Dispatch from Dantzic confirms the officers of the Boat, Lord Geneste, Dr. Easton, Mr. Sutherland and all of crew except 6 are prisoners. Internal Machine exploded under English Steamers Merlin and Fire Fly off Cronstadt 9th, damaged, but not seriously.

DIPLOMACY.—Prince Gortschakoff is appointed Resident Russian Minister at Vienna, M. Tioff, to Wurtemberg, and M. Fonton to Hanover. Russian influence is very active even in the smallest German Courts.

Journal of St. Petersburg publishes semi-official discussion on Count Walewski's French Circular of May 29d, Walewski's having been itself a reply to the Russian Circular of April 28th.

The Journal semi-officially says peace is possible if France and England will, inasmuch as the 4th point is morally, though not formally settled, and other points, namely, Navigation of Danube and evacuation of Principalities, leaving only the Vienna 3d point to be arranged.

Camp healthy, excepting Balaklava, where cholera prevails.

Sardinians are suffering, and General Mornon the younger, is dead.

Hali Pasha remains in office.

National Monument is to be erected to English at Scutari.

BRITAIN.—The Herman brought intelligence of presentation to Parliament of Roebucks Committee. Report merely admits that sufferings of army have been aggravated by incompetency at home. Since then there has been excitement from Roebuck, whose report was somewhat overruled by some other members of Committee having given notice of a vote of censure on Government so worded as to embrace the grievance of all sections of the opposition, namely, "That Parliament, deeply lamenting the sufferings of the army during the winter campaign in the Crimea, and coinciding with the report of the Sebastopol Committee, that the conduct of the administration was the chief cause of the calamities, thereby visits with its severest reprehension every member of the Cabinet which led to such disastrous results."

Debate on administration reform, after repeated adjournments, has ended in an unanimous passing of Bulwer Lytton's resolution, "That House of Commons recommends to earliest attention of Ministers the necessity of a careful revision of the various official establishments, with a view to simplify and facilitate the transaction of public business, and by instituting judicious tests of merit, as well as by removing obstructions to its fair promotion and legitimate rewards, to secure to the service of the State the largest available proportion of the energy and intelligence for which the people of the country are distinguished."

Sir John Paul, William Strachan, and Robt. M. Bates, partners of banking house of Strachan, Paul & Co., London, are arrested on charge of disposing of securities entrusted to their care.

Mr. Buchanan, American Minister, received the degree of Doctor of Canon Law from University of Oxford, as did Chief Justice Robinson of Canada, and Sir Chas. Lyell, Alfred Tennyson, De-Lacy Evans, Monckton, Miles, &c.

Admiralty have awarded sixteen thousand pounds to the salvors of ship James Chester.

FRANCE.—Senate and Legislature are convoked for July 2nd, to negotiate a new loan of a hundred or a hundred and fifty million dollars.

Napoleon had been ill two days, but recovered.

French funds fell two per cent. on announcement of his illness.

Countess DeLavalette died in Paris on the 18th.

Nineteen hussars were court-martialed at Rouen lately for mutiny, and two more sentenced to be shot.

SPAIN.—Disturbances at Santiago have been suppressed.

We have no reliable statement respecting the progress of Carlist insurrection.

Russia is suspected as the instigator.

Mr. Dodge had his first interview with Minister of Foreign Affairs on the 13th and friendly remarks exchanged.

Lord Howden left Madrid 21st.

HOLLAND.—Extra estimates are voted for the re-organization of the Navy.

SWITZERLAND.—Opening of Federal Assembly is fixed for July 2nd.

ITALY.—Marquis of Azeglio is sent on special mission from Sardinia to London.

GERMANY.—An Austrian despatch dated 12th, proposes to Prussia that Prussia and Austria should come to an understanding as to a common course of conduct to be adopted by the two Powers in their communications in the Diet of Frankfurt.

DENMARK.—Danish Diet is dissolved. Decree forbids enlistments for foreign service under penalty of 8 years imprisonment.

AUSTRIA.—The Austrian army is being disbanded; reduction is great and rapid.

