made by the Porte, in the Vienna note. But this opinion is not that which prevails among the Russians recently arrived at Paris. A few days will prove how far they are correct, but it is certain that many of them receive assurance of the evacuation of the Danubian provinces with derision. They are, no doubt, as ignorant as we all are of the secret intentions of the Czar, but they probably fairly represent the opinion of the great majority of their fellow citizens. They not only do not believe that the Principalities will be speedily evacuated, but they maintain that occupation is an act of conquest, and assert that it will be submitted to by Turkey and by the rest of Europe. This, however, is merely private opinion, and is not the language of Russian diplomacy. At all events a few days will show. If we may believe certain letter-writers of the *London Press*—which we can not—a feeling of annoyance is gaining ground in France that the obstacles to a final settlement should now rest with Turkey. The terms of the Vienna note, they say, are such as, a few weeks ago, the Sultan would have been glad to accept, and mercantile men consider that the trade of the allies of Turkey has been long enough obstructed and injured by her difficulties. Under the circumstances they think it too bad that the Sultan should hazard, by his punctilios, a continuance of the "situation." In these opinions the Emperor of France is said to share. There are two sides, however, to most questions. The Sultan is doubtless aware that so good an opportunity of enforcing his rights against Russia may not occur again soon. —*New York Tribune.*

Mr Gough thus far has been eminently successful in his Temperance campaign in England. In the various towns visited by him, hundreds were unable to obtain admission to the buildings in which he lectured. The high moral and religious tone of his addresses gives great satisfaction to the religious portion of the community.

Terms as liberal as any house in the trade.

Remainder of Fall purchases expected per Packet ships *Eudocia* and *Dundonald*, from Liverpool, and *Lisbon* from London.

Oct. 1.

King Street, opposite St. John Hotel.

JUDSON'S
CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,

FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting
of Blood, Night Sweats, Asthma,
Liver Complaints, and
CONSUMPTION.

DEATH can and has been prevented in thousands of cases by this nature's own remedy.

Judson's Chemical extract of **Cherry and Lungwort**. This medicine unlike most of the patent remedies of the day is the result of the careful study and experiments of a scientific and experienced Physician. The two principal ingredients have long been known and celebrated.

Wild Cherry Bark.—When the strength of this is properly extracted is the best medicine known for curing the worst Coughs and other Pulmonary diseases, it loosens the phlegm and enables the sufferer to expectorate easily, and alone will cure the worst cold or cough, which if neglected always leads to Consumption.

Lungwort.—This is a plant the virtues of which are known to but few, it has been said by the most learned men of all times, that "nature has provided a remedy for each and every disease," and the discoveries that are daily made, go to prove its truth. *Lungwort* is doubtless the remedy designed by nature for Consumption. Its healing properties are truly wonderful, and the rapidity with which it cures the worst cases of Ulcerated Lungs, soothing and subduing all irritation, almost immediately, is a proof of its adaptation to this disease.

These two articles combined with other purely vegetable ingredients, form a medicine that is certain to cure the worst cases of Consumption if taken before the sufferer is entirely prostrated. Do not be discouraged, a trial can do no harm, but will convince the most sceptical of its real worth.

Thousands of Consumptive persons have been deceived repeatedly in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only palliative but a cure for ulcerated lungs. It contains no deleterious Drugs, and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all the diseases of the Lungs and Liver, such as Spitting of blood, Coughs, pain in the side and chest, night-sweats, &c. &c.

Caution.—To protect our own as well as the interest of the Consumptive sufferer, we are obliged to caution all to find the signature of COMSTOCK & BROTHER on the wrapper, without this it is a worthless counterfeit. Remember this.

Azor's Oriental Turkish Wine, the great Remedy for General Debility, Weakness, Loss of Appetite, Dyspepsia, Bilious Diseases, a certain preventive of Fevers, &c. &c. This WINE is the most pleasant and effectual remedy for any of the above complaints, and for many others not mentioned, that has ever been discovered. It is so agreeable to the taste that any one taking it soon prefers it to any Wine, while its action on the stomach and bowels is prompt and efficient, cleansing them thoroughly, and thus by keeping the organ in which the basis of the blood is formed, in a healthy and pure state, necessarily keeps the blood pure and healthful. It is a stimulant without reaction, unlike all alcoholic preparations, which leave the partaker in a state of prostration. THIS WINE sends a gentle and agreeable feeling through every nerve, and its tonic properties are such that it will restore the weak and debilitated in their natural STRENGTH AND VIGOR. It is composed of the Pure Wine of many of the most tonic and rare Plants in the Materia Medica, the recipe for which was obtained from a celebrated Turkish "Hakim,"—Physician—and one bottle is equal to ten of any Sarsaparilla or Blood Purifier ever before known. Then give this Oriental Wine a trial; it will speak for itself better than any recommendation or certificate; and he who tries it once will never be without it. Nothing can equal it as a Diet Drink in hot climates, or on Shipboard, and no Traveller should be without it.

Caution.—Find the name of Comstock & Brother, and the Stamp of the Turkish Flag, on the label and cork of each bottle. WITHOUT this it cannot be genuine.

All orders should be addressed to COMSTOCK & BROTHER, No. 2, St. Peter's Place, New York.

Comstock's Vermifuge.—This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both Adults and Children. It cannot harm the most delicate infant or strongest adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cts. per bottle, puts it within reach of all, and all parents who are without it are wantonly exposing the lives of their children to those fell destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the Wrapper of each Bottle.

Caution.—All of the above named are sold only by Comstock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, one door from Barclay Street, and one block from Broadway, N. York, to whom all orders must be directed.

Also sold by J. F. Secord, S. L. Tilley, G. F. Everitt, T. M. Reed, and G. C. Garrison, St. John; and by one Agent in every town.
