Rumors of War.

INTERFESTERS ARRESTED.—On Thursday two Germans, named Louis Athrens and Mr. Paule, were arrested in New York on suspicion of being counterfeiters, and on searching them the police found a quantity of counterfeit bills on the Cambridge City Bank of Massachusetts. Upon searching their residence the officers discovered plates of chemicals, and all the apparatus employed by counterfeiters. Among other plates was one dollar on the Mechanics Banking Association, which was executed with great skill, and was an almost perfect imitation of the original.

A BROOD DUEL.—Messrs. Hart and Taylor, Editors of the Charleston Mercury, published an article reflecting upon the character of a relative of Mr. McGrath, wherein McGrath challenged both the Editors to a duel. Mr. Tabor accepted, and was shot dead. Afterward Mr. Hart appeared and offered fight, when Mr. McGrath, having killed one of the Editors, said he "had no further demands to make." A kind, considerate gentleman, surely!

TROPHY OF THE LIQUOR TRAFFIC.—Our blood has been chilled when we have contemplated the car of Juggernaut crushing beneath its ponderous wheels the prostrate bodies of benighted Hindoo worshippers. But there is a demon in Christendom more cruel than Juggernaut, under whose ever rolling ear-wheels are crushed daily and hourly, the bodies, nay, we may add the souls too of his fellow countrymen. That demon is King Alcohol,—his car is the liquor traffic.

On the 14th day of September, Mr. N. B. Dawson, a gentleman of talents and education, formerly an Editor at Zanesville, Ohio, cut his throat with a pocket knife. He was at the time one of the Editors of the Davenport Gazette, Iowa. The cause of this self-murder was INTEMPERANCE.—*Rel. Tel.*

A NATURAL CONSEQUENCE.—The Kentucky American says, "The whisky crop will be greater this season than it has been for years in Kentucky." The other great Kentucky stable—hemp—will it is thought, be proportionately in demand.

ANOTHER "VIGILANT" ARRESTED.—James Dowse, one of the San Francisco Vigilance Committee, was arrested in New York on Monday, on complaint of Capt. P. Duran, an exiled Californian, who charges the defendant with being instrumental in driving him from his home. Dowse was held to bail in \$15,000.

The American Board has resolved to build a ship to be called the "Morning Star." It is to have a copper bottom, two masts, is of one hundred and fifty tons burthen, and is to be employed in carrying missionaries, provisions, &c., to the Meroe Islands. These Islands are in the Pacific Ocean, west of the Sandwich Islands, and cover a space almost as large as the United States. The inhabitants are nearly all heathen. The Prudential Committee at Boston has issued an appeal to the children of the churches that operate through the American Board, to contribute the \$12,000 necessary to build the "Morning Star."—[Ex. paper.]

GROSS CLERICAL IRREGULARITIES AT BOSTON.—Under this head one of the Episcopal papers gives an account of the scandalous misconduct of Boston clergymen, the Rev. Dr. Vinton. It seems that this heretofore much respected divine, who has charge of the largest Episcopal parish in Boston, has been guilty of joining with Dissenters, i. e., Baptists, Methodists, Congregationalists and others, in preaching on the Common on the Sabbath, without his clerical robes, and using extemporeaneous prayer instead of the Episcopal Prayer-Book! An awful crime surely.

EUROPE.

Latest from Europe.

(By Telegraph to News Room.)

Steamship Persia at New York.

New York, Oct. 14.

The Persia from Liverpool, 4th ult., arrived today.

Markets generally quiet, but firm at present quotations.

Consols fluctuating, but closed on the 3rd at 92½.

Western Flour quoted at 25s. to 31s.; Philadelphia and Baltimore, 31s. to 32s.; Yelllow Indian Corn, 33s.

In markets generally there is no quotable change from Niagara's advices.

The threatened descent on Naples and renewed controversy about Isle of Serpents keeps diplomats busy, and if not interferred with they may get up another war.

Other news unimportant.

From late English Papers.

MONUMENT TO THE DUKE OF WELLINGTON.—Sir Benjamin Hall, Bart. M. P., as Chief Commissioner of Public Works, has given notice that it is the intention of her Majesty's Government to erect a monument in St. Paul's Cathedral to the memory of the late Duke of Wellington, and has invited designs from artists of all countries.

LORD DE REDCLIFFE'S RECALL RECOMMENDED BY THE "TIMES."—The Times hopes that a new British Minister will be appointed at Constantinople in place of Lord de Redcliffe. He regards the present Turkish Government with a dislike which he does not even care to conceal, and the French Envoy's influence is paramount.

During her Majesty's recent visit to Roslin, an old man was seen shoveling an antiquated piece of ordnance, as if prepared for some celebration. He was asked by a passing gentleman what he was going to do, when he replied, "Oh, I am going to fire this over the head of the Queen when she passes my door." The gentleman was astounded, and had great difficulty in persuading the old fellow from carrying his purpose into effect. It is the practice at this place to fire a gun over the head of the bride when proceeding to be married, which is done by an old man, with a rusty old musket.

The cholera is raging fiercely at St. Vincent. The medical men had rated victims and the inhabitants were left without assistance. The dead bodies were left unburied in the streets. The accounts from Madeira are favorable.

