The Law of Love.

See 2 Kings iv. iv. 1-6. Pour forth the eil, pour boldly forth, It will not fail until Thou failest vessels to provide, Which it may largely fill.

But then, when such are found no more, Though flowing broad and free Till then, and nourished from on high, It s traightway stanched will be.

Dig channels for the stream of leve, Where they may broadly run : And love has overflowing streams To all them every one.

But if at any time thou cease Such channels to provide, The very founts of love for thee Will soon be parched and dried.

For we must share, if we would keep, That good thing from above; Ceasing to give, we cease to have-Such is the law of love.

The Power of the Bible.

" Well, James, this is a fine way of spending Sunday !" said Henry H-, as he came ing on a sofa, reading a novel.

"I don't know that its any of your business that appeared wonderful. They seemed ex- Province. how I choose to spend the Sabbath," said the actly to his case; to express his experience; latter, somewhat testily, evidently annoyed to relieve his spirit; to be the foundation of by the reproof. " I don't own a Bible, and never did," said James, in a tone partly expressive of regret, and partly apologetic as though the fact was

an excuse for his neglect. "Would you read the Bible, if you had one?" inquired Henry. "Well-yes," said the other, "I think I

" If I will give you one, will you promise me to read it regularly every day, and in

sourse ?" After a moment's hesitation and thoughful-

ness, the promise was given, "Yes-I will." For some days, Henry purposely delayed getting the Bible, hoping that James would inquire for it, which he did; and this gave the former the opportunity of again asking " if he was in earnest, and would faithfully keep his promise to read it;" to which the latter replied, "that most certainly he would." When he was thus repeatedly pledged, Henry handed him one morning, a beautiful copy of the Bible; and James, as he had promised, began reading it daily.

Here we must go back a moment, to say that James had grown up from childhood under the influences that were any thing but religious. His father died when he was an infant. His mother was a woman of strong intellect and good education, but, from unfortunate early associations, inclined to be sceptical. She was gay, pleasure-loving and fashionable; a votary of the world; thoughtless as to religious things, or thoughtful only to speak of them slightingly, and at times even sneeringly. And the consequence was. that James, though a strong-minded, thinking man, and a thoroughly educated lawyer, had rarely attended the sanctuary, and was exceedingly ignorant of the Scriptures.

Faithful to his promise, however, wherehe Bible was given him he began reading it. His friend H-watched his progress, from day to day, with deep interest; and now and then asked what he thought of his reading. Some of his replies to these queries may give us a glance at his impressions, which are the more interesting because fresh from the first perusal of the word of God.

[From the Editor of the Leal Estate Advertiser] Boston, 27 School-street, March 20, 1855. Dear Sir,-Having become prematurely quite gray, I was induced, some six weeks since, to m ke a trial of your Restorative. I had used less than two bottles, but the gray hairs have all disappeared; and although my hair has not fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which be fore was harsh and dry; and it has ceased to come out as formerly. Respectfully yours,

Professor Wood. D. C. M. RUPP. CARLYLE, Illinois, June 19, 1855. Ih ave used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was be coming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and I have no doubt, permanently so.

THE GREATEST MEDICAL DISCOVERY OE THE AGE.—DR. KENNEDY, of Roz bury, Mass., has discovered in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases and never failed except in two cases (both thunderhumour). He has now in his possesion over two hundred certificates of its virtue, all within twenty miles.

Two bottles are warranted to cure a nursing sore One to three bottles will cure the worst kind of pim

ples on the face. Two to three bottles will clear the system of biles. Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst One to two bottles are warranted to cure all humor

Two bottles are warranted to cure running of the ears and blotches among the hair. Four to six bottles are warranted to cure corrupt

and running ulcers. One bottle will cure scaly eruption of the skin. Twot o three bottles warranted to cure the worst case

Two to three bottles are warranted to cure the most desperate cree of rheumatism. Three to our bottles are warranted to cure the salt

Five to eight bottles will cure the worst case of scro

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quan tity is taken. Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for

itself. There are two things about this herb that appears to me surprising ; first, that it grows in our pas tures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846second, that it should cure all kinds of humor. In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in

April, 1853, I peddled it, and sold about six bottles per day: in April, 1854, I sold over one thousand botating thirty horses; together with a good well of Same of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found Several cases of epileptic fits-a disease which was always considered incurable, .. ave been cured by a few bottles. O, what a mercy if it will prove effectual in

a.l cases of that awful mulady-there are but few who ave seen more of it than I have. I know of several cases of Dropsy, all of them aged people, cured by it For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever

Sr. Louis, Mo. Dear Sir .- I felt it a duty I owe to the public, to make known the value of Davis' Pain Killer, and my experience in using it for some of the complaints for which it is highly recommended. In April last, on your recommendation, I purchased a one dollar bottle of you for pains with which I have long been afflicted, and made use of it on my trip down to New Orleans, with the most gratifying and beneficial effects. On my return trip to this city, the Cholera made its appearance among some of my passengers. I made use of the Pain Killer, having no other remedy on board, and to my surprise and grassication found it gave immediate relief. On my arrival in St. Louis, I called on you and got four large bottles, and stated to you my confidence in it as an infallible Cholera remedy, and remarking to you that I wanted no other Choiera remedy on my boat. I made use of the four bottles on my trip to New Orleans and back, for Cholera and some other complaints for which it is recommended, and met with the most astonishing successwhen I ordered from you six more one dollar bottles. Since then I have made two more trips to New Orleans and back, and on my previous trip up, I had more than Seventy cases of Cholera on board, when the PAIN KILLER was imm diately used with the most astonishing results. In all cases where it was used in time it gave relief in a very short time; and I can with confidence say to the public, that in allo the first stages of Cholera, when taken in time, it is in my opinion an intallible remedy; and after a fair New Orieans and back, and using it for Cholera and for other complaints for which it is recommended, no ensideration whatever would induce me to leave port without a good supply-believing it to be a medicine that no officer of a boat or any family would be with-

out a single day after using one bottle.

ROUSE'S POINT. Clinton Co. N. Y. Perry Davis-Sir :- The benefits I have received rom the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it. ence has convinced me that for Headache. Indiges tion. Pain in the Stomach, or any other part of the system, Severe Chills, Weakness, Common Colds, Hoarseness, HOLERA. CHOLERA MORBUS, Diarrhoea, Dysensary, Tooth Ache, &c. &c. there is nothing better than the Pain Killer. I have this hour received from a severe attack of the Sick Headache, sing up two teaspoonfuls, taken at thirty minutes interval, in a wine glass full of warm water. I am confident that through the blessing of God, it saved me from the cholera during the summer of 1849. Travelling amid heat, dust, toil, change of diet and constant ezposure to an infected atmosphere, my sys tem was daily predisposed to dysentary, attacks, accompanied with pain' for which the Pain Killer was a cereign remedy : one teaspoonful curing the worst case in an hour, or at most, half a day !- My brothers arious diseases I have heard many cases the counover, of Dysentary being cured by its use. Put in the teeth, it would stop the tooth-ache. Gratitude, and a desire for its general use, has