LATEST NEWS.—London, 11.50 A. M.—*Mar-selles*, Friday night.—The English steamer "Astrolague" has arrived, bringing news from Constantinople to the 15th June. There has been a slight engagement at Eupatoria since 12th June. The Russians attacked unsuccessfully the batteries of the besiegers. The general loss in the taking of the Mamelou and the Quarries is 4,000 men.

MARKETS.—Wheat is declining at Marseilles.

LIVERPOOL COTTON.—Demand for cotton throughout the week on very limited scale. The trade and exporters bought only for immediate wants. Prices have declined 3-16 to 1/2 on mid-ling, and fully 1/2 on lower qualities. Many transactions show an actual decline of 1/2 from the highest point of two weeks ago.

LIVERPOOL BREADSTUFFS.—Some circular says a continuance of fine weather has kept the Corn market very quiet, without, however, producing any further noticeable decline, except in Indian Corn, which is 18d. lower. Quotations—White Wheat, 11s. 9d. a 12s. 4d.; Red, 10s. a 11s. 6d.; Western Canal Flour, 40s. a 41s.; Philadelphia and Baltimore, 41s. a 43s.; Ohio, 44s. a 44s. 6d.; Canada, 41s. a 42s.; Sour, 40s. a 41s. White Corn 41s. a 41s. 6d.; mixed 49s. 6d.; Yellow 49s. 6d. a 50s.

LIVERPOOL PRODUCE.—Ashes unchanged. Sugar unchanged, dull. Coffee unchanged. Tea dull; few buyers of Congou at 84d. to 9d. Rice active, but no sales Carolina reported.

LONDON.—Iron is in good demand, both Welsh and Staffordshire; rails 27 5s. to 27 10s.; bars

27 to 27 5s., and difficult to buy for prompt delivery. Scotch Pig 75s. Copper steady.

MONEY.—Money abundant at slightly lower rates—export of gold limited, but new French loan will probably take large amount from England. Reduction of Bank rate has had little effect. Bullion increased £296,000. Consols, 90 1/2 to 91 for accounts 90 1/2 money.

FREIGHTS quiet. Little alteration.

From late English Papers.

THE NIGHT ATTACK ON THE 22ND.—The following is Prince Gortschakoff's account of the important attack on the 22nd:—

"Sebastopol, May 23.—On the night of the 21st we opened a trench as a counter approach, opposite to the cemetery in front of the Central and Quarantine Bastions, and connected it with the former in order to operate against the right flank of the enemy's works which threaten this bastion. The hardness of the ground prevented our digging the trench deep enough. On the evening of the 22nd, when our men were beginning to renew their labours of counter-approach, the enemy attacked us with seventeen battalions, exclusive of his reserves. A most obstinate combat ensued, that lasted all night, and the bayonet was often the only arm used. Our soldiers—twelve battalions strong—fought heroically, and the affair ended with the retreat of the enemy, who suffered enormous loss. Our own loss, unfortunately, is also very considerable, for 2,500 men have been killed or disabled. The gallant Major-General Adlerberg, who commanded the second brigade of the Ninth Division, is among the slain. The miscarriage of the attack has raised the spirits of the garrison. It shows the enemy how dangerous he will find the storming of Sebastopol's fortifications, since his greatest efforts have not succeeded in taking a half-made trench. During the same night (the 22nd) six ships of the line and twenty steamers, with about 20,000 troops on board, left the Bay of Kamiesch. On the 23rd this squadron was sighted from the heights of Yalta."

It will be remembered that General Pellissier describes a severe conflict which took place on the following night, when our Allies secured possession of the works; but Prince Gortschakoff's report of this affair has not been published.

THE INTERNAL CONDITION OF SEBASTOPOL.—A letter from a Russian in the besieged city, published in an Austrian paper, gives an interesting and probably accurate view of the state of affairs in Sebastopol. The letter is dated May 13th:—"In spite of all the efforts which the enemy have made, our bulwarks stand as fast as ever. Long before the bombardment began, the journals from the West informed us that our walls and forts were speedily to be put to a new proof. This made us redouble our precautions, and we bore firmly the truly murderous fire which threatened all with destruction. Nevertheless, thousands were devoted to death, and it made one shudder to see the Elburus (steamboat) pass every two hours during the bombardment, from the south to the north, with so many wounded that she could scarcely carry them."