The trade in Circassian girls is carried on as brisk as ever. The French packets from Smyrna to Constantinople are constantly frequented with them. The persons in charge treat them as passengers proceeding to the Turkish capital, and French captains have, it seems, no power to refuse conveying them. On one vessel lately were counted sixty young girls, bound for the Constantinople market. Their ages were from twelve to fifteen.

A BUENO AREAN DUELIST.—In the city of Buenos Ayres, D. Lucio Mancilla, a member of one of the first and wealthiest families, and nephew of the ex-Dictator Ross, challenged Sir Marmon, another "first family" man, to fight a duel. For this crime he has been sentenced to three years' banishment from the province, and at the end of that period will only be allowed to return upon giving bonds of \$100,000 current money, not to renew his challenge. Duelists don't find much favor in Buenos Ayres.

SUICIDE OVER A GAMING TABLE.—A letter from Wiesbaden of the 1st instant, in the Constitutionnel says:

"About two o'clock to-day, when players and lookers-on were ranged round the roulette table of the Kursaal, at this place, the report of fire-arms was suddenly heard, and one of the persons standing at the table was seen to stagger and fall dead on the ground. It was a melancholy spectacle, and rendered still more so by the gloom and obscurity of the place, caused by a violent thunder-storm which was raging at the time. The deceased, who was a man in the prime of life, was evidently belonging to the higher ranks of society. His identity has not yet been ascertained, but he is supposed to be a native of Holland, as he wore a decoration of that country. He had recently arrived, and a few minutes before the fatal act had staked and lost his last five-florin note. Some of the players at the table appeared much affected at the scene, and left, but others resumed their play in another room, and in an hour afterwards a military band struck up, and everything was life and gaiety."

STORY OF A CLUB.—In a large town in the west of Scotland, a few years ago, there existed a drinking club, consisting of upwards of twenty members, all of whom belonged to the middle class of society. This club had a great influence in municipal affairs, and several of its members were elected to fill posts in the Town Council. The drinking was carried on to a fearful extent in the tavern in which the club met. The members were to be found often in the club at all hours of the night and day. Their drinking was often connected with such noisy mirth as to attract the attention of passers-by. The club is broken up. Two of its members were sent to a lunatic asylum; one jumped out of a window and killed himself; one was found dead in the water at night and drowned; one was found dead in a public house; one died of delirium tremens; upwards of ten became bankrupt; four died ere they had lived half their days. One, who was a baillie when connected with the club, is at present keeping a low public-house. Such are a few facts well known to those living in the locality.—[Scotch paper.]

PROTRACTED MEETING POSTPONED.—The Protracted meeting, which was to commence at Campbellton on the 1st inst., is hereby postponed until Saturday the 15th inst., then to commence and continue as may be deemed practicable. Brethren will please attend as before requested.

Campbellton, Oct. 12, 1856. A. TAYLOR.

NOTICE.

The Baptist Chapel recently erected in the lower part of the Parish of Shaftesbury, by Canning, in a small provincial town, and to perform the last mournful rites over them in Paris. Why? Because, said the children, our mother was the only Protestant in the place, and foreseeing the difficulties that might occur respecting her interment, and wishing that no agitation or quarrel should arise over her grave, she requested us to remove her body to Paris, and bury it there in peace, without an obstacle! It is most painful to find that Government agents should not have firmness enough, or to know the law well enough, to prevent the necessity for these precautions. The spirit of Popery can not be reformed, we know; but we expect from you the above better trial.

The contents of three bottles so far restored my health that for the last two years I have had no occasion for medicine. I strongly recommend all Dyspeps to try it.

JOSEPH W. PARKE.—For Sale by S. L. Tilley, King Street.

TO THE OLD AND YOUNG'S MAIN RESTORATIVE.—Read the advertisements of "Old and Young's Main Restorative" in another column. "It will do all that it professes to do," says the editor of the Erie Observer, "or our eyes have deceived us in looking at the heads of some of our acquaintances." No one old or young, who admires flowing locks or wavingcurls, should fear to wear it.

BROWN'S BRONCHIAL TROCHES.—We have found them of great service in allayng Bronchial Irritation, and in subduing Hoarseness produced by Colds, and do our clerical brethren a real favor in calling their attention to them.—"Zion's Herald."

"We commend them to the attention of Public Speakers, Singers, and others who are troubled with the membranes which lie the throats and wind-pipes—in many cases, Brown's Bronchial Troches afford immediate relief." Sold by all Druggists.

POMACEYAN CONSUMPTION.—The great scourge of our northern climate is dismised of half its terrors as we have a remedy so singularly efficacious as Wistar's Balsam of Wild Cherry. It is worthy of the high reputation which it enjoys.

BROWN'S BRONCHIAL TROCHES.—We have found them of great service in allayng Bronchial Irritation, and in subduing Hoarseness produced by Colds, and do our clerical brethren a real favor in calling their attention to them.—"Zion's Herald."

"We commend them to the attention of Public Speakers, Singers, and others who are troubled with the membranes which lie the throats and wind-pipes—in many cases, Brown's Bronchial Troches afford immediate relief." Sold by all Druggists.

DRUGS FOR THE CURE OF DYSPEPSIA.—GORGON, March 14, 1851.

Mr. H. H. Higgin.—Dear Sir: Through me you may confidently recommend the OXYGENATED BARKS as the best, if not the only medicine that will cure Dyspepsia. I suffered more than six years, as only a dys tonic can suffer, tried numerous medicines, and the skill of many physicians, but found no permanent relief, until I received from you the above Bitter.
