

**CHOLERA.**  
A certain cure for this disease may be found  
in the use of Perry Davis' Vegetable  
**PAIN KILLER.**

Dear Sir.—I felt it a duty I owe to the public, to make known the value of Davis' Pain Killer, and my experience in using it for some of the complaints for which it is highly recommended. In April, 1881, on your recommendation, I purchased a one dollar

of you for pains with which I have long been afflicted. I have been afflicted with Cholera, with the most grievous and beneficial effect. On my return trip to this city, the Cholera made its appearance in the city, and I was one of the first to be afflicted. I was called on by the Police, having no other remedy, and to my surprise and gratification found that the medicine was the same as I had called on you and got four large bottles, and stated my confidence in it as an infallible Cholera remedy. I used it, and it cured me. The Cholera remedy on my boat. I made use of the bottles on my trip to New Orleans and back, and on my return trip to this city. I recommended, and met with the most astonishing success when I returned from you six more one dollar bottles, and used them on my return trip to New Orleans and back, and on my previous trip up, I had no more. **Seventy cases of Cholera** on board, were cured by the use of your medicine. I have the most astonishing results. In all cases where I used in time it gave relief in a very short time; it was the only medicine that I used in the first stages of Cholera, when taken in time, it is my opinion an infallible remedy, and after my return to New Orleans and back, and using it for Cholera for other complaints for which it is recommended, I have never been disappointed, and I can recommend it without a good supply—believing it to be a most

I must broadly unite with Capt. Stewin in commending "J. J. Davis' Fast Killer" to the public having myself been severely attacked with the Cholera, and found relief in a few hours by using the Killer, and have administered it to more than a persons attacked with the Cholera, and when time, a cure was effected in a few hours, and in pleasure in recommending it to the public as an valuable medicine, that no individual should be without a single hour.

constant exposure in an infected atmosphere, my son was daily predisposed to dysentery, attacks, accompanied with pain, for which the Pain Killer was a ready, one trifling cure. —My brother-in-law in an hour, or at most, six days —My brother-in-law in the military have used it with marked success in various diseases. I have heard many cases of the contrary, of Dysentery being cured by its use. For the both, it would stop the mouth-ache.

Gratitude, and a desire for its general use, drawn from me this unsolicited testimonial in favor.

DT. TAYLOR, Jr. Minister of the Gospel

**THE GREATEST MEDICAL DISCOVERY**  
OF THE AGE—**DR. BENEDICT'S**  
**WORM CURE**—Has discovered in one of our common-  
est weeds, a remedy that cures ALL Kinds of  
Worms, and is the only medicine known to cure the  
Pimple. He has tried it over eleven hundred  
times, and never failed except in two cases (both  
human). He has now in his possession over two  
hundred bottles of his virtue, all within twenty  
miles of Boston.

Two bottles are warranted to cure a nursing  
mother.

One to three bottles will cure the worst kind of  
piles on the face.

Two to three bottles will clear the system of bil-  
ious humors.

Two bottles are warranted to cure the worm  
in the mouth and stomach.

Three to five bottles are warranted to cure the  
worm in the bowels.

One to two bottles are warranted to cure all the  
cures.

Two bottles are warranted to cure running  
sores and blotches among the hair.

Four to six bottles are warranted to cure  
cure and running ulcers.

Two bottles will cure the early eruption of the  
skin.

Two to three bottles warranted to cure the worst  
of ringworms.

Two to three bottles are warranted to cure the  
dreadful cure of rheumatism.

Three to four bottles are warranted to cure the  
rheum.

Two to eight bottles will cure the worst case of  
dysuria.

A benefit is always experienced from the first bit and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this variety of Boston. I know the effect of it in every case. None of water will extinguish fire, as you will this cure humor. I never saw a bottle of it that so'd another; after a trial it always speaks for itself. There are two things about this humor that seems so surprising: first, that it grows in our veins, in some places quite plentiful, and yet its use has never been known until I discovered it in 18 second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state a