While standing in bastion No. 4—the bastion which suffered most of all—I forgot the danger to which I was exposed in admiration of the cool and stoical conduct of our sailors. They fell and expired without a cry, though racked with the most fearful agonies. The southern side of our town has suffered most severely, and is hardly to be recognized; 500 houses have been totally destroyed, and grass is growing on their ruins. The beautiful theatre no longer exists. Though the upper districts of the town are not so much damaged, yet there is not a single house to be seen which does not bear traces of the bombardment.

The streets are everywhere ploughed up by shot, and the pavement is totally destroyed; while at every corner stands whole pyramids of the enemy's cannon balls and exploded shells, which were daily collected before the opening of the fire. In many streets five or six such pyramids are to be seen, each of them from eight to ten feet high. Nevertheless, business is continued, and booths are open for the sale of goods.—Prices however are enormously raised, and sugar costs one silver rouble (2s.) per pound. The supply of meat is more than abundant, but bread is exceedingly scarce. The streets are filled with people, and crowds of children run to and fro assisting at the construction of barricades and pelting each other with balls of clay. Our life in Sebastopol is agreeable to us, for use is a second nature."

THE HARVEST BEGUN.—The St. Louis Republic says "the harvesting of early wheat has commenced in Randolph county, Illinois, and it promises a most abundant yield. In a few days we shall have new flour from new wheat. The later wheat, in the same section, looks remarkable well."

CALIFORNIA.—Dates from San Francisco to the 1st instant, have been received at New York, by the steam ship Star of the West from San Juan.

The mining news from California is of the most encouraging kind, and it is thought that at no previous time in the history of the State has the yield of gold been so great as at present.

The entire block of buildings bounded by Davis, Front, Commercial and Sacramento streets, San Francisco, was destroyed by fire. Loss estimated at \$75,000.

40,328 ounces of gold were deposited in the branch of the Mint at San Francisco, during eight days, from the 8th of May.

Trade at San Francisco was dull, but the markets had undergone no change.

CITY AND OTHER ITEMS.

FIRE.—A serious fire occurred in Church Street about one o'clock on Monday morning. Soon after the alarm was given the flames burst out with great fury, and at one time it seemed that the whole street would be destroyed. But the fire companies were quickly at work, and exerting themselves indefatigably, succeeded in checking the progress of the fire. The houses fronting on the streets and several workshops to the rear were wholly or partially destroyed.

The engine companies on this as on every other occasion when their services are required, proved their zeal and devotion in the public service and established fresh claims to the gratitude of their fellow citizens.—Freeman.

THE Masonic celebration at St. Andrews last week is represented as being a grand affair. Besides those that went from this City, there were large numbers present from St. Stephens, Eastport and other places, which swelled the number of visitors present to nearly 1000. Between 3 and 400 members of the Order took part in the Procession. The Hon. A. Keith, Provincial Grand Master was present. The day passed off pleasantly, and will be long remembered by those who had the privilege of attending the celebration.—News.

The semi-annual examination of the Grammar school of this City was made on Friday last by the Hon. Judge Parker and the Rev. Wm. Donald, A. M. The result was, as usual, highly satisfactory, and the examiners expressed themselves much pleased with the progress of the pupils and the efficiency of the school.—C. Wil-ness.

We understand that the Rev. Robert Cooney, A. M., who has for several years laboured in different sections of this Province as a Wesleyan Missionary, has been appointed by the British Conference to a station in Canada, and will take his departure for his new field of labour in a few days. Mr. Cooney has always, we believe, been held in the highest esteem by his Metho-

dist brethren, and his varied talents and gentlemanly deportment made him deservedly popular wherever he has been stationed; his removal from among us, therefore, will be greatly regretted, not only by the religious body to which he belongs, but by the community generally. We need hardly say that we sincerely join in the general regret of our loss.—Courier.

ANOTHER ST. JOHN CLIFFER.—The ship *Silistria*, Capt. Anthony, owned by George Thomas, Esq., of this City, recently made the passage from Newport, Wales, to Valparaiso—about 9000 miles—in sixty-nine days—said to be the shortest ever made by a sailing vessel. She had a cargo of coals, and was drawing 21 feet of water. The *Silistria* was built at Carleton last year by Messrs. I. J. & W. G. Olive, and her performance is highly creditable to them.

INQUEST.—An Inquest was held on the 23d instant, before the Coroner, on view of the body of Alexander Brannen, Verdict, "Found Drowned." Also on the 25th, an Inquest was held on view of the body of A. G. L. Lyon, of Indianapolis. Verdict, "Found Drowned." And on the same day, an Inquest was held on view of the body of John Logan, Verdict, "Found Drowned."—Courier.

FROM NEWFOUNDLAND.—The steamer *Merlin* arrived at Halifax last Thursday in 3 1/2 days from Newfoundland.

The fisheries are uncommonly successful, and the crops are looking well.

FATAL OUTRAGE.—On Saturday last, the Constable of Placentia arrived here with a prisoner, a man named Creman, an American fisherman, charged with the murder of William T. Barnell, on board the American fishing craft *Minnie Boyd*, of Massachusetts. It appears that while they were fishing on the Grand Bank, an altercation occurred, and the prisoner stabbed his comrade, Blundell, with a jack-knife; and he expired in fifty minutes afterwards. The Captain immediately bore up for Placentia, and delivered the prisoner to the Magistrate of that place (Mr. Bladshaw) who, after holding an inquest on the body of the deceased, sent the prisoner on here, to undergo his trial for the crime. He is now lodged in the gaol at Signal Hall.—St. John's N. F. Patriot.

FIRE.—Toronto June 29.—Four first class dwelling houses on Church street, in this city, were destroyed by fire this morning, and four others were badly injured. The loss is estimated at \$60,000.

BALTIMORE, June 28.—Earthquake.—A great shock of an earthquake was experienced in this city about 1 o'clock this morning. It aroused half the inhabitants of this city, and many ran into the streets. In the eastern section some windows were broken. The shock was also experienced in the country for a distance of seven miles from the city. It was succeeded by a rumbling noise. It lasted about ten seconds, and furniture sensibly vibrated. Many citizens who were aroused, were afraid to go to bed again.—The precise time of the occurrence was 12.18.

A large elm tree which began to show symptoms of decay was chopped down last Thursday, on the farm of Mr. Cozzens, in the southern part of Campbell county, Ky., when the skeleton of a woman, with a little dried shrivelled flesh adhering to the bones, was found in a cleft of the tree, about twenty feet from the ground.

THE HARVEST BEGUN.—The St. Louis Republic says "the harvesting of early wheat has commenced in Randolph county, Illinois, and it promises a most abundant yield. In a few days we shall have new flour from new wheat. The later wheat, in the same section, looks remarkable well."

LIVER COMPLAINT.—This dangerous and often fatal disease had long baffled the skill of the most eminent physicians, when the discovery of Dr. McLane's Liver Pills solved the difficulty, and presented to the world the *Great Specific* for that complicated malady, which has attained such widely spread celebrity for its certainty of cure. This successful remedy was the result of many years' study, in which the symptoms were narrowly observed, and are thus described by the Doctor himself:—

"Symptoms of a Diseased Liver.—Pain in the right side, and sometimes in the left, under the edge of the ribs; the patient being rarely able to lie on the left, pain sometimes under the shoulder-blade, frequently extending to the top of the shoulder—often mistaken for rheumatism in the arm; sickness of stomach, and loss of appetite; bowels mostly costive, but sometimes alternate with lax; dull, heavy sensation in the back part of the head; loss of memory, with uneasiness of having neglected something; sometimes dry cough; weariness and debility; nervous irritability; feet cold or burning, and prickly sensation of skin; low spirits, lassitude, with disinclination to exercise, although satisfied it would be beneficial. In fact, patient distrusts every remedy."

Have you any, or all of these symptoms? If so, you will find a certain remedy in Dr. McLane's Pills.

Purchasers will please be careful to ask for Dr. McLane's Celebrated Liver Pills, and take none else.—There are other Pills, purporting to be Liver Pills, now before the public. Dr. McLane's Liver Pills, also his Celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States and Canada.
